**Biomass and Alternate Fuel Systems** Thomas F.

McGowan, 2011-09-20 This book explains characteristics of renewable fuels, especially biomass and wood, and the cost-effective and environment-friendly methods of handling, storing and burning these fuels. It is complete with the economic evaluation method, introduction of the pollution control equipment for limiting the emission from fuel combustion, case studies, and costs and carbon emission comparisons between conventional and alternate fuels. Many case studies are introduced here too. This book is an update and expansion of the Industrial Wood Energy Handbook by a team from the Georgia Institute of Technology in 1984. It introduces new technologies new technologies not available at the time of the early version.

**Cemetery Tours and Programming** Rachel

Wolgemuth, 2016-03-08 Cemetery Tours and Programming: A Guide shows the range and opportunities of cemetery programming which go beyond the basic starting points like dog-walking or traditional historic walking tours. While most cemeteries do not have a large paid staff, the book is accessible to anyone (a paid staff, volunteers, a Friends Group, or museum or historical society) looking to broaden the scope of how their local cemetery is utilized. While other books guide readers through the symbolism present in cemeteries or how to use a cemetery for genealogy, this is the only one on developing programming in cemeteries. It illustrates the reuses of both historic and contemporary burial grounds through the lenses of recreation,

education, and reflection.

White Robes and Burning Crosses Michael Newton,2016-04-14

With its fiery crosses and nightriders in pointed hoods and flowing robes, the Ku Klux Klan remains a recurring nightmare in American life. What began in the earliest post–Civil War days as a social group engaging in drunken hijinks at the expense of perceived inferiors soon turned into a murderous paramilitary organization determined to resist the “evils” of radical Reconstruction. For six generations and counting, the Klan has inflicted misery and death on countless victims nationwide and since the early 1920s, has expanded into distant corners of the globe. From the Klan’s post–Civil War lynchings in support of Jim Crow laws, to its bloody stand against desegregation during the 1960s, to its continued violence in the militia movement at the turn of the 21st century, this revealing volume chronicles the complete history of the world’s oldest surviving terrorist organization from 1866 to the present. The story is told without embellishment because, as this work demonstrates, the truth about the Ku Klux Klan is grim enough.

Pollution Prevention Ryan Dupont,Kumar Ganesan,Louis

Theodore,2016-11-18 This new edition has been revised throughout,

and adds several sections, including: lean manufacturing and design for the environment, low impact development and green infrastructure, green science and engineering, and sustainability. It presents strategies to reduce waste from the source of materials development through to recycling, and examines the basic concepts of the physical, chemical, and biological properties of different pollutants. It includes case studies from several industries, such as pharmaceuticals, pesticides, metals, electronics, petrochemicals, refineries, and more. It also addresses the economic considerations for each pollution prevention approach.

**Ned Christie** Devon A. Mihesuah, 2018-03-08 Who was Nede Wade Christie? Was he a violent criminal guilty of murdering a federal officer? Or a Cherokee statesman who suffered a martyr's death for a crime he did not commit? For more than a century, journalists, pulp fiction authors, and even serious historians have produced largely fictitious accounts of "Ned" Christie's life. Now, in a tour de force of investigative scholarship, Devon A. Mihesuah offers a far more accurate depiction of Christie and the times in which he lived. In 1887 Deputy U.S. Marshal Dan Maples was shot and killed in Tahlequah, Indian Territory. As Mihesuah recounts in unsurpassed detail, any of the criminals in the vicinity at the time could have committed the crime. Yet the federal court at Fort Smith, Arkansas, focused on Christie, a Cherokee Nation councilman and adviser to the tribal chief. Christie evaded capture for five years. His life ended when a posse dynamited his home—knowing he was inside—and shot him as he emerged from the burning building. The posse took Christie's body to Fort Smith, where it lay for three days on display for photographers and gawkers. Nede's family suffered as well. His teenage cousin Arch Wolfe was sentenced to prison and ultimately

perished in the Canton Asylum for “insane” Indians—a travesty that, Mihesuah shows, may even surpass the injustice of Nede’s fate. Placing Christie’s story within the rich context of Cherokee governance and nineteenth-century American political and social conditions, Mihesuah draws on hundreds of newspaper accounts, oral histories, court documents, and family testimonies to assemble the most accurate portrayal of Christie’s life possible. Yet the author admits that for all this information, we may never know the full story, because Christie’s own voice is largely missing from the written record. In addition, she spotlights our fascination with villains and martyrs, murder and mayhem, and our dangerous tendency to glorify the “Old West.” More than a biography, Ned Christie traces the making of an American myth.

America, China, and the Struggle for World Order G. John Ikenberry, Zhu Feng, Wang Jisi, 2015-07-22 This book brings together twelve scholars six Americans and six Chinese to explore the ways America and China think about international order. The book shows how each country's traditions, historical experiences, and ideologies influence current global dialogues.

**The Laws That Shaped America** Dennis W. Johnson, 2009-05-31 For better and sometimes for worse, Congress is a reflection of the aspirations, wants, and priorities of the American people. It reflects the kaleidoscope of special interests and unselfish service to others, of favors sought and sacrifices made. During each two-year session of Congress, thousands of pieces of legislation are proposed, many hundreds are given serious consideration, but far fewer are eventually enacted into law. Most enactments have limited impact, affect few, and are quietly forgotten in the flow of legislative activity. However, a small number of laws have risen to the level of historical

consequence. These are the laws that have shaped America, and they are the subject of this book. Which pieces of legislation were the most significant for the development of the nation? Which have had an immediate or lasting impact on our society? Which laws so affected us that we could not imagine how our lives would be without them? Dennis W. Johnson vividly portrays the story of fifteen major laws enacted over the course of two centuries of American democracy. For each law, he examines the forces and circumstances that led to its enactment--the power struggles between rival interests, the competition between lawmakers and the administration, the compromises and principled stands, and the impact of the legislation and its place in American history.

**Prosecutors in the Boardroom** Anthony S. Barkow, Rachel E. Barkow, 2011-04-18 Who should police corporate misconduct and how should it be policed? In recent years, the Department of Justice has resolved investigations of dozens of Fortune 500 companies via deferred prosecution agreements and non-prosecution agreements, where, instead of facing criminal charges, these companies become regulated by outside agencies. Increasingly, the threat of prosecution and such prosecution agreements is being used to regulate corporate behavior. This practice has been sharply criticized on numerous fronts: agreements are too lenient, there is too little oversight of these agreements, and, perhaps most important, the criminal prosecutors doing the regulating aren't subject to the same checks and balances that civil regulatory agencies are. **Prosecutors in the Boardroom** explores the questions raised by this practice by compiling the insights of the leading lights in the field, including criminal law professors who specialize in the field of corporate criminal liability and criminal law, a top economist at the SEC who studies corporate wrongdoing,

and a leading expert on the use of monitors in criminal law. The essays in this volume move beyond criticisms of the practice to closely examine exactly how regulation by prosecutors works. Broadly, the contributors consider who should police corporate misconduct and how it should be policed, and in conclusion offer a policy blueprint of best practices for federal and state prosecution. Contributors: Cindy R. Alexander, Jennifer Arlen, Anthony S. Barkow, Rachel E. Barkow, Sara Sun Beale, Samuel W. Buell, Mark A. Cohen, Mariano-Florentino Cuellar, Richard A. Epstein, Brandon L. Garrett, Lisa Kern Griffin, and Vikramaditya Khanna

**Women Engaged in War in Literature for Youth** Hilary S. Crew, 2007 *Women at War* portrays books and other resources that feature girls, young women, and adult women actively involved in various ways in battles, wars, and war-time activities, including their roles as nurses, doctors, spies, soldiers, correspondents, photographers, as well as their roles on the home front. Fiction, picture books, nonfiction, biographies, autobiographies, collective biographies, oral narratives, reference books, journal and periodical articles, and non-print and electronic resources are included. Teachers and librarians will find this to be an excellent curriculum-planning resource.

**Crafting the Overseer's Image** William E. Wiethoff, 2006 The first book-length study of the overseer in four decades, Wiethoff's study bridges historical, legal, and rhetorical scholarship to present a provocative investigation into the multifaceted roles of this oft-forgotten figure in plantation society. Wiethoff canvasses the period from 1650 through 1865 and across a southern expanse that stretches to include the Upper and Deep South. Overseers left scant written evidence about their lives and times, but Wiethoff unearths characterizations constructed by friends and enemies, neighbors and

strangers. He also mines the legal record to gauge the impact of legislative and case law rhetoric on public memory.

**Wrecked Lives and Lost Souls** Jerry Thompson,2019-10-24

Growing up, Jerry Thompson knew only that his grandfather was a gritty, “mixed-blood” Cherokee cowboy named Joe Lynch Davis. That was all anyone cared to say about the man. But after Thompson’s mother died, the award-winning historian discovered a shoebox full of letters that held the key to a long-lost family history of passion, violence, and despair. *Wrecked Lives and Lost Souls*, the result of Thompson’s sleuthing into his family’s past, uncovers the lawless life and times of a man at the center of systematic cattle rustling, feuding, gun battles, a bloody range war, bank robberies, and train heists in early 1900s Indian Territory and Oklahoma. Through painstaking detective work into archival sources, newspaper accounts, and court proceedings, and via numerous interviews, Thompson pieces together not only the story of his grandfather—and a long-forgotten gang of outlaws to rival the infamous Younger brothers—but also the dark path of a Cherokee diaspora from Georgia to Indian Territory. Davis, born in 1891, grew up on a family ranch on the Canadian River, outside the small community of Porum in the Cherokee Nation. The range was being fenced, and for the Davis family and others, cattle rustling was part of a way of life—a habit that ultimately spilled over into violence and murder. The story “goes way back to the wild & woolly cattle days of the west,” an aunt wrote to Thompson’s mother, “when there was cattle rustling, bank robberies & feuding.” One of these feuds—that Joe Davis was “raised right into”—was the decade-

long Porum Range War, which culminated in the murder of Davis's uncle in 1907. In fleshing out the details of the range war and his grandfather's life, Thompson brings to light the brutality and far-reaching consequences of an obscure chapter in the history of the American West.

**Hidden Victims** Susan F. Sharp, 2005-06-16 Sharp's book reemphasizes the tremendous costs of maintaining the death penalty—costs to real people and real families that ripple throughout generations to come.—Saundra D. Westervelt, author of *Shifting the Blame: How Victimization Became a Criminal Defense* Everyone concerned with the effects of capital punishment must have this book.—Margaret Vandiver, professor, department of criminology and criminal justice, University of Memphis *Murderers*, particularly those sentenced to death, are considered by most to be unusually heinous, often sub-human, and entirely different from the rest of us. In *Hidden Victims*, sociologist Susan F. Sharp challenges this culturally ingrained perspective by reminding us that those individuals facing a death sentence, in addition to being murderers, are brothers or sisters, mothers or fathers, daughters or sons, relatives or friends. Through a series of vivid and in-depth interviews with families of the accused, she demonstrates how the exceptionally severe way in which we view those on death row trickles down to those with whom they are closely connected. Sharp shows how family members and friends—in effect, the indirect victims of the initial crime—experience a profoundly complicated and socially isolating grief process. Departing from a humanist perspective from which most accounts of victims are told, Sharp makes her case from a sociological standpoint that draws out the parallel experiences and coping mechanisms of these individuals. Chapters focus on responses to sentencing, the particular

structure of grieving faced by this population, execution, aftermath, wrongful conviction, family formation after conviction, and the complex situation of individuals related to both the killer and the victim. Powerful, poignant, and intelligently written, *Hidden Victims* challenges all of us—regardless of which side of the death penalty you are on—to understand the economic, social, and psychological repercussions that shape the lives of the often forgotten families of death row inmates.

The World in Which We Occur Neil W. Browne, 2007-10-31

American philosopher John Dewey considered all human endeavors to be one with the natural world. In his writings, particularly *Art as Experience* (1934), Dewey insists on the primacy of the environment in aesthetic experience. Dewey's conception of environment includes both the natural and the man-made. *The World in Which We Occur* highlights this notion in order to define "pragmatist ecology," a practice rooted in the interface of the cultural and the natural. Neil Browne finds this to be a significant feature of some of the most important ecological writing of the last century. To fully understand human involvement in the natural world, Browne argues that disciplinary boundaries must be opened, with profound implications for the practice of democracy. The degradation of the physical environment and democratic decay, for Browne, are rooted in the same problem: our persistent belief that humans are somehow separate from their physical environment. Browne probes the work of a number of major American writers through the lens of Dewey's philosophy. Among other texts examined are John Muir's *My First Summer in the Sierra* (1911); *Sea of Cortez* (1941) by John Steinbeck and Edward Ricketts; Rachel Carson's three books about the sea, *Under the Sea-Wind* (1941), *The Sea Around Us* (1951), and *The*

Edge of the Sea (1955); John Haines's *The Stars, the Snow, the Fire* (1989); Barry Lopez's *Arctic Dreams* (1986); and Terry Tempest Williams's *Refuge* (1991). Together, these texts—with their combinations of scientific observation and personal meditation—challenge the dichotomies that we have become accustomed and affirm the principles of a pragmatist ecology, one in which ecological and democratic values go hand in hand.
