**The Flooded Earth** Peter D. Ward,2010-06-29 Sea level rise will happen no matter what we do. Even if we stopped all carbon dioxide emissions today, the seas would rise one meter by 2050 and three meters by 2100. This—not drought, species extinction, or excessive heat waves—will be the most catastrophic effect of global warming. And it won't simply redraw our coastlines—agriculture, electrical and fiber optic systems, and shipping will be changed forever. As icebound regions melt, new sources of oil, gas, minerals, and arable land will be revealed, as will fierce geopolitical battles over who owns the rights to them. In *The Flooded Earth*, species extinction expert Peter Ward describes in intricate detail what our world will look like in 2050, 2100, 2300, and beyond—a blueprint for a foreseeable future. Ward also explains what politicians and policymakers around the world should be doing now to head off the worst consequences of an inevitable transformation.

**There's More Leaves on the Tree** Charles Lee Bilberry,2011-07-16 *There's More Leaves on the Tree* is about the author's 14 year journey in search of his great grandfather's Frank Bilberry's white father and African American mother. The book starts out with a visit to his grandfather's Ladell Bilberry old home site. The visit reveal that the old home site was now overtaken by the forest where it can barely be found any longer. The home he knew as a child has now fallen down with a few remnants left from the past. It was a place where his ancestral family and extended families once bought land raised and sold crops to make the best living they could. He reminisces about how his mother and father once lived in this area. His mother really didn't like living on a farm and designed a way to convince her husband to move closer to the town of Marion, Louisiana. The author writes a chapter about The End of Jim Crow Education in Union Parish, Louisiana. He recalls how the Plessy vs Ferguson doctrine of 1896 and the Brown vs Education doctrine of 1954 co-existed at the same time. One law allowed African Americans to have separate but equal facilities as Whites but in 1954 the Brown vs Board of Education stated it was acceptable to go to the same schools. The book delineates the struggle his high school, the community and the Union Parish School Board had in trying to reconcile this dilemma when it was time for the senior class to graduate in 1970. The Bilberry surname originated from White immigrants from Alabama who made their way to the rich fertile land of Union Parish, Louisiana. Most of them bought land, raised and sold crops to make their living. Many owned slaves. Slaves were valuable property to the slave owners. Many mulatto children were fathered by slave owners with the slave female. It was not uncommon for this to continue after the emancipation of the slaves. The latter is the case with Frank Bilberry. He was born circa 1878 to a former slave holder that lived near his mother's family. His white father sired several other sister and brothers other slave and former wome. Like many other slaves of South several slaves used the surname Bilberry after their master's name after being emancipated. The book is filled with pictures that follows along with the story of the book. It has an extensive appendix at the end of the book that includes death certificates, marriage licenses, land patents, obituaries and photographs of both white and black Bilberry's and their extended families (Honeycutts, Horn, Nelson, Bridges, Feazel, Wilhite, Warren, Burch, Ellis, Archie, Armstrong, Roberts, Robinson, Montgomery and more) of Union Parish, Louisiana. Every Family has a family story to tell but someone must be willing to tell it.

*St. Landry-Up from Slavery Then Came the Fire!!* Leona W. Smith,2011-09-21 Note: This isn't another Mississippi Burning or another Roots!! It's a true family legacy!! (Find it on Goodreads.com) From a child, Leona W. Smith was always intrigued by family stories told to her by her parents, grandparents, and close family friends. Birthed out

of the intense desire of her mother (Shirley Mae LaVergne Williams) to discover more about her paternal roots, Leona set out on a journey to research her familys history and discovered some amazing truths about her ancestors. Told through family records and stories handed down through many generations and through the use of true to life accounts obtained from Federal Slave Narratives set in Louisiana, *St. Landry Up From Slavery Then Came the Fire!!* is an epic story deeply rooted in historical fact that spans over 300 years of the LaVergne and Williams families. From the shores of Africa to the rice fields of St. Landry Parish, Louisiana and beyond, *St. Landry Up From Slavery Then Came the Fire!* explores the hardships, struggles, defeats and triumphs endured by the families through the cruel injustices of slavery, classism and racism. Most importantly, it also explores the families resolute faith in God and gives documented accounts and firsthand testimonies of the amazing, miraculous power of God at work in their lives down through the generations that has left a legacy of hope, courage, and success that still endures today.

*Desire and Disaster in New Orleans* Lynnell L. Thomas, 2014-07-30 Most of the narratives packaged for New Orleans's many tourists cultivate a desire for black culture—jazz, cuisine, dance—while simultaneously targeting black people and their communities as sources and sites of political, social, and natural disaster. In this timely book, the Americanist and New Orleans native Lynnell L. Thomas delves into the relationship between tourism, cultural production, and racial politics. She carefully interprets the racial narratives embedded in tourism websites, travel guides, business periodicals, and newspapers; the thoughts of tour guides and owners; and the stories told on bus and walking tours as they were conducted both before and after Katrina. She describes how, with varying degrees of success, African American tour guides, tour owners, and tourism industry officials have used their own black heritage tours and tourism-focused businesses to challenge exclusionary tourist representations. Taking readers from the Lower Ninth Ward to the White House, Thomas highlights the ways that popular culture and public policy converge to create a mythology of racial harmony that masks a long history of racial inequality and structural inequity.

**A State-by-State History of Race and Racism in the United States [2 volumes]** Patricia Reid-Merritt, 2018-12-07 Providing chronologies of important events, historical narratives from the first settlement to the present, and biographies of major figures, this work offers readers an unseen look at the history of racism from the perspective of individual states. From the initial impact of European settlement on indigenous populations to the racial divides caused by immigration and police shootings in the 21st century, each American state has imposed some form of racial restriction on its residents. The United States proclaims a belief in freedom and justice for all, but members of various minority racial groups have often faced a different reality, as seen in such examples as the forcible dispossession of indigenous peoples during the Trail of Tears, Jim Crow laws' crushing discrimination of blacks, and the manifest unfairness of the Chinese Exclusion Act. Including the District of Columbia, the 51 entries in these two volumes cover the state-specific histories of all of the major minority and immigrant groups in the United States, including African Americans, Hispanics, Asian Americans, and Native Americans. Every state has had a unique experience in attempting to build a community comprising multiple racial groups, and the chronologies, narratives, and biographies that compose the entries in this collection explore the consequences of racism from states' perspectives, revealing distinct new insights into their respective racial histories.

**Bartlett Eaves (ca.1765-ca. 1833)** , 2005 Bartlett Eaves was born in about 1765 in New Brunswick County, Virginia. He was living in Rutherford County, North Carolina in 1790. He had eight known children. He died in about 1833 in

Perry County, Alabama. Descendants and relatives lived mainly in Alabama, Mississippi, Louisiana and Texas.

**New Orleans Coffee: A Rich History** Suzanne Stone with Contributions from David Feldman, 2019 New Orleans history is steeped in coffee. Outside the Cathedral of St. Louis in Jackson Square, early entrepreneurs like Old Rose provided eager churchgoers with the brew, and it was sold in the French Market beginning in the late 1700s. Caf du Monde and Morning Call started serving caf au lait more than a century ago. People gathered for business, socializing, politics and auctions at five hundred coffee exchanges and shops in the 1800s. Since 1978, myriad specialty coffee shops have opened to meet increasing demand for great coffee. Author Suzanne Stone presents the full story of this celebrated tradition, including how chicory became part of the city's special flavor.

**The Information Professional's Guide to Career Development Online** Sarah L. Johnson, Rachel Singer Gordon, 2002 This book provides practical advice on using the Internet to research educational and networking opportunities and to keep current through online conferences and discussion lists. There is also information on reading and contributing to professional literature, applying for scholarships and grants, creating an electronic resume, and researching prospective employers online. Appendices list organizations and publications with an online presence. Nesbitt is reference/systems librarian at Maxwell Library, Bridgewater State College. Gordon is head of computer services at the Franklin Park Public Library. She is Webmaster of the library career site Lisjobs.com, and founding editor of the Info Career Trends electronic newsletter. **Reforming New Orleans** Peter F. Burns, Matthew O. Thomas, 2016-02-19 In *Reforming New Orleans*, Peter F. Burns and Matthew O. Thomas chart the city's recovery and assess how successfully officials at the local, state, and federal levels transformed the Big Easy in the wake of Hurricane Katrina.

**In Search of Maya Sea Traders** Heather Irene McKillop, 2005 Stone temples rising above the rainforest canopy and elaborate hieroglyphs carved onto stone monuments give silent testimony to the high culture of the Maya ancestors of the indigenous peoples of Central America. They have inspired generations of archaeologists, professional and avocational, to take to the field in search of the past. One such archaeologist is Heather McKillop, who in 1979 first visited the coast of Belize in search of a little-known aspect of ancient Maya life: the sea trade that helped move salt, obsidian, coral, and other goods around the interior of the empire. In 1982, she began bringing volunteers and students to the islands off the coast of Port Honduras, Belize. Since then she has returned many times to excavate sites that reveal the scope and diversity of the trade that passed by water throughout the Maya world. In this book, McKillop tells the story of the search for the Maya sea traders, as well as the story of the traders themselves as it emerges from the excavations. *In Search of Maya Sea Traders* describes the trading port of Wild Cane Cay, where exotic obsidian, jade, gold, and other goods--including highly crafted pots--were traded from distant lands. McKillop also tells us about the more coastal-inland trade of salt, seafood, and other marine resources. Through the story of her own work and that of her students and volunteers, McKillop models both the research design and the field work that are required to interpret the civilizations of the past. She includes the adventure of discovery, the challenges of working in wild environments (from snakes and rising sea levels to falling coconuts) and the tedium of daily measured digs in a near-tropical setting. Through her experiences, the reader also gets to know some of the local residents of Port Honduras and Wild Cane Cay, descendants of the ancient Maya. *In Search of Maya Sea Traders* will appeal to that part of each of us that longs to explore distant places and cultures, in quest of a seldom-glimpsed past.

**Poets on Paintings** Robert D. Denham, 2010-03-10 Ekphrasis, the description of pictorial art in words, is the

subject of this bibliography. More specifically, some 2500 poems on paintings are catalogued, by type of publication in which they appear and by poet. Also included are 2000 entries on the secondary literature of ekphrasis, including works on sculpture, music, photography, film, and mixed media.

**The Ancient Maya** Heather McKillop, 2004-08-19 Thanks to powerful innovations in archaeology and other types of historical research, we now have a picture of everyday life in the Mayan empire that turns the long-accepted conventional wisdom on its head. Ranging from the end of the Ice Age to the flourishing of Mayan culture in the first millennium to the Spanish conquest in the 16th century, *The Ancient Maya* takes a fresh look at a culture that has long held the public's imagination. Originally thought to be peaceful and spiritual, the Mayans are now also known to have been worldly, bureaucratic, and violent. Debates and unanswered questions linger. Mayan expert Heather McKillop shows our current understanding of the Maya, explaining how interpretations of dirt archaeology, hieroglyphic inscriptions, and pictorial pottery are used to reconstruct the lives of royalty, artisans, priests, and common folk. She also describes the innovative focus on the interplay of the people with their environments that has helped further unravel the mystery of the Mayans' rise and fall.

*A Creole Lexicon* Jay Edwards, Nicolas Kariouk Pecquet du Bellay de Verton, 2004-09 Throughout Louisiana's colonial and postcolonial periods, there evolved a highly specialized vocabulary for describing the region's buildings, people, and cultural landscapes. This creolized language -- a unique combination of localisms and words borrowed from French, Spanish, English, Indian, and Caribbean sources -- developed to suit the multiethnic needs of settlers, planters, explorers, builders, surveyors, and government officials. Today, this historic vernacular is often opaque to historians, architects, attorneys, geographers, scholars, and the general public who need to understand its meanings. With *A Creole Lexicon*, Jay Edwards and Nicolas Kariouk provide a highly organized resource for its recovery. Here are definitions for thousands of previously lost or misapplied terms, including watercraft and land vehicles, furniture, housetypes unique to Louisiana, people, and social categories. Drawn directly from travelers' accounts, historic maps, and legal documents, the volume's copious entries document what would actually have been heard and seen by the peoples of the Louisiana territory. Newly produced diagrams and drawings as well as reproductions of original eighteenth- and nineteenth-century documents and Historic American Buildings Surveys enhance understanding. Sixteen subject indexes list equivalent English words for easy access to appropriate Creole translations. *A Creole Lexicon* is an invaluable resource for exploring and preserving Louisiana's cultural heritage.

**What If? 2** Randall Munroe, 2022-09-13 AN INSTANT NEW YORK TIMES BESTSELLER! The questions throughout *What If? 2* are equal parts brilliant, gross, and wonderfully absurd and the answers are thorough, deeply researched, and great fun. . . . Science isn't easy, but in Munroe's capable hands, it surely can be fun. -TIME The #1 New York Times bestselling author of *What If?* and *How To* answers more of the weirdest questions you never thought to ask. The millions of people around the world who read and loved *What If?* still have questions, and those questions are getting stranger. Thank goodness xkcd creator Randall Munroe is here to help. Planning to ride a fire pole from the Moon back to Earth? The hardest part is sticking the landing. Hoping to cool the atmosphere by opening everyone's freezer door at the same time? Maybe it's time for a brief introduction to thermodynamics. Want to know what would happen if you rode a helicopter blade, built a billion-story building, made a lava lamp out of lava, or jumped on a geyser as it erupted? Okay, if you insist. Before you go on a cosmic road trip, feed the residents of New York City to a T. rex, or fill every church with bananas, be sure to consult this practical guide for impractical ideas. Unfazed by absurdity, Munroe consults the latest research on everything from swing-set physics

to airliner catapult-design to answer his readers' questions, clearly and concisely, with illuminating and occasionally terrifying illustrations. As he consistently demonstrates, you can learn a lot from examining how the world might work in very specific extreme circumstances.

*Spreading the Gospel of Books* Florence M. Jumonville, 2019-11-06 In 1925, Essae Martha Culver, a California librarian, arrived in Louisiana to direct a three-year project funded by the Carnegie Corporation that aimed to introduce public libraries to rural populations. Culver purchased a round-trip ticket, but she never used the second half. Instead, she stayed in Louisiana the rest of her life, working tirelessly to see libraries established in every parish by 1969. In *Spreading the Gospel of Books*, Florence M. Jumonville chronicles the impressive, colorful history of Louisiana parish libraries and the State Library of Louisiana. She draws upon Culver's journals and library reports, in addition to correspondence, scrapbooks, and State Library internal documents, and includes photos from five decades, many never before published. The campaign to persuade individual parishes to financially support a library of their own was a long, uphill pull through poverty and politics, flood and famine, discouragement and depression, war and bureaucracy, ignorance and prejudice. Culver credited success to the citizens, whose thirst for books and embrace of the idea of a library inspired perseverance. In time, Culver's Louisiana plan served as an exemplar of library development elsewhere in the United States as well as abroad. Culver touched the lives of generations of Louisianians who have never heard her name. *Spreading the Gospel of Books* is her story, along with that of colleagues and supporters, of making the dream of library service come true for all.

*Culture after the Hurricanes* M. B. Hackler, 2011-04-29 Rebuilding in Louisiana and Mississippi after Hurricanes Katrina and Rita presented some very thorny issues. Certain cultural projects benefited from immediate attention and funding while others, with equal cases for assistance but with less attraction to future tourist dollars, languished. New Orleans and its surroundings contain a diverse mixture of Native Americans, African Americans, Creoles, Cajuns, Isleños with roots in the Canary Islands, and the descendants of Italian, Irish, English, Croatian, and German immigrants, among others. Since 2005 much is now different for the people of the Gulf Coast, and much more stands to change as governments, national and international nonprofit organizations, churches, and community groups determine how and even where life will continue. This collection elucidates how this process occurs and seeks to understand the cultures that may be saved through assistance or may be allowed to fade away through neglect. Essays in *Culture after the Hurricanes* examine the ways in which a wide variety of stakeholders--community activists, elected officials, artists, and policy administrators---describe, quantify, and understand the unique assets of the region. Contributors question the process of cultural planning by analyzing the language employed in decision making. They attempt to navigate between rhetoric and the actual experience of ordinary citizens, examining the long-term implications for those who call the Gulf Coast home.

*Coming Home to New Orleans* Karl F. Seidman, 2013-03-04 *Coming Home to New Orleans* documents grassroots rebuilding efforts in New Orleans neighborhoods after hurricane Katrina, and draws lessons on their contribution to the post-disaster recovery of cities. The book begins with two chapters that address Katrina's impact and the planning and public sector recovery policies that set the context for neighborhood recovery. Rebuilding narratives for six New Orleans neighborhoods are then presented and analyzed. In the heavily flooded Broadmoor and Village de L'Est neighborhoods, residents coalesced around communitywide initiatives, one through a neighborhood association and the second under church leadership, to help homeowners return and restore housing, get key public facilities and businesses rebuilt and create new community-based organizations and civic capacity. A comparison of four adjacent

neighborhoods in the center of the city show how differing socioeconomic conditions, geography, government policies and neighborhood capacity created varied recovery trajectories. The concluding chapter argues that grassroots and neighborhood scale initiatives can make important contributions to city recovery in four areas: repopulation, restoring complete neighborhoods with key services and amenities, rebuilding parts of the small business economy and enhancing recovery capacity. It also calls for more balanced investments and policies to rebuild rental and owner-occupied housing and more deliberate collaboration with community-based organizations to undertake and implement recovery plans, and proposes changes to federal disaster recovery policies and programs to leverage the contribution of grassroots rebuilding and more support for city recovery.

**Deceit and Denial** Gerald Markowitz, David Rosner, 2013-01-15 Deceit and Denial details the attempts by the chemical and lead industries to deceive Americans about the dangers that their deadly products present to workers, the public, and consumers. Gerald Markowitz and David Rosner pursued evidence steadily and relentlessly, interviewed the important players, investigated untapped sources, and uncovered a bruising story of cynical and cruel disregard for health and human rights. This resulting exposé is full of startling revelations, provocative arguments, and disturbing conclusions--all based on remarkable research and information gleaned from secret industry documents. This book reveals for the first time the public relations campaign that the lead industry undertook to convince Americans to use its deadly product to paint walls, toys, furniture, and other objects in America's homes, despite a wealth of information that children were at risk for serious brain damage and death from ingesting this poison. This book highlights the immediate dangers ordinary citizens face because of the relentless failure of industrial polluters to warn, inform, and protect their workers and neighbors. It offers a historical analysis of how corporate control over scientific research has undermined the process of proving the links between toxic chemicals and disease. The authors also describe the wisdom, courage, and determination of workers and community members who continue to voice their concerns in spite of vicious opposition. Readable, ground-breaking, and revelatory, Deceit and Denial provides crucial answers to questions of dangerous environmental degradation, escalating corporate greed, and governmental disregard for its citizens' safety and health. After eleven years, Markowitz and Rosner update their work with a new epilogue that outlines the attempts these industries have made to undermine and create doubt about the accuracy of the information in this book.
