**The Discourse of Palestinian-Israeli Relations** Sean F. McMahon, 2010-04-15

Many observers have portrayed the Oslo Process as a milestone in the peacemaking process between Palestinians and Israelis. In this controversial and groundbreaking new work, McMahon challenges the interpretation of the Oslo Process as a breakthrough or new beginning in Palestinian-Israeli relations. He argues that the Oslo Process affected no discursive or non-discursive change and that the Oslo Process in fact institutionalized the analytics practices involved in Israeli and Palestinian relations. It should, McMahon concludes, be no surprise that the process ended with direct Palestinian-Israeli violence. This book will be crucial reading for scholars of Israeli and Palestinian relations as well as anyone who is interested in understanding what discursive change must occur for peace between Israel and Palestinians to be established and sustained.

**Letter to Israel** R. Dean Hubbard, 2006-08 R. Dean Hubbard has uncovered numbering schedule that ties today's current events with biblical events or prophecy. In Letter to Israel from Creation House, a division of Strang Communications, Hubbard, uses this astonishing numbering system to show how the timing of Hitler's rise to prominence, the collapse of the Soviet Union, and key developments in the Middle East all tie into God's agenda for the Jewish people and the land of Israel.

**A Guide to Documents on the Arab-Palestinian/Israeli Conflict** M. Cherif Bassiouni, Shlomo Ben Ami, 2009 A Guide to Documents on the Arab-Palestinian/Israeli Conflicts: 1897-2008, is a comprehensive non-partisan compilation designed to provide relevant legal and historical source material pertaining to this conflict. Each document is summarized for the reader's benefit. The compilation contains all United Nations Resolutions and Reports, Treaties and Agreements, as well as historic documents that are difficult to obtain. To put the conflict into perspective, a chronology of events is provided, followed by an objective analysis of the historical background, including discussion of the various phases of the conflict, strategic considerations, and an analysis of the prospects for peace. The 690 documents summarized with official citations are the most extensive compilation covering the period from 1897 through 2008, including some key texts on Jerusalem dating back to earlier times. The documents are organized according to the conflict's major topic areas with introductory notes for each part and section. M. Cherif Bassiouni and Shlomo Ben Ami have had a long history of involvement in the peace process. Their combined expertise and personal experiences add a unique dimension to this book that will provide anyone interested in the conflict with a distinct easy-to-use comprehensive compilation of relevant documents.

**Israel/Palestine** Alan Dowty, 2008 Fully revised and updated, this second

edition also includes a new chapter on the so-called 'fourth stage' of the Israeli-Palestinian conflict. An extensive chronology of events is included at the back of the book.

**Gender and Political Communication in America** Janis L. Edwards, 2009-08-28  
Gender and Political Communication in America is a comprehensive anthology of work that investigates, from a rhetorical and critical standpoint, the intersection and mutual influences of gender and political communication. Building on existing theory and research, the contributors update and interrogate contemporary issues of gendered politics applicable to the 21st century, including the historic 2008 election.

**The Two-State Delusion** Padraig O'Malley, 2016-07-26 Author Padraig O'Malley is the subject of the new acclaimed documentary The Peacemaker. "Impressive . . . [O'Malley] has done a tremendous amount of research about the Israeli-Palestinian conflict." —The New York Times Book Review Disputes over settlements, the right of return, the rise of Hamas, recognition of Israel as a Jewish state, and other intractable issues have repeatedly derailed peace negotiations between Israel and Palestine. Now, in a book that is sure to spark controversy, renowned peacemaker Padraig O'Malley argues that the moment for a two-state solution has passed. After examining each issue and speaking with Palestinians and Israelis as well as negotiators directly involved in past summits, O'Malley concludes that even if such an agreement could be reached, it would be nearly impossible to implement given a variety

of obstacles including the staggering costs involved, Palestine's political disunity and economic fragility, rapidly changing demographics in the region, Israel's continuing political shift to the right, global warming's effect on the water supply, and more. In this revelatory, hard-hitting book, O'Malley approaches the key issues pragmatically, without ideological bias, to show that we must find new frameworks for reconciliation if there is to be lasting peace between Palestine and Israel.

*The Peace Puzzle* Daniel C. Kurtzer, Scott B. Lasensky, William B. Quandt, Steven L. Spiegel, Shibley Z. Telhami, 2012-11-15 Each phase of Arab-Israeli peacemaking has been inordinately difficult in its own right, and every critical juncture and decision point in the long process has been shaped by U.S. politics and the U.S. leaders of the moment. The Peace Puzzle tracks the American determination to articulate policy, develop strategy and tactics, and see through negotiations to agreements on an issue that has been of singular importance to U.S. interests for more than forty years. In 2006, the authors of The Peace Puzzle formed the Study Group on Arab-Israeli Peacemaking, a project supported by the United States Institute of Peace, to develop a set of best practices for American diplomacy. The Study Group conducted in-depth interviews with more than 120 policymakers, diplomats, academics, and civil society figures and developed performance assessments of the various U.S. administrations of the post-Cold War period. This book, an objective account of the role of the United States in attempting to achieve a

lasting Arab–Israeli peace, is informed by the authors’ access to key individuals and official archives.

**New Asian Approaches to Africa: Rivalries and Collaborations** Takuo Iwata, 2020-03-03 The 21st century has seen an increase in the presence and influence of Asian governments, firms and other stake-holders in Africa. With the changing times, changes in approaches to Africa by four major Asian countries (China, India, Japan and South Korea) have taken place. By tracing the history between these Asian countries and African countries, this collection reflects on the “new” phases of Asian Approaches to Africa. Composed by authors who are not only experienced expert scholars of African Studies, but also prominent specialists on African policies of Asian countries, this collection focuses on the official development assistance (ODA) as well as other crucial issues and actors such as business, civil society, and media to explore the new Asian approaches to Africa in a comprehensive manner. Organised into three sections, this collection explores the experiences of the “forums” (conferences, or summits) for Africa’s development hosted by four major Asian countries, reflects on Asian cultural influence in Africa, and highlights new phases of Asian approaches to Africa. This book looks to the future collaboration of Asian actors/ partners working in/ with Africa, rather than exaggerating rivalries and disputes in order to grasp the potentialities and challenges in the relationship between the two regions; an emerging and ongoing agenda that we will encounter further in the

coming years. This book will be of interest to students, researchers and professors in universities, as well as research institutes on Asian and African Studies. It will also be of value to journalists, and government officials; particularly diplomats.

**African Regional Trade Agreements as Legal Regimes** James Thuo Gathii, 2011-07-21 African regional trade integration has grown exponentially in the last decade. This book is the first comprehensive analysis of the legal framework within which it is being pursued. It will fill a huge knowledge gap and serve as an invaluable teaching and research tool for policy makers in the public and private sectors, teachers, researchers and students of African trade and beyond. The author argues that African Regional Trade Agreements (RTAs) are best understood as flexible legal regimes particularly given their commitment to variable geometry and multiple memberships. He analyzes the progress made toward trade liberalization in each region, how the RTAs are financed, their trade remedy and judicial regimes, and how well they measure up to Article XXIV of GATT. The book also covers monetary unions as well as intra-African regional integration, and examines free trade agreements with non-African regions including the Economic Partnership Agreements with the European Union.

**Politics and Government in Israel** Gregory S. Mahler, 2011 This even-handed and thorough text explores Israeli government and politics. First tracing the history and development of the state, Mahler then examines the social,

religious, economic, and cultural contexts within which Israeli politics takes place. The book explains the operation of political institutions and behavior in Israeli domestic politics, as well as Israel's foreign policy setting and apparatus, the Palestinian conflict and the question of Jerusalem, and the Middle East peace process overall. This clear and concise text provides an invaluable starting point for all readers needing a cogent introduction to Israel today.

*Biotechnology* Steven P. McGiffen, 2005-03-20 Explores fundamental changes occurring in the circulation and ownership of scientific information.

*At the Dawn of Belt and Road* Andrew Scobell, Bonny Lin, Howard J. Shatz, Larry Hanauer, Michael Johnson, Michael S. Chase, Astrid Stuth Cevallos, Ivan W. Rasmussen, Arthur Chan, Aaron Strong, Eric Warner, Logan Ma, 2018-12-05 China has always felt vulnerable, and, in the 1990s, it began forming agreements with other nations, eventually culminating in the Belt and Road Initiative. The authors analyze China's engagement with the Developing World.

**The Arab-Israeli Conflict** Gregory S. Mahler, 2009-09-10 The Arab-Israeli conflict has been one of the most protracted and contentious disputes in the Middle East. This wide-ranging textbook examines the diplomatic and historical setting within which the conflict developed, from both the Israeli and Palestinian perspectives, and gives a comprehensive overview of the peace process. Enabling students to easily access and study original documents through the supportive framework of a textbook, *The Arab-Israeli Conflict*:

China and North Africa since World War II Muhamad S. Olimat, 2014-12-11 This is a comprehensive work exploring Sino-North African relations based on a five-dimensional approach in terms of political relations, trade ties, cultural relations, security coordination, and energy cooperation. It is a quality addition to studies examining the increasing Chinese involvement in North Africa.

**China's Energy Security in the Twenty-First Century** Kaho Yu, 2023-03-13 Kaho Yu's *China's Energy Security in the Twenty-First Century: The Role of Global Governance and Climate Change* explores the evolution of China's energy security from its bilateral going-out strategy to its more multilateral Belt and Road Initiative. By analysing the topic from a multidisciplinary perspective, this book examines China's evolving role in global energy

governance through four empirical case studies: China's energy cooperation with Russia and Central Asia, Africa, the European Union, and the Asia Infrastructure Investment Bank. "Kaho Yu has written a splendid overview of China's efforts to engage in bilateral cooperation to ensure greater energy cooperation between countries in central Asia, Africa, and Europe and improve global supply chains. This book could not come at a more opportune moment, as the world seems to be undecided on the efficacy of cooperative multilateralism to enhance climate and energy goals." –Henry Lee, Director of the Environment and Natural Resources Program, Belfer Center for Science and International Affairs, Harvard Kennedy School "Despite profound changes in technology and the economy since the Industrial Revolution, energy remains central to both economic prosperity and international security. Economic development is plain energy-intensive. The world's largest, richest country is still developing. The planet is embroiled in geopolitical rivalry. The geographical distribution of critical minerals is skewed. All these mean energy security will be a profoundly important challenge in the century ahead. Yu's book provides exactly the substantive, thoughtful research that we will need to begin to unpack these issues." –Danny Quah, Li Ka Shing Professor in Economics, Lee Kuan Yew School of Public Policy, National University of Singapore

**Global Security Watch–Egypt** Denis J. Sullivan, Kimberly Jones, 2008-06-30  
Despite the appearance of political and military stability, Egypt may be standing at the edge of a precipice as the state remains grounded in rigid authoritarianism while the population, including a struggling civil society, readies itself to make the leap to democratization. This characterization has far-reaching implications for relations between citizens and the government, as well as Egypt's foreign affairs posture, particularly in the Middle East. State repression of civil, political, and religious actors; the ineffectual provision of social services; and two religious divides, between Coptic Christianity and Islam on the one hand, and secular and conservative Islamic traditions on the other, make for an incendiary domestic environment. The resulting over-reliance on security services to quash dissent could result in

a population more amenable to less democratic methods of regime change and/or the development of stronger linkages between regional Islamist groups, whether they be political, militant, or some combination thereof. Global Security Watch–Egypt explores the historical background that created the current realities in Egypt and examines the players and events influencing the nation today. It concludes with a series of recommendations for the Egyptian political establishment, and for the American government, in the belief that meaningful political and policy changes in Egypt can lead to an improvement in human rights, democracy, justice, stability, and security for Egypt, and an improved partnership between Egypt and the United States.

#### **The Political Economy of China's Belt and Road Initiative in East Africa**

Simon Züfle, 2023-03-25 This book examines the implementation of the Belt and Road Initiative (BRI) in East Africa. The BRI is considered China's central geopolitical and geo-economic project in the era of President Xi Jinping. Through this work, the author aims to contribute to filling some research gaps, such as the lack of depth in studies of individual BRI projects and the underconsideration of processing narratives in participating countries. The guiding question is the extent to which the BRI is a political or hegemonic project of the CCP-directed state-civil society complex in East Africa. To answer these questions, databases of international organizations and policy documents are analyzed. In addition, the author conducts a qualitative content analysis of newspaper articles from local media houses in the

countries of Ethiopia, Kenya, and Tanzania to examine three infrastructure projects. The work illustrates that the BRI contributes to increasing connectivity in East Africa. At the same time, the compression of economic relations and the implementation of infrastructure projects in East Africa lead to numerous consequences and contour a hegemonic project.

**Beyond Official Development Assistance** Lu Jiang, 2019-09-13 This book investigates China's contemporary development cooperation mentality and modality through the case of its agricultural engagement with Africa. It identifies three models, namely traditional agro-aid, innovative agro-aid and agribusiness models, of Chinese current agro-development cooperation with Africa, and unpacks the different models by tracing their historical origins and examining the actual practice based on project-level fieldwork conducted in Mozambique and South Africa. The book provides a preliminary and qualitative evaluation of China's current agro-development cooperation with Africa, and explains the 'implementation gaps' as observed on the ground adopting a public policy approach. It also compares the Chinese way of development cooperation with that of the traditional donors (particularly the OECD-DAC members), and calls for a broadening understanding for international development cooperation that can allow win-win ideology and embrace diversified cooperation forms beyond the official development assistance (ODA).
