"*Over the Top*" Arthur Guy Empey,1917 Excerpt: ...of the trench. One dead German was lying on his back, with a rifle sticking straight up in the air, the bayonet of which was buried to the hilt in his chest. Across his feet lay a dead English soldier with a bullet hole in his forehead. This Tommy must have been killed just as he ran his bayonet through the German. Rifles and equipment were scattered about, and occasionally a steel helmet could be seen sticking out of the mud. At one point, just in the entrance to a communication trench, was a stretcher. On this stretcher a German was lying with a white bandage around his knee, near to him lay one of the stretcher-bearers, the red cross on his arm covered with mud and his helmet filled with blood and brains. Close by, sitting up against the wall of the trench, with head resting on his chest, was the other stretcher-bearer. He seemed to be alive, the posture was so natural and easy, but when I got closer, I could see a large, jagged hole in, his temple. The three must have been killed by the same shell-burst. The dugouts were all smashed in and knocked about, big square-cut timbers splintered into bits, walls caved in, and entrances choked. Tommy, after taking a trench, learns to his sorrow, that the hardest part of the work is to hold it. In our case this proved to be so. The German artillery and machine guns had us taped (ranged) for fair; it was worth your life to expose yourself an instant. Don't think for a minute that the Germans were

the only sufferers, we were clicking casualties so fast that you needed an adding machine to keep track of them. Did you ever see one of the steam shovels at work on the Panama Canal, well, it would look like a hen scratching alongside of a Tommy digging in while under fire, you couldn't see daylight through the clouds of dirt from his shovel. After losing three out of six men of our crew, we managed to set up our machine gun. One of the legs of the tripod was resting on the chest of a half-buried body. When...

**The Handbook of Mites of Economic Plants** Vincenzo Vacante, 2015-12-21 Mites pose a serious problem to plants worldwide, attacking crops and spreading disease. When mites damage crops of economic importance the impacts can be felt globally. Mites are among the most diverse and successful of invertebrates, with over 45,000 described species, with many more thousands to be discovered. They are responsible for a significant portion of the losses of crops for food, fibre, industry and other purposes, and require expensive and often controversial pest control measures. Understanding these mites is vital for entomologists, pest researchers, agronomists and food producers. Knowledge of mite pests helps to inform control strategies and optimize the production of economic plants and the agrarian economy. This encyclopedia provides a thorough coverage of the mites and the problems they cause to crops, yet it is easily searchable, organised by mite species and subdivided into helpful headings. It takes a worldwide view of the issue of mites injurious to economic plants, describing mites prevalent in different regions and discussing control methods appropriate in different environments. This book provides an encyclopaedic reference to the major mites, described by family in terms of their internal and external morphology, bio-ecology and family systematics. Methods of mite collection and laboratory study is described, as well as species diagnostic characteristics, worldwide distribution, host plants, identification by the type of damage they cause

and control strategies, including chemical and biological intervention and integrated pest management measures. Mites of the following families are included: (Eriophyoidea, Tarsonemidae, Tuckerellidae, Tenuipalpidae, Tetranychidae, Acaridae, Penthaleidae). Mites of Economic Plants is an important resource for students of entomology and crop production, and as a thorough reference guide for researchers and field workers involved with mites, crop damage and food production.

Encyclopedia of the African Diaspora [3 volumes] Carole Boyce Davies, 2008-07-29 The authoritative source for information on the people, places, and events of the African Diaspora, spanning five continents and five centuries. The field of African Diaspora studies is rapidly growing. Until now there was no single, authoritative source for information on this broad, complex discipline. Drawing on the work of over 300 scholars, this encyclopedia fills that void. Now the researcher, from high school level up, can go to a single reference for information on the historical, political, economic, and cultural relations between people of African descent and the rest of the world community. Five hundred years of relocation and dislocation, of assimilation and separation have produced a rich

tapestry of history and culture into which are woven people, places, and events. This authoritative, accessible work picks out the strands of the tapestry, telling the story of diverse peoples, separated by time and distance, but retaining a commonality of origin and experience. Organized in A-Z sections covering global topics, country of origin, and destination country, the work is designed for easy use by all.

*Main Street* Sinclair Lewis, 2023-06-01 Carol Milford grows up in a mid-sized town in Minnesota before moving to Chicago for college. After her education, during which she's exposed to big-city life and culture, she moves to Minneapolis to work as a librarian. She soon meets Will Kennicott, a small-town doctor, and the two get married and move to Gopher Prairie, Kennicott's home town. Carol, inspired by big-city ideas, soon begins chafing at the seeming quaintness and even backwardness of the townsfolk, and their conservative, self-satisfied way of life. She struggles to try to reform the town in her image, while finding meaning in the seeming cultural desert she's found herself in and in her increasingly cold marriage. *Gopher Prairie* is a detailed, satirical take on small-town American life, modeled after Sauk Centre, the town in which Lewis himself grew up. The town is fully realized, with generations of inhabitants interacting in a complex web of village society. Its biting satirical portrayal made *Main Street* highly acclaimed by its contemporaries, though many thought the satirical take was perhaps a bit too dark and hopeless. The book's celebration and condemnation of small town life make it a candidate for the title of the Great American Novel. *Main Street* was awarded the 1921 Pulitzer Prize, but the decision was overturned by the prize's Board of Trustees and awarded instead to Edith Wharton for *The Age of Innocence*. When Lewis went on to win the 1926 Pulitzer for *Arrowsmith*, he declined it—with the *New York Times* reporting that he did so because he was still angry at the Pulitzers for being denied the prize for *Main Street*. Despite the book's snub at the

Pulitzers, Lewis went on to win the Nobel Prize in Literature in 1930, with Main Street being cited as one of the reasons for his win.

*The Friar's Daughter* Charles Lincoln Phifer, 1909 This is a story founded on truth. Practically every incident told about really happened; yet some liberty has been taken with the arrangements of these incidents into a story. Events are sometimes grouped outside of their natural order and place of occurrence, and the time of action is shortened. Conversation is necessarily invented, and is used to bring out the setting of the story and give it life. Another thing: Every writer recognizes that it is desirable to not have too many characters in a story, and to not drag it through unimportant incidents. Therefore, I have omitted many incidents of the occupation of the Philippines, and have in places ascribed to one person, in an effort to keep down the number of characters, acts which properly belonged to other persons, so that some of the characters are representative and composite. To illustrate my meaning-that a love story in the simplest form might run through the tale I have made Saguanaldo appear as a lover as well as a general, though this is acknowledged to be fiction.
