A Pocketful of History Jim Noles, 2009-03-25 The U.S. Mint's Fifty State Quarters Program-its most ambitious program to date-has been a huge popular success. When the final state quarters are released in 2008, many thousands of individuals will have collected one commemorative quarter for each state in the Union. But what can we learn about our country's history and culture from 12.50 worth of quarters? A Pocketful of History tells the intriguing story behind each state's quarter: how each state chose its quarter's design; what is important about the people, scenes, or themes depicted on the coin; and what the collection tells us about how we view ourselves and our heritage. A Pocketful of History will guide readers on a fascinating journey through America's rich history of change.

The Baltic Republics Steven Otfinoski, 2014-05-14 Posed on the eastern edge of Russia, the Baltic republics of Estonia, Latvia, and Lithuania are among the smallest republics of the 15 countries of the former Soviet Union.

Collectively, however, they are the greatest success story of these once satellite states. They were the first Soviet states to break away and have achieved a successful transition from communism to democracy. The Baltic Republics begins with a detailed introduction to the common geography and history of the Baltic republics, followed by sections that explore the history, government, economy, culture, daily life, and cities of each individual nation. Providing a general assessment of the present problems and future solutions of the three Baltic republics this volume introduces readers to various aspects of life in these areas. The author emphasizes the success of these countries in the post-Soviet era and provides a broad historical overview that shows recent events in context. Accessible and up to date, The Baltic Republics is an ideal starting point for students researching the area.

Old Man's Playing Ground Gabriel M. Yanicki, 2014-03-27 When Hudson's Bay Company surveyor Peter Fidler made contact with the Ktunaxa at the Gap of the Oldman River in the winter of 1792, his Piikáni guides brought him to the river's namesake. These were the playing grounds where Napi, or Old Man, taught the various nations how to play a game as a way of making peace. In the centuries since, travellers, adventurers, and scholars have recorded several accounts of Old Man's Playing Ground and of the hoop-and-arrow game that was played there. Although it has been destroyed, much can be learned from an interdisciplinary study of Old Man's Playing Ground. Oral traditions

of the Piikáni and other First Nations of the Northwest Plains and Interior Plateau, together with textual records spanning centuries, show it to be a place of enduring cultural significance irrespective of its physical remains. Knowledge of the site and the hoop-and-arrow game played there is widespread, in keeping with historic and ethnographic accounts of multiple groups meeting and gambling at the site. In this work, oral tradition, history, and ethnography are brought together with a geomorphic assessment of the playing ground's most probable location—a floodplain scoured and rebuilt by floodwaters of the Oldman—and the archaeology of adjacent prehistoric campsite D1Po-8. Taken together, the locale can be understood as a nexus for cultural interaction and trade, through the medium of gambling and games, on the natural frontier between peoples of the Interior Plateau and Northwest Plains.

Alabama Musicians C.S. Fuqua,2011-09-15 In the late 1960s and early 1970s, legendary artists like Aretha Franklin, the Rolling Stones, Willie Nelson and Bob Dylan traveled to North Alabama to record with the Muscle Shoals Rhythm section, also known as the Swampers. But Alabama hasn't just attracted musical stars with its talent--it also has a history of creating stars of its own. Join author and musician C.S. Fuqua as he showcases the breadth of Alabama's musical talent through the profiles and stories of its historic performers and innovators. From the father of the blues, W.C. Handy, to Hank Williams, the originator of modern country music, to folk music hero Odetta and everyone in between, this is an unprecedented compendium of Alabama's groundbreaking music makers.

The Baltic as a Multicultural World Marko Lehti,2005 The end of the Cold War brought the Baltic Sea area into the limelight of political and cultural cooperation. Since then, the Baltic Sea area has gained a powerful position as a dynamic European sub-region. Still, like other similar kinds of areas defined by a sea or a river the Mediterranean world, the Black Sea, or the Danube the Baltic Sea area is hard to define and it has as many definitions as there are map-makers. The sea itself plays a central role but its influence is vague and always contingent. This book has sought to introduce multiple insights for focusing on the Baltic. All the contributions examine the question of the essence of the Baltic and the source of its unity and, in particular, concentrate on multi-culturality and multi-nationality in the Baltic context. Some of the contributions survey the whole Baltic Sea area, while others concentrate on the Baltic countries and some of them have found the Baltic in the limited environment of parish and town. The Baltic is comprehended as a label that opens stimulating possibilities for replacing nation-centrism with narratives of another kind extending beyond the current nation-states. This understanding provides opportunities for defining a

multi-ethnic, multi-lingual and multi-cultural region and the diversity of identities that has existed.

A Bibliography of the Malayan Campaign and the Japanese Period in West Malaysia, Singapore, and Borneo, 1941-1945 Justin J. Corfield, 2001 If there was an honour roll of bibliographies of the Malayan campaign and the Japanese occupation of Malaya, Singapore and Borneo, this work would come close to the top of the list. With over 4,000 entries, it is a formidable collection and there is no doubt that Justin Corfield's efforts will be valuable to scholars working on this important aspect of military as well as Malayan and Singapore history. Corfield has compiled a virtual treasure trove of hitherto seemingly untouched material in the form of original diaries and other unpublished personal accounts, including material not only in English and Dutch, but also in Malay and Chinese. Three indices greatly facilitate the looking up of entries.

A Continuous Revolution Barbara Mittler, 2020-03-17 Cultural Revolution Culture, often denigrated as nothing but propaganda, was liked not only in its heyday but continues to be enjoyed today. A Continuous Revolution sets out to explain its legacy. By considering Cultural Revolution propaganda art—music, stage works, prints and posters, comics, and literature—from the point of view of its *longue durée*, Barbara Mittler suggests it was able to build on a tradition of earlier art works, and this allowed for its sedimentation in cultural memory and its proliferation in contemporary China.

Taking the aesthetic experience of the Cultural Revolution (1966–1976) as her base, Mittler juxtaposes close readings and analyses of cultural products from the period with impressions given in a series of personal interviews conducted in the early 2000s with Chinese from diverse class and generational backgrounds. By including much testimony from these original voices, Mittler illustrates the extremely multifaceted and contradictory nature of the Cultural Revolution, both in terms of artistic production and of its cultural experience.

Bunk Kevin Young, 2017-11-14 Longlisted for the National Book Award for Nonfiction “There Kevin Young goes again, giving us books we greatly need, cleverly disguised as books we merely want. Unexpectedly essential.”—Marlon James Award-winning poet and critic Kevin Young tours us through a rogue’s gallery of hoaxers, plagiarists, forgers, and fakers—from the humbug of P. T. Barnum and Edgar Allan Poe to the unrepentant bunk of JT LeRoy and Donald J. Trump. Bunk traces the history of the hoax as a peculiarly American phenomenon, examining what motivates hucksters and makes the rest of us so gullible. Disturbingly, Young finds that fakery is woven from stereotype and suspicion, race being the most insidious American hoax of all. He chronicles how Barnum came to fame by displaying figures like Joice Heth, a black woman whom he pretended was the 161-year-old nursemaid to George Washington, and *What Is It?*, an African American man Barnum professed was a newly discovered missing link in evolution. Bunk then turns to the hoaxing of history and the

ways that forgers, plagiarists, and journalistic fakers invent backstories and falsehoods to sell us lies about themselves and about the world in our own time, from pretend Native Americans Grey Owl and Nasdijj to the deadly imposture of Clark Rockefeller, from the made-up memoirs of James Frey to the identity theft of Rachel Dolezal. In this brilliant and timely work, Young asks what it means to live in a post-factual world of “truthiness” where everything is up for interpretation and everyone is subject to a pervasive cynicism that damages our ideas of reality, fact, and art.
