A Muslim in Victorian America Umar F. Abd-Allah, 2006-09-21 Conflicts and controversies at home and abroad have led Americans to focus on Islam more than ever before. In addition, more and more of their neighbors, colleagues, and friends are Muslims. While much has been written about contemporary American Islam and pioneering studies have appeared on Muslim slaves in the

antebellum period, comparatively little is known about Islam in Victorian America. This biography of Alexander Russell Webb, one of the earliest American Muslims to achieve public renown, seeks to fill this gap. Webb was a central figure of American Islam during the late nineteenth and early twentieth centuries. A native of the Hudson Valley, he was a journalist, editor, and civil servant. Raised a Presbyterian, Webb early on began to cultivate an interest in other religions and became particularly fascinated by Islam. While serving as U.S. consul to the Philippines in 1887, he took a greater interest in the faith and embraced it in 1888, one of the first Americans known to have done so. Within a few years, he began corresponding with important Muslims in India. Webb became an enthusiastic propagator of the faith, founding the first Islamic institution in the United States: the American Mission. He wrote numerous books intended to introduce Islam to Americans, started the first Islamic press in the United States, published a journal entitled *The Moslem World*, and served as the representative of Islam at the 1893 World's Parliament of Religions in Chicago. In 1901, he was appointed Honorary Turkish Consul General in New York and was invited to Turkey, where he received two Ottoman medals of merits. In this first-ever biography of Webb, Umar F. Abd-Allah examines Webb's life and uses it as a window through which to explore the early history of Islam in America. Except for his adopted faith, every aspect of Webb's life was, as Abd-Allah shows, quintessentially characteristic of his place and time. It was because he was so typically American that he was able to serve as Islam's ambassador to America (and vice versa). As America's Muslim community grows and becomes more visible, Webb's life and the virtues he championed - pluralism, liberalism, universal humanity, and a sense of civic and political responsibility - exemplify what it means to be an American Muslim.

The Road to Dawn Jared A. Brock, 2018-05-15 A major literary moment: after being lost to history for more than a century, *The Road to Dawn* uncovers the incredible story of the real-life slave who inspired *Uncle Tom's Cabin*. -He rescued 118 enslaved people -He won a medal at the first World's Fair in London -Queen Victoria invited him to Windsor Castle -Rutherford B. Hayes entertained him at the White House -He helped start a freeman settlement, called Dawn, that was known as one of the final stops on the Underground Railroad -He was immortalized in Harriet Beecher Stowe's *Uncle Tom's Cabin*, the novel that Abraham Lincoln jokingly blamed for sparking the Civil War But before all this, Josiah Henson was brutally enslaved for more than forty years. Author-filmmaker Jared A. Brock retraces Henson's 3,000+ mile journey from slavery to freedom and re-introduces the world to a forgotten figure of the Civil War era, along with his accompanying documentary narrated by Hollywood actor Danny Glover. *The Road to Dawn* is a ground-breaking biography lauded by leaders at the NAACP, the Smithsonian, senators, authors, professors, the President of Mauritius, and the 21st Prime Minister of Canada, and will no doubt restore a hero of the abolitionist movement to his rightful place in history.

A Field Guide for Genealogists Judy Jacobson, 2001 *Families of Southeastern Georgia* is a reprint of the third and final volume of Dr. Averitt's 1964 publication, *Georgia's Coastal Plain: A History*, the volume that holds greatest importance for genealogists. Each of the roughly 1,000 sketches arranged here gives the subject's place and date of birth, his educational background and military service, and then his career, civic interests, church affiliation, hobbies, and so on. In almost every case, the author furnishes the names of the subject's parents, spouse, children, and spouse's parents, usually citing the subject's date of marriage and the dates or places of birth and death of at least these three generations of family members.

How to Use Microsoft Office XP Sherry Kinkoph, Jennifer Fulton, 2001 *How to Use Microsoft Office XP* is written by an expert in the field who is familiar

with how and what actual users need to know about Office. This book details the best tools, shortcuts and ways to accomplish the most common tasks in Office, and avoids the little-used features. The reader may work through the entire book, or dip into specific lessons or tasks that solve an immediate question or problem.

On Floods and Photo Ops Paul Martin Lester, 2010 A close study of the visual record left by political visits following disasters Presidents Herbert Clark Hoover and George Walker Bush were challenged many times during their political careers. *On Floods and Photo Ops: How Herbert Hoover and George W. Bush Exploited Catastrophes* focuses on the visual record of two such tests: the relief efforts led by Commerce Secretary Hoover during the 1927 Mississippi River flood and the Bush team's response to Hurricane Katrina. By concentrating on these two historic events, Paul Martin Lester discusses political photography, particularly the use of photo ops during catastrophes. He illuminates the evolution of a genre and explores the differences and similarities between these two American politicians. Hoover and Bush reached the pinnacle of political achievement, only to lose in the court of popular opinion. From two photo ops that occurred almost eighty years apart, Lester offers a model for close readings and comparisons of images in practicing visual history. Under Lester's examination, these otherwise unremarkable photographs speak volumes about political response to natural disasters. He offers readers not just a deeper appreciation of these pictures but a methodology for seriously studying photographs and what they can reveal about a historical moment. Paul Martin Lester is a professor of communications at California State University, Fullerton. He is the author of *Visual Communication: Images with Messages* and *Photojournalism: An Ethical Approach* and coeditor of *Images That Injure: Pictorial Stereotypes in the Media*.

Playing for God Annie Blazer, 2015-07-24 When sports ministry first emerged in the 1950s and 1960s, its founders imagined male celebrity athletes as powerful salespeople who could deliver a message of Christian strength: "If athletes can endorse shaving cream, razor blades, and cigarettes, surely they can endorse the Lord, too," reasoned Fellowship of Christian Athletes founder Don McClanen. But combining evangelicalism and sport did much more than serve as an advertisement for religion: it gave athletes the opportunity to think about the embodied experiences of sport as a way to experience intimate connection with the divine. As sports ministry developed, it focused on individual religious experiences and downplayed celebrity sales power, opening the door for female Christian athletes to join and eventually dominate sports ministry. Today, women are the majority of participants in sports ministry in the United States. In *Playing for God*, Annie Blazer offers an exploration of the history and religious lives of Christian athletes, showing that evangelical engagement with popular culture can carry unintended consequences. When sport became an avenue for embodied worship, it forced a reckoning with evangelical teachings about the body. Female Christian athletes increasingly turned to their own bodies to understand their religious identity, and in so doing, came to question evangelical mainstays on gender and sexuality. What was once a male-dominated masculinist project of sports engagement became a female-dominated movement that challenged evangelical ideas on femininity, marriage hierarchy, and the sinfulness of homosexuality. Though evangelicalism has not changed sporting culture, for those involved in sports ministry, sport has changed evangelicalism.

Musical AKAs Jeanette Marie Drone, 2007 There are many reasons for musical artists to write or compose under an assumed name: be it hiding or drawing attention to their ethnicity or gender, pursuing an additional career or genre, or writing a parody or humorous music. Often, nicknames are assigned to composers and lyricists, whether they want them or not. Whatever the reasons for these artists to use assumed names instead of or in addition to their own, this comprehensive resource has amassed and cataloged them. *Musical AKAs* is a wide-ranging index of assumed names and sobriquets of

approximately 9,800 composers, songwriters, lyricists, librettists, hymnists, and writers of music. More than 15,000 assumed names--whether legal name changes, pseudonyms, pen names, or nicknames--have been collected into one easy to reference listing. Author Jeanette Drone has assembled information from numerous music sources--including comprehensive and biographical dictionaries and encyclopedias, biographies, journals, Internet web sites, and print and online copyright sources--and organized them into this extensive four-part volume. Part I alphabetically lists the sources in which assumed names or sobriquets were found for three or more individuals. Part II lists alphabetically the original names of artists from both popular and classical music, detailing their assumed names and sobriquets, dates, occupations, source codes, and complete bibliographic citations for print and Internet sources. The pseudonyms are cataloged alphabetically in Part III, with references to the original names. Musical AKAs concludes with Part IV, offering additional explanatory information on both original and assumed names.
