Business and Consumer Analytics: New Ideas Pablo Moscato, Natalie Jane de Vries, 2019-05-30 This two-volume handbook presents a collection of novel methodologies with applications and illustrative examples in the areas of data-driven computational social sciences. Throughout this handbook, the focus is kept specifically on business and consumer-oriented applications with interesting sections ranging from clustering and network analysis, meta-analytics, memetic algorithms, machine learning, recommender systems methodologies, parallel pattern mining and data mining to specific applications in market segmentation, travel, fashion or entertainment analytics. A must-read for anyone in data-analytics, marketing, behavior modelling and computational social science, interested in the latest applications of new computer science methodologies. The chapters are contributed by leading experts in the associated fields. The chapters cover technical aspects at different levels, some of which are introductory and could be used for teaching. Some chapters aim at building a common understanding of the methodologies and recent application areas including the introduction of new theoretical results in the complexity of core problems. Business and marketing professionals may use the book to familiarize themselves with some important foundations of data science. The work is a good starting point to establish an open dialogue of communication between professionals and researchers from different fields. Together, the two volumes present a number of different new directions in Business and Customer Analytics with an emphasis in personalization of services, the development of new mathematical models and new algorithms, heuristics and metaheuristics applied to the challenging problems in the field. Sections of the book have introductory material to more specific and advanced themes in some of the chapters, allowing the volumes to be used as an advanced textbook. Clustering, Proximity Graphs, Pattern Mining, Frequent Itemset Mining, Feature Engineering, Network and Community Detection, Network-based Recommending Systems and Visualization, are some of the topics in the first volume. Techniques on Memetic Algorithms and their applications to Business Analytics and Data Science are surveyed in the second volume; applications in Team Orienteering, Competitive Facility-location, and Visualization of Products and Consumers are also discussed. The second volume also includes an introduction to Meta-Analytics, and to the application areas of Fashion and Travel Analytics. Overall, the two-volume set helps to describe some fundamentals, acts as a bridge between different disciplines, and presents important results in a rapidly moving field combining powerful optimization techniques allied to new mathematical models critical for personalization of services. Academics and professionals working in the area of business analytics, data science, operations research and marketing will find this handbook valuable as a reference. Students studying these fields will find this handbook useful and helpful as a secondary textbook.

Scientific Criteria to Ensure Safe Food National Research Council, Institute of Medicine, Division on Earth and Life Studies, Board on Agriculture and Natural Resources, Food and Nutrition Board, Committee on the Review of the Use of Scientific Criteria and Performance Standards for Safe Food, 2003-09-29 Food safety regulators face a daunting task: crafting food safety performance standards and systems that continue in the tradition of using the best available science to protect the health of the American public, while working within an increasingly

antiquated and fragmented regulatory framework. Current food safety standards have been set over a period of years and under diverse circumstances, based on a host of scientific, legal, and practical constraints. Scientific Criteria to Ensure Safe Food lays the groundwork for creating new regulations that are consistent, reliable, and ensure the best protection for the health of American consumers. This book addresses the biggest concerns in food safety—including microbial disease surveillance plans, tools for establishing food safety criteria, and issues specific to meat, dairy, poultry, seafood, and produce. It provides a candid analysis of the problems with the current system, and outlines the major components of the task at hand: creating workable, streamlined food safety standards and practices.

Their Fathers' God Ole Edvart Rølvaag, 1983-01-01 Susie Doheny, an Irish Catholic, and Peder Holm, a Norwegian Lutheran, fall in love and marry in South Dakota in the 1890s. Soon their marriage is tested by drought, depression, and family bickering. Susie believes they are being tested by their fathers' God. Peder blames Susie for the timidity of her beliefs; Susie fears Peder's pride and skepticism. When political antagonism grows between the Norwegian and Irish immigrant communities, it threatens to split their marriage. Against a backdrop of hard times, crisscrossed by Populists, antimonopolists, and schemers, Rølvaag brings the struggle of immigrants into the twentieth century. In *Giants in the Earth* the Holm family strained to wrest a homestead from the land. In *Peder Victorious* the American-born children searched for a new national identity, often defying the traditions their parents fought to uphold. In *Their Fathers' God*, Rølvaag's most soul-searching novel, the first-generation Americans enter a world of ruthless competition in the midst of scarcity. The University of Nebraska Press also publishes *Peder Victorious* and Paul Reigstad's Rølvaag: His Life and Art.

Risk Governance of Offshore Oil and Gas Operations Preben Hempel Lindøe, Michael Baram, Ortwin Renn, 2014 This book evaluates and compares risk regulation and safety management for offshore oil and gas operations in the United States, United Kingdom, Norway, and Australia. It provides an interdisciplinary approach with legal, technological, and sociological perspectives on their efforts to assess and prevent major accidents and improve safety performance offshore. Presented in three parts, the volume begins with a review of the technical, legal, behavioral, and sociological factors involved in designing, implementing, and enforcing a regulatory regime for industrial safety. It then evaluates the four regulatory regimes that encompass the cultural, legal, and other contextual factors that influence their design and implementation, along with their reliance on industrial expertise and standards and the use of performance indicators. The final section presents an assessment of the resilience of the Norwegian regime and its capacity to keep pace with new technologies and emerging risks, respond to near miss incidents, encourage safety culture, incorporate vested rights of labor, and perform inspection and self-audit functions. This book is highly relevant for those in government, business, academia, and elsewhere in civil society who are involved in offshore safety issues, including regulatory authorities and industrial safety professionals.

Gudrun's Kitchen Irene O. Sandvold, Edward O. Sandvold, Quinn E. Sandvold, Ingeborg Hydle Baugh, 2012-05-29 The

youngest of a large Norwegian immigrant family, Gudrun Thue Sandvold was known for her beaming blue eyes and a reserve that gave way to laughter whenever she got together with her sisters. She took immeasurable pride in her children and grandchildren, kept an exquisite home, and turned the most mundane occasion into a party. And to all who knew her, Gudrun's cooking was the stuff of legend. Part cookbook, part immigrant story, and part family memoir, Gudrun's Kitchen features hundreds of Gudrun Sandvold's recipes for comfort food from a time when families and friends gathered at the table and connected with one another every single day. But this book is much more than a guide to Norwegian culinary traditions; it is an important contribution to immigrant history and a vital documentation of our nation's multicultural heritage.

Funology 2 Mark Blythe, Andrew Monk, 2018-07-20 How should we understand and design for fun as a User Experience? This new edition of a classic book is for students, designers and researchers who want to deepen their understanding of fun in the context of HCI. The 2003 edition was the first book to do this and has been influential in broadening the field. It is the most downloaded book in the Springer HCI Series. This edition adds 14 new chapters that go well beyond the topics considered in 2003. New chapter topics include: online dating, interactive rides, wellbeing, somaesthetics, design fiction, critical design and participatory design methods. The first edition chapters are also reprinted, with new notes by their authors setting the context in which the 2003 chapter was written and explaining the developments since then. Taken with the new chapters this adds up to a total of 35 theoretical and practical chapters written by the most influential thinkers from academia and industry in this field.

Advanced Technologies for Meat Processing Fidel Toldrá, Leo M. L. Nollet, 2017-10-10 As with the first edition, the main goal of Advanced Technologies for Meat Processing is to provide the reader with recent developments in new advanced technologies for the full meat- processing chain. This book is written by distinguished international contributors with recognized expertise and excellent reputations, and brings together all the advances in a wide and varied number of technologies that are applied in different stages of meat processing. This second edition contains 21 chapters, combining updated and revised versions of several chapters with entirely new chapters that deal with new online monitoring techniques like hyperspectral imaging and Raman spectroscopy, the use of nanotechnology for sensor devices or new packaging materials and the application of omics technologies like nutrigenomics and proteomics for meat quality and nutrition. The book starts with the control and traceability of genetically modified farm animals, followed by four chapters reporting the use of online non-destructive monitoring techniques like hyperspectral imaging and Raman spectroscopy, real-time PCR for pathogens detection,

and nanotechnology-based sensors. Then, five chapters describe different advanced technologies for meat decontamination, such as irradiation, hydrostatic and hydrodynamic pressure processing, other non-thermal technologies, and the reduction in contaminants generation. Nutrigenomics in animal nutrition and production is the object of a chapter that is followed by five chapters dealing with nutritional-related issues like bioactive peptides, functional meats, fat and salt reduction, processing of nitrite-free products, and the use of proteomics for the improved processing of dry-cured meats. The last four chapters are reporting the latest developments in bacteriocins against meat-borne pathogens, the functionality of bacterial starters, modified atmosphere packaging and the use of new nanotechnology-based materials for intelligent and edible packaging.

Gender Linda Brannon, 2016-12-19 *Gender: Psychological Perspectives* synthesizes the latest research on gender to help students think critically about the differences between research findings and stereotypes, provoking them to examine and revise their own preconceptions. The text examines the behavioral, biological, and social context in which women and men express gendered behaviors. The text's unique pedagogical program helps students understand the portrayal of gender in the media and the application of gender research in the real world. Headlines from the news open each chapter to engage the reader. Gendered Voices present true personal accounts of people's lives. According to the Media boxes highlight gender-related coverage in newspapers, magazines, books, TV, and movies, while According to the Research boxes offer the latest scientifically based research to help students analyze the accuracy and fairness of gender images presented in the media. Additionally, Considering Diversity sections emphasize the cross-cultural perspective of gender. This text is intended for undergraduate or graduate courses on the psychology of gender, psychology of sex, psychology of women or men, gender issues, sex roles, women in society, and women's or men's studies. It is also applicable to sociology and anthropology courses on diversity. Seventh Edition Highlights: 12 new headlines on topics ranging from gender and the Flynn effect to gender stereotyping that affects men Coverage of gender issues in aging adults and transgendered individuals Expanded coverage of diversity issues in the US and around the globe, including the latest research from China, Japan, and Europe More tables, figures, and photos to provide summaries of text in an easy-to-absorb format End-of-chapter summaries and glossary Suggested readings for further exploration of chapter topics Companion website at www.routledge.com/cw/Brannon containing both instructor and student resources

Urban Structure Matters Petter Naess, 2006-09-27 Going beyond previous investigations into urban land use and travel, Petter Næss presents new research from Denmark on residential location and travel to show how and why urban spatial structures affect people's travel behaviour. In a comprehensive case study of the Copenhagen metropolitan area, Næss combines traditional quantitative travel surveys with qualitative interviews in order to identify the more detailed mechanisms through which urban structure affects travel behaviour. The case study

findings are compared with those from other Nordic countries and analyzed and evaluated in the light of relevant theory and literature to provide solid, valuable conclusions for planning sustainable urban development. With a broader range of statistics than previous studies and conclusions of international relevance, Urban Structure Matters provides well-grounded conclusions for how spatial planning of urban areas can be used to reduce car dependence and achieve a more sustainable development of cities.

Marketing in Transition: Scarcity, Globalism, & Sustainability Colin L. Campbell, 2015-06-03 This volume includes the full proceedings from the 2009 World Marketing Congress held in Oslo, Norway with the theme Marketing in Transition: Scarcity, Globalism, & Sustainability. The focus of the conference and the enclosed papers is on marketing thought and practices throughout the world. This volume resents papers on various topics including marketing management, marketing strategy and consumer behavior. Founded in 1971, the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory, research and practice. Among its services to members and the community at large, the Academy offers conferences, congresses and symposia that attract delegates from around the world. Presentations from these events are published in this Proceedings series, which offers a comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting-edge research and insights, complimenting the Academy's flagship journals, the Journal of the Academy of Marketing Science (JAMS) and AMS Review. Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science.

African Predators M. G. L. Mills, Martin Harvey, 2001 The large carnivores reign supreme in the African wild - superior, powerful, skillful and feared. From the big cats to the endangered wild dog and Ethiopian wolf, the often-maligned hyenas and the opportunistic jackel, these hunters captivate, fascinate and excite, and provide the raw drama of Africa, sought after by many wildlife lovers. This text brings many years of study and practical research in revealing the origins, the present struggle for survival and the uncertain future of Africa's predatory mammals. The examination of their behaviour, social make-up, relations and interactions is supported by dramatic photography.

Emerging Approaches in Design and New Connections With Nature Özdamar, Esen Gökçe, Tando?an, Ok?an, 2021-12-03 In today's changing and transforming socio-economic, political, cultural, and technological paradigms, we encounter many methodologies, approaches, proposals, and practices in reconsidering the disappearing or emerging relations in the human/nonhuman-environment-nature interaction. These approaches, proposals, and practices range from new methods of urban gardening to biophilic design and augmented/immersive environments. However, these human-centric approaches, which only aim to meet their needs or emerge as technology-oriented replicas and representations of nature, lead to a departure from a holistic approach to the natural and artificial environment. Therefore, how can new and emerging approaches or methodologies draw a holistic framework for environmental health, sustainability, wellness, and co-existence between environments for all living beings? Emerging Approaches in Design and New

Connections With Nature covers a variety of topics related to the intersection between nature, environment, and ways of living and provides a comprehensive guide to biophilic design and the idea of design and nature, including benefits, theories, and effects. Covering topics such as biophilic design and sustainability, soundscapes and landscapes, and urban environments and design, it is ideal for architects, designers, urban planners, landscape designers, policymakers, engineers, interior designers, practitioners, students, academicians, and researchers.

Whistleblowing, Communication and Consequences Peer Jacob Svenkerud, Jan-Oddvar Sørnes, Larry Browning, 2021-03-25 Whistleblowing, Communication and Consequences offers the first in-depth analysis of the most publicized, and morally complex, case of whistleblowing in recent European history: the Norwegian national lottery, Norsk Tipping. With contributions from the whistleblower himself, as well as from key voices in the field, this book offers unique perspectives and insights into not only this fascinating case, but into whistleblowing and wrongdoing in organizations more broadly. An international team of scholars use fourteen different theoretical lenses to show the complex and multi-faceted nature of whistleblowing. The book begins with an ethnographic account by the whistleblower story and proceeds into an analysis of the literature and conceptual topics related to that whistleblowing incident to present the lessons that can be learnt from this extreme example of institutional failure. This fascinating, complex, and multi-theoretical book will be of great interest to scholars, students and industry leaders in the areas of public relations, corporate communication, leadership, corporate social responsibility, whistleblowing and organizational resistance. The Open Access version of this book, available at <http://www.tandfebooks.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

Advances in Business, Management and Entrepreneurship Ratih Hurriyati, Benny Tjahjono, Ikuro Yamamoto, Agus Rahayu, Ade Gafar Abdullah, Ari Arifin Danuwijaya, 2020-01-06 The GCBME Book Series aims to promote the quality and methodical reach of the Global Conference on Business Management & Entrepreneurship, which is intended as a high-quality scientific contribution to the science of business management and entrepreneurship. The Contributions are the main reference articles on the topic of each book and have been subject to a strict peer review process conducted by experts in the fields. The conference provided opportunities for the delegates to exchange new ideas and implementation of experiences, to establish business or research connections and to find Global Partners for future collaboration. The conference and resulting volume in the book series is expected to be held and appear annually. The year 2019 theme of book and conference is Creating Innovative and Sustainable Value-added Businesses in the Disruption Era. The ultimate goal of GCBME is to provide a medium forum for educators, researchers, scholars, managers, graduate students and professional business persons from the diverse cultural backgrounds, to present and discuss their researches, knowledge and innovation within the fields of business, management and entrepreneurship. The GCBME conferences cover major thematic groups, yet opens to other relevant topics: Organizational Behavior, Innovation, Marketing Management, Financial Management and Accounting, Strategic Management, Entrepreneurship and Green Business.

The Work and Family Handbook Marcie Pitt-Catsoupes, Ellen Ernst Kossek, Stephen Sweet, 2015-11-30 The Work and Family Handbook is a comprehensive edited volume, which reviews a wide range of disciplinary perspectives across the social sciences on the study of work-family relationships, theory, and methods. The changing demographics of the labor force has resulted in an expanded awareness and understanding of the intricate relations between work and family dimensions in people's lives. For the first time, the efforts of scholars working in multiple disciplines are organized together to provide a comprehensive overview of the perspectives and methods that have been applied to the study of work and family. In this book, the leading work-family scholars in the fields of social work, psychology, sociology, organizational behavior, human resource management, business, and other disciplines provide chapters that are both accessible and compelling. This book demonstrates how cross-disciplinary comparisons of perspective and method reveal new insights on the needs of working families, the challenges faced by those who study them, and how to formulate policy on their behalf.
