Keeping the Wonder Jenna Copper,Ashley Bible,Abigail Gross,Staci Lamb,2021-06-05 Embarking on your first solo road trip. Receiving a special surprise that arrives out of the blue. Finding a sudden flash of inspiration that sets you on a wondrous new path. When we think about the moments that stand out in our memory, it's clear that our minds hold onto the unusual or unexpected. By tapping into students' innate curiosity, you can design memorable, meaningful learning experiences that captivate their interest and ignite their imaginations. Structured around four key elements that fuel engagement-surprise, curiosity, freedom, and inspiration-Keeping the Wonder offers practical strategies and abundant inspiration for K-12 educators to create lessons that are fun and compelling. Combining enchanting anecdotes, real-world experience, and a wealth of research, the authors share their collective expertise as educators and founders of the innovative Keeping the Wonder workshop. In this dynamic handbook, Jenna, Ashley, Abby, and Staci offer a fresh approach to learning through the lens of wonder. By providing creative ideas for switching up standard lesson plans in ways both subtle and profound, they show us how to recapture our fascination with the world by employing all of our senses, and enhance engagement and critical thinking for students and teachers alike. Endorsements Before reading Keeping the Wonder, I saw my social studies classroom for what it was: brick walls, desks, and a few colorful posters. Today, I see magic seeping through the cracks of every space. Keeping the Wonder reignited my passion for student engagement and learning with every turn of the page. -Dr. Jacob Bauer Zebley, high school social studies teacher and 2015 Cecil County Teacher of the Year From personal stories, practical advice, and research-based strategies, Keeping the Wonder is a book you will reach for time and again. After reading, you'll start looking not just at your own classroom and curriculum through the lens of wonder, but the world around you. A must

read for any teacher who is looking to bring that sense of curiosity and love of learning back into their classroom. -Caitlin Mitchell and Jessica Cannata, cofounders of EB Academics and bestselling authors of *The Empowered ELA Teacher*

Global Biosecurity Peter Katona, John P. Sullivan, Michael D. Intriligator, 2010-01-21 This book explores a range of biohealth and biosecurity threats, places them in context, and offers responses and solutions from global and local, networked and pyramidal, as well as specialized and interdisciplinary perspectives. Specifically covering bioterrorism, emerging infectious diseases, pandemic disease preparedness and remediation, agroterrorism, food safety, and environmental issues, the contributors demonstrate that to counter terrorism of any kind, a global, networked, and multidisciplinary approach is essential. To be successful in biosecurity, this book argues it is necessary to extend partnerships, cooperation, and co-ordination between public health, clinical medicine, private business, law enforcement and other agencies locally, nationally and internationally. Internationally, a clear understanding is needed of what has happened in past epidemics and what was accomplished in past bioprograms (in Britain, South Africa, Russia, for example). This book also assesses how, with the right technology and motivation, both a state and a non-state actor could initiate an extremely credible biothreat to security at both local and national levels. This book will be of much interest to students, researchers and practitioners of security studies, public health, public policy and IR in general. Peter Katona is Associate Professor of Clinical Medicine at the David Geffen School of Medicine at UCLA in Infectious Diseases. He is co-founder of Biological Threat Mitigation, a bioterror consulting firm. John P. Sullivan is a lieutenant with the Los Angeles Sheriff's Department. He is also a researcher focusing on terrorism, conflict disaster, intelligence studies, and urban operations. He is co-founder of the Los Angeles Terrorism Early Warning (TEW) Group. Michael D. Intriligator is Professor of Economics at the University of California, Los Angeles (UCLA). He is also Professor of Political Science, Professor of Public Policy in the School of Public Policy and Social Research, and Co-Director of the Jacob Marschak Interdisciplinary Colloquium on Mathematics in the Behavioral Sciences, all at UCLA.

*Law and the Image* Costas Douzinas, Lynda Nead, 1999-06 Discussing the diverse relationships between law and the artistic image, this book includes coverage of the history of the relationship between art and law, and the ways in which the visual is made subject to the force of the law.
