Blindsight Peter Watts, 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Hung up "A Fisherman's Sos" John C. Goodwin, 2012-04-16 *A Fisherman's SOS* This is a story about a 62 year old Rookie fisherman, Hung Up on fishing. A fishing story is like an iceberg of the human experience; ninety percent of it is beneath the surface. Past life experiences, historical significance and technical data are tied together to tell the author's story. Comradely, new friendships,

natural beauties and everyday fishing adventures are touched on in both fresh and sea water journeys. If you want to know more about fishing, other than how big the fish was, Hung UP will take you there. Many men go fishing all their lives without knowing it is not fish they are after. The Kiss of Judice: The Constitution Betrayed Judge Douglass H. Bartley, 2011-12-01 This work is the second of a multi-volume treatise. It covers Federal Judicial Powers, the Bill of Rights, Individual Rights: the 9th Amendment, State Powers, Powers Denied to States, and Separation of Powers. The volume is styled, *The Kiss of Judice: The Constitution Betrayed—A Coroner's Inquest and Report*. “Judice”, Latin, a pun, means “pertaining to judges”; thus denoting the judicial, Judas-like betrayal of the Constitution. “Coroner's Inquest” denotes that the work is a study into the death of the Constitution. Your author is the Coroner. He proceeds in the Inquest with the aid of his Coroner's Jury: Jefferson, Madison, Hamilton, Story, Locke, and Blackstone. The work in this volume is a dialogue between the Coroner and his jury on the various parts of the Constitution covered. The jury members answer the Coroner's questions, for the most part in their own words, drawn from a variety of their written works. Occasionally the Coroner puts words in their mouths; those “inventions” are shown in brackets in the jurors' answers. The work is novel, because, to the author's knowledge, it is the only “Constitutional Law” textbook that collects the wisdom of the framers as the Constitution's only authoritative sources; it does not, as most Constitutional Law texts do, emphasize court cases as constitutional authority, for more often than not, the courts have only warped the Constitution. In a broader sense, though, the work is not novel, for it's only an arrangement of the work already done by the jurors. The author is pleased to say that the work, by and large, is not original thought. Its beauty is that it only revives long-forgotten constitutional “discoveries” as set in the words of the main jurors and some others within “interviewed”. What We Owe Each Other Minouche Shafik, 2022-08-23 From one of the leading policy experts of our time, an urgent rethinking of how we can better support each other to thrive Whether we realize it or not, all of us participate in the social contract every day through mutual obligations among our family, community, place of work, and fellow citizens. Caring for others, paying taxes, and benefiting

from public services define the social contract that supports and binds us together as a society. Today, however, our social contract has been broken by changing gender roles, technology, new models of work, aging, and the perils of climate change. Minouche Shafik takes us through stages of life we all experience—raising children, getting educated, falling ill, working, growing old—and shows how a reordering of our societies is possible. Drawing on evidence and examples from around the world, she shows how every country can provide citizens with the basics to have a decent life and be able to contribute to society. But we owe each other more than this. A more generous and inclusive society would also share more risks collectively and ask everyone to contribute for as long as they can so that everyone can fulfill their potential. *What We Owe Each Other* identifies the key elements of a better social contract that recognizes our interdependencies, supports and invests more in each other, and expects more of individuals in return. Powerful, hopeful, and thought-provoking, *What We Owe Each Other* provides practical solutions to current challenges and demonstrates how we can build a better society—together.

In each chapter, the authors continue to integrate policy coverage with social work practice, values and ethics, and social justice issues. The relationship between policy and practice is carefully examined in the context of nine major fields of social work, and in discussions of the challenges faced by today's practitioners. Comprehensive coverage is delivered in the highly readable style readers have come to expect of this author team, with engaging case studies as chapter openers, exhibit boxes, debate boxes, and research activity sections designed to draw readers into the text. The third edition continues to keep up with current changes and developments in social work and social policy, with valuable new information on welfare reform, Social Security, privatization of social services, and the NASW Code of Ethics, as well a new chapter on current career opportunities in the field.

Making Hong Kong Pui-yin Ho,2018-09-28 This insightful book provides a comprehensive survey of urban development in Hong Kong since 1841. Pui-yin Ho explores the ways in which the social, economic and political environments of different eras have influenced the city's development. From colonial governance, wartime experiences, high density development and the return to Chinese sovereignty in 1997 through to contemporary challenges, this book explores forward-looking ideas that urban planning can offer to lead the city in the future. Evaluating the relationship between town planning and social change, this book looks at how a local Hong Kong identity emerged in the face of conflict and compromise between Chinese and European cultures. In doing so, it brings a fresh perspective to urban research, providing historical context and direction for the future development of the city. Hong Kong's urban development experience offers not only a model for other Chinese cities but also a better understanding of Asian cities more broadly. Urban studies scholars will find this an exemplary case study of a developing urban landscape. Town planners and architects will also benefit from reading this comprehensive book as it shows how Hong Kong can be taken to the next stage of urban development and modernisation.

Do One Green Thing Mindy Pennybacker,2014-04-22 If you can only read and reference one

green thing, make it this book: an easily comprehensible, clearly presented source for green living and conservation. Everything you need to know is right here at your fingertips. Unlike a lot of other overwhelming environmental guides on the market, this is green decision making in bite sized pieces. With chose it/lose it comparisons throughout, now it's simple to figure out it's worth switching to a green detergent, what kind of plastic your sports bottle is made of, or which fish is safest to eat. Rather than spending time trying to figure out how best to conserve, recycle, and protect the environment, use this book and devote that time to making the difference.
