### **The Oak Ridges Moraine Battles** L. Anders

Sandberg, Gerda R. Wekerle, Liette Gilbert, 2013-01-01 The Oak Ridges Moraine is a unique landform that generated heated battles over the future of nature conservation, sprawl, and development in the Toronto region at the turn of the twenty-first century. This book provides a careful, multi-faceted history and policy analysis of planning issues and citizen activism on the Moraine's future in the face of rapid urban expansion. The Oak Ridges Moraine Battles captures the hidden aspects of a story that received a great deal of attention in the local and national news, and that ultimately led to provincial legislation aimed at protecting the Moraine and Ontario's Greenbelt. By giving voice to a range of actors — residents, activists, civil servants, scientists, developers and aggregate and other resource users, the book demonstrates how space on the urban periphery was reshaped in the Toronto region. The authors ask hard questions about who is included and excluded when the preservation of nature challenges the relentless process of urbanization.

*Contemporary Bead & Wire Jewelry* Nathalie Mornu, Suzanne J. E. Tourtillott, 2006 20 of the best contemporary designers have created 43 projects using wire and the diversity of beads available, and the results are truly inspiring. From funky to eclectic, their designs reflect a range of inventive techniques and can be worked with simple hand tools (no soldering required). An introductory chapter presents the necessary supplies and material, along with the basic techniques.

### **The History and Politics of UN Security Council Reform**

Dimitris Bourantonis, 2004-08-02 This is a penetrating analysis of UN Security Council reform. It presents an overview of the current debates - emphasising the potential for, and modalities of, adjustment in the post-Cold War era - through a systematic investigation of the various reform proposals and the attitudes of member states. This is essential reading for all students and

scholars of the United Nations and international relations.

*Franchised States and the Bureaucracy of Peace* Niels Nagelhus Schia, 2017-10-30 This book examines a new type of state formation evoked by the rise of transnational rule, what Schia calls franchised states. Drawing on anthropological studying-through fieldwork within the UN organization, he demonstrates how peacebuilding activities turned Liberia into an object of governing, whereby the UN, in seeking to build the state, also became the state. The sovereign state of Liberia here emerges as a franchise rather than a self-contained entity. Two implications follow: First, that international peacebuilding turns post-conflict countries into clients of the international community. Second, that "sovereignty" is no longer exclusively associated with the state: it is organized in and through specific practices of governing where a state actor is only one among a range of actors. With these findings, the book moves beyond previous work on peacebuilding by focusing on the unbundling of sovereignty. It contributes to the literature on the changing forms of sovereignty by showing the specific ways in which sovereignty is organized, packaged and enacted, often by actors working under international auspices. This book will be of interest to practitioners and students interested in international organizations, international relations, the study of international practices, UN, and peacebuilding.

**Walking and Mapping** Karen O'Rourke, 2013 In 'Walking and Mapping', Karen O'Rourke explores a series of walking/mapping projects by contemporary artists. Some chart emotional GPS; some use GPS for creating datascares while others use their legs to do speculative mapping. Many work with scientists, designers, and engineers. O'Rourke offers close readings of these works and situates them in relation to landmark works from the past half-century. She shows that the infinitesimal details of each of these projects take on more significance in conjunction with others. Together, they form a new entity, a

dynamic whole greater than the sum of its parts. By alternating close study of selected projects with a broader view of their place in a bigger picture, *Walking and Mapping* itself maps a complex phenomena.

**A CALENDAR OF MISERIES - Mothers Who Killed Children** M Clement Hall, 2010

**The Gift in Sixteenth-century France** Natalie Zemon Davis, 2000 Must a gift be given freely? How can we tell a gift from a bribe? Are gifts always a part of human relations--or do they lose their power and importance once the market takes hold and puts a price on every exchange? These questions are central to our sense of social relations past and present, and they are at the heart of this book by one of our most interesting and renowned historians.

**Natalie Natalia** Nicholas Mosley, 1996 Natalie Natalia?is Nicholas Mosley's brilliant examination of political life. It revolves around Anthony Greville, a conservative Member of Parliament who is tormented by his ambivalence toward his career, by his

religious doubts, and by his adulterous affair with Natalia Jones, the enigmatic wife of a colleague. The course of their affair dramatizes love in its most creative and perilously destructive aspects, the two facets symbolized in the two names he has for his lover: I sometimes called Natalia Natalie instead of Natalia, Greville says, when she was the ravenous rather than the angelic angel... What Natalie said was often a code for what Natalia was meaning. Ranging in setting from England to Central Africa, the novel is a remarkable investigation of ethics, with fiction itself as an ethical activity.

*"We Met in Paris"* Joan E Howard, 2018-05-31 Grace Frick introduced English-language readers all over the world to the distinguished French author Marguerite Yourcenar with her award-winning translation of Yourcenar's novel *Memoirs of Hadrian* in 1954. European biographies of Yourcenar have often disparaged Frick and her relationship with Yourcenar, however. This work shows Frick as a person of substance in her own right, and paints a portrait of both women that is at once intimate and scrupulously documented. It contains a great deal of new information that will disrupt long-held beliefs about Yourcenar and may even shock some of her scholars and fans.

**Finding Out** Deborah T. Meem, Jonathan Alexander, Key Beck, Michelle A. Gibson, 2022-07-28 *Finding Out*, Fourth Edition introduces readers to lesbian-gay-bisexual-transgender-queer (LGBTQ) studies. By combining accessible introductory and explanatory material with primary texts and artifacts, this text/reader explores the development and growth of LGBTQ identities and the interdisciplinary nature of sexuality studies. Now available in a digital ebook format, the fourth edition has been thoroughly updated to include a new chapter on Trans Lives and Theories, and new readings. Chapters include more discussions of important and current issues in LGBTQ studies such as the emergence of non-binary identities, and issues of race and class, making *Finding Out*, Fourth Edition an even more

comprehensive introduction to the field.

**War and Intervention** Michael V. Bhatia, 2003 \* Explains developments in recent peacekeeping operations and politico-military environments \* Bridges the gap between peace and conflict scholarship \* Highlights new aspects of war studies Following over a decade of substantial and extensive American military involvement, peace operations have passed from a position of strategic irrelevance to one of strategic importance. War and Intervention provides a snapshot of the contemporary environment of peace operations, in terms of both war and intervention. It also answers two broad questions: 1) What are key characteristics of armed competitors in the current environment of peace operations, particularly in terms of their structure and organization, financing, access to military resources, and the tactical tools and methods applied by these movements? And 2) What are key recent developments in the dimensions and methods of intervention, particularly regarding the use of force, the adaptation of global militaries to peace operations and the emerging political, legal and economic components of intervention? War and Intervention allows readers from a range of domains--military, academic, humanitarian, political, and diplomatic--to understand the priorities and methods of different actors in today's peace operations.

**What if?** Dr. Knut Olsen, 2013-10-10 Every month, millions of people enter the term 'what if' on Google and other online search engines. What do they expect to find? The answer is something like the information you'll find in this collection of trivia, witticisms, and plain old useful information. Author Knut Olsen addresses questions like these: What if Adam had been gay? What if nobody drank alcohol? What if you could call God? A: The phone operator would probably charge you a fortune. What if you put all the condoms in the world on top of each other? What if you fired a

gun on a train moving as fast as a bullet? What if we knew how much Governments around the world waste of taxpayers' money? You'll discover the answers to these and more than one thousand other "what if" questions on a wide range of topics, including family, religion, music, sex, politics and much more. As you read the questions and answers, you'll think, laugh, and often be surprised. We are surrounded by what-ifs, and some of them are so serious that you might not be prepared to consider them. While some are unthinkable or unrealistic, many are fun. Either way, sit back and enjoy the ride!

**Natalie** Lillian Elizabeth Roy,2016-04-25 [...] No, we thought it was someone else's farm-Mrs. James', or Mr. Marvin's, perhaps, explained Belle, gently. It used to be my great-grandmother's place. Mother was born there, but raised in the city. When grandmother died, Aunt stayed on there until she, too, died. Then it descended to mother, who leased it to a man for ten years. I have never even seen the horrid place, but I know it is a mile from anywhere on the map. Mr. Marvin says it is fine, and he wants me to go and live there. It sounds all right, Nat, if the house is habitable, remarked Janet, the practical girl of the group.[...].

*Protecting Water Resources with Smart Growth* ,2004

Protecting Water Resources with Smart Growth is intended for audiences such as communities, local governments, state and regional planners already familiar with smart growth and are now seeking more ideas on how to protect their water resources. The document is a compilation of 75 policies designed to protect water resources and implement smart growth. The majority of these policies (46) are oriented to the watershed, or regional level; the other 29 are targeted for specific development sites.

**Animals Behaving Badly** Linda Lombardi,2011-10-04

There's a lot that animals don't want you to know, and the better their public image, the worse their secrets are: gang-rapist

dolphins; lazy, infanticidal lions; and, of course, our own dogs, who eat our money, set our houses on fire, and in more than one case, actually shoot their owners with guns. *Animals Behaving Badly* shows that animals are just like us: gluttonous, selfish, violent, lustful, and always looking out for number one. Using anecdotes from the news and from scientific research, Linda Lombardi pokes fun at our softhearted preconceptions about animals, makes us feel a little better about humanity's basest impulses, and painlessly teaches us a bit more about our furry and feathered friends. You'll learn: Bees love alcohol: even, says one researcher, more than college students Pandas enjoy pornographic movies-they're particularly aroused by the soundtrack-and macaques will pay with juice to look at dirty pictures A rabbit who lives in a pub in England is addicted to gambling with a slot machine African elephants raised by teenage mothers form violent youth gangs
