**Can Latin America Compete?** J. Haar,J. Price,2008-01-21 Can Latin America compete? Many argue that the macroeconomic and trade reforms of the 1990s merely put a handsome coat of paint over education, labour, judicial, and administrative reforms that remain incomplete. This book identifies ten factors that most influence the competitiveness of Latin American nations and will shape their economic futures.

Mapping and Analysing Crime Data Alex Hirschfield,Kate Bowers,2003-09-02 One of the key methods of reducing and dealing with criminal activity is to accurately gauge and then analyse the geographical distribution of crime (from small scale to large scale areas). Once the police and government know what areas suffer most from criminal activity they can assess why this is the case and then deal with it in the most effective way. Crime mapping and the spatial analysis of crime data have become recognised as powerful tools for the study and control of crime. Much of the emerging demand for more information and detailed crime pattern analysis have been driven by legislative changes, such as the UK's new Crime and Disorder Act which has placed a joint statutory duty on Police Forces and Local Authorities to produce crime and disorder audits for their areas. The book sets out methods used in the fields of Geographical Information Systems and highlights areas of best practice, examines the types of problems to which spatial crime analysis can be applied, reviews the capabilities and limitations of existing techniques, and explores the future directions of spatial crime analysis and the need for training. It centres on a series of case studies highlighting the experiences of academics and practitioners in agencies centrally involved in the partnership approach to crime prevention. Practitioners and academics not only in the UK but also worldwide should be interested in the book as an up-to-date information resource and a practical guide.

**Recreation and Style** Brigid Maher,2011-05-18 This volume explores the translation of literary and humorous style, including comedy, irony, satire, parody and the grotesque, from Italian to English and vice versa. The innovative and interdisciplinary theoretical approach places the focus on creativity and playful rewriting as central to the translation of humour. Analysing translations of works by Rosa Cappelletto, Dario Fo, Will Self and Anthony Burgess, the author explores literary translation as a form of exchange between translated and receiving cultures. In a final case study she recounts her own strategies in translating the work of Milena Agus, exploring humour, creation and recreation from the perspective of the translator and demonstrating the benefits of critical engagement with both the theory and the practice of translation. This unique contribution to the study of humour and literary style in translation will be of interest to scholars of translation, humour, comparative literature, and literary and cultural studies.

*Beam of Malice* Alex Hamilton,2014-06-24 Hamilton's first collection of stories, *Beam of Malice*, contains some of his most unsettling tales and showcases his ability to relay the horror that springs from the familiar, from ordinary people finding their lives invaded by bizarre and disturbing occurrences.

Wyndham Lewis and British Art Rock Thomas Keller,2024-02-12 This study connects the idiosyncratic modernism of Wyndham Lewis, co-founder of the Vorticist art movement, with works of several artists from the British art rock tradition, among them Bryan Ferry, David Bowie, art-punk pioneers Wire and electronic pop musician John Foxx. By taking a transdisciplinary and intermedial approach to texts from two fields normally studied in isolation and staking out the elements of a shared modernist ethos, the book presents a new perspective on both fields relevant to scholars of literature, popular culture, and the visual arts alike. While the book rests on sound research from the fields of literary criticism, art history, and pop theory, the structure and writing of the book is fundamentally designed to be accessible and comprehensible to non-scholarly readers.

**The Ethics of Human Enhancement** Steve Clarke,Julian Savulescu,C. A. J. Coady,Alberto Giubilini,Sagar Sanyal,2016-10-13 We humans can

enhance some of our mental and physical abilities above the normal upper limits for our species with the use of particular drug therapies and medical procedures. We will be able to enhance many more of our abilities in more ways in the near future. Some commentators have welcomed the prospect of wide use of human enhancement technologies, while others have viewed it with alarm, and have made clear that they find human enhancement morally objectionable. The *Ethics of Human Enhancement* examines whether the reactions can be supported by articulated philosophical reasoning, or perhaps explained in terms of psychological influences on moral reasoning. An international team of ethicists refresh the debate with new ideas and arguments, making connections with scientific research and with related issues in moral philosophy.

*Cowrie Shells and Cowrie Money* Bin Yang, 2018-12-07 Originating in the sea, especially in the waters surrounding the low-lying islands of the Maldives, *Cypraea moneta* (sometimes confused with *Cypraea annulus*) was transported to various parts of Afro-Eurasia in the prehistoric era, and in many cases, it was gradually transformed into a form of money in various societies for a long span of time. Yang provides a global examination of cowrie money within and beyond Afro-Eurasia from the archaeological period to the early twentieth century. By focusing on cowrie money in Indian, Chinese, Southeast Asian and West African societies and shell money in Pacific and North American societies, Yang synthesises and illustrates the economic and cultural connections, networks and interactions over a *longue durée* and in a cross-regional context. Analysing locally varied experiences of cowrie money from a global perspective, Yang argued that cowrie money was the first global money that shaped Afro-Eurasian societies both individually and collectively. He proposes a paradigm of the cowrie money world that engages local, regional, transregional and global themes.

*Digital Media in Urban China* Wilfred Yang Wang, 2019-10-04 This book examines the use and culture of digital media in urban Chinese cities.

**YouTube** Jean Burgess, Joshua Green, 2013-04-16 YouTube is one of the most well-known and widely discussed sites of participatory media in the contemporary online environment, and it is the first genuinely mass-popular platform for user-created video. In this timely and comprehensive introduction to how YouTube is being used and why it matters, Burgess and Green discuss the ways that it relates to wider transformations in culture, society and the economy. The book critically examines the public debates surrounding the site, demonstrating how it is central to struggles for authority and control in the new media environment. Drawing on a range of theoretical sources and empirical research, the authors discuss how YouTube is being used by the media industries, by audiences and amateur producers, and by particular communities of interest, and the ways in which these uses challenge existing ideas about cultural 'production' and 'consumption'. Rich with both concrete examples and featuring specially commissioned chapters by Henry Jenkins and John Hartley, the book is essential reading for anyone interested in the contemporary and future implications of online media. It will be particularly valuable for students and scholars in media, communication and cultural studies.

**Teaching Science with Favorite Picture Books** Ann Flagg, Teri Ory, Mary Ory, 2002-02 Explains how to use fifteen science-based picture books to teach students in grades one through three the basic fundamentals of science; includes reproducibles and easy activities.

**Internet Video Culture in China** Marc L Moskowitz, 2019-05-08 Examining Internet culture in the People's Republic of China, Taiwan, Hong Kong, and the US, this book analyzes videos which entertain both English and Chinese-speaking viewers to gain a better understanding of cultural similarities and differences. Each of the chapters in the volume studies streaming videos from YouTube and its Chinese counterparts, Toutiao and Youku, with the book using a combination of interpretative analysis of content, commentary, and ethnographic interviews. Employing a diverse range of examples, from Michael Jackson musical mash-ups of Cultural Revolution visuals, to short clips of Hitler ranting about twenty-first century issues with Chinese subtitles, this book goes on to explore the ways in which traditional beliefs regarding gender, romance, religion, and politics intersect. Looking at how these issues have changed over the years in response to new technologies and political economies, it also demonstrates how they

engage in regional, transnational, and global dialogues. Comparing and incorporating the production of videos with traditional media, such as television and cinema, Internet Video Culture in China will be useful to students and scholars of Internet and digital anthropology, as well as Cultural Studies and Chinese Studies more generally.

**Sovereigns and Subjects in Early Modern Neo-Senecan Drama** Daniel Cadman, 2016-03-09 Sovereigns and Subjects in Early Modern Neo-Senecan Drama examines the development of neo-Senecan drama, also known as 'closet drama', during the years 1590-1613. It is the first book-length study since 1924 to consider these plays - the dramatic works of Mary Sidney, Samuel Daniel, Samuel Brandon, Fulke Greville, Sir William Alexander, and Elizabeth Cary, along with the Roman tragedies of Ben Jonson and Thomas Kyd - as a coherent group. Daniel Cadman suggests these works interrogate the relations between sovereigns and subjects during the early modern period by engaging with the humanist discourses of republicanism and stoicism. Cadman argues that the texts under study probe various aspects of this dynamic and illuminate the ways in which stoicism and republicanism provide essential frameworks for negotiating this relationship between the marginalized courtier and the absolute sovereign. He demonstrates how aristocrats and courtiers, such as Sidney, Greville, Alexander, and Cary, were able to use the neo-Senecan form to consider aspects of their limited political agency under an absolute monarch, while others, such as Brandon and Daniel, respond to similarly marginalized positions within both political and patronage networks. In analyzing how these plays illuminate various aspects of early modern political culture, this book addresses several gaps in the scholarship of early modern drama and explores new contexts in relation to more familiar writers, as well as extending the critical debate to include hitherto neglected authors.

**Ulysses** James Joyce, 2016-08-30 Ulysses chronicles the peripatetic appointments and encounters of Leopold Bloom in Dublin in the course of an ordinary day, 16 June 1904. Ulysses is the Latinised name of Odysseus, the hero of Homer's epic poem Odyssey, and the novel establishes a series of parallels between the poem and the novel, with structural correspondences between the characters and experiences of Leopold Bloom and Odysseus, Molly Bloom and Penelope, and Stephen Dedalus and Telemachus, in addition to events and themes of the early twentieth century context of modernism, Dublin, and Ireland's relationship to Britain. The novel imitates registers of centuries of English literature and is highly allusive. Ulysses' stream-of-consciousness technique, careful structuring, and experimental prose — full of puns, parodies, and allusions — as well as its rich characterisation and broad humour, made the book a highly regarded novel in the modernist pantheon. Joyce fans worldwide now celebrate 16 June as Bloomsday.

**Robbers on the Road** Melvin Burgess, 2003 An exciting tale, narrated from two very different perspectives, about two boys' efforts to become highwaymen to fool their school teacher. Further danger lies in store when they realize that they've strayed on to another robber's patch... By turns funny and thrilling - with an brilliant twist in the tale - this has all the hallmarks of a classic Melvin Burgess story. In addition, it's a story that explores a fast-changing period of history, and brings it vividly to life. As Melvin Burgess notes, 'Tensions between Britain and Spain were high, political talk was all of spies and treachery and war. Religion was a big issue - you could be imprisoned or worse for following the wrong faith.'

*Pentecostal and Holiness Statements on War and Peace* Jay Beaman, Brian K. Pipkin, 2013-08-30 Many Pentecostal groups have forgotten their legacy of war resistance and doctrinal history opposing killing. To rectify this loss, we have catalogued Holiness and Pentecostal denominational statements on war and peace. Numerous Holiness groups and virtually all early Pentecostal groups had some form of pacifist statement against war.

This antiwar collection gives us an almost uniform picture of the early Pentecostal movement as largely pacifist in orientation. The commonality of these statements across both Holiness and Pentecostal movements is evidence they are a continuous group and not two separate movements. While their early doctrines opposed killing, many named in this book are now widely considered to be stalwarts of the Religious Right, or at least staunch supporters of Christian participation in war. Our hope is that this book will frame the official position of early Pentecostals on war and peace, and encourage Pentecostals today to reflect on their antiwar heritage.
