More Than Precious Memories Michael P. Graves, David Fillingim, 2004 More than Precious Memories is the first book of its kind--a collection of essays offering scholarly analysis and interpretation of Southern Gospel Music. Believing Southern Gospel Music to be a significant cultural and religious phenomenon worthy of the best efforts of scholarship, Graves and Fillingim have assembled a diverse group of scholars who apply a variety of methods and theories to the task of understanding Southern Gospel Music and its cultural context. These scholars and approaches include the following. - Scott Tucker, looks at the theme of heaven in six of the Gaither Homecoming songbooks - David Fillingim looks at how Southern Gospel Music answers the question of theodicy from the perspective of the rural white, working class - Robert M. McManus explores selected song lyrics to show how Southern - Gospel Music helps construct the identity of the community compared to Contemporary Christian Music - Darlene R. Graves identifies key sustaining personality strengths of women that tend to preserve consistency between their public performance and personal spiritual walk - Elizabeth F. Desnoyers Colas and Stephanie Howard (Asabi) explore Southern Gospel and Black Gospel music through the influence of Thomas A. Dorsey - Michael Graves examines how the culture of Southern Gospel Music deals with its inevitable prodigal sons - Raymond D.S. Anderson analyzes the Gaither Homecoming videos as examples of the postmodern turn in American popular Christian culture - John D. Keeler presents the first audience study of Southern Gospel Music employing a Uses and Gratifications research framework - Paul A. Creasman examines the ways Southern Gospel Music as a culture memorializes its dead by use of the Internet - Naaman Wood reviews significant scholarly approaches to the study of popular music.

The Kentucky Derby, Preakness and Belmont Stakes Richard Sowers, 2014-02-25 This is the definitive history of thoroughbred racing's three premier events, which have never before been explored in such detail. This book gives the history of America's classic races from the inaugural Belmont Stakes in 1867 through 2013, identifying which equine participants were truly worthy of lasting acclaim and which were one-hit wonders. Perhaps even more compelling are the stories of the men and women who rode, trained, owned, or bred classic winners, including their exploits on the turf and their triumphs and failures in arenas far removed from horse racing.

American Women Artists in Wartime, 1776-2010 Paula E. Calvin, Deborah A. Deacon, 2011-09-29 For generations, men have left their homes and families to defend their country while their wives, mothers and daughters remained safely at home, outwardly unaffected. A closer examination reveals that women have always been directly impacted by war. In the last few years, they have actively participated on the front lines. This book tells the story of the women who documented the impact of war on their lives through their art. It includes works by professional artists and photographers, combat artists, ordinary women who documented their military experiences, and women who worked in a variety of types of needlework. Taken together, these images explore the female consciousness in wartime.

Young People and the Shaping of Public Space in Melbourne, 1870-1914 Simon Sleight, 2016-02-11 Baby booms have a long history. In 1870, colonial Melbourne was 'perspiring juvenile humanity' with an astonishing 42 per cent of the city's inhabitants aged 14 and under - a demographic anomaly resulting from the gold rushes of the 1850s. Within this context, Simon Sleight enters the heated debate concerning the future prospects of 'Young Australia' and the place of the colonial child within the incipient Australian nation. Looking beyond those institutional sites so often assessed by historians of childhood, he ranges across the outdoor city to chart the relationship between a discourse about youth, youthful experience and the shaping of new urban spaces. Play, street work, consumerism, courtship, gang-related activities and public parades are examined using a plethora of historical sources to reveal a hitherto hidden layer of city life. Capturing the voices of young people as well as those of their parents, Sleight alerts us to the ways in which young people shaped the emergent metropolis by appropriating space and attempting to impress upon the city their own desires. Here a dynamic youth culture flourished well before the discovery of the 'teenager' in the mid-twentieth century; here young people and the city grew up together.

Monuments and Memory, Made and Unmade Robert S. Nelson, Margaret Olin, 2003 How do some monuments become so socially powerful that people seek to destroy them? After ignoring monuments for years, why must we now commemorate public

trauma, but not triumph, with a monument? To explore these and other questions, Robert S. Nelson and Margaret Olin assembled essays from leading scholars about how monuments have functioned throughout the world and how globalization has challenged Western notions of the monument. Examining how monuments preserve memory, these essays demonstrate how phenomena as diverse as ancient drum towers in China and ritual whale-killings in the Pacific Northwest serve to represent and negotiate time. Connecting that history to the present with an epilogue on the World Trade Center, *Monuments and Memory, Made and Unmade* is pertinent not only for art historians but for anyone interested in the turbulent history of monuments—a history that is still very much with us today. Encyclopedia of Hair Victoria Sherrow, 2023-03-30 This popular volume on the culture of hair through human history and around the globe has been updated and revised to include even more entries and current information. How we style our hair has the ability to shape the way others perceive us. For example, in 2017, the singer Macklemore denounced his hipster undercut hairstyle, a style that is associated with Hitler Youth and alt-right men, and in 2015, actress Rose McGowan shaved her head in order to take a stance against the traditional Hollywood sex symbol stereotype. This volume examines how hair-or lack thereof-can be an important symbol of gender, class, and culture around the world and through history. Hairstyles have come to represent cultural heritage and memory, and even political leanings, social beliefs, and identity. This second edition builds upon the original volume, updating all entries that have evolved over the last decade, such as by discussing hipster culture in the entries on beards and mustaches and recent medical breakthroughs in hair loss. New entries have been added that look at specific world regions, hair coverings, political symbolism behind certain styles, and other topics.

Recovering the Somali State Abdullahi, Abdurahman, 2017-09-17 Somalia is often used as an emblem of a collapsed state. This is somewhat of a paradox given that in previous decades the country was one of the most unified states in Africa and one of the first democracies on the continent. In the last three decades however the country has faced enormous challenges including civil wars and extremism in the name of Islam. The book - probably one of the first to link Islam, Islamism and Transitional Justice with the Somali State recovery project - offers unique analyses of these themes and argues that recovering the Somali state will largely be contingent upon the skillful reconciliation between tradition and modernity, Islam and state and between the secular and the sacred.

The Jewish People, the Holy Land, and the State of Israel Richard C. Lux, 2010 Over forty years have passed since the 1965 Second Vatican Council's groundbreaking declaration *Nostra Aetate*, which promoted an ongoing and necessary relationship between the Catholic Church and the Jewish people. Gathering together the fruits of this interreligious dialogue, Richard C. Lux reflects on future possibilities and new directions for this relationship by considering the religious significance of the Holy Land. This presentation includes an historical overview that traces important developments, a paradigmatic shift in understanding to resolve the two-covenant versus one-

covenant model of the Jewish-Christian relationship, the significance of the Holy Land for Palestinian Christians and Palestinian Muslims, and new ways in thinking about a theological model, for the modern State of Israel. Stimulus Books are made possible by the generous support of the Stimulus Foundation for the publication of books to further the mutual understanding between Jews and Christians. Book jacket.

Cyndi's List Cyndi Howells, 2001 A two volume set which provides researchers with more than 70,000 links to every conceivable genealogical resource on the Internet.

May God Remember Lawrence A. Hoffman, 2013 Engaging and sobering. Traces the development of Yizkor from the original memorializing of Jewish communities destroyed by the Crusaders to the touching service we have today, and reflects on how we remember both personal losses and the martyrs of history.

Beasts of the World Andy McGrath, 2022-01-25 Beasts of the World is a seven-part series, which seeks to investigate the histories, evidence, and common theories surrounding the numerous cryptid creatures that have been reported around the globe. In Volume 1. - Hairy Humanoids, we examine the diverse collection of hairy, bipedal, man-like monsters that are believed to inhabit the world's remote and lonely regions and ask the question - do they represent a single species, or, could there be other lesser-known varieties of Wildmen, yet to be revealed? This book seeks to classify some of these distinct kinds and proposes a separation (even when two or more 'types' or 'species', appear to be sharing a similar geographic area) based upon key physiological and behavioural differences. And so, we find that the Man-Ape - Bigfoot of the Pacific Northwest, is something quite different to the Wildman - Almasti, of the Caucasus Mountains; and that the Relict Ape - known as the Yeti, is more akin to the Florida Skunk Ape, than the Chinese Yeren... Are these mysterious monsters surviving Gigantopithecus, extant Neanderthals, undiscovered apes, hidden tribes, or simply folklore and fable, repackaged for the modern world? Join me, as I go in search of these Hairy Humanoids and the many yet to be discovered Beasts of the World.

God, Jesus, and Other Foolishness Jeffrey A. Kramer, 2022-09-13 In our post-Christian society many skeptics, atheists, and agnostics assume that the Christian faith involves belief in spite of a lack of evidence and that Christianity encourages its adherents to be satisfied with not understanding the world. This is untrue. Christianity has a legacy of thought and logic, and a convincing case can be made that modern science and Western culture could only have sprung from the Judeo-Christian worldview. Although questions of origins, purpose, and meaning are not easily proved true in a "scientific" or empirical sense, things can be true without empirical proof. It does not follow that religion is untrue or that religious belief is for the credulous and the gullible. Many of the presuppositions underlying any worldview cannot be proven empirically, and acceptance of many of the truth claims of atheism and postmodernism requires just as much faith as acceptance of the fundamentals of Christianity. This book is an attempt to demonstrate that biblical Christianity is true, in the sense that it is a logical interpretation of reality and our lived experience, and that the implications of Christian faith make more rational sense than a rejection of that faith.

THE ISLAMIC MOVEMENT IN SOMALIA Abdurahman M. Abdullahi (Baadiyow), 2015-04-30 There is very little scholarship on the history of

political Islam in Somalia that takes seriously both historical forces as well as the very ideas and internal organization of the Islamic movements. This book reconstructs the history of modern and moderate Islamic movement in Somalia. It covers 50 years of turbulent Somali history, in which civilian governments, military dictatorships, armed opposition factions, and Islamic movements were interacting and shaping the Somali history. It divides Islamic development in Somalia into four historical periods: the Islamic revival (1800-1950), the Islamic consciousness (1950-1967), the Islamic awakening (1967-1978) and the Islamic movements (1978-2000). The book provides a detailed and empirically rich narrative of the Islah Movement as a case study which has influenced and made an impact on other Islamist organizations in recent decades. The author provides an insider's view of the Islamic Movement being one of the leaders of Islah.
