Strengthening Forensic Science in the United States National Research Council, Division on Engineering and Physical Sciences, Committee on Applied and Theoretical Statistics, Policy and Global Affairs, Committee on Science, Technology, and Law, Committee on Identifying the Needs of the Forensic Sciences Community, 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable

best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Keeping Hold of Justice Jennifer Balint, Julie Evans, Nesam McMillan, Mark David

McMillan, 2020-02-19 Keeping Hold of Justice focuses on a select range of encounters between law and colonialism from the early nineteenth century to the present. It emphasizes the nature of colonialism as a distinctively structural injustice, one which becomes entrenched in the social, political, legal, and discursive structures of societies and thereby continues to affect people's lives in the present. It charts, in particular, the role of law in both enabling and sustaining colonial injustice and in recognizing and redressing it. In so doing, the book seeks to demonstrate the possibilities for structural justice that still exist despite the enduring legacies and harms of colonialism. It puts forward that these possibilities can be found through collaborative methodologies and practices, such as those informing this book, that actively bring together different disciplines, peoples, temporalities, laws and ways of knowing. They reveal law not only as a source of colonial harm but also as a potential means of keeping hold of

justice.

Why Women Rebel Alexis Leanna Henshaw, 2016-12-08

Why Women Rebel presents a global analysis of the extent to which women are engaged in armed, organized rebellions, and why they choose to join such rebellions. Henshaw has collected and analyzed data on women's participation in over 70 post-Cold War rebel groups. The book provides a theoretical analysis drawing upon both mainstream literature in the social sciences and critical, feminist inquiry on women and political violence to offer a new gendered theory on why women rebel. The book reveals that women are active in over half of all rebel groups sampled and that, while the majority of rebel groups have women serving in support roles away from direct combat, approximately a third of these groups employ women in the conduct of armed attacks, and just over a quarter have women in a leadership capacity. Henshaw reaffirms the idea that women are more likely to be engaged in left-wing political organizations, but does suggest that more conservative or traditional movements may also successfully incorporate women by appealing to concerns about community rights. Addressing

several gaps in the current literature on this topic, this book will be of interest to academics in the fields of political science, international relations, security studies, and gender and women's studies.

Teachers as Mediators in the Foreign Language Classroom Michelle Kohler, 2015-01-12 Language teachers are key figures in preparing young people for participation in an increasingly multilingual and culturally diverse world, yet little is known about how they go about this in practice. This book uses examples of classroom interaction to reveal how teachers of languages act as intercultural mediators and the implications of this for practice. To date, there has been little exploration of how teachers mediate language and culture learning from an intercultural perspective, and what underlies their mediation practices in terms of their conceptions of intercultural language teaching and learning. This book offers an account of what teachers are thinking, feeling and doing as they enact an intercultural perspective on language teaching and learning.

Women Suicide Bombers V. G. Julie Rajan, 2011-08-26 This book offers an evaluation of female suicide bombers through postcolonial, Third World, feminist, and human-rights framework, drawing on case studies from conflicts in

Palestine, Sri Lanka, and Chechnya, among others. *Women Suicide Bombers* explores why cultural, media and political reports from various geographies present different information about and portraits of the same women suicide bombers. The majority of Western media and sovereign states engaged in wars against groups deploying bombings tend to focus on women bombers' abnormal mental conditions; their physicality-for example, their painted fingernails or their beautiful eyes; their sexualities; and the various ways in which they have been victimized by their backward Third World cultures, especially by Islam. In contrast, propaganda produced by rebel groups deploying women bombers, cultures supporting those campaigns, and governments of those nations at war with sovereign states and Western nations tend to project women bombers as mythical heroes, in ways that supersedes the martyrdom operations of male bombers. Many of the books published on this phenomenon have revealed interesting ways to read women bombers' subjectivities, but do not explore the phenomenon of women bombers both inside and outside of their militant activities, or against the patriarchal, Orientalist, and Western feminist cultural and theoretical frameworks that label female bombers primarily as victims of backward cultures. In contrast, this book offers a corrective lens to the existing discourse, and encourages a more balanced evaluation of women bombers in contemporary conflict. This book will be of interest to students of terrorism, gender studies and security studies in general.

Season of Terror Charles F. Price, 2013-06-01

Season of Terror is the first book-length treatment of the little-known true story of the Espinosas—serial murderers with a mission to kill every Anglo in Civil War-era Colorado Territory—and the men who brought them down. For eight months during the spring and fall of 1863, brothers Felipe Nerio and José Vivián Espinosa and their young nephew, José Vincente, New Mexico-born Hispanos, killed and mutilated an estimated thirty-two victims before their rampage came to a bloody end. Their motives were obscure, although they were members of the Penitentes, a lay Catholic brotherhood devoted to self-torture in emulation of the sufferings of Christ, and some suppose they believed themselves inspired by the Virgin Mary to commit their slaughters. Until now, the story of their rampage has been recounted as lurid melodrama or ignored by academic historians. Featuring a fascinating array of frontier characters, Season of Terror exposes this neglected truth about Colorado's past and examines the ethnic, religious, political, military, and moral complexity of the controversy that began as a regional incident but eventually demanded the attention of President Lincoln.

Cat Island John Cuevas, 2014-01-10 Just off the coast of the Gulf Islands National Seashore lies Cat Island, an isolated, T-shaped sliver of sand with a remarkable past. A coveted hiding place for Jean Lafitte's pirate treasure in the late eighteenth century and illegal booze during Prohibition, Cat Island also witnessed the first shots of the Battle of New Orleans, an encampment for Seminoles during the Trail of Tears and the

first lighthouses on the Mississippi coast. As a child, author John Cuevas learned that his family had owned and lived on the island for three generations beginning with his ancestor, Juan de Cuevas, referred to as "The King of Cat Island," who received it by way of a Spanish land grant. In this engaging work, Cuevas chronicles the historic events that occurred on the island's shores and offers a tribute to the legacy of one of the Gulf Coast's pioneer families.

Teaching Young Learners in a Superdiverse World Heather Lotherington, Cheryl Paige, 2017-04-07
This book documents a collaborative action research project in one school where researchers and practitioners worked together to develop multimodal literacies and pedagogies for diverse, multilingual elementary classrooms. Following chronologically from Lotherington's *Pedagogy of Multiliteracies* (2011), this volume picks up after teachers and researchers have learned how to work efficiently as a learning community to offer project-based learning approaches. This edited collection relates how teachers and students of different grade levels, language backgrounds, and abilities developed a shared agenda and created a framework for effective and inclusive practices. Contributors demonstrate that collaboration, creative pedagogical solutions and innovative

project-based learning are all essential parts of learning and teaching socially appropriate and responsive literacies in a multimodal, superdiverse world.

Public Administration and Law David H.

Rosenbloom, Rosemary O'Leary, Joshua Chanin, 2017-09-25 Since the first edition of Public Administration and Law was published in 1983, it has retained its unique status of being the only book in the field of public administration that analyzes how constitutional law regulates and informs the way administrators interact with each other and the public. Examining First, Fourth, Fifth, Eighth, and Fourteenth Amendment rights as they pertain to these

encounters, it explains how public administrators must do their jobs and how administrative systems must operate in order to comply with constitutional law. Explores the conflicts between laws The book begins by presenting a historical account of the way constitutional and administrative law have incrementally retrofitted public agencies into the nation's constitutional design. It examines the federal judiciary's impact on federal administration and the effect of the nation's myriad environmental laws on public administration. Next, it focuses on the role of the individual as a client and customer of public agencies. In a discussion of the Fourth Amendment, it examines street-level encounters between citizens and law enforcement agents. Responding to the rise of the new public management (NPM), it also adds, for the first time in this edition, a chapter that analyzes the rights of the individual not only as a government employee but also as a government contractor. Enhanced with numerous references The final chapters of the book address issues concerning the rights of inmates in administrative institutions and balancing the need to protect individual rights with the ability of agencies to function effectively. Supplemented with case citations and lists of articles, books, and documents, this text is designed to facilitate further study in a constantly evolving area. About the Authors: David H. Rosenbloom, Ph.D. is Distinguished Professor of Public Administration in the School of Public Affairs at American University in Washington, D.C., and Chair Professor of Public Management at City University

of Hong Kong. Rosemary O’Leary, Ph.D., J.D. is Distinguished Professor of Public Administration and the Howard G. and S. Louise Phanstiel Chair in Strategic Management and Leadership at Syracuse University. Joshua M. Chanin, M.P.A., J.D. is a Ph.D. candidate in Public Administration and Justice, Law, and Society in the School of Public Affairs at American University in Washington, D.C.
