Current Issues in Educational Policy and the Law Kevin G. Welner,Wendy C. Chi,2008-02-01 Educational policy controversies in the United States invariably implicate legal issues. Policy debates about testing and school choice, for example, cannot be disentangled from legal rights and mandates. The same is true for issues such as funding, campus safety, speech and religion rights, as well as the teaching of immigrant students. Written for a general audience, this new twelve-chapter book explores these compelling educational policy issues through that legal lens, building an understanding of both law and policy. The book's editors are Kevin Welner, associate professor of educational policy at the University of Colorado at Boulder, and Wendy Chi, a doctoral candidate at Boulder. Both Welner and Chi are lawyers as well as educational scholars.

Northern Plains Native Americans Shane Balkowitsch,2023-10-17 North Dakotan Shane Balkowitsch's quest to take 1000 Native American wet-plates portraits in the present day is one step closer with this second volume. In this series of wet-plate collodion book of portraits of Northern Plains Native Americans, the photographer/author continues with his distinctive and unique presentation that is the only one to have ever been instigated or created for this particular group of Native Americans. The technique he uses, wet-plate collodion and the eye of the author align to present a masterful, unique, and respectful array that is sumptuous and compelling. Here the subjects are presented in their native garb, giving he subjects the opportunity explore their self-image, in a safe space where who they are how they see themselves are certain to be respected and admired. Wet-plate collodion is one of the earliest forms of photography. A wet-plate photographer makes a film based on a piece of glass or metal using collodion, submerges it in a silver nitrate solution to make it light sensitive, and then exposes the photograph usually in an old style wood bellows camera box and antique brass lens from the 1800's. The end result is a one-of-a-kind, archival object of art that will last many lifetimes. Shane and his Native American sitters have collaborated in the creation of a piece of contemporary history using classical methodology. The legacy he has created is indeed, who they were, what they were like, and what they did. There is nothing like it in the library of Native American portraiture in the modern era. The photographer's effort is to show that his subjects are still here--with their culture, dignity, and traditions.

Integrated Activism Alexis Zeigler,2013-08-13 How do peak oil, climate change, and the limits of growth affect abortion rights, income equality, and civil liberty? In this impassioned treatise, author and activist Alexis Zeigler reveals the hidden connections between ecology, economics, politics, and social justice—and shows us how to use these connections to effect real, long-lasting change. Most activist movements, says Zeigler, suffer from a kind of tunnel vision in which the true causes and resulting side effects of the desired change are left unexamined—rendering the movements shortsighted and unaware of their own long-term fallout. We cannot effectively address our problems in isolation or with ecological blinders on. Instead we must integrate our activism and ensure that all strategies and actions take into account the historically demonstrated fact that a society’s environmental resources ultimately define its level of freedom, fairness, and financial equity. Packed with surprising facts and eye-opening arguments, Integrated Activism is a must-read not only for every serious activist, but also for anyone looking for a solid, creditable philosophy and approach to building a fairer, freer, more sustainable future.

Color Blind Tom Dunkel,2013-04-02 “One of the great untold stories about baseball history, one that almost sounds too good to be true.” —Chicago Tribune A 2013 CASEY Award Finalist for Best Baseball Book of the Year When baseball swept America in the years after the Civil War, independent, semipro, and municipal leagues sprouted up everywhere. With civic pride on the line, rivalries were fierce and teams often signed ringers to play alongside the town dentist, insurance salesman, and teen prodigy. In drought-stricken Bismarck, North Dakota during the Great Depression, one of the most improbable teams in the history of baseball was assembled by one of the sport’s most unlikely champions. A decade before Jackie Robinson broke into the Major Leagues, car dealer Neil Churchill signed the best players he could find, regardless of race, and fielded an integrated squad that took on all comers in spectacular fashion. Color Blind immerses the reader in the wild and wonderful world of early independent baseball, with its tough competition and its novelty. Dunkel traces the rise of the Bismarck squad, focusing on the 1935 season and the first National Semipro Tournament. This is an entertaining, must-read for anyone interested in the history of baseball. “A tale as fantastic as it is true.” —The Boston Globe “It is funny, it is sad, it is spellbinding, required reading for anyone who loves baseball, who loves a vivid story well-told.” —Philadelphia Daily News

Dreams and Thunder Zitkala-Sa,2005-06-01 Zitkala-?a (Red Bird) (1876?1938), also known as Gertrude Simmons Bonnin, was one of the best-known and most influential Native Americans of the twentieth century. Born on the Yankton Sioux Reservation, she remained true to her indigenous heritage as a student at the Boston Conservatory and a teacher at the Carlisle Indian School, as an activist in turn attacking the Carlisle School, as an artist celebrating Native stories and myths, and as an active member of the Society of American Indians in Washington DC. All these currents of Zitkala-?a?s rich life come together in this book, which presents her previously unpublished stories, rare poems, and the libretto ofThe Sun Dance Opera.

Farming across Borders Timothy P. Bowman,Kristin Hoganson,Laura Hooton,Josh MacFadyen,Todd Meyers,Peter S Morris,Andrew Dunlop,Alicia Marion Dewey,John Weber,Sonia Hernández,Rosa E Cobos,Matt Caire-Pérez,Paige Raibmon,Jason McCollom,Thomas D Isern,Suzanne Kelley,Anthony Carlson,Stephen Mumme,Tisa Anders,2017-10-26 Farming across Borders uses agricultural history to connect the regional experiences of the American West, northern Mexico, western Canada, and the North American side of the Pacific Rim, now writ large into a broad history of the North American West. Case studies of commodity production and distribution, trans-border agricultural labor, and environmental change unite to reveal new perspectives on a historiography traditionally limited to a regional approach. Sterling Evans has curated nineteen essays to explore the contours of “big” agricultural history. Crops and commodities discussed include wheat, cattle, citrus, pecans, chiles, tomatoes, sugar beets, hops, henequen, and more. Toiling over such crops, of course, were the people of the North American West, and as such, the contributing authors investigate the role of agricultural labor, from braceros and Hutterites to women working in the sorghum fields and countless other groups in

between. As Evans concludes, “society as a whole (no matter in what country) often ignores the role of agriculture in the past and the present.” Farming across Borders takes an important step toward cultivating awareness and understanding of the agricultural, economic, and environmental connections that loom over the North American West regardless of lines on a map. In the words of one essay, “we are tied together . . . in a hundred different ways.”

U.S. Latinos and Criminal Injustice Lupe S. Salinas,2015-07-01 Latinos in the United States encompass a broad range of racial, socioeconomic, and sociopolitical identities. Originating from the Caribbean, Spain, Central and South America, and Mexico, they have unique justice concerns. The ethnic group includes U.S. citizens, authorized resident aliens, and undocumented aliens, a group that has been a constant partner in the Latino legal landscape for over a century. This book addresses the development and rapid growth of the Latino population in the United States and how race-based discrimination, hate crimes, and other prejudicial attitudes, some of which have been codified via public policy, have grown in response. Salinas explores the degrading practice of racial profiling, an approach used by both federal and state law enforcement agents; the abuse in immigration enforcement; and the use of deadly force against immigrants. The author also discusses the barriers Latinos encounter as they wend their way through the court system. While all minorities face the barrier of racially based jury strikes, bilingual Latinos deal with additional concerns, since limited-English-proficient defendants depend on interpreters to understand the trial process. As a nation rich in ethnic and racial backgrounds, the United States, Salinas argues, should better strive to serve its principles of justice.

Principles and Practice of Child and Adolescent Forensic Mental Health Elissa P. Benedek,Peter Ash,Charles L. Scott,2009-10-20 When care of younger patients raises thorny legal questions, you need answers you can trust: that's why this book belongs on every clinician's reference shelf. Principles and Practice of Child and Adolescent Forensic Mental Health is a timely and authoritative source that covers issues ranging from child custody to litigation concerns as it walks clinicians through the often-confusing field of depositions and courtroom testimony. The book expands on the 2002 volume Principles and Practice of Child and Adolescent Forensic Psychiatry winner of the 2003 Manfred S. Guttmacher Award, to meet pressing twenty-first-century concerns, from telepsychiatry to the Internet, while continuing to cover basic issues, such as forensic evaluation, psychological screening, and the interviewing of children for suspected sexual abuse, that are important to both new and experienced practitioners. Many of its chapters have been entirely rewritten by new authors to provide fresh insight into such topics as child custody; juvenile law; abuse, neglect, and permanent wardship cases; transcultural, transracial, and gay/lesbian parenting and adoption; and the reliability and suggestibility of children's statements. It also includes significant material not found in the previous volume: Two chapters on special education offer an introduction to screening instruments and help practitioners determine a child's potential need for special education programs and services. A chapter on cultural competence helps readers improve the accuracy and responsiveness of forensic evaluations and minimize the chance of an unjust outcome resulting from misguided expert opinion. The section on youth violence features three new chapters -- Taxonomy and Neurobiology of Aggression, Prevention of School Violence, and Juvenile Stalkers -- plus a newly written chapter on assessment of violence risk, offering guidance on how to confront problems such as bullying and initiate effective family interventions. A chapter on psychiatric malpractice and professional liability addresses these legal concerns with an eye toward cases involving minors. A chapter on psychological autopsy covers evaluation of the circumstances surrounding pediatric suicides, describing various types of equivocal deaths and discussing legal issues such as admissibility of the autopsy in court. A newly written chapter on the Internet expands the previous book's focus on child pornography to help practitioners deal with issues ranging from online threats to emotional and legal consequences of interactions in cyberspace. This is a valuable reference not only for practitioners in psychiatry and the mental health field but also for attorneys and judges. It opens up a field that may be too often avoided and helps professionals make their way through legal thickets with confidence.

Perspectives on Presidential Leadership Michael Patrick Cullinane,Clare Frances Elliott,2014-02-18 In 2011 Barack Obama invited ten distinguished biographers to the White House to ask them one question: which past American president should I emulate? This was not the first time Obama asked scholars this, but the answer he received would differ as presidential legacies waxed and waned. In 2008 Obama chose Lincoln; in 2009, Reagan; and in 2010, Theodore Roosevelt. Perspectives on Presidential Leadership is an examination of presidential legacy, and in particular an analysis of the first ever UK ranking of American presidents which took place in 2011. In thirteen chapters, thirteen individual presidential administrations are assessed. Some presidents have been considered a success, others a failure; both types are featured in these thirteen case studies in a measured attempt to understand how the perception of presidential leadership evolves, shifts, and contorts across three centuries of American politics. The case studies also derive from the expertise of the collected British, Irish and Canadian authors, all of whom are leading scholars in their fields, and many of which took part in the 2011 survey. At a time when understanding presidential legacy is in high demand, this book offers a unique international perspective. Through extended commentary and inter-disciplinary study of the UK perspective it provides groundbreaking research.
