CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students, researchers and practitioners in all of the social and language-related sciences carefully selected book-length publications dealing with sociolinguistic theory, methods, findings and applications. It approaches the study of language in society in its broadest sense, as a truly international and interdisciplinary field in which various approaches, theoretical and empirical, supplement and complement each other. The series invites the attention of linguists, language teachers of all interests, sociologists, political scientists, anthropologists, historians etc. to the development of the sociology of language.

Intellectuals in Politics Jeremy Jennings,Tony Kemp-Welch,2013-04-15 After an introduction to the major issues confronting intellectuals, this book explores the various aspects of the intellectual's role including: * philosophers and academics who have tried to define the function of the intellectual * how intellectuals have assumed the status of the conscience of the nation and the voice of the oppressed * the interaction of intellectuals with Marxism * the place of the intellectual in American society Covering regions as diverse as Israel, Algeria, Britain, Ireland, central Europe and America, this collection considers the question of whether the intellectual can still lay claim to the language of truth. In answering, this study tells us much about the modern world in which we live. Coverage includes the following thinkers: Gramsci, Weber, Yeats, Auden, Levy, Mailer, Walzer, Marx and many more.

Intellectuals in Politics Nissan Oren,1984 Modern politics has ushered in the era of the professional adviser, the expert co-

opted from the world of ideas and the world of actions. From Woodrow Wilson through the Carter administration the increasing presence of intellectuals in the making of national and international policy has highlighted the interdependence between the practice of statecraft and the study of statecraft. What are the moral responsibilities, the social obligations, the philosophical motivations of members of the community of scholars brought into contact with the political destinies of entire nations? What happens when expertise meets power? These are some of the thoughts presented here in the collection of essays by eight leading intellectuals.
