Desertion and the American Soldier, 1776-2006 Robert Fantina, 2006 Despite the government's continued insistence on linking desertion with cowardice, the motivations for desertion are many and complex, and are either rooted in or encouraged by military policy. This history and analysis of military desertion from the Revolutionary War to Vietnam and the occupation of Iraq describes the official policies on desertion and how they have been implemented over time; problems in the military justice system; and the motivations for desertions. Comprehensive data and interviews with deserters are included.

America's Changing Neighborhoods [3 volumes] Reed Ueda, 2017-09-21 A unique panoramic survey of ethnic groups throughout the United States that explores the diverse communities in every region, state, and big city. Race, ethnicity, and immigrants' lives and identity: these are all key topics that Americans need to study in order to fully understand U.S. culture, society, politics, economics, and history. Learning about place through our own historical and contemporary neighborhoods is an ideal way to better grasp the important role of race and ethnicity in the United States. This reference work comprehensively covers both historical and contemporary ethnic and immigrant neighborhoods through A–Z entries that explore the places and people in every major U.S. region and neighborhood. *America's Changing Neighborhoods: An Exploration of Diversity* uniquely combines the history of ethnic groups with the history of communities, offering an interdisciplinary examination of the nation's makeup. It gives readers perspective and insight into ethnicity and race based on the geography of enclaves across the nation, in regions and in specific cities or localized areas within a city. Among the entries are nearly 200 neighborhood biographies that provide histories of local communities and their ethnic groups. Images, sidebars, cross-references at the end of each entry, and cross-indexing of entries serve readers conducting preliminary as well as in-depth research. The book's state-by-state entries also offer population data, and an appendix of ancestry statistics from the U.S. Census Bureau details ethnic and racial diversity.

Feminist Revolution in Literacy Junko Onosaka, 2013-10-14 This book examines the history of women's bookstores in the US from the 1970s to the 1990s. It establishes that women's bookstores played an important role in feminism by enabling the dissemination of women's voices and thereby helping to sustain and enrich the women's movement. They improved women's literacy - their abilities to read, write, publish, and distribute women's voices and visions - and helped women to instigate a feminist revolution in literacy.

Scapegoat of Shiloh Kevin Getchell, 2013-07-18 A great controversy surrounds General Lew Wallace at the Battle of Shiloh. General U.S. Grant blamed Wallace for the huge number of casualties the Union suffered, citing a dilatory march and poor choice of route to the battlefield. Wallace was obsessed with these accusations his entire life and wrote Ben-Hur as much to work through the injustice of being labeled a scapegoat as for literary aspirations. This book asserts that something entirely different may be at fault for the astonishing number of men lost. Overlooked in the history of the battle is Grant's own choice of a specific man to carry battle orders to Wallace, a mistake that might have made all the difference. This assertion is supported by newly discovered documents written by an obscure Wisconsin quartermaster as well as evidence in official records. The implications of this choice of messenger virtually vindicate Wallace. By also juxtaposing certain Confederate actions, this book explores the behind-the-scenes struggle during the Battle of Shiloh and its aftermath for the participants.

Bioenergy R. Navanietha Krishnaraj, Jong-Sung Yu, 2015-07-28 Energy is one of the prime needs of the modern world, and energy demands have been rapidly increasing in the recent years owing to rapid advancements in industrialization and population explosion. Conventional fossil fuels are being depleted at rapid rates, and the use of conventional sources such as coal or nuclear sources cause several hazards to the environment. New sources of fuel, such as bioenergy, are an ideal option for fulfilling ever-increasing energy demands. This important book offers an exploration of these alternate fuel sources, including biohydrogen, microbial fuel cells, bioethanol, and biodiesel production, focusing on the challenges and factors hindering the real-time application of these bioenergy sources. Researchers all over the world are working in this energy sector, and this has led to drastic improvements in bioenergy research. However, the technology gap between research and industrial application still exists. This important book offers engineers and technologists from different disciplines valuable information on this multifaceted field. The field of bioenergy is

interdisciplinary, requiring the knowledge of biologists, chemists, physicists, and engineers. Exploring the current trends and future prospects for biofuels, the information presented in this book will be valuable to the international industrial community for identifying new options to circumvent problems that exist in bioenergy applications. Topics include: • Thermophilic biohydrogen production • Bio-hydrogen production • Microbial fuel cells as a promising alternative energy source • Microbial fuel cell applications • Potential of *Pseudomonas putida* in producing bioethanol • Potential of lignocellulosic biofuels • Biodiesel production • Reactor designs for biodiesel production • Long-term storage stability of *Pongamia pinnata* and *Jatropha curcas* biodiesel

Charles Wright in Conversation Robert D. Denham, 2014-11-21 Because Charles Wright occupies a large space in contemporary American poetry, it is only natural that his readers over the years have wanted to engage him in

conversation and discover more about his career and inspirations. In this collection of richly detailed interviews conducted between 1979 and 2006, Wright eloquently discusses a range of topics, including the beginning of his poetic career in Italy, his experiences at the University of Iowa, the American and European influences on his work, contemporary poets he admires, his place in Southern literature, the art of translating poetry, and such formal matters as his lineation and rhythmic phrasing, his use of syllabics, and the development of his characteristic style. An extensive bibliography of writings by and about Wright supplements the interviews.

The Contemporary Narrative Poem Steven P. Schneider, 2012-12-15 Over the past thirty years, narrative poems have made a comeback against the lyric approach to poetry that has dominated the past century. Drawing on a decade of conferences and critical seminars on the topic, *The Contemporary Narrative Poem* examines this resurgence of narrative and the cultural and literary forces motivating it. Gathering ten essays from poet-critics who write from a wide range of perspectives and address a wide range of works, the collection transcends narrow conceptions of narrative, antinarrative, and metanarrative. The authors ask several questions: What formal strategies do recent narrative poems take? What social, cultural, and epistemological issues are raised in such poems? How do contemporary narrative poems differ from modernist narrative poems? In what ways has history been incorporated into the recent narrative poetry? How have poets used the lyric within narrative poems? How

do experimental poets redefine narrative itself through their work? And what role does consciousness play in the contemporary narrative poem? The answers they supply will engage every poet and student of poetry.

Exits and Entrances Frank Manchel, 2013-11-06 "A worthy successor to *Every Step a Struggle* . . . the contributions to American cinema of these determined and courageous rebels will never be forgotten." –Denise Youngblood, author of *Cinematic Cold War* While *Every Step a Struggle* recalled the performers who fought to give black artists a voice and a presence in film and on stage, this new ground-breaking book focuses on the personalities who replaced the pioneers and refused to abide by Jim Crow traditions. Presented against a detailed background of the revolutionary post-World War II era up to the mid-1970s, the individual views of Mae Mercer, Brock Peters, Jim Brown, Ivan Dixon, James Whitmore, William Marshall and Ruby Dee in heretofore unpublished conversations from the past reveal just how tumultuous and extraordinary the technological, political, and social changes were for

the artists and the film industry. Using extensive documentation, hundreds of films, and fascinating private recollections, Dr. Manchel puts a human face both on popular culture and race relations. "Using the method of oral history and the mature thinking of a senior scholar, Exits and Entrances enhances our understanding of the difficult slog to create a truthful, 'round' image of African-Americans in U.S. commercial films. This collection is a gold mine of information for future research and should be in all libraries which value film research." –Peter C. Rollins, Emeritus Editor-in-Chief of Film & History

Different Wavelengths Jo Reger, 2014-01-27 The original essays in this collection ground the shifting terrain of feminism in the 21st century. The contributors define and examine the complexity of the Third Wave by answering questions like: how appropriate is a third wave label for contemporary feminism; are the agendas of contemporary feminism and the second wave really all that different; does the wave metaphor accurately describe the difference between contemporary feminists and their predecessors; how do women of color fit into this notion of contemporary feminism; and what are the future directions of the feminist movement?
