Nice Work If You Can Get It Andrew Ross, 2010-10-03 2009 Choice Outstanding Academic Title A survey into an emerging pattern of labor instability and uneven global development Is job insecurity the new norm? With fewer and fewer people working in steady, long-term positions for one employer, has the dream of a secure job with full benefits and a decent salary become just that—a dream? In *Nice Work If You Can Get It*, Andrew Ross surveys the new topography of the global workplace and finds an emerging pattern of labor instability and uneven development on a massive scale. Combining detailed case studies with lucid analysis and graphic prose, he looks at what the new landscape of contingent employment means for workers across national, class, and racial lines—from the emerging “creative class” of high-wage professionals to the multitudes of temporary, migrant, or low-wage workers. Developing the idea of “precarious livelihoods” to describe this new world of work and life, Ross explores what it means in developed nations—comparing the creative industry policies of the United States, United Kingdom, and European Union, as well as developing countries—by examining the quickfire transformation of China’s labor market. He also responds to the challenge of sustainability, assessing the promise of “green jobs” through restorative alliances between labor advocates and environmentalists. Ross argues that regardless of one’s views on labor rights, globalization, and quality of life, this new precarious and “indefinite life,&” and the pitfalls and opportunities that accompany it is likely here to stay and must be addressed in a systematic way. A more equitable kind of knowledge society emerges in these pages—less skewed toward flexploitation and the speculative beneficiaries of intellectual property, and more in tune with ideals and practices that are fair, just, and renewable.

Language Put to Work Enda Brophy, 2017-08-11 WINNER of The Gertrude J. Robinson Book Prize, awarded by the Canadian Communication Association, and the Canadian Association of Work and Labour Studies, Book of the Year Award. This book examines the striking rise of call centres over the past quarter century through the lens of the resistance and collective organizing generated by workers along the digital assembly lines. Drawing on field research in Atlantic Canada, Ireland, Italy, and New Zealand, Enda Brophy investigates the contested making of the transnational call centre workforce and its integration into the circuits of global capitalism. Moving beyond depictions of call centre labour as either entirely liberated or utterly subordinated, *Language Put to Work* inquires into the forms of work refusal and insubordination provoked by the spread of these communicative workplaces, including informal strategies of quitting, slacking and sabotage, conventional trade union activity, tactical innovations at the margins of the labour movement, and forms of self-organization forged by workers outside of the established trade union movement. Weaving rich empirical evidence together with political-economic analysis and theories of resistance, this book argues that the submission of language to the production of value in the call centre is a process of proletarianization rather than professionalization, and that the new working class has widely opposed this transformation.

Work Want Work Mareile Pfannebecker, J. A. Smith, 2020-03-15 *Work Want Work* considers in captivating detail how a logic of work has become integral to everything we do, even as the place of formal work has become increasingly precarious. With reference to sociological data, philosophy, political theory, legislation, the testimonies of workers and an eclectic mix of cultural texts – from Lucian Freud to Google, Anthony Giddens to selfies, Jean-Luc Nancy to Amy Winehouse – Pfannebecker and Smith lay out how the capitalism of globalized technologies has put our time, our subjectivities, our experiences and our desires to work in unprecedented ways. As every part of life is colonized by work without securing our livelihoods, new questions need to be asked: whether a nostalgia for work can save us, how ideas of work change conceptions of political community, how employment and unemployment alike have become malemployment, and whether the work of our desire online can be disentangled from capitalist exploitation. The biggest question, at a time when the end of work and a fully automated future are proclaimed by Silicon Valley idealists as well as by social democratic politicians and left-wing theorists, is this: how can we propose a post-work society and culture that we will actually want?

Undoing Work, Rethinking Community James A. Chamberlain, 2018-02-15 This text argues that the civic duty to perform paid work in contemporary society undermines freedom and justice.

Gender, Subjectivity, and Cultural Work Christina Scharff, 2017-09-27 What is it like to work as a classical musician today? How can we explain ongoing gender, racial, and class inequalities in the classical music profession? What happens when musicians become entrepreneurial and think of themselves as a product that needs to be sold and marketed? *Gender, Subjectivity, and Cultural Work* explores these and other questions by drawing on innovative, empirical research on the working lives of classical musicians in Germany and the UK. Indeed, Scharff examines a range of timely issues such as the gender, racial, and class inequalities that characterise the cultural and creative industries; the ways in which entrepreneurialism – as an ethos to work on and improve the self – is lived out; and the subjective experiences of precarious work in so-called ‘creative cities’. Thus, this book not only adds to our understanding of the working lives of artists and creatives, but also makes broader contributions by exploring how precarity, neoliberalism, and inequalities shape subjective experiences. Contributing to a range of contemporary debates around cultural work, *Gender, Subjectivity, and Cultural Work* will be of interest to scholars and students in the fields of Sociology, Gender and Cultural Studies.

Breaking Out of the Pink-Collar Ghetto: Policy Solutions for Non-College Women Sharon H. Mastracci, 2016-07-22 Widely interdisciplinary in appeal, this book reports on the successes of innovative training opportunities for non-college women who end up in low-paying, low-mobility, pink-collar jobs. The author examines the relative effectiveness of various programs in helping these women gain access to high-wage, high-mobility employment opportunities. The analysis includes case studies of grant-funded projects, as well as in-depth statistical analysis using ten years of data on women throughout the United States. These types of education and training options are in tremendous demand, and the author finds that they are having a powerful impact on the job prospects of non-college women. As an integral part of her study, she spells out what kinds of programs have proven most and least effective. *Breaking Out of the Pink-Collar Ghetto* addresses vital issues concerning the effects of gender segregation in career counseling and employment and training policy. It provides much-needed guidance on employment and training services delivery. The book has wide application for students as well as professionals in the fields of public policy and public administration, educational counseling and vocational education, labor economics, and women's studies.

The Routledge Companion to Labor and Media Richard Maxwell, 2015-07-16 Labor resides at the center of all media and communication production, from the workers who create the information technologies that form the dynamic core of the global capitalist system and the designers who create media content to the salvage workers who dismantle the industry’s high-tech trash. *The Routledge Companion to Labor and Media* is the first book to bring together representative research from the diverse body of scholarly work surrounding this often fragmentary field, and seeks to provide a comprehensive resource for the study and teaching of

media and labor. Essays examine work on the mostly unglamorous side of media and cultural production, technology manufacture, and every occupation in between. Specifically, this book features: -wide-ranging international case studies spanning the major global hubs of media labor; -interdisciplinary approaches for thinking about and analyzing class and labor in information communication technology (ICT), consumer electronics (CE), and media/cultural production; -an overview of global political economic conditions affecting media workers; -reports on chemical environments and their effect on the health of media workers and consumers; -activist scholarship on media and labor, and inspiring stories of resistance and solidarity.

Shattered Sword Jonathan Parshall, Anthony Tully, 2011 Many consider the Battle of Midway to have turned the tide of the Pacific War. It is without question one of the most famous battles in history. Now, for the first time since Gordon W. Prange's bestselling *Miracle at Midway*, Jonathan Parshall and Anthony Tully offer a new interpretation of this great naval engagement. Unlike previous accounts, *Shattered Sword* makes extensive use of Japanese primary sources. It also corrects the many errors of Mitsuo Fuchida's *Midway: The Battle That Doomed Japan*, an uncritical reliance upon which has tainted every previous Western account. It thus forces a major, potentially controversial reevaluation of the great battle. The authors examine the battle in detail and effortlessly place it within the context of the Imperial Navy's doctrine and technology. With a foreword by leading WWII naval historian John Lundstrom, *Shattered Sword* will become an indispensable part of any military buff's library. Winner of the 2005 John Lyman Book Award for the Best Book in U.S. Naval History and cited by *Proceedings* as one of its Notable Naval Books for 2005.

Worked Over Jamie K McCallum, 2020-09-08 An award-winning sociologist reveals the unexpected link between overwork and inequality. Most Americans work too long and too hard, while others lack consistency in their hours and schedules. Work hours declined for a century through hard-fought labor-movement victories, but they've increased significantly since the seventies. *Worked Over* traces the varied reasons why our lives became tethered to a new rhythm of work, and describes how we might gain a greater say over our labor time -- and build a more just society in the process. Popular discussions typically focus on overworked professionals. But as Jamie K. McCallum demonstrates, from Amazon warehouses to Rust Belt factories to California's gig economy, it's the hours of low-wage workers that are the most volatile and precarious -- and the most subject to crises. What's needed is not individual solutions but collective struggle, and throughout *Worked Over* McCallum recounts the inspiring stories of those battling today's capitalism to win back control of their time.

Critique, Social Media and the Information Society Christian Fuchs, Marisol Sandoval, 2013-11-26 In times of global capitalist crisis we are witnessing a return of critique in the form of a surging interest in critical theories (such as the critical political economy of Karl Marx) and social rebellions as a reaction to the commodification and instrumentalization of everything. On one hand, there are overdrawn claims that social media (Twitter, Facebook, YouTube, etc) have caused uproars in countries like Tunisia and Egypt. On the other hand, the question arises as to what actual role social media play in contemporary capitalism, crisis, rebellions, the strengthening of the commons, and the potential creation of participatory democracy. The commodification of everything has resulted also in a commodification of the communication commons, including Internet communication that is today largely commercial in character. This book deals with the questions of what kind of society and what kind of Internet are desirable, how capitalism, power structures and social media are connected, how political struggles are connected to social media, what current developments of the Internet and society tell us about potential futures, how an alternative Internet can look like, and how a participatory, commons-based Internet and a co-operative, participatory, sustainable information society can be achieved.

Uberworked and Underpaid Trebor Scholz, 2016-12-27 This book is about the rise of digital labor. Companies like Uber and Amazon Mechanical Turk promise autonomy, choice, and flexibility. One of network culture's toughest critics, Trebor Scholz chronicles the work of workers in the sharing economy, and the free labor on sites like Facebook, to take these myths apart. In this rich, accessible, and provocative book, Scholz exposes the uncaring reality of contingent digital work, which is thriving at the expense of employment and worker rights. The book is meant to inspire readers to join the growing number of worker-owned platform cooperatives, rethink unions, and build a better future of work. A call to action, loud and clear, *Uberworked and Underpaid* shows that it is time to stop wage theft and crowd fleecing, rethink wealth distribution, and address the urgent question of how digital labor should be regulated and how workers from Berlin, Barcelona, Seattle, and São Paulo can act in solidarity to defend their rights.

"Thatcherism" und die "campus novel": Eine Untersuchung von David Lodge's "Nice Work" Katharina Strichartz, 2008 Studienarbeit aus dem Jahr 2004 im Fachbereich Amerikanistik - Literatur, Note: 1,0, Universität Hamburg (Institut für Anglistik), Veranstaltung: Thatcherism: British Politics and Culture in the 1980s, Sprache: Deutsch, Abstract: In der vorliegenden Hausarbeit wird aufgezeigt, in welcher Form die in den 80er Jahren vorliegenden Differenzen zwischen Regierung, Universitäten und Industrie in der *campus novel* *Nice Work* von David Lodge dargestellt werden. Die drei zentralen Erkenntnisinteressen der nachstehenden Ausführungen lassen sich folgendermaßen umreißen: Erstens sollen die Absichten der Regierung Margaret Thatchers' hinsichtlich ihrer Bildungspolitik kurz umrissen werden. Zweitens wird aufgezeigt, wie das Universitätswesen auf diese Absichten reagiert hat. Drittens wird untersucht, wie diese Zielrichtungen sowie ihre Umsetzungen und Konsequenzen in *Nice Work* literarisch umgesetzt worden sind. Im ersten Hauptteil meiner Arbeit gebe ich einen kurz gehaltenen Überblick über die Werte und Konzepte des Thatcherism und beziehe mich dann explizit auf die Probleme in der universitären Welt sowie auf den englischen Universitätsroman der 80er Jahre. Hierbei werden weder die Anfänge noch die Entwicklung des englischen Universitätsromans erwähnt, sondern er wird nur im Zeitrahmen des Thatcherism betrachtet. Weitergehend analysiere ich im zweiten Hauptteil meiner Arbeit die Repräsentation des Thatcherism in *Nice Work*. Hierbei wird explizit auf die Universität Rumridge als Ebenbild des Niederganges der Universitäten in den 80ern eingegangen, den Themenkomplex Industrie und Universität sowie Emanzipation in *Nice Work*. Im Zuge dessen wird auch *Changing Places* von David Lodge erwähnt. Als Grundlagen besonders wichtig für diese Arbeit waren die Dissertation *Campus Clowns and the Canon* - David Lodge's *Campus Fiction* von Eva Lambertsson Björk sowie *Two Cultures, Universities and Intellectuals* - Der englische Universitätsroman der 70er und 80er Jahre im Kontext des Hochschul

Social Protection After the Crisis Steve Tombs, 2015-11-16 *Social Protection After the Crisis* looks closely at the regulation of corporate crime and subsequent social harm that takes into account the economic, political, and social consequences of the economic crisis of 2008 and the austerity measures that followed. Steve Tombs lays out clearly the incompatibility of social and economic welfare with deregulated corporate activity, and he builds a rich empirical and theoretical analysis of regulatory reform within the context of wide-scale social change. With a particular emphasis on environmental, workplace, and food safety, *Social Protection After the Crisis* proposes a radical rethinking of regulation to address fundamental conceptual, policy, and practical issues.

Signal Traffic Lisa Parks, Nicole Starosielski, 2015-06-15 The contributors to *Signal Traffic* investigate how the material artifacts of media infrastructure--transoceanic cables, mobile telephone towers, Internet data centers, and the like--intersect with everyday life. Essayists confront the multiple and hybrid forms networks take, the different ways networks are imagined and engaged with by publics around the world, their local effects, and what human beings experience when a network fails. Some contributors explore the physical objects and industrial relations that make up an infrastructure. Others venture into the marginalized communities orphaned from the knowledge economies, technological literacies, and epistemological questions linked to infrastructural formation and use. The wide-ranging insights delineate the oft-ignored contrasts between industrialized and developing regions, rich and poor areas, and urban and rural settings, bringing technological differences into focus. Contributors include Charles R. Acland, Paul Dourish, Sarah

Harris, Jennifer Holt and Patrick Vonderau, Shannon Mattern, Toby Miller, Lisa Parks, Christian Sandvig, Nicole Starosielski, Jonathan Sterne, and Helga Tawil-Souri.

Active Learning and Student Engagement Mick Healey, Eric Pawson, Michael Solem, 2013-09-13 This book examines significant issues in geography teaching and learning from the perspectives of an international network of academic geographers and postgraduate students. Drawing on classroom experiences and research in a wide variety of educational settings, the authors describe conceptually interesting and practical applications for enhancing student learning through inquiry, problem-based learning, field study, online collaboration, and other highly engaging forms of pedagogy. Other articles focus on approaches for improving the experiences of distance learners, strategies for enhancing the employability of geography students, and preparing students to engage ethical issues in the discipline. An international audience of educators will find much of value through the use of comparative examples, literature reviews encompassing research in multiple national contexts, and an underlying awareness of the diversity of practices in higher education internationally. This book is a collection of articles previously published in two special issues of the Journal of Geography in Higher Education.

The Global Auction Phillip Brown, Hugh Lauder, David Ashton, 2012-07-05 For decades, the idea that more education will lead to greater individual and national prosperity has been a cornerstone of developed economies. Challenging this conventional wisdom, 'The Global Auction' forces us to reconsider our deeply held and mistaken views about how the global economy really works and how to thrive in it.
