Python beyond Python Paul N. Reinsch, B. Lynn Whitfield, Robert G. Weiner, 2017-07-14 This collection of original, interdisciplinary essays addresses the work of Monty Python members beyond the comedy show, films, and live performances. These men are prolific creators in a variety of artistic realms beyond the confines of the comedy troupe. Their work as individuals, before and after coming together as Monty Python, demonstrates a restless curiosity about culture that embraces absurdity but seldom becomes cynical. Python members collectively and individually create unique approaches to theatre, film, video games, comic books, business training videos and more. Python Beyond Python increases our understanding of this often neglected work and the meanings of Monty Python.

The Mobile Audience Martin Rieser, 2011 The convergence of mobile technologies and ubiquitous computing is creating a world where information-rich environments may be mapped directly onto urban topologies. This book tracks the history and genesis of locative and wearable media and the ground-breaking work of pioneer artists in the field. It examines changing concepts of space and place for a wide range of traditional disciplines ranging from Anthropology, Sociology, Fine Art and Architecture to Cultural and Media Studies, Fashion and Graphic design. Mobile and Pervasive media are beginning to proliferate in the landscape of computer mediated interaction in public space through the emergence of smartphone technologies such as the iPhone, cloud computing extended wifi services and the semantic web in cities. These dispersed forms of interaction raise a whole series of questions on the nature of narrative and communication, particularly in relation to an audience's

new modes of mobile participation and reception. These issues are explored through a series of focused essays by leading theorists, seminal case studies and practitioner interviews with artists at the cutting edge of these technologies, who are extending the potential of the medium to enhance and critique technological culture. By emphasizing the role of the audience in this nomadic environment, the collection traces the history and development of 'ambulant' artistic practice in this new domain, creating an essential handbook for those wishing to understand the dominant global technology of the 21st Century and its implications for Art, Culture and Audience.

The NFL, Year One Brad Schultz,2022-08-05 For many football fans, the National Football League season of 1970 was a landmark year in the history of the game. The NFL and the American Football League finally began playing as a merged league--one that featured such legendary figures as George Blanda, Tom Dempsey, Vince Lombardi, George Allen, Sid Gillman, Lamar Hunt, and Al Davis. The NFL, Year One focuses on several key games throughout this thrilling initial season. One saw the Raiders and Browns play in Cleveland. This contest serves as the backdrop for the story of forty-three-year-old Oakland kicker Blanda, who went on that season to win or tie four consecutive games in the last seconds, becoming a hero to middle-aged American men. Among other notable games that Brad Schultz examines are the Browns-Jets game that marked the debut of Monday Night Football with commentators Keith Jackson, Howard Cosell, and Dandy Don Meredith; the Chiefs-Vikings game that served as a rematch for the Super Bowl IV competitors; and the Colts-Jets game that ultimately set the scene for the 1970 players' strike. Schultz also demonstrates how the season continues to

influence the NFL today. Meticulously researched and thoroughly entertaining, *The NFL, Year One* is a riveting account of one of the most important and compelling seasons in NFL history. Any fan will surely enjoy Schultz's revisiting of the game's amazing 1970 season.

Genealogist's Address Book. 6th Edition Elizabeth Petty Bentley, 2009-02 This book is the answer to the perennial question, What's out there in the world of genealogy? What organizations, institutions, special resources, and websites can help me? Where do I write or phone or send e-mail? Once again, Elizabeth Bentley's Address Book answers these questions and more. Now in its 6th edition, *The Genealogist's Address Book* gives you access to all the key sources of genealogical information, providing names, addresses, phone numbers, fax numbers, e-mail addresses, websites, names of contact persons, and other pertinent information for more than 27,000 organizations, including libraries, archives, societies, government agencies, vital records offices, professional bodies, publications, research centers, and special interest groups.

Tower under Siege Brian Lewis, Christine Massey, Richard Smith, 2001-09-20 In *The Tower under Siege* Brian Lewis, Christine Massey, and Richard Smith explore these important themes and issues from the varying perspectives of students, teachers, policy makers, and administrators. They describe the opportunities, changes, and policies developing in Canadian universities

and governments in response to the education revolution. While most studies of the education revolution tend to be highly polemical, *The Tower under Siege* occupies a middle space, identifying issues and policy processes used to manage change and create more opportunities for education. *The Tower under Siege* will be of great interest to anyone concerned with, excited about, or worried by the expanding role of technology in higher education: teachers, researchers, students, parents, policy makers, and administrators.

Rethinking Learner Support in Distance Education

Roger Mills, Alan Tait, 2004-08-02 Distance learning is becoming an increasingly popular way of studying, and most universities now provide courses using these methods. Today's students, though, are demanding high quality, consumer-focused and flexible courses, as well as learning resources and active learner support. This means that providers of distance education need to reconsider key

issues about their learner support systems, ensuring that this is delivered appropriately and effectively. Considering the changing needs and demands of distance education students, this book draws together contributions from the UK, USA, Hong Kong, Australia, Japan, South Africa and Botswana, to offer an international perspective on: * the challenges and opportunities of Information and Communication Technologies (ICT) * quality assurance, commercialisation and the learner as consumer * the impact on learners of cultural differences on internationalised curricula * the implications for learner support of a wider range of learners This book should be read by all those involved in developing and delivering distance education courses.

Finding Leo Philip Mathew, 2021-10-26 Transform yourself and your organization through the power of servant leadership. In this informative and inspiring book, Mathew traces the true life stories, struggles, and enduring wisdom of ten men and women who changed the world by serving others. Based on Larry C. Spears's ten characteristics of a servant leader, *Finding Leo* engages the reader in a clear and compelling portrait of this powerful leadership philosophy through a vivid analysis of contemporary and historical servant leaders including Southwest Airlines CEO Herb Kelleher, Underground Railroad conductor Harriet Tubman, missionary to the poorest of the poor Mother Teresa, educational activist Malala Yousafzai, Quaker abolitionist John Woolman, freedom fighter Mahatma Gandhi, First Lady Eleanor Roosevelt, Greenbelt Movement founder Wangari Maathai, Holocaust survivor Viktor Frankl, and civil rights leader Martin Luther King Jr. From the classroom to the boardroom, the leadership lessons found in *Finding Leo* form an essential and practical guide for individuals,

organizations, and communities looking to live for a higher purpose and seeking a path forward through others-centered leadership.

Peace Journalism, War and Conflict Resolution Richard Keeble, John Tulloch, Florian Zollman, 2010 Peace Journalism, War and Conflict Resolution draws together the work of over twenty leading international writers, journalists, theorists and campaigners in the field of peace journalism. Mainstream media tend to promote the interests of the military and governments in their coverage of warfare. This major new text aims to provide a definitive, up-to-date, critical, engaging and accessible overview exploring the role of the media in conflict resolution. Sections focus in detail on theory, international practice, and critiques of mainstream media performance from a peace perspective; countries discussed include the U.S., U.K., Germany, Cyprus, Sweden, Canada, India, Pakistan, Papua New Guinea and the Philippines. Chapters examine a wide variety of issues including mainstream newspapers, indigenous media, blogs and radical alternative websites. The book includes a foreword by award-winning investigative journalist John Pilger and a critical afterword by cultural commentator Jeffery Klaehn.

Management Secrets of the New England Patriots: Achievements, personnel, teamwork, motivation, and competition James Lavin, 2005 The definitive account of the 2001-2004 New England Patriots. Analyzes the many success factors underlying the team's two Super Bowl victories in three seasons. Entertains with humorous, insightful quotations from players, coaches, executives, and owners while helping fans vicariously experience life as a New England Patriot. Management Secrets is essential reading for any serious fan of Bill Belichick's Patriots and anyone seeking to build a great organization. (Vol. 1 covers

the team's achievements, personnel, teamwork, motivation, and competition. Vol. 2 to be published February 2005.)

James Lavin earned his economics Ph.D. at Stanford, where he analyzed high performance work organizations (like the Patriots). He also holds degrees in: political science (Harvard, magna cum laude), economics (London School of Economics), and East Asian studies (Stanford). James grew up in Wayland, MA cheering for many lousy Patriots teams.

County Courthouse Book Elizabeth Petty Bentley, 2009
The County Courthouse Book is a concise guide to county courthouses and courthouse records. It is an important book because the genealogical researcher needs a reliable guide to American county courthouses, the main repositories of county records. To proceed in his investigations, the researcher needs current addresses and phone numbers, information about the coverage and availability of key courthouse records such as probate, land, naturalization, and vital records, and timely advice on the whole range of services available at the courthouse. Where available he will also need listings of current websites and e-mail addresses. -- Publisher website.

50 Ways to Leave Your 40s Sheila Key, Peggy Spencer, MD, 2010-09-24 If you're approaching that huge milepost with less than your usual birthday enthusiasm, open this book to discover all the ways in which turning fifty might just be the best thing yet. The authors share a wide range of ideas for making this major life transition a time of opportunity, growth, and celebration. As Sheila Key writes in the introduction: "What Peg and I hope you'll hear among these pages is the irrepressible rustling of joy — joy enough to make you bust out laughing, sure, and the kind that comes from improving your mental outlook and physical habits, even just a little. But also the simple joy of having lived this long, of being able to look back over five

full decades and forward to who-knows-how-many more; not to mention...the joy of living more mindfully in the ever-present Now." Bursting with anecdotes, activities, "things to try at least once," advice from a savvy doctor, and clever ways to remember it all, this little volume sparkles like a treasure chest. It's as chock-full of useful and entertaining gems as your life is full of memories, regrets, dreams, and possibilities.

Achieving Student Success Donna Gail Hardy
Cox, Charles Carney Strange, 2010 This incisive and luminescent story, scrupulously grounded in sixteenth-century sources, illuminates the power that naming has to create a world - in this case a world still haunted by being the accidental Indies. It is a book about how we perceive and represent the world around us, about the creative and destructive power of language. Through its elaboration of the rich and lively ironies of the Columbus story, *The Accidental Indies* looks at the nature of storytelling itself.

The Documentary Film Book Brian
Winston, 2019-07-25 Powerfully posing questions of ethics, ideology, authorship and form, documentary film has never been more popular than it is today. Edited by one of the leading British authorities in the field, *The Documentary Film Book* is an essential guide to current thinking on documentary film. In a series of fascinating essays, key international experts discuss the theory of documentary, outline current understandings of its history (from pre-Flaherty to the post-Griersonian world of digital 'i-Docs'), survey documentary production (from Africa to Europe, and from the Americas to Asia), consider documentaries by marginalised minority communities, and assess its contribution to other disciplines and arts. Brought together here in one volume, these scholars offer compelling evidence as to why, over the last few decades,

documentary has come to the centre of screen studies.

Improving Internet Reference Services to

Distance Learners Rita Pellen,William Miller,2014-06-03

In their efforts to provide distance learners with the most effective services possible, librarians and information specialists are working more and more with faculty in academic departments, IT departments, and other librarians at cooperating institutions. *Improving Internet Reference Services to Distance Learners* chronicles how those efforts have seen librarians become actively involved in online course management and delivery systems, particularly Blackboard, Desire2Learn, and WebCT, or by “embedding” themselves into the online course structure to better learn where students need assistance. This invaluable resource also examines how librarians use Internet resources to support professional and continuing education and to establish university-wide information and referral services to provide quality service to distance learners. *Improving Internet Reference Services to Distance Learners* encourages librarians to think more broadly about working with “outside” individuals when designing and providing reference and other services to nontraditional users. The book examines why it’s best to consider user needs, funding, staff management, and collaboration development when planning Internet reference services, how to develop and implement a required, credit-bearing online information literacy course, and how to apply effective marketing techniques from the business world to increase awareness of reference support services available to distance learners. It also offers a look at the Walden University Library at Indiana University-Bloomington, which “houses” no print collection—only online databases—and includes case studies that document

the design and development of Internet reference services for the University of Illinois' Fire Service Institute, and the efforts to provide support for doctor of pharmacy students at the University of Wisconsin-Madison in their final year of study. Improving Internet Reference Services to Distance Learners provides practical information on: monitoring online discussion threads devoted to library research Web-based interactive tutorials integrating library services in support of coursework integrating library services into online courses offering, promoting, and providing instruction to public users, as well as local and distance students developing a web site that centralizes information about library services and resources the potential of the academic library to be the central provider of information and referral services for an entire university Improving Internet Reference Services to Distance Learners is an invaluable resource for librarians working in academic, school, special, and public settings, and for library science faculty and students.

Color Coded Walter Nugent, 2018-10-15 The now-staunchly red state of Texas was deep blue in 1950 and had virtually no functioning Republican Party. California, on the other hand, was reliably red. Today, both states have jumped to the opposite end of the political spectrum. Texas is one of the most conservative states, while California has become one of today's most liberal bastions. These are the most dramatic cases, but notable shifts in voting patterns have occurred throughout the western states in recent decades—shifts so varied and complex that they have, until now, eluded the attention focused on the drastic examples of the South and Northeast. Bringing clarity to the remarkably mixed yet poorly understood map of America's red, blue, and purple western half, *Color Coded* presents the first comprehensive

history of political change and stability in the region between 1950 and 2016. The West, in Walter Nugent's analysis, includes nineteen states: the thirteen that the U.S. Census Bureau calls the Western Region—roughly from the Rocky Mountains to the Pacific, as well as off-shore Alaska and Hawaii—plus the six Great Plains states from North Dakota south to Texas. Consulting official voting results of more than 5,300 state and national elections, as well as newspaper reports, oral histories, public documents, and other sources, Nugent reveals the ever-shifting patterns that have defined western politics in modern times. Geography, culture, history, political trajectories, and the charisma of key political actors have all played their part in these changes—and will, Nugent asserts, continue to do so for the foreseeable future. A powerful, exhaustively researched study of modern political organization, party development, and shifting voter blocs in the West, *Color Coded* deftly charts, as well, the profound red-blue tensions that have defined modern America. Returns for the 5,300-plus elections on which the book is based, covering the nineteen western states between 1950 and 2016, are compiled in the book's appendix.

Beyond the Blood, the Beach & the Banana Sandra Courtman, 2004 *Beyond the Blood, the Beach and the Banana* emphasises the significance of the Caribbean in an increasingly globalised social world and draws attention to the contribution that scholarship in Caribbean Studies makes in coming to terms with a multi-cultural heritage. The compilation deliberately ranges in focus across periods, geographies, linguistic divisions and subject matter to present the fruition of significant research projects by 25 researchers from the Caribbean, North America and Europe. Contributors on the Hispanic, Dutch,

African, Indian and Anglophone Caribbean juxtaposed with work on the Caribbean diasporas of the USA, UK, Canada and the Netherlands enrich the text with multiple perspectives.
