Antisemitism and Anti-Zionism in Turkey Efrat Aviv, 2017-02-17 The Jewish community in Turkey today is very diverse with extremely different views as to whether Jews are reluctant or enthusiastic about living in Turkey. Many see themselves primarily as Turks and only then as Jews, while some believe quite the opposite. Some deny there are any expressions of antisemitism in Turkey while others would call it xenophobia and would claim that the other non-Muslim communities in Turkey share the same antagonism. 'Antisemitism and Anti-Zionism in Turkey' provides a comprehensive history of the extent of antisemitism in Turkey, from the time of the Ottomans, through the establishing of the Turkish Republic, and up to recent times and the AK Party. It also provides an in-depth analysis of the effect of Israeli military operations on antisemitism, from the Second Lebanon War in 2006 to Operation Protective Edge in 2014. Much emphasis is given to the last decade, as scholars and local Jews assert that antisemitism has increased during this period. An illustrated overview of antisemitism in Turkish media, covering newspapers, books, entertainment, and education, is provided. The book also analyses Turkish society's attitude towards Jews in contrast with other minorities, and examines how the other minorities see the Jews according to their experience with Turkish society and government. A unique poll, data collected from personal interviews and the use of both Turkish and Israeli research resources, all help to provide a fresh insight into antisemitism in Turkey. This book will therefore be a key resource for students and scholars of antisemitism and anti-zionism studies, Turkish Studies and Middle East Studies.

Government and Politics in Sri Lanka A. R.

Sriskanda Rajah, 2017-04-21 The island of Sri Lanka (formerly Ceylon) was one of the few Asian colonies in which the British Empire experimented liberal state-building in the nineteenth century, and where many British colonial officials predicted that the independent state would become a liberal democratic success story. Sri Lanka has held on to much of the liberal democratic state-institutions left behind by the British Empire, including periodic elections. At the same time, the UN's Office of the High Commissioner for Human Rights concluded in September 2015 that there are reasonable grounds to believe that Sri Lanka committed serious international crimes against the Tamils. Such accusations are usually levelled against authoritarian states; it is unusual for a democracy to face such charges. This book analyses where Sri Lanka stands as a state that has in place liberal democratic state-institutions but exhibits the characteristics of an authoritarian state. Using Michel Foucault's concept of biopolitics, the author argues that Sri Lanka enacted racist legislations and perpetrated mass-atrocities on the Tamils as part of its biopolitics of institutionalising and securing a Sinhala-Buddhist ethnocratic state-order. The book also explores the ways that, apart from military action, power relations produce the effects of battle, and thus the way that peace can often become a means of waging war. The author provides fresh insights into Sri Lanka's postcolonial policies and the system of government that it has in place. A novel approach to analysing Sri Lanka's postcolonial policies and the system of government, this book will be of interests to researchers in the field of Political Science, Asian Politics and International Relations.

Full Spectrum Dominance Maria Ryan, 2019-09-24 America's war on terror is widely defined by the Afghanistan and Iraq fronts. Yet, as this book

demonstrates, both the international campaign and the new ways of fighting that grew out of it played out across multiple fronts beyond the Middle East. Maria Ryan explores how secondary fronts in the Philippines, sub-Saharan Africa, Georgia, and the Caspian Sea Basin became key test sites for developing what the Department of Defense called full spectrum dominance: mastery across the entire range of possible conflict, from conventional through irregular warfare. Full Spectrum Dominance is the first sustained historical examination of the secondary fronts in the war on terror. It explores whether irregular warfare has been effective in creating global stability or if new terrorist groups have emerged in response to the intervention. As the U.S. military, Department of Defense, White House, and State Department have increasingly turned to irregular capabilities and objectives, understanding the underlying causes as well as the effects of the quest for full spectrum dominance become ever more important. The development of irregular strategies has left a deeply ambiguous and concerning global legacy.

Cold War in the Islamic World Dilip

Hiro, 2019-02-01 For four decades Saudi Arabia and Iran have vied for influence in the Muslim world. At the heart of this ongoing Cold War between Riyadh and Tehran lie the Sunni-Shia divide, and the two countries' intertwined histories. Saudis see this as a conflict between Sunni and Shia; Iran's ruling clerics view it as one between their own Islamic Republic and an illegitimate monarchy. This foundational schism has played out in a geopolitical competition for dominance in the region: Iran has expanded its influence in Syria, Iraq and Lebanon, while Saudi Arabia's hyperactive crown prince, Muhammad bin Salman, has intervened in Yemen, isolated Qatar and destabilized Lebanon. Dilip Hiro examines the toxic rivalry between the

two countries, tracing its roots and asking whether this Islamic Cold War is likely to end any time soon.

Insurgent Fragmentation in the Horn of Africa Michael Woldemariam, 2018-02-15 This extended treatment of insurgent fragmentation provides an innovative new theory tested through analysis of the Horn of Africa's civil wars.

The Long Honduran Night Dana Frank, 2018-11-27 This powerful narrative recounts the tumultuous time in Honduras that witnessed then-President Manuel Zelaya deposed by a coup in June 2009, told through first-person experiences and layered with deeper political analysis. It weaves together two perspectives; first, the broad picture of Honduras since the coup, including the coup itself, its continuation in two repressive regimes, and secondly, the evolving Honduran resistance movement, and a new, broad solidarity movement in the United States. Although it is full of terrible things, this not a horror story: this narrative directly counters mainstream media coverage that portrays Honduras as a pit of unrelenting awfulness, in which powerless sobbing mothers cry over bodies in the morgue. Rather, it's about sobering challenges and the inspiring collective strength with which people face them. Dana Frank is a professor of history at the University of California, Santa Cruz. She is the author of *Baneras: Women Transforming the Banana Unions of Latin America* from Haymarket Books. Since the 2009 military coup her articles about human rights and U.S. policy in Honduras have appeared in *The Nation*, *New York Times*, *Politico Magazine*, *Foreign Affairs.com*, *The Baffler*, *Los Angeles Times*, *Miami Herald*, and many other publications, and she has testified in both the US Congress and Canadian Parliament.

Power Struggles in the Middle East Eva Dingel, 2016-11-30 Who are the Muslim Brotherhood

and Hizbullah? What do the two movements - one Sunni and one Shi'a - have in common? Despite being classified by a number of countries as 'terrorist' organisations, both are in fact serious political players in the states in which they operate - Egypt and Lebanon. Both have, at various points, advocated pan-Islamism: the unity of Muslims under an Islamic state or caliphate, but, rather than considering them as extremist religious movements, Eva Dingel here studies them as players within the political process. She considers why, at certain points, they have chosen to play by the conventional political rules, while during other periods, they have applied different, more extreme, methods of political protest. Dingel's comparative history of two of the most prominent political Islamist movements sheds light on the complex - and often misunderstood - interaction between Islam and politics in the Middle East. This book is essential reading for anyone who wants to understand the changing dynamics of politics in the Islamic world.

Of Privacy and Power Henry Farrell, Abraham L. Newman, 2021-03-02 How disputes over privacy and security have shaped the relationship between the European Union and the United States and what this means for the future We live in an interconnected world, where security problems like terrorism are spilling across borders, and globalized data networks and e-commerce platforms are reshaping the world economy. This means that states' jurisdictions and rule systems clash. How have they negotiated their differences over freedom and security? *Of Privacy and Power* investigates how the European Union and United States, the two major regulatory systems in world politics, have regulated privacy and security, and how their agreements and disputes have reshaped the transatlantic relationship. The transatlantic struggle over freedom and security has usually

been depicted as a clash between a peace-loving European Union and a belligerent United States. Henry Farrell and Abraham Newman demonstrate how this misses the point. The real dispute was between two transnational coalitions—one favoring security, the other liberty—whose struggles have reshaped the politics of surveillance, e-commerce, and privacy rights. Looking at three large security debates in the period since 9/11, involving Passenger Name Record data, the SWIFT financial messaging controversy, and Edward Snowden's revelations, the authors examine how the powers of border-spanning coalitions have waxed and waned. Globalization has enabled new strategies of action, which security agencies, interior ministries, privacy NGOs, bureaucrats, and other actors exploit as circumstances dictate. The first serious study of how the politics of surveillance has been transformed, *Of Privacy and Power* offers a fresh view of the role of information and power in a world of economic interdependence.

The World Almanac of Islamism American Foreign Policy Council, 2014-01-30 The World Almanac of Islamism is the first comprehensive reference work to detail the current activities of radical Islamist movements worldwide. The contributions, written by subject experts, provide annual updates on the contemporary Islamist threat in all countries and regions where it exists.

Behavioural Incentive Design for Health Policy Joan Costa-Font, Tony Hockley, Caroline Rudisill, 2023-05-31 Gives insight into the use of behavioural approaches to incentivise better health and health systems.

Dictators Without Borders Alexander Cooley, John Heathershaw, 2017-01-01 A penetrating look into the unrecognized and unregulated links between autocratic regimes in Central Asia and centers of power and wealth throughout the West Weak,

corrupt, and politically unstable, the former Soviet republics of Kazakhstan, Kyrgyzstan, Tajikistan, and Uzbekistan are dismissed as isolated and irrelevant to the outside world. But are they? This hard-hitting book argues that Central Asia is in reality a globalization leader with extensive involvement in economics, politics and security dynamics beyond its borders. Yet Central Asia's international activities are mostly hidden from view, with disturbing implications for world security. Based on years of research and involvement in the region, Alexander Cooley and John Heathershaw reveal how business networks, elite bank accounts, overseas courts, third-party brokers, and Western lawyers connect Central Asia's supposedly isolated leaders with global power centers. The authors also uncover widespread Western participation in money laundering, bribery, foreign lobbying by autocratic governments, and the exploiting of legal loopholes within Central Asia. Riveting and important, this book exposes the global connections of a troubled region that must no longer be ignored.

Japan and the New Silk Road Nikolay Murashkin, 2020-02-07 This book presents a study of Japanese involvement in post-Soviet Central Asia since the independence of these countries in 1991, examining the reasons for progress and stagnation in this multi-lateral relationship. Featuring interviews with decision-makers and experts from Japan, China, Kazakhstan, Uzbekistan, Azerbaijan, and the Philippines, this book argues that Japan's impact on Central Asia and its connectivity has been underappreciated. It demonstrates that Japan's infrastructural footprint in the New Silk Road significantly pre-dated China's Belt and Road Initiative, and that the financial and policy contribution driven by Japanese officials was of a similar order of magnitude. It also goes on to show that Japan was the first major power outside

of post-Soviet Central Asia to articulate a dedicated Silk Road diplomacy vis-à-vis the region before the United States and China, and the first to sponsor pivotal assistance. Being the first detailed analytical account of the diplomatic impact made on the New Silk Road by various Japanese actors beyond formal diplomacy, this book will be useful to students and scholars of Japanese politics, as well as Asian politics and international politics more generally.

Game Plan Kevin D. Freeman, 2014-01-06 Game Plan is the first how to investment handbook of its type. It will explain the emerging risks and provide a complete game plan of response for investors at all levels. Freeman will explain that there is no one size fits all solution as events are happening quickly and the challenges can morph suddenly. Just as a football team must plan for a variety of offensive strategies and attacks, investors must be prepared to strategically adjust. This book provides the game plan to respond and succeed. In Game Plan you'll learn... The proper use of gold in your investment strategy How stocks should be deployed in your investment portfolio The smart way to diversify your portfolio How to decrease your bond holding vulnerability How to judge a guarantor in guaranteed investments How to avoid falling into the marketing hype for Hedge Fund scams How to find a properly trained investment advisor How to advance wealth at the individual level How to win the global economic war

Defenders of Japan Garren Mulloy, 2021-12-01 Japan's post-war armed forces are a paradox, both embarrassing remnants of the past and valuable repositories of experience. This book charts the development of the Japan Self-Defense Forces (JSDF) from 1954 as both unorthodox military institutions and servants of a civil society that decries militarism. Investigating JSDF

contributions to Japanese and global security, the evolution of such contributions during and after the Cold War, and their possible reconfiguration for Japan's security needs ahead, Garren Mulloy offers insight into the Forces' past, present and future. He explores the characteristics and contradictions of Japanese policy, including novel approaches in response to an increasingly assertive China, the latent threat of North Korea and contributory pressure from the US. Though the American alliance remains the core of Japanese security, new partnerships and international overtures will also shape the Forces' place in Prime Minister Abe's new vision of 'proactive contributions to peace'. Defenders of Japan deconstructs how the JSDF have adapted and will continue to adapt within domestic norms, caught between unresolved legacies of Japan's imperial past and a dynamically shifting balance of future global power.

Tamil Nationalism in Sri Lanka A.R. Sriskanda Rajah, 2022-10-31 This book examines Tamil nationalism in Sri Lanka and provides insights on how Tamil nationalism has survived the destruction of the Tamil Tigers after May 2009 and continues to thrive, despite the absence of a charismatic leadership to lead it or a centralised organisation to mobilise the Tamils along ethnic nationalistic lines. The ethnic nationalist ideology shaped up by the Tamil Tigers continues to remain the driving force of the Tamil polity in Sri Lanka and the Diaspora. Using a Foucauldian counter-historical theoretical framework, the author analyses and offers answers to these questions: What is keeping Tamil nationalism alive despite the demise of the Tamil Tigers over a decade ago? Why do many Tamils in Sri Lanka and abroad refuse to accept a Sri Lankan political identity? How are Tamils able to continue on a nationalist path despite the absence of a unified

political leadership? The book argues that Tamil nationalism has survived the latter's destruction because it has become counter-historical. It is this that has allowed, despite the internecine rivalries between Tamil political parties and Diaspora groups, the Tamil nationalist spirit to remain alive. The author also suggests that counter-history has, for many Tamil political parties and Diaspora groups, become the means of waging war, other than through an armed struggle, against the Sri Lankan state. Based on field research, interviews and documentary analysis, the book provides empirical and unique insights on Foucault's thesis that power is multifaceted and can function in the absence of centralised mechanisms. This book will be of interest to researchers in the fields of Politics and International Relations, in particular those working on ethnic nationalism, post-armed conflict peacebuilding/conflict resolution, the politics in Sri Lanka, diaspora politics and Foucault.

US Democracy Promotion in the Middle East
Dionysis Markakis, 2015-08-27
US Democracy Promotion in the Middle East seeks to explore the changes in US strategy towards democracy promotion in the Middle East during the Clinton and Bush administrations, with a particular focus on Egypt, Iraq and Kuwait. At a time of regional turmoil and political reform, the topic of democracy promotion has never been more pertinent. We are witnessing the emergence of popular movements that are challenging authoritarian governments long supported by the US. Tracing the contours of the ongoing transition in US policy in the Middle East, this book critically deconstructs the strategy of democracy promotion on both a theoretical and empirical level. By formulating and applying an analytical framework derived from a Gramscian approach, Markakis seeks to propose a re-evaluation of what US foreign policy in the

Middle East truly constitutes, critiquing both the ideological foundations of the strategy as well as the implementation. This book will provide a solid foundation for the analysis of US policy and in particular the strategy of democracy promotion at this time of momentous transition across the region.

United States and the Iranian Nuclear Programme

Steven Hurst, 2018-08-01 Steven Hurst traces the development of the US - Iranian nuclear weapon crisis from the conception of Iran's nuclear programme in 1957 to the signing of the Joint Comprehensive Plan of Action in 2015. Hurst adopts a broader perspective on the Iranian nuclear programme and explains the continued failure of the USA to halt it.

European Climate Diplomacy in the USA and China

Katrin Buchmann, 2022-08-22 In this book, Katrin Buchmann offers a fascinating and insightful account of the efforts of several European embassies to create alliances in the United States and in China to support the UN climate negotiations leading up to COP15.

The Obama Doctrine in the Americas Hanna S.

Kassab, Jonathan D. Rosen, 2016-02-04 This book analyzes Obama's foreign policy in the Americas, focusing on major security-related issues such as drug trafficking, organized crime, and terrorism. This book is meant not only for academics and students but also for policy analysts.

Cypherpunks Julian Assange, 2016-10

The Internet has led to revolutions across the world but a crackdown is now in full swing. As whole societies move online, mass surveillance programs are being deployed globally. Our civilization has reached a crossroads. In one direction lies a future promoting privacy for the weak and transparency for the powerful; in the other is an internet that transfers power over entire populations to an unaccountable complex of spy agencies and their

trans-national corporate allies. Cypherpunks are activists who advocate the mass use of strong cryptography as a way protecting our basic freedoms against this onslaught. Julian Assange, the editor-in-chief of an visionary behind Wikileaks, has been a leading voice in the cypherpunk movement since the 1990s. Now, in a timely and important new book, Assange brings together a group of rebel thinkers and activists from the front line of the battle for cyberspace to discuss whether the internet will emancipate or enslave all of us.--

conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and

much more. One notable platform where you can explore and download free Mrkva.htm PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform

Mrkva.htm Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information,

demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or

smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This

efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual

curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Mrkva.htm PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws,

users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Mrkva.htm free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth,

professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Mrkva.htm Books

1. Where can I buy Mrkva.htm books?
Bookstores : Physical bookstores like Barnes & Noble, Waterstone s, and independen t local stores.

- Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Mrkva.htm book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Mrkva.htm books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying
