The Women of Afghanistan Under the Taliban Rosemarie Skaine, 2010-06-28 Even though the people of Afghanistan in general suffered under the rule of the Taliban, women lived especially difficult lives, enduring terrible hardships. They were denied basic human rights, forced to wear veils and kept in seclusion. This work addresses the religion, revolution, and national identity of Afghan women and places them within their gender-political and religious-political roles, thus elevating our understanding of their abuse, imprisonment and murder, and offering a basis for their rehabilitation. Powerful and moving interviews with Afghan women conducted and translated by the Revolutionary Association of the Women of Afghanistan are presented and a brief history of the struggle of the Afghan women and an overview of the conflict between the Afghans and the Taliban are included.

Women's Rights in the Middle East and North Africa Sanja Kelly, Julia Breslin, 2010-07-16 Freedom House's innovative publication *Women's Rights in the Middle East and North Africa: Progress Amid Resistance* analyzes the status of women in the region, with a special focus on the gains and setbacks for women's rights since the first edition was released in 2005. The study presents a comparative evaluation of conditions for women in 17 countries and one territory: Algeria, Bahrain, Egypt, Iran, Iraq, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, Palestine (Palestinian Authority and Israeli-Occupied Territories), Qatar, Saudi Arabia, Syria, Tunisia, United Arab Emirates, and Yemen. The publication identifies the causes and consequences of gender inequality in the Middle East, and provides concrete recommendations for national and international policymakers and implementers. Freedom House is an independent nongovernmental organization that supports democratic change, monitors freedom, and advocates for democracy and human rights. The project has been embraced as a resource not only by international players like the United Nations and the World Bank, but also by regional women's rights organizations, individual activists, scholars, and governments worldwide. Women's rights in each country are assessed in five key areas: (1) Nondiscrimination and Access to Justice; (2) Autonomy, Security, and Freedom of the Person; (3) Economic Rights and Equal Opportunity; (4) Political Rights and Civic Voice; and (5) Social and Cultural Rights. The methodology is based on the Universal Declaration of Human Rights, and the study results are presented through a set of numerical scores and analytical narrative reports.

No Reason to Hide Erwin W. Lutzer, 2022-09-06 Will You Be Complicit, Complacent, or Courageous? In a culture with an ever-narrowing definition of tolerance, Christians can no longer stay silent about the divide between the Bible's truth and the world's lies. From bestselling author Dr. Erwin W. Lutzer, *No Reason to Hide* examines the toxic roots behind the alarming symptoms of a nation in spiritual freefall—and why your faith must empower you to engage rather than hide. As you read, you'll be equipped to defend your biblical beliefs with confidence and compassion. You'll also identify how you can respond to the battleground issues of today, including identity-driven social justice ideologies that seek to divide rather than unite cultural attacks on the definitions of sex and gender that turn language into a war progressive pushes within the church that ultimately desecrate the Bible's teachings A call for believers to standing firm in today's oppressive world, *No Reason to Hide* is a rallying reminder that will ready Christians everywhere to have the courage to proclaim Scripture's truth to a culture in desperate need of what only God can offer.

No Ordinary Angel Susan R. Garrett, 2008-01-01 In this provocative, intelligent, and highly original addition to the Anchor Yale Bible Reference Library, Susan R. Garrett argues that angel talk has never been merely about angels. Rather, from ancient times until the present, talk about angels has served as a vehicle for reflection on other fundamental life questions, including the nature of God's presence and intervention in the world, the existence and meaning of evil, and the fate of humans after death. In *No Ordinary Angel*, Garrett examines how biblical and other ancient authors addressed such questions through their portrayals of angels. She compares the ancient angel talk to popular depictions of angels today and considers how the ancient and modern portraits of angels relate to Christian claims about Jesus. *No Ordinary Angel* offers important insights into the development of angelology, the origins of Christology, and popular Western spirituality ranging from fundamentalist to New Age. In doing so, it provokes stimulating theological reflection on key existential questions.

No Exit from Pakistan Daniel S. Markey, 2013-10-07 This book tells the story of the tragic and often tormented relationship between the United States and Pakistan. Pakistan's internal troubles have already threatened US security and international peace, and Pakistan's rapidly growing population, nuclear arsenal, and relationships with China and India will continue to force it upon America's geostrategic map in new and important ways over the coming decades. This book explores the main trends in Pakistani society that will help determine its future; traces the wellsprings of Pakistani anti-American sentiment through the history of US-Pakistan relations from 1947 to 2001; assesses how Washington made and implemented policies regarding Pakistan since the terrorist attacks on the United States on September 11, 2001; and analyzes how regional dynamics, especially the rise of China, will likely shape US-Pakistan relations. It concludes with three options for future US strategy, described as defensive insulation, military-first cooperation, and comprehensive cooperation.

Famous — But No Children J. O. Raber, 2014-03-01 Do you have a right NOT to have children? Do we have a right NOT to be born? Choosing to remain 'child-free' or 'childless' is something that sparks various reactions - but not everyone has actually given it deep thought. The names and viewpoints discussed in this book may spur some thinking among those considering becoming parents, feminists, ecologists, the religious right, and the child-free community. The Internet is full of lists of people who are reported as not

having had children; some of these lists contain errors. Here, the author has added dates and places of birth and death, to aid in verification. Also, while most lists focus on contemporary celebrities, in this book, the author presents an original list painstakingly compiled over these past years; it is not a copy of anyone else's list of names, and contains mostly historic individuals, illustrating how many of our cultural and scientific landmarks are the gifts childless people have bequeathed to humanity.

No End in Sight Charles Ferguson, 2008-02-05 A ... chronicle of the reasons behind Iraq's descent into guerrilla war, warlord rule, criminality, and anarchy ... It features candid interviews with high-ranking officials ... as well as Iraqi civilians, American soldiers, intelligence officers, and prominent analysts... Together, these voices reveal the principal errors of U.S. policy -- using insufficient troop levels, allowing the looting of Baghdad, purging professionals from the Iraq government, and disbanding the Iraqi military -- errors that largely created the insurgency and chaos that engulf Iraq today. The book brings the movie up-to-date by evaluating the military's recent 'surge' tactic as well as current administration policy. It concludes with a wide-ranging debate on the crucial question: what do we do now?--P. [4] of cover.

TURKISH POLICY QUARTERLY - VOL. 19 - NO. 2 - SUMMER 2020 Baiba Braze, Gülnur Aybet, Steven Pifer, Giorgi Badridze, Wang Yiwei, Wu Xinze, Corneliu Bjola, Ilan Manor, Biljana Vankovska, Ulrich Kühn, Şaban Kardaş, Omar Al-Ubaydli, Lyu Jinghua, Gaurav Kalwani, Türksoy Emen, Emrah Yıldırımçakar, Roger Kelly, 2020-09-01 TPQ's Summer issue, NATO in 2020 and Beyond: New Strategies and Frontiers, offers insights on the Alliance's current challenges and future security trends, while offering a look into Euro-Atlantic relations in the coming decade. It is clear that as the international security landscape is rapidly changing, member states' capabilities, resilience, and most importantly, their commitment will be put to the test. In December 2019, NATO Leaders gathered in London to celebrate the Alliance's 70-year history and assess the current state of transatlantic bonds. A growing list of both internal and external issues that will continue to be important for NATO were discussed, including Russia's deployment of intermediate-range missiles, NATO's expansion policy, China's growing influence on the international stage, and strategic divisions among member states. The COVID-19 pandemic poses a particularly pressing challenge to NATO and its crisis response efforts. Headlining the Summer 2020 issue is NATO Assistant Secretary General Baiba Braze, whose article focuses on the Alliance's resilience in response to the COVID-19 pandemic. Underlining the importance of multilateralism in the face of global crises, Braze explains NATO's role in supporting wider efforts to fight the virus, while also critically preventing the health crisis from spawning security crises. Braze concludes by outlining NATO's 2030 vision, which prioritizes making the Alliance stronger politically, as well as extending its global reach. Discussing the future of the transatlantic relationship in a declining liberal world order, Senior Advisor to the President of Turkey Gülnur Aybet argues that the policies of certain allies have forced Turkey to become a "self-help" state. Aybet illustrates a revised and inclusive

liberal world order in which Turkey is understood in its own context, and thus, approached accordingly. Other topics taken up in this issue are the consequences of the INF Treaty's demise and NATO's digital public diplomacy efforts. Several of our authors discuss NATO's expansion policy, including North Macedonia's recent accession as the Alliance's 30th member and the prospective memberships of Ukraine and Georgia.

TURKISH POLICY QUARTERLY - VOL. 20 - NO. 2 - SUMMER 2021 Mircea Geoana, Jamie Shea, Aurel Sari, Hitoshi Nasu, Blake Herzinger, Carsten Schmiedl, Iulia-Sabina Joja, Victoria Samson, Daniel Sunter, Bayram Balçı, Sümbül Kaya, Osman Bahadır Dinçer, Büşra Nur Özgüler-Aktel, Mehmet Hecan, Tuba Eldem, Doğançhan Dağı, NATO is once again in the spotlight. A NATO summit concluded on Monday 14 June 2021 in Brussels, ending with important decisions charting the Alliance's path over the next decade and beyond. NATO has served as a pillar of stability and security for more than seven decades, while the world has become more complex, with a host of new players, threats, and challenges. Allied leaders endorsed an ambitious NATO 2030 agenda to ensure that NATO can meet the challenges of today and tomorrow. While the Alliance concluded to improve NATO's political consultations, collective defense, and resilience, leaders agreed upon providing better training and capacity building to its partners in order to stand up for the rules-based international order. In light of these commitments, TPQ's Summer 2021 issue serves as a starting point for a well-informed debate by synthesizing and comparing expert discourses from a wide range of NATO member and non-member states on key issues concerning NATO's future. As we address the issues at stake, we also seek a better mutual appreciation of divergent geographical, historical, and political perspectives. This special and timely issue has been published in collaboration with NATO, our longstanding partner. Mircea Geoana, NATO Deputy Secretary General, expresses that the security environment has never been more uncertain and contested than it is now, due to the emergence of global competition and a wide variety of complex threats. He underlines the importance of NATO summit in Brussels last June, at which the Alliance's leaders made bold decisions to adapt to a more unpredictable world and to ensure that its one billion people will be safe for the next decade and beyond. In his view, the Transatlantic Alliance will remain capable of coping with today's challenges and future-proof against ones yet to come through an ambitious and forward-looking agenda. When President Biden visited Brussels in June, he declared, America is back. According to Jamie Shea, a former Deputy Assistant Secretary General for Emerging Security Challenges at NATO, this also means that NATO is back, as Biden reaffirmed the U.S.' solemn commitment to the defense of its European allies and Washington's willingness to once again lead a transatlantic alliance that was heavily criticized during the Trump years. He writes that at first sight, this is all good news for NATO; but could it turn out to be a mixed blessing for the Europeans in the longer run? He analyzes whether the NATO 2030 initiative is up to the task and if it provides the right answers. Due to NATO's reliance on space assets for operational effectiveness and the increased vulnerabilities of those assets, the militarization of outer space presents a range of policy and legal challenges. Having to rely on space-based assets and services to conduct military operations has proven to be NATO's Achilles heel as rivals work on counter-space techniques. Aurel Sari, Associate Professor of International Law at University of Exeter and Hitoshi Nasu, Professor of International Law at University of Exeter ask given the vulnerability of space-based assets and services to hostile interference, under what circumstances the collective defense commitment as set out in Article 5 of the North Atlantic Treaty (NAT), arises in space.

Reply to Faustus the Manichaeon St. Augustine, A M Overett, 2018-08-04 Written about the year 400. [Faustus was undoubtedly

the acutest, most determined and most unscrupulous opponent of orthodox Christianity in the age of Augustin. The occasion of Augustin's great writing against him was the publication of Faustus' attack on the Old Testament Scriptures, and on the New Testament so far as it was at variance with Manichæan error. Faustus seems to have followed in the footsteps of Adimantus, against whom Augustin had written some years before, but to have gone considerably beyond Adimantus in the recklessness of his statements. The incarnation of Christ, involving his birth from a woman, is one of the main points of attack. He makes the variations in the genealogical records of the Gospels a ground for rejecting the whole as spurious. He supposed the Gospels, in their present form, to be not the works of the Apostles, but rather of later Judaizing falsifiers. The entire Old Testament system he treats with the utmost contempt, blaspheming the Patriarchs, Moses, the Prophets, etc., on the ground of their private lives and their teachings. Most of the objections to the morality of the Old Testament that are now current were already familiarly used in the time of Augustin. Augustin's answers are only partially satisfactory, owing to his imperfect view of the relation of the old dispensation to the new; but in the age in which they were written they were doubtless very effective. The writing is interesting from the point of view of Biblical criticism, as well as from that of polemics against Manichæism.--A.H.N.]

No Less Than Mystic John Medhurst, 2017-08-22 Published in the centenary year of the 1917 Russian Revolution, *No Less Than Mystic* is a fresh and iconoclastic history of Lenin and the Bolsheviks for a generation uninterested in Cold War ideologies and stereotypes. Although it offers a full and complete history of Leninism, 1917, the Russian Civil War and its aftermath, the book devotes more time than usual to the policies and actions of the socialist alternatives to Bolshevism – to the Menshevik Internationalists, the Socialist Revolutionaries (SRs), the Jewish Bundists and the anarchists. It prioritises Factory Committees, local Soviets, the Womens' Zhenotdel movement, Proletkult and the Kronstadt sailors as much as the statements and actions of Lenin and Trotsky. Using the neglected writings and memoirs of Mensheviks like Julius Martov, SRs like Victor Chernov, Bolshevik oppositionists like Alexandra Kollontai and anarchists like Nestor Makhno, it traces a revolution gone wrong and suggests how it might have produced a more libertarian, emancipatory socialism than that created by Lenin and the Bolsheviks. Although the book broadly covers the period from 1903 (the formation of the Bolsheviks and Mensheviks) to 1921 (the suppression of the Kronstadt rebellion) and explains why the Bolshevik Revolution degenerated so quickly into its apparent opposite, it continually examines the Leninist experiment through the lens of a 21st century, de-centralised, ecological, anti-productivist and feminist socialism. Throughout its narrative it interweaves and draws parallels with contemporary anti-capitalist struggles such as those of the Zapatistas, the Kurds, the Argentinean “Recovered Factories”, Occupy, the Arab Spring, the Indignados and Intersectional feminists, attempting to open up the past to the present and points in between. We do not need another standard history of the Russian Revolution. This is not one.
