Turning the Pages of American Girlhood Emily Hamilton-Honey,2013-01-30 Alternating chapters of historical background and literary analysis, this study argues that postbellum series books inspired young women by illustrating the ways in which girls could participate in social change, whether through church societies, benevolent organizations, educational institutions or political groups. By 1900, however, the socialization of series heroines had shifted to the consumer marketplace, where girls could develop personality and taste through their purchases. Both models had benefits: Religious faith and political activism gave young women moral power within their communities; consuming gave them opportunities to indulge individual desires and often to socialize in public without adult oversight. This work adds to the existing scholarship on girls' culture not only by

examining the beginnings of series fiction for girls and the models of womanhood it presented but also by tracing the shifting social ideologies of girlhood throughout the 19th and early 20th centuries.

Monuments as Cultural and Critical Objects Thomas Houlton,2021-11-25 Monuments as Cultural and Critical Objects explores monuments as political, psychical, social, and mystical objects. Incorporating autoethnography, psychoanalysis, deconstruction, postcolonialism, and queer ecology, Houlton argues for a radical, interdisciplinary approach to our monument-culture. Tracing historical developments in monuments alongside contemporary movements such as Rhodes Must Fall and Black Lives Matter, Houlton provides an in-depth critique of monument sites, as well as new critical and conceptual methodologies for thinking across the field. Alongside analysis of monuments to the Holocaust, colonial figures, and LGBTQIA+ subjects, this book provides new critical engagements with the work of D.W. Winnicott, Marion Milner, Jacques Derrida, Edward Said, Eve Sedgwick, and others. Houlton traces the potential for monuments to exert great influence over our sense of self, nation, community, sexuality, and place in the world. Exploring the psychic and physical spaces these objects occupy—their aesthetics, affects, politics, and powers—this book considers how monuments can challenge our identities, beliefs, and our very notions of remembrance. The interdisciplinary nature of Monuments as Cultural and Critical Objects means that it is ideally placed to intervene across several critical fields, particularly museum and heritage studies. It will also prove invaluable to those engaged in the study of monuments, psychoanalytic object relations, decolonization, queer ecology, radical death studies, and affect theory.

Pansy Meares Horace Wykeham Can Newte,2017-04-13 Excerpt from Pansy Meares: The Story of a London Shop Girl Pansy's grief would have again expressed itself in tears had not she held them back in order to see in the glass how black suited her. She had always avoided the colour as she was very dark, taking after her mother, also a West coun try woman, and of the Spanish type often to be met with in Devonshire sea-coast towns and villages. Blindsight Peter Watts, 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Little Pansy Mrs. Randolph, 1881

The Denver Artists Guild Stan Cuba, 2015-05-15 In 1928, the newly organized Denver Artists Guild held its inaugural exhibition in downtown Denver. Little did the participants realize that their initial effort would survive the Great Depression and World War II—and then outlive all of the group's fifty-two charter members. The guild's founders worked in many media and pursued a variety of styles. In addition to the oils and watercolors one would expect were masterful pastels by Elsie Haddon Haynes, photographs by Laura Gilpin, sculpture by Gladys Caldwell Fisher and Arnold Rönnebeck, ceramics by Anne Van Briggles Ritter and Paul St. Gaudens, and collages by Pansy Stockton. Styles included realism, impressionism, regionalism, surrealism, and abstraction. Murals by Allen True, Vance Kirkland, John E. Thompson, Louise Ronnebeck, and others graced public and private buildings—secular and religious—in Colorado and throughout the United States. The guild's artists didn't just contribute to the fine and decorative arts of Colorado; they enhanced the national reputation of the state. Then, in 1948, the Denver Artists Guild became the stage for a great public debate pitting traditional against modern. The twenty-year-old guild split apart as modernists bolted to form their own group, the Fifteen Colorado Artists. It was a seminal moment: some of the guild's artists became great modernists, while others remained great traditionalists. Enhanced by period photographs and reproductions of the founding members' works, The Denver Artists Guild chronicles a vibrant yet overlooked chapter of Colorado's cultural history. The book includes a walking tour of guild members' paintings and sculptures viewable in Denver and elsewhere in Colorado, by Leah Naess and author Stan Cuba. In honor of the book's release, the Byers-Evans House Gallery will showcase a collection of founding guild members' works starting June 26, 2015. The exhibit, also titled The Denver Artists Guild: Its Founding Members, contains paintings from artists such as the famed Paschal Quackenbush, Louise Ronnebeck, Albert Byron Olson, Elisabeth Spalding, Waldo Love and Vance Kirkland. The show will be on display through September 26, 2015.
