How to Inspire Outstanding Ideas TJ Xia, 2017-11-08 Crafting wonderful ideas is the first step on the road toward great achievements but how do you come up with them? Finding concrete methods for creating awesome ideas has been a daunting, long-standing quest until now. TJ Xia has turned his expertise and passion for promoting creativity and innovation into a comprehensive book to help anyone generate beneficial new ideas more easily and efficiently. The book describes a clear set of universal approaches that will broadly stimulate your creativity, directly leading you to discover brilliant new concepts and devise astonishing new solutions. These techniques have been condensed from a decades long study analyzing several thousand real-life cases that involve inconspicuous yet exceptional ideas. Experience has shown that people who use these simple techniques derive substantial benefits almost immediately at work and in their personal lives. In these pages, you'll find over two hundred fascinating examples from the study to assist you in comprehending the basic concepts more effectively. A Grand Checklist containing all of the approaches attached to the end of the book, as a toolbox, shall help any type of brainstorming sessions. These highly productive approaches can be used by people from all walks of life to gain a major boost in your ability to think innovatively no matter who you are or what you want to accomplish.

Melinda Gates Cathleen Small, 2017-07-15 Since 2000, the Bill and Melinda Gates Foundation has provided more than 4.2 billion dollars to help those in need. Sixteen years later, Forbes ranked philanthropist Melinda Gates as the fourth most powerful woman in the world. This inspiring title explores Gates's contributions, the ongoing issues she works to address around the world, and her powerful message that every person's life is of value.

What We Owe Each Other Minouche Shafik, 2022-08-23 From one of the leading policy experts of our time, an urgent rethinking of how we can better support each other to thrive Whether we realize it or not, all of us participate in the social contract every day through mutual obligations among our family, community, place of work, and fellow citizens. Caring for others, paying taxes, and benefiting from public services define the social contract that supports and binds us together as a society. Today, however, our social contract has been broken by changing gender roles, technology, new models of work, aging, and the perils of climate change. Minouche Shafik takes us through stages of life we all experience—raising children, getting educated, falling ill, working, growing old—and shows how a reordering of our societies is possible. Drawing on evidence and examples from around the world, she

shows how every country can provide citizens with the basics to have a decent life and be able to contribute to society. But we owe each other more than this. A more generous and inclusive society would also share more risks collectively and ask everyone to contribute for as long as they can so that everyone can fulfill their potential. What We Owe Each Other identifies the key elements of a better social contract that recognizes our interdependencies, supports and invests more in each other, and expects more of individuals in return. Powerful, hopeful, and thought-provoking, What We Owe Each Other provides practical solutions to current challenges and demonstrates how we can build a better society—together.

The Great Demographic Reversal Charles Goodhart, Manoj Pradhan, 2020-08-08 This original and panoramic book proposes that the underlying forces of demography and globalisation will shortly reverse three multi-decade global trends – it will raise inflation and interest rates, but lead to a pullback in inequality. “Whatever the future holds”, the authors argue, “it will be nothing like the past”. Deflationary headwinds over the last three decades have been primarily due to an enormous surge in the world’s available labour supply, owing to very favourable demographic trends and the entry of China and Eastern Europe into the world’s trading system. This book demonstrates how these demographic trends are on the point of reversing sharply, coinciding with a retreat from globalisation. The result? Ageing can be expected to raise inflation and interest rates, bringing a slew of problems for an over-indebted world economy, but is also anticipated to increase the share of labour, so that inequality falls. Covering many social and political factors, as well as those that are more purely macroeconomic, the authors address topics including ageing, dementia, inequality, populism, retirement and debt finance, among others. This book will be of interest and understandable to anyone with an interest on where the world’s economy may be going.

Open Access to Knowledge in Nigeria Kunle Ola,2018-10-17 This book provides an analysis of the legal and policy dimensions of open access to research, education and public sector information with a focus on Nigeria. Kunle shows how open access has evolved across the world and how such initiatives could be implemented in Nigeria and other countries in the developing world. The author argues for a platform where Nigerians are able to freely connect to the ‘global library’, through the open access dual platforms of self-archiving and open access publishing, thereby providing access to knowledge. The importance of connecting local works to the ‘global library’ to increase visibility and impact of such works is also underscored. This book furthers our understanding of open educational resources as alternative avenues to accessing education and seeks to foster citizenry participation, good governance, accountability, democratic values and spur creativity and innovation through open governance and access to public sector information. Providing a framework for open access in developing countries, *Open Access to Knowledge in Nigeria* is an important read for scholars interested in knowledge production in Africa, development of the knowledge economy and the open access and Access to Knowledge movements.

Deaths of Despair and the Future of Capitalism Anne Case, Angus Deaton, 2021-03-02 A New York Times Bestseller A Wall Street Journal Bestseller A New York Times Notable Book of 2020 A New York Times Book Review Editors' Choice Shortlisted for the Financial Times and McKinsey Business Book of the Year A New Statesman Book to Read From economist Anne Case and Nobel Prize winner Angus Deaton, a groundbreaking account of how the flaws in capitalism are fatal for America's working class Deaths of despair from suicide, drug overdose, and alcoholism are rising dramatically in the United States, claiming hundreds of thousands of American lives. Anne Case and Angus Deaton explain the overwhelming surge in these deaths and shed light on the social and economic forces that are making life harder for the working class. As the college educated become healthier and wealthier, adults without a degree are literally dying from pain and despair. Case and Deaton tie the crisis to the weakening position of labor, the growing power of corporations, and a rapacious health-care sector that redistributes working-class wages into the pockets of the wealthy. This critically important book paints a troubling portrait of the American dream in decline, and provides solutions that can rein in capitalism's excesses and make it work for everyone.

Far-Knowing Melinda Brasher, 2013-12 After the Chaos Mage traps their mentor within a deadly spell, two apprentice mages set off to find and defeat this menace to the kingdom. But how can these inexperienced young women possibly track down and battle the sort of man who destroys villages with summoned wind or fire just for fun? They've learned no aggressive magic and never tested themselves against a real enemy. Kallinesha, still an apprentice after seven years, struggles against her lack of raw magical power, compensating instead with discipline and study. Daughter of the High Commander, driven relentlessly by the duty in her blood, she knows they can defeat the Chaos Mage and safeguard the kingdom. Ista, a commoner and daughter of a city baker, harbors no such delusions. But after only three years of study, her power burns much brighter than Kallinesha's. The task before them terrifies her, but she loves her mentor too much to let her waste away under the Chaos Mage's spell. Not if there's the slimmest chance of saving her. The two have never been able to get along while studying magic. Will they be able to work together now when so much is at stake?

Hollywood Remembrance and American War Andrew Rayment, Paul Nadasdy, 2020-08-31

Hollywood Remembrance and American War addresses the synergy between Hollywood war films and

American forms of war remembrance. Subjecting the notion that war films ought to be considered 'the war memorials of today' to critical scrutiny, the book develops a theoretical understanding of how Hollywood war films, as rhetorical sites of remembering and memory, reflect, replicate and resist American modes of remembrance. The authors first develop the framework for, and elaborate on, the co-evolution of Hollywood war cinema and American war memorialization in the historical, political and ideological terms of remembrance, and the parallel synergic relationship between the aesthetic and industrial status of Hollywood war cinema and the remembering of American war on film. The chapters then move to analysis of Hollywood war films – covering The Great War, World War II, The Korean War, The Vietnam War, The Cold War, and the wars in Afghanistan and Iraq – and critically scrutinize the terms upon which a film could be considered a memorial to the war it represents. Bringing together the fields of film studies and memory studies, this book will be of interest to scholars and students in not just these areas but those in the fields of history, media and cultural studies more broadly, too.

The Meritocracy Trap Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort. Even as the country divides itself at every turn, the meritocratic ideal – that social and economic rewards should follow achievement rather than breeding – reigns supreme. Both Democrats and Republicans insistently repeat meritocratic notions. Meritocracy cuts to the heart of who we are. It sustains the American dream. But what if, both up and down the social ladder, meritocracy is a sham? Today, meritocracy has become exactly what it was conceived to resist: a mechanism for the concentration and dynastic transmission of wealth and privilege across generations. Upward mobility has become a fantasy, and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite. At the same time, meritocracy now ensnares even those who manage to claw their way to the top, requiring rich adults to work with crushing intensity, exploiting their expensive educations in order to extract a return. All this is not the result of deviations or retreats from

meritocracy but rather stems directly from meritocracy's successes. This is the radical argument that Daniel Markovits prosecutes with rare force. Markovits is well placed to expose the sham of meritocracy. Having spent his life at elite universities, he knows from the inside the corrosive system we are trapped within. Markovits also knows that, if we understand that meritocratic inequality produces near-universal harm, we can cure it. When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine, it also illuminates the first steps outward, towards a new world that might once again afford dignity and prosperity to the American people.

See Her Die Melinda Leigh, 2020-09-15 Sheriff Bree Taggart is both hunter and hunted in #1 Amazon Charts and Wall Street Journal bestselling author Melinda Leigh's blood-freezing thriller of murder, rage, and revenge. New sheriff Bree Taggart is called to a shooting in a campground shuttered for the winter. But she arrives to find a perplexing crime. There is no shooter, no victim, and no blood. No one but Bree believes the sole witness, Alyssa, a homeless teenager who insists she saw her friend shot. Bree calls in former deputy Matt Flynn and his K-9 to track the killer and search for Alyssa's friend. They discover the battered corpse of a missing university student under the ice in Grey Lake—but it's not the victim they were looking for. When two more students go missing and additional bodies turn up, Bree must find the link between the victims. She knows only one thing for certain: the murders are fueled by rage. When Alyssa disappears, Bree must race against time to find her before her witness becomes another victim.

Deadly Dram Melinda Mullet, 2018-09-04 Distillery owner Abigail Logan discovers that high spirits are no match for a cold-blooded killer as the Whisky Business Mystery series puts a fatal twist on stiff competition. It's been a year since globe-trotting photojournalist Abi Logan inherited Abbey Glen, a whisky distillery in the heart of the Scottish countryside. To her surprise, the village of Balfour already feels like home, and her new business partner, Grant MacEwan, continues to be too charming to resist. But Abi has a history of relationship disasters, so she struggles to avoid an ill-fated romance with Grant. Steering clear is hard enough on a day-to-day basis, but when the two head off to a whisky industry competition together, Abi panics. Five-star resort, four glorious days of nonstop whisky tasting, and a fatally attractive Scotsman—what could possibly go wrong? The night before the award presentations, with foreign and domestic whisky makers at one another's throats, two judges are found dead under mysterious circumstances. What started with three dream-come-true nominations for Abby Glen's whisky soon turns into a nightmare for Abi. With a killer on the loose, she must call on her investigative skills to stop another murder—before she gets taken out of the running herself. Melinda

The Data Detective Tim Harford, 2022-02-01 From "one of the great (greatest?) contemporary popular writers on economics" (Tyler Cowen) comes a smart, lively, and encouraging rethinking of how to use statistics. Today we think statistics are the enemy, numbers used to mislead and confuse us. That's a mistake, Tim Harford says in *The Data Detective*. We shouldn't be suspicious of statistics—we need to understand what they mean and how they can improve our lives: they are, at heart, human behavior seen through the prism of numbers and are often "the only way of grasping much of what is going on around us." If we can toss aside our fears and learn to approach them clearly—understanding how our own preconceptions lead us astray—statistics can point to ways we can live better and work smarter. As "perhaps the best popular economics writer in the world" (New Statesman), Tim Harford is an expert at taking complicated ideas and untangling them for millions of readers. In *The Data Detective*, he uses new research in science and psychology to set out ten strategies for using statistics to erase our biases and replace them with new ideas that use virtues like patience, curiosity, and good sense to better understand ourselves and the world. As a result, *The Data Detective* is a big-idea book about statistics and human behavior that is fresh, unexpected, and insightful.

The Power of Creative Destruction Philippe Aghion, Céline Antonin, Simon Bunel, 2021-04-20 From one of the world's leading economists and his coauthors, a cutting-edge analysis of what drives economic growth and a blueprint for prosperity under capitalism. Crisis seems to follow crisis. Inequality is rising, growth is stagnant, the environment is suffering, and the COVID-19 pandemic has exposed every crack in the system. We hear more and more calls for radical change, even the overthrow of capitalism. But the answer to our problems is not revolution. The answer is to create a better capitalism by understanding and harnessing the power of creative destruction—innovation that disrupts, but that over the past two hundred years has also lifted societies to previously unimagined prosperity. To explain, Philippe Aghion, Céline Antonin, and Simon Bunel draw on cutting-edge theory and evidence to examine today's most fundamental economic questions, including the roots of growth and inequality, competition and globalization, the determinants of health and happiness, technological revolutions, secular stagnation, middle-income traps, climate change, and how to recover from economic shocks. They show that we owe our modern standard of living to innovations enabled by free-market capitalism. But we also need state intervention with the appropriate checks and balances to simultaneously foster ongoing economic creativity, manage the social disruption that innovation

leaves in its wake, and ensure that yesterday’s superstar innovators don’t pull the ladder up after them to thwart tomorrow’s. A powerful and ambitious reappraisal of the foundations of economic success and a blueprint for change, The Power of Creative Destruction shows that a fair and prosperous future is ultimately ours to make.
