Contemporary Group Theatre in Kolkata, India Arnab Banerji, 2020-05-17 This book is the first of its kind offering a materialistic semiotic analysis of a non-Western theatre culture: Bengali group theatre. Arnab Banerji fills two lacunas in contemporary theatre scholarship. First, the materialist semiotic approach to studying a non-Western theatre event allows Banerji to critically examine the material conditions in which theatre is created and seen outside the Euro-American context. And second, by shifting the critical lens onto a contemporary urban theatre phenomenon from India, the book attempts to even out the scholastic imbalance in Indian theatre scholarship which has largely focused on folk and classical traditions. The book shows a refreshing new perspective toward a theatre culture that frequently escapes the critical lens in spite of being one of the largest urban theatre cultures in the world. Theatre events are a sum total of the conditions in which they are built and the conditions in which they are viewed. Studying the event separate from its materialistic beginnings and semiotic effects allow only a partial insight into the performance phenomenon. The materialist semiotic critical framework of this book locates the Bengali group theatre within its performative context and offers a heretofore unexplored insight into this vibrant theatre culture.

Poverty Narratives and Power Paradoxes in International Trade Negotiations and Beyond Amrita Narlikar, 2020-05-07 In this work, Amrita Narlikar argues that, contrary to common assumption, modern-day politics displays a

surprising paradox: poverty - and the powerlessness with which it is associated - has emerged as a political tool and a formidable weapon in international negotiation. The success of poverty narratives, however, means that their use has not been limited to the neediest. Focusing on behaviours and outcomes in a particularly polarising area of bargaining - international trade - and illustrating wider applications of the argument, Narlikar shows how these narratives have been effectively used. Yet, she also sheds light on how indiscriminate overuse and misuse increasingly run the risk of adverse consequences for the system at large, and devastating repercussions for the weakest members of society. Narlikar advances a theory of agency and empowerment by focusing on the life-cycles of narratives, and concludes by offering policy-relevant insights on how to construct winning and sustainable narratives.

Retains a sense of immediacy in its approach. Contains maps which were carefully researched and compiled as original documents in their own right. Includes an index.

Enhancing Capabilities through Labour Law Supriya Routh,2014-03-26 In 2002 the International Labour Organization issued a report titled 'Decent work and the informal economy' in which it stressed the need to ensure appropriate employment and income, rights at work, and effective social protection in informal economic activities. Such a call by the ILO is urgent in the context of countries such as India, where the majority of workers are engaged in informal economic activities, and where expansion of informal economic activities is coupled with deteriorating working conditions and living standards. This book explores the informal economic activity of India as a case study to examine typical requirements in the work-lives of informal workers, and to develop a means to institutionalise the promotion of these requirements through labour law. Drawing upon Amartya Sen's theoretical outlook, the book considers whether a capability approach to human development may be able to promote recognition and work-life conditions of a specific category of informal workers in India by integrating specific informal workers within a social dialogue framework along with a range of other social partners including state and non-state institutions. While examining the viability of a human development based labour law in an Indian context, the book also indicates how the proposals put forth in the book may

be relevant for informal workers in other developing countries. This research monograph will be of great interest to scholars of labour law, informal work and workers, law and development, social justice, and labour studies.

Emerging Powers in a Comparative Perspective Vidya Nadkarni, Norma C. Noonan, 2013-02-14 The book examines the rising influence of emerging powers in global politics, with a special focus on the BRIC countries (Brazil, Russia, India, China). Chapters contributed by international scholars first look at the changing status of the US in the 21st century and at the EU as both an emerging and innovative power. China's rising power status, India's regional and global influence, Russia's re-emergence, and Brazil's growing regional and international role are then analyzed comparatively to explain how the BRIC states are poised to become vital players not only in politics and economy, but also in key international concerns such as terrorism, globalization, and climate change. The book provides a detailed analysis of political, economic, security, and foreign policy trends in the BRIC countries to address such questions as to whether they will seek to revise the international order or work within it and how they will deal with transnational global problems. Using a unique comparative approach, the text will appeal to undergraduate students in world politics, international relations, and foreign policy.

Open Source Intelligence in a Networked World Anthony Olcott, 2012-05-17 The amount of publicly and often freely available information is staggering. Yet, the intelligence community still continues to collect and use information in the same manner as during WWII, when the OSS set out to learn as much as possible about Nazi Germany and Imperial Japan by scrutinizing encyclopedias, guide books, and short-wave radio. Today, the supply of information is greater than any possible demand, and anyone can provide information. In effect, intelligence analysts are drowning in information. The book explains how to navigate this rising flood and make best use of these new, rich sources of information. Written by a pioneer in the field, it explores the potential uses of digitized data and the impact of the new means of creating and transmitting data, recommending to the intelligence community new ways of collecting and processing information. This comprehensive overview of the world of open source intelligence will appeal not only to practitioners and students of intelligence, but also to anyone interested in communication and the challenges posed by the information age.

A Resurgent China S. D. Muni, Tan Tai Yong, 2013-11-12 Bringing together a range of South Asian perspectives on rising China in a comparative framework, an attempt has been made, for the first time, to identify and examine the political, economic and socio-cultural stakeholders and constituencies that influence the respective policy of individual South Asian countries towards China. The essays also project how their mutual relations are likely to be shaped by these. The book is especially relevant today owing to China's growing weight in Asian and global affairs.
