Jesse Ventura's Marijuana Manifesto Jesse Ventura 2016-09-06 New York Times Bestselling Author! In this groundbreaking book - for the first time in paperback and fully-updated with all the latest legal information - outspoken freethinker Jesse Ventura lays out his philosophy. Now more than ever before, our country needs full legalization of medical/recreational marijuana and hemp. Seemingly with every day that goes by we find out more positive things about marijuana, a medicinal plant in abundant supply, yet legalization finds stronger resistance from government agencies and big business. Find out why the US government patented CBD and what Big Pharma companies have exclusive rights to create marijuana medication and why the DEA can't be trusted. Jesse Ventura's Marijuana Manifesto calls for an end to the War on Drugs. Legalizing marijuana will serve to rejuvenate our pathetic economy and just might make people a little happier. Ventura's book will show us all how we can take our country back. "More celebs than ever are jumping on the 'Legalize' bandwagon. Why? Because it's safe now. It won't impact your career anymore. But Jesse Ventura has been a solid proponent of legal cannabis for decades. In Jesse Ventura's Marijuana Manifesto, he lays out the good sense of legalization, as well as the sheer insanity of prohibition. As a proud American, he pulls no punches calling out the political elite. - Dan Skye, High Times editor-in-chief "Ventura is

ultimately quite convincing about the ineffectuality of the War on Drugs, and on the contradictions and corruptions of the Drug Enforcement Administration, a particular bugbear of his." - Michael Lindgren, The Washington Post

Sexing the Look in Popular Visual Culture Kathy Justice Gentile 2020-05-15 With dramatic advances in media technology, the practice of sexing or erotically enhancing images has become an increasingly widespread phenomenon. The eroticized "look," as both noun and verb, the thing or image that draws our look, and the look that we bestow on images that elicit our visual, physiological, and emotional attention, is the focus of the essays in this volume. Every day, whether we are out in the world or in the workplace or in the privacy of our homes, we enter visual fields that heighten and distort reality, distortions that often emphasize sexuality and erotic promise. The contributors for this collection look at the sexualization of visual culture from a range of disciplinary perspectives, including literature, film studies, history, philosophy, art history, and media studies, with gender and sexuality studies providing the encompassing critical framework that binds these essays into a coherent analytical project. The essays in this collection offer new theoretical conceptions of perception and representation, as well as rigorous reconsiderations of the polarized feminist debates over pornographic images. Essays on literature and film range from an interrogation of

Baudrillard's theory of seduction that posits femininity as a strategy of illusion and subversion to Bridget Jones's challenge to the prevailing disciplinary regime that prescribes rigid standards for feminine beauty to a reevaluation of the subversive potential of sexy female robots. Other contributors consider the history of nudist images in US periodicals, the proliferation of eroticized images of girls in new digital technologies, gentlemanly masculinity in men's fashion in late Victorian England, and a rape prevention campaign's unintentional reinforcement of persistent heterosexist misconceptions about rape.

Translation Effects Kathy Mezei 2014-06-01 Much of Canadian cultural life is sustained and enriched by translation. *Translation Effects* moves beyond restrictive notions of official translation in Canada, analyzing its activities and effects on the streets, in movie theatres, on stages, in hospitals, in courtrooms, in literature, in politics, and across café tables. The first comprehensive study of the intersection of translation and culture, *Translation Effects* offers an original picture of translation practices across many languages and through several decades of Canadian life. The book presents detailed case studies of specific events and examines the reverberation and spread of their effects. Through these imaginative, at times unusual, investigations, the contributors unveil from

the simultaneous invisibility and omnipresence of translation and present a cross-cut of Canadian translation moments. Addressing the period from the 1950s to the present and including a wide scope of examples from medical interpreting to film dubbing, the essays in this book create a panoramic view of the creation of modern culture in Canada. Contributors include Piere Anctil (University of Ottawa), H el ene Buzelin (Universit e de Montr eal), Alessandra Capperdoni (Simon Fraser University), Philippe Cardinal, Andrew Clifford (York University), Beverley Curran, Ren e Desjardins (University of Ottawa), Ray Ellenwood, David Gaertner, Chantal Gagnon (Universit e de Montr eal), Patricia Godbout, Hugh Hazelton, Jane Koustas (Brock University), Louise Ladouceur (Universit e de l'Albera, Gillian Lane-Mercier (McGill University), George Lang, Rebecca Margolis, Sophie McCall (Simon Fraser University), Julie Dolmaya McDonough, Denise Merkle (Universit e de Moncton), Kathy Mezei, Sorouja Moll, Brian Mossop, Daisy Neijmann, Glen Nichols (Mount Allison University), Joseph Pivato, Gregory Reid, Robert Schwartzwald, Sherry Simon, Luise von Flotow (University of Ottawa), and Christine York.

Disclaimer Ren e Knight 2015-05-19

"Sensationally good psychological suspense...exactly what a great thriller should be." — Lee Child Bestselling author Renee Knight delivers a brilliant and deeply unsettling psychological thriller about a woman haunted by secrets, the consuming desire for revenge, and the terrible price we pay when we try to hide the truth. What if you realized the terrifying book you were reading was all about you? Finding a mysterious novel at her bedside plunges documentary filmmaker Catherine Ravenscroft into a living nightmare. Though ostensibly fiction, *The Perfect Stranger* recreates in vivid, unmistakable detail the terrible day she became hostage to a dark secret, a secret that only one other person knew—and that person is dead. Intertwined with Catherine's narrative is that of Stephen Brigstocke, a grieving widower who discovered among his late wife's possessions a

manuscript that horrifies him. Convinced that it tells the truth, he cannot rest until he shares it not only with Catherine but also with her husband and son. As Catherine's world falls apart, she knows that the only way forward is to confront Brigstocke and tell him what really happened that day, even if the reality is even more agonizing than what he currently believes. *Disclaimer* is about a normal woman whose entire life is changed in one fateful day, when her past finally catches up with her. A breathtakingly suspenseful debut novel, it captures the consuming desire for revenge, and the terrible price we pay for hiding the truth.

Salt Ren e Ashley 1991 Renee Ashley describes "Salt" as an attempt, in part, to mythologize a period of the 1950s and early 1960s in the California Bay Area suburb where she grew up, "a racially rich, economically varied section of town east of El Camino Real--the major road and the 'tracks', so to speak, that one grew up on the right or wrong side of." Many of the poems in the collection explore Ashley's adjustment to the East Coast after a virtual lifetime in "that one place." They deal with landscape, with marriage, with the insight distance seems to lend to hindsight, with amusement, with regret. "Renee Ashley can tune our ears to the thoughts of a wounded sparrow, to the sibilance of snow on stone, even to the song rocks make as they thaw in spring. . . . She wakes us to an intricate, enthralling world behind, beneath, beyond the one we thought we knew, alive with particulars, laced with compassion, luminous with humor."--Donald Finkel

Group Works Ethan Philbrick 2023-04-25 An exciting new reflection on the role of artistic collaboration, collectivism, and the politics of group formation in the neoliberal era. The artist and author Ethan Philbrick's *Group Works* reimagines the group by undertaking an historiographic archaeology of group aesthetics and politics. Written against both phobic and romantic accounts of collectivity, *Group Works* contends that the group emerges as a medium for artists when established forms of collective life break down. Philbrick pairs group pieces in dance, literature, film, and music from the 1960s and 1970s downtown Manhattan scene alongside a

series of recent group experiments: Simone Forti's dance construction, *Huddle* (1961), is put into relation with contemporary re-performances of Forti's score and huddling as a feminist political tactic; Samuel Delany's memoir of communal living, *Heavenly Breakfast: An Essay on the Winter of Love* (1969/78), speaks to performance artist Morgan Bassichis's 2017 communal musical adaptation of Larry Mitchell's 1977 text, *The Faggots and Their Friends Between Revolutions*; Lizzie Borden's experimental documentary of feminist collectivity, *Regrouping* (1976), sits alongside visual artist Sharon Hayes's 2014 piece on Manhattan's Pier 54, *Women of the World Unite! they said*; and Julius Eastman's insurgent piece of chamber music for four pianos, *Gay Guerrilla* (1979), resonates alongside contemporary projects that take up Eastman's legacy by artists such as Tiona Nekkia McClodden. By analyzing works that articulate the politics of race, gender, and sexuality as questions of group formation, Philbrick approaches the group not as a stable, idealizable entity but as an ambivalent way to negotiate and contest shifting terms of associational life. *Group Works* presents an engaging exploration of what happens when small groups become a material and medium for artistic and political experimentation.

The Activist Renee Gladman 2003 Fiction. African American Studies. Straddling fiction and poetry, Renee Gladman's writing operates on the level of the sentence, constructing surprise and oblique meanings at every turn, and somehow managing the supremely difficult trick of both engaging and pushing the reader. "THE ACTIVIST begins in the middle of a revolution....There is a bridge that may or may not have been bombed. People speak in nonsense and cannot stop themselves. In the mids of all this, the language of news reports mixes with the language of confession. The art of this beautifully written book is in how it touchingly illustrates that relations between humans and cities are linked in a more complex interface than most realize"--Juliana Spahr.

Cesar Chavez and the United Farm Workers Movement Roger Bruns 2011-05-26 This book offers an illuminating story of how social and political change can sometimes result from the vision, leadership, and commitment of a few dedicated individuals determined not to fail. Cesar Chavez and the United Farm Workers Movement chronicles the drive for a union of one of American society's most exploited groups. It is a story of courage and determination, set against the backdrop of the 1960s, a time of assassinations, war protests, civil rights battles, and reform efforts for poor and minority citizens. American farm workers were men and women on labor's last rung, living in desperate and inhumane conditions, poisoned by pesticides, and making a pittance for back-breaking work. The book shows how these migrant workers found a champion in Chavez and the United Farm Workers Union. With the help of quotes from documentary material only recently made available, it tells the story of the boycotts, marches, and strikes—including hunger strikes—used to force concessions for better conditions and pay. It also shows how the farm workers movement helped set the stage for growing Latino cultural awareness and political power.

Corruption and Reform in India Jennifer Bussell 2012-03-26 This book asks why some governments improve public services more effectively than others. Through the investigation of a new era of administrative reform, in which digital technologies may be used to facilitate citizens' access to the state, Jennifer Bussell's analysis provides unanticipated insights into this fundamental question. In contrast to factors such as economic development or electoral competition, this study highlights the importance of access to rents, which can dramatically shape the opportunities and threats of reform to political elites. Drawing on a sub-national analysis of twenty Indian states, a field experiment, statistical modeling, case studies, interviews of citizens, bureaucrats, and politicians, and comparative data from South Africa and Brazil, Bussell shows that the extent to which politicians rely on income from petty and grand corruption is closely linked to variation in the timing, management, and comprehensiveness of reforms. The book also illuminates the importance of electoral constituencies and coalition politics in shaping policy outcomes.

Pippa has no idea where her best friend has gone, but she's certain it's in the company of vampire Sébastien Saint Germain and that Arjun can lead her to them. Sytsma 2006-06-07 This collection of 21 articles is designed to serve as a state-of-the art reference book for intersexuals, their parents, health care professionals, ethics committee members, and anyone interested in problems associated with intersexuality. Blue Ocean Strategy Andreas Mebert 2017-07-05 In Blue Ocean Strategy, W. Chan Kim and Renée Mauborgne tackle the central problem facing all businesses: how to perform better than your competitors? Their solution involves taking a creative approach to the normal view of competition. In the normal framework, competition is a zero-sum game: if there are two companies competing for the same market, as one does better, the other has to do worse. The authors' creative leap is to suggest one can beat the competition by not competing. Companies should avoid confronting competitors in crowded marketplaces, what they call "red oceans," and instead seek out new markets, or "blue oceans." Once the blue oceans have been identified, companies can get down to the task of creating unique products which exploit that market. Chan and Mauborgne argue, for example, that a wine company might decide to start appealing to a

group previously uninterested in wine. This would be a "blue ocean" market, giving the winemaker a huge advantage, which they could exploit by creating a wine that appealed to the tastes of a beer-drinking demographic. A classic of business writing, Blue Ocean Strategy is creative thinking and problem solving at its best.

It centers on the inscription of urban space in novels set in the metropolitan centers of the Hispanic World: Mexico City, Bogota, Buenos Aires, and Barcelona.

What do you think a find like that would be worth?" Clarisse refuses to participate in the fraud and is rescued by a mysterious man named Maurice Crevier, who conceals both his face and his intentions behind a black, obsidian mask.
