Psychological Staging Kristie Barnett,2014-09-15 Kristie Barnett reveals the secrets of her proven method of Psychological Staging to quickly sell residential real estate for top dollar. This method has earned her both local and national awards for home staging, and has made The Decorologist the go-to authority in the field of real estate staging.

The Holy Land Reborn Toni Huber,2008-09-15 The Dalai Lama has said that Tibetans consider themselves "the child of Indian civilization" and that India is the "holy land" from whose sources the Tibetans have built their own civilization. What explains this powerful allegiance to India? In *The Holy Land Reborn*, Toni Huber investigates how Tibetans have maintained a ritual relationship to India, particularly by way of pilgrimage, and what it means for them to consider India as their holy land. Focusing on the Tibetan creation and recreation of India as a destination, a landscape, and a kind of other, in both real and idealized terms, Huber explores how Tibetans have used the idea of India as a religious territory and a sacred geography in the development of their own religion and society. In a timely closing chapter, Huber also takes up the meaning of India for the Tibetans who live in exile in their Buddhist holy land. A major contribution to the study of Buddhism, *The Holy Land Reborn* describes changes in Tibetan constructs of India over the centuries, ultimately challenging largely static views of the sacred geography of Buddhism in India.

The Lhasa Atlas Knud Larsen,Amund Sinding-Larsen,2001 Lhasa, the ancient capital of Tibet, is the most impressive of the few surviving traditional towns. This guide presents its unique architecture and building culture, topography, environment, historical development and townscape, as well as introducing future plans and issues concerning the safeguarding of Lhasa in the face of urban development.

Lhasa Robert Barnett,2006-02-21 There are many Lhasas. One is a grid of uniform boulevards lined with plush hotels, all-night bars, and blue-glass-fronted offices. Another is a warren of alleyways that surround a seventh-century temple built to pin down a supine demoness. A web of Stalinist, rectangular blocks houses the new nomenclatura. Crumbling mansions, once home to noble ministers, famous lovers, nationalist spies, and covert revolutionaries, now serve as shopping malls and faux-antique hotels. Each embodiment of the city partakes of the others' memories, whispered across time and along the city streets. In this imaginative new work, Robert Barnett offers a powerful and lyrical exploration of a city long idealized, disregarded, or misunderstood by outsiders. Looking to its streets and stone, Robert Barnett presents a searching and unforgettable portrait of Lhasa, its history, and its illegibility. His book not only offers itself as a manual for thinking about contemporary Tibet but also questions our ways of thinking about foreign places. Barnett juxtaposes contemporary accounts of Tibet, architectural observations, and descriptions by foreign observers to describe Lhasa and its current status as both an ancient city and a modern Chinese provincial capital. His narrative reveals how historical layering, popular memory, symbolism, and mythology constitute the story of a city. Besides the ancient Buddhist temples and former picnic gardens of the Tibetan capital, Lhasa describes the urban sprawl, the harsh rectangular structures, and the geometric blue-glass tower blocks that speak of the anxieties of successive regimes intent upon improving on the past. In Barnett's excavation of the city's past, the buildings and the city streets, interwoven with his own recollections of unrest and resistance, recount the story of Tibet's complex transition from tradition to modernity and its painful history of foreign encounters and political experiment.

The Tibetan Empire in Central Asia Christopher I. Beckwith,2020-07-21 This narrative history of the Tibetan Empire in Central Asia from about A.D. 600 to 866 depicts the struggles of the great Tibetan, Turkic, Arab, and Chinese powers for dominance over the Silk Road lands that connected Europe and East Asia. It shows the importance of overland contacts between East and West in the Early Middle Ages and elucidates Tibet's role in the conflict over Central Asia.

The Story of Tibet Thomas Laird,2007-10-10 In a series of candid interviews with the Dalai Lama, the spiritual leader speaks out about the land, people, culture, history, traditions, and spirituality of Tibet, discussing the role played by religion and spirituality in the nation's history, the Dalai Lama's flight into exile in 1959, his personal religious beliefs, and his lifelong study of Buddhism. Reprint.

Tibet Michael Buckley,2012 Exploring ethnic Tibet independently is a challenge. With the 'land of snows' having some of the wildest and roughest road routes in high Asia, motoring, mountain-biking and trekking options are all given due attention in this new edition. High quality, numerous maps set this guide apart from other guides on Tibet and the trekking section has been expanded to include more on the main treks, including Everest Base Camp, Genden to Samye, Namtso trek and Kailiash region treks. Particular attention has been paid to the Amdo and Kham regions, not usually covered in guidebooks. Political and cultural issues make Tibet a sensitive destination for Westerners, so Michael Buckley's authoritative advice includes guidelines on cultural etiquette, local customs, and travelling with minimum impact on the culture and environment. The chapter on language includes a section covering Tibetan script.

Children of the Sun Max Schaefer,2021-06-25 1970. Fourteen year old Tony is seduced by the skinhead movement, sucked into a world of racist violence and bizarre ritual. It is a milieu in which he must hide his homosexuality, in which every encounter is explosively risky. 2003. James a young TV researcher becomes obsessed with the Neo Nazis and British Movement activist Nicky Crane in particular. As he becomes immersed in research, he begins to receive threatening phone calls. Two different worlds, two different eras but two lives that will ultimately and

unforgettably collide.

The revised edition contains expanded discussions of recent Tibetan history and tantra and incorporates important new publications in the field. Beginning with a summary of the Indian origins of Tibetan Buddhism and how it eventually was brought to Tibet, it explores Tibetan Mahayana philosophy and tantric methods for personal transformation. The four main schools of Tibetan Buddhism, as well as Bön, are explored in depth from a nonsectarian point of view. This new and expanded edition is a systematic and wonderfully clear presentation of Tibetan Buddhist views and practices.

Himalaya Michael Palin, 2010-05-27 Michael Palin tackles the full length of the Himalaya in this terrific number one bestseller. Having risen to the challenge of seas, poles, dhows and deserts, the highest mountains in the world were a natural target for Michael Palin. In a journey rarely, if ever, attempted before, in 6 months of hard travelling Palin takes on the full length of the Himalaya including the Khyber Pass, the hidden valleys of the Hindu Kush, ancient cities like Peshawar and Lahore, the mighty peaks of K2, Annapurna and Everest, the gorges of the Yangtze, the tribal lands of the Indo-Burmese border and the vast Brahmaputra delta in Bangladesh. Facing altitudes as high as 17,500 feet as well as some of the world's deepest gorges, Palin also passed through political flashpoints like Pakistan's remote north-west frontier, terrorist-torn Kashmir and the mountains of Nagaland, only recently open to visitors.
