Wolverton Jr,Lona Hoover,Susan Hall,Robert Fowler,2013-10-18 As open access initiatives, electronic theses and dissertations (ETDs) provide Internet access to graduate student research documents from hundreds of academic institutions, thus furthering international scholarly communication. The last decade has seen change and collaboration among colleagues of varied disciplines and across institutional boundaries. There is a need for practical information for academics, database managers and library catalogers in dealing with the complexities of developing ETD programs and workflow. The authors present a comprehensive treatise on ETDs, drawing on many years of collective experience within this specialization. This book was published as a special issue of Technical Services Quarterly.

*Cases on Formal and Informal E-Learning Environments: Opportunities and Practices* Yang, Harrison Hao,2012-07-31 Today, the online sphere is no longer just an information repository or a place to search for resources. It has become instead a place supporting both intentional and non-intentional learning. Intentional, formal learning, often leads to certification, whereas informal learning is unstructured and takes place as part of daily work-related or leisure activities. Cases on Formal and Informal E-Learning Environments: Opportunities and Practices brings together cases outlining the practical aspect of formal, non-formal, and informal online learning. This book introduces conceptual aspects of these types of learning, knowledge-base, new learning paradigms, policy implications, evaluation and concerns, design, and development of online learning.

*The International Guide to Publishers and Distributors of Large Print* Bruce E. Massis,1985 This guide provides a listing and description of publishers and distributors of large print books (in 12 point type or larger) available in 15 countries. The listings are arranged alphabetically by country and an abstract for each country includes specific information. Designed to be used by librarians and reference persons in their respective countries, the costs of titles are presented in native currencies. The countries included in the guide are: Australia, Austria, Canada, Denmark, France, Federal Republic of Germany, Greenland, Holland, Italy, Japan, Norway, South Africa, Sweden, Switzerland, and United Kingdom. In certain instances there are no large print producers in a particular country, but there are distributors who sell large print materials acquired elsewhere. Since these distributors are the only direct points of purchase for large print, they are included in the guide. A ready-reference directory, also arranged by country, provides information on all of the publishers and distributors mentioned in the main text. Appendices provide names and addresses of additional publishers in the following countries who have published at least one large print title: Denmark, Federal Republic of Germany, Japan, and Sweden. A selected bibliography of materials used in researching this project is included. (THC)

Thriving Beyond Sustainability Andres R. Edwards,2010-05-01 Every fifteen seconds on our Earth, a child dies from waterborne disease. Three times an hour, another species becomes extinct. Each day we consume eighty-five million barrels of oil and pump twenty-three million tons of carbon dioxide into an already warming atmosphere. But against this bleak backdrop, beacons of hope shine from thousands of large and small initiatives taking place everywhere from isolated villages to major urban centers. Thriving Beyond Sustainability draws a collective map of individuals, organizations, and communities from around the world that are committed to building an alternative future—one that strives to restore ecological health; reinvent outmoded institutions; and rejuvenate our environmental, social, and economic systems. The projects and initiatives profiled are meeting the challenges of the day with optimism, hope, and results, leading the way in: Relocalization Green commerce Ecological design Environmental conservation Social transformation Overflowing with inspiration, the stories and ideas in these pages will cause the most chronic pessimist to see the glass as half full—to move beyond a perception of surviving with scarcity to one of flourishing with abundance. The comprehensive resource section provides the tools for everyone to become a catalyst for change. Andres R. Edwards is the author of The Sustainability Revolution, which has sold over twenty thousand copies. He is an educator, media designer, LEED-accredited green building and sustainability consultant, and the founder of EduTracks, a firm specializing in developing education programs and providing consulting services on sustainable practices.
