**Good News, Bad News** Jeremy Iggers, 2018-02-12 In *Good News, Bad News*, Jeremy Iggers argues that journalism's institutionalized conversation about ethics largely evades the most important issues regarding the public interest and the civic responsibilities of the press. Changes in the ownership and organization of the news media make these issues especially timely; although journalism's ethics rest on the idea of journalism as a profession, the rise of market-driven journalism has undermined journalists' professional status. Ultimately, argues Iggers, journalism is impossible without a public that cares about the common life. Written in an accessible style, *Good News, Bad News* is important reading for journalists, communication scholars, and students. } Public dissatisfaction with the news media frequently gives rise to calls for journalists to live up to the ethical standards of their profession. But what if the fault lies in part with the standards themselves? Jeremy Iggers argues that journalism's institutionalized conversation about ethics largely evades the most important issues regarding the public interest and the civic responsibilities of the press. Changes in the ownership and organization of the news media make these issues especially timely; although journalism's ethics rest on the idea of journalism as a profession, the rise of market-driven journalism has undermined journalists' professional status. Ultimately, argues Iggers, journalism is impossible without a public that cares about the common life. A more meaningful approach to journalism ethics must begin with a consideration of the role of the news media in a democratic society and proceed to look for practical ways in which journalism can contribute to the vitality of public life. Written in an accessible style, *Good News, Bad News* is important reading for journalists, communication scholars, and students. }

**The Power of News** Michael Schudson, 1995 Some say it's simply information, mirroring the world. Others believe it's propaganda, promoting a partisan view. But news, Michael Schudson tells us, is really both and neither; it is a form of culture, complete with its own literary and social conventions and powerful in ways far more subtle and complex than its many critics might suspect. A penetrating look into this culture, *The Power of News* offers a compelling view of the news media's emergence as a central institution of modern society, a key repository of common knowledge and cultural authority. One of our foremost writers on journalism and mass communication, Schudson shows us the news evolving in concert with American democracy and industry, subject to the social forces that shape the culture at large. He excavates the origins of contemporary journalistic practices, including the interview, the summary lead, the preoccupation with the presidency, and the ironic and detached stance of the reporter toward the political world. His book explodes certain myths perpetuated by both journalists and critics. The press, for instance, did not bring about the Spanish-American War or bring down Richard Nixon; TV did not decide the Kennedy-Nixon debates or turn the public against the Vietnam War. Then what does the news do? True to their calling, the media mediate, as Schudson demonstrates. He analyzes how the news, by making knowledge public, actually changes the character of knowledge and allows people to act on that knowledge in new and significant ways. He brings to bear a wealth of historical scholarship and a keen sense for the apt questions about the production, meaning, and reception of news today.

Losing the News Alex Jones,2009-09-02 What is wrong with the news?To answer this dismaying question, Pulitzer Prize-winning journalist Alex S. Jones explores how the epochal changes sweeping the media have eroded the core news that has been the essential food supply of our democracy.At a time of dazzling technological innovation, Jones says that what stands to be lost is the fact-based reporting that serves as a watchdog over government, holds the powerful accountable, and gives citizens what they need. In a tumultuous new media era, with cutthroat competition and panic over profits, the commitment of the traditional news media to serious news is fading. Should we lose a critical mass of this news, our democracy will weaken--and possibly even begin to fail.The breathtaking possibilities that the web offers are undeniable, but at what cost? The shattering of the old economic model is taking a toll on journalistic values and standards. Journalistic objectivity and ethics are under assault, as is the bastion of the First Amendment. Pundits and talk show hosts have persuaded Americans that the crisis in news is bias and partisanship. Not so, says Jones. The real crisis is the erosion of the iron core of accountability news, a loss that hurts Republicans and Democrats alike.Losing the News is a vivid depiction of the dangers facing fact-based, reported news, but it is also a call to arms. Despite the current crisis, there are many hopeful signs, and Jones closes by looking over the horizon and exploring ways the iron core can be preserved.

**... and Now, the Good News** Geri Weis-Corbley,2018-12-12 In a world that may seem dark, Good News Network shines a spotlight on the extraordinary and everyday heroes, the solutions and innovations that can give us hope. This collection celebrates GNN's 20th anniversary of publishing positive news from around the world at GNN.org. Founded in 1997 by former TV news editor Geri Weis-Corbley, these are among her favorite stories from two decades.

*Daily News, Eternal Stories* Jack Lule,2001-01-16 This compelling, often surprising book demonstrates the ways news articles of today draw from age-old tales that have chastened, challenged, entertained, and entranced people since the beginning of time. Through an insightful exploration of hundreds of New York Times articles, award-winning professor and former journalist Jack Lule reveals mythical themes in reporting on topics from terrorist hijackings to Huey Newton, from Mother Teresa to Mike Tyson. Beneath the fresh facade of current events, Lule identifies such enduring archetypes as the innocent victim, the good mother, the hero, and the trickster. In doing so, he sheds light on how media coverage shapes our thinking about many of the confounding issues of our day, including foreign policy, terrorism, race relations, and political dissent. Winner of the MEA's 2002 Lewis Mumford Award for Outstanding Scholarship in the Ecology of Technics

The Best Of News Weekly News Weekly,2018-01-16 Over the last three years, the National Civic Councils News Weekly has continued to fulfil the role it has played since the 1940s as a journal of unadorned news reporting, authoritative commentary and sober analysis of current issues. As the issues have changed, so has the content of News Weekly kept pace in tackling the new issues, even as its point of view, to borrow the phrase from News Weeklys founder, B.A. Bob Santamaria, has remained steady. That point of view is derived from the National Civic Councils Five Primacies: Defending life, Supporting the family, Assisting small enterprise, Promoting the national interest, Fostering Judeo-Christian virtues Under these heads, News Weekly presents trustworthy alternative views to those generally found in the media on issues as current as same-sex marriage, transgenderism, climate change, the energy crisis, manufacturing, family taxation, and much more. Moreover News Weekly also provides a cultural forum for recovering and illuminating the Western heritage, starting from its true roots in ancient Greece and

Rome. The writers in *The Best of News Weekly* include Colin Teese, Peter Westmore, Patrick J. Byrne, Terri M. Kelleher, Brian Coman, Jeffrey Babb, Hal G.P. Colebatch, Peter Abetz, Chris McCormack, Mark McGovern, Damian Wyld, Lucy Sullivan, Symeon J. Thompson and David James.

Bad News Tom Fenton, 2005-11-22 At a time when the world has been blindsided by failures of intelligence, a veteran CBS News correspondent reveals how the news media has betrayed our trust and endangered our democracy. Tom Fenton is the senior European correspondent for CBS News. In his long journalistic experience, he has reported on everything from the fall of the Shah of Iran to the crumbling of communism in East Germany to the bombing of Israel during the first Gulf War. Today he has covered the movements of al Qaeda throughout Europe—a story he was tracking before 9/11. And in the three years since, he has come to a sobering realization: the American news media—and network TV news in particular—has abdicated its responsibility to the American people. As Fenton points out, much of America still gets its news from the networks. But in the years leading to 9/11 the coverage of terrorism was sporadic at best, focusing on acts of terror rather than the people and movements that caused them. It was Washington's job to connect the dots, Fenton argues, but it was the news business's job to track the story and watchdog the government's vigilance—and both sides failed. By the time of the Bush–Kerry election, Fenton writes, for the first time, the news media had an even worse credibility gap than the government's. Lulled into complacency by the Cold War, gutted by corporate bottom–lining bottom feeders, the news media missed the story of the century—just as they'd missed hundreds of others in the years before, from Kosovo to Chechnya. As a frequent voice in the wilderness himself—who tried unsuccessfully to interest CBS in an Osama bin Laden interview in the 1990s—Fenton charges that the news media must change its perspective from that of an entertainment–industry offshoot to that of a keeper of the public trust. And he argues that his industry must foster a new patriotic skepticism, one that will both inform the people and help Washington defend the country better. Tom Fenton's passionate argument for change in the political sector is being embraced by readers on all sides. Since its publication in the United States *Bad News* has won wide and critical acclaim from such publications as *Publisher's Weekly*, *Washington Post*, and *Christian Science Monitor*.

Future-proofing the News Kathleen A. Hansen, Nora Paul, 2017 *Future-Proofing the News: Preserving the First Draft of History* examines the history and technology of news reporting in the U.S. and focuses on the decisions that aided or hindered future access. Changing formats of news delivery, business enterprises, and laws have had profound impacts on the ability to find and learn from records of the past.

**All the News Unfit to Print** Eric Burns, 2009-05-18 You really can't believe everything you read . . . A premature newswire report announces the end of World War I, spurring wild celebrations in American streets days before the actual treaty was signed. A St. Louis newspaper prints reviews of theatrical performances that never took place—they had been canceled due to bad weather. New York newspaper reporters plant evidence in the apartment of the man accused of kidnapping the Lindbergh baby and then call him a liar in the courtroom once the trial begins. These are just a few of the many wrongs that have been reported as right over two centuries of American history. *All the News Unfit to Print* puts the media under the microscope to expose the many types of mistakes, hoaxes, omissions, and lies that have skewed our understanding of the past, and reveals the range of reasons and motivations—from boredom and haste to politics and greed—behind them. Reviewing a host of journalistic slip-ups involving Ben Franklin, Mark Twain, William Randolph Hearst, Theodore H. White, and many others, this book covers the stories behind the stories to refine incorrect first drafts of history from the Revolutionary War era to more recent times. *All the News Unfit to Print* is a rollicking joyride that careens through the ridiculous, the odd, and

the serious malfeasances in American journalistic history and reminds us of the difference between news and facts. —Neal Gabler, author of *Walt Disney: The Triumph of the American Imagination*

**Preformulating the News** Geert Jacobs, 1999 Jacobs (U. of Antwerp) began his investigation after a pile of press releases from Exxon about the Valdez spill fell to him. He decided an accurate analysis of them required comparison with others concerning less dramatic events. Having looked at over 500 press releases, he explores their peculiar audience-directedness as a type of indirectly targeted, projected discourse. He draws from corpus-based research to argue that the discourse can be traced in the various metapragmatic patterns that are characteristic of the data. *News for All* Thomas C. Leonard, 1995 In *News for All*, Leonard provides a fascinating account of the love-hate relationship we have always had with the news, from the early nineteenth century to the present. America's insatiable appetite for news played a critical role in the growth of democracy, but never before have the readers, rather than the periodicals, been examined in detail. *News for All* bridges this critical gap, bringing to life the nation's cantankerous love affair with the press.
