Louisiana Rocks! Tom Aswell,2010-09-23 An in-depth history of rock and roll's Louisiana roots. Taking the position that rock and roll started in New Orleans in 1947 when Roy Brown recorded Good Rockin' Tonight, Aswell provides an expansive history of this beloved American music form. By looking at the Louisianan influences of swamp pop, Cajun, zydeco, R&B, rockabilly, country, and blues music, the author explores the way these musical

forms gave birth to rock and roll as we know it today.

Buddy Emmons Steve Fishell, 2022-09-06 A No Depression Most Memorable Music Book of 2022 The acknowledged maestro of the pedal steel guitar, Buddy Emmons lent his unparalleled virtuosity to over five decades of hit recordings and set standards that remain the benchmark for musicians today. Steve Fishell's merger of biography and memoir draws extensively on in-depth interviews with Emmons and the artist's autobiographical writings. Emmons went from playing strip clubs to a Grand Ole Opry debut with Little Jimmy Dickens at age 18. His restless experimentation led to work with Ernest Tubb and Ray Price--and established him in a career that saw him play alongside a who's who of American music. Fishell weaves in stories and anecdotes from Willie Nelson, Brenda Lee, Linda Ronstadt, Pat Martino, and many others to provide a fascinating musical and personal portrait of an innovator whose peerless playing and countless recordings recognized no boundaries. A one-of-a-kind life story, Buddy Emmons expands our view of a groundbreaking artist and his impact on country music, jazz, and beyond.

Blindsight Peter Watts, 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, Blindsight Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist--an informational topologist with half his mind gone--as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Last Centurion John Ringo, 2008-08-01 Centurions were the guardians of Rome. At the height of the Roman Republic there were over five thousand qualified Roman Centurions in the Legions. To be a Centurion required that,

in a mostly illiterate society, one be able to read and write clearly, to be able to convey and create orders, to be capable of not only performing every skill of a Roman soldier but teach every skill of a Roman soldier. Becoming a Centurion required intense physical ability, courage beyond the norm, years of sacrifice and a total devotion to the philosophy which was Rome. When Rome fell to barbarian invaders, there were less than five hundred qualified Centurions. Not because Rome had fewer people but because it had fewer willing to make the sacrifices. And the last Centurions left their shields in the heather and took a barbarian bride . . . We are . . . The Last Centurions. At the publisher's request, this title is sold without DRM (Digital Rights Management).

Older Americans, Vital Communities W. Andrew Achenbaum, 2007-12-03 This thought-provoking work grapples with the vast range of issues associated with the aging population and challenges people of all ages to think more boldly and more creatively about the relationship between older Americans and their communities. W. Andrew Achenbaum begins by exploring the demographics of our aging society and its effect on employment and markets, education, health care, religion, and political action. Drawing on history, literature, and philosophy, Achenbaum focuses on the way health care and increases in life expectancy have transformed late life from a phase characterized by illness, frailty, and debility to one of vitality, productivity, and spirituality. He shows how this transformation of aging is beginning to be felt in programs and policies for aging persons, as communities focus more effort on lifelong learning and extensive civic engagement. Concerned that his own undergraduate students are too focused on the immediate future, Achenbaum encourages young people to consider their place in life's social and chronological trajectory. He calls on baby boomers to create institutional structures that promote productive, vital growth for the common good, and he invites people of all ages to think more boldly about what they will do with the long lives ahead of them.

Alien Legacy Geraldine Sutton Stith, 2007-05-31 August 21, 1955. Just another hot summer night like so many others in the small community of Kelly, Kentucky. Lucky Sutton along with his family and friends were enjoying a quiet peaceful evening. The family not knowing that all around them strange things were happening. Things that no one would come forward and talk about, too afraid to bring up what they had witnessed. But Lucky and his family were about to find out what could lurk in the darkness. The visitors were not from this earth. Were they possibly from the depths of hell? The gunshots and the screams could be heard by neighbors, but nobody came to help. Lucky and his family could only live as they could after the events of that night, fearing the unknown and wondering for the rest of their lives... Would they come back?
