*The Forensic Comicologist* Jamie Newbold,2018-06-13 A childhood comic book fan turned comic book retailer, the author soon discovered the prevalence of scams in the world of comics collecting. This book is his tutorial on how to collect wisely and reduce risks. Drawing on skills learned from twenty years with the San Diego Police Department and as a Comic-Con attendee since 1972, he covers in detail the history and culture of collecting comic books and describes the pitfalls, including common deceptions of grading and pricing, as well as theft, and mail and insurance fraud.

**Applied Software Risk Management** C. Ravindranath Pandian,2006-12-15 Few software projects are completed on time, on budget, and to their original specifications. Focusing on what practitioners need to know about risk in the pursuit of delivering software projects, *Applied Software Risk Management: A Guide for Software Project Managers* covers key components of the risk management process and the software development process, as well as best practices for software risk identification, risk planning, and risk analysis. Written in a clear and concise manner, this resource presents concepts and practical insight into managing risk. It first covers risk-driven project management, risk management processes, risk attributes, risk identification, and risk analysis. The book continues by examining responses to risk, the tracking and modeling of risks, intelligence gathering, and integrated risk management. It concludes with details on drafting and implementing procedures. A diary of a risk manager provides insight in implementing risk management processes. Bringing together concepts across software engineering with a project management perspective, *Applied Software Risk Management: A Guide for Software Project Managers* presents a rigorous, scientific method for identifying, analyzing, and resolving risk.

**Raymond's Run** Toni Cade Bambara,2014 A story about Squeaky, the fastest thing on two feet, and her brother Raymond.

**Blood and Violence in Early Modern France** Stuart Carroll,2006-05-25 The rise of civilized conduct and behaviour has long been seen as one of the major factors in the transformation from medieval to modern society. Thinkers and historians alike argue that violence progressively declined as men learned to control their emotions. The feud is a phenomenon associated with backward societies, and in the West duelling codified behaviour and channelled aggression into ritualised combats that satisfied honour without the shedding of blood. French manners and codes of civility laid the foundations of civilized Western values. But as this original work of archival research shows we continue to romanticize violence in the era of the swashbuckling swordsman. In France, thousands of men died in duels in which the rules of the game were regularly flouted. Many duels were in fact

mini-battles and must be seen not as a replacement of the blood feud, but as a continuation of vengeance-taking in a much bloodier form. This book outlines the nature of feuding in France and its intensification in the wake of the Protestant Reformation, civil war and dynastic weakness, and considers the solutions proposed by thinkers from Montaigne to Hobbes. The creation of the largest standing army in Europe since the Romans was one such solution, but the militarization of society, a model adopted throughout Europe, reveals the darker side of the civilizing process.

Women's Rights, Racial Integration, and Education from 1850–1920 M. Noraian, 2009-11-09 This historical biography examines Sarah Raymond Fitzwilliam's abolitionist roots growing up on a stop of the Underground Railroad, her training at a 'normal school,' her tenure as a teacher, principal and the nation's first city school superintendent (Bloomington, Illinois 1874-1892).

**Reformatting Politics: Information Technology and Global Civil Society** Jodi Dean, Jon W. Anderson, Geert Lovink, 2006-08-24 This book examines the ways in which new information and communication technologies (ICTs) are being used by civil society organizations (CSOs) to achieve their aims through activities and networks that cross national borders. These new ICTs (the internet, mobile phones, satellite radio and television) have allowed these civil society organizations to form extensive networks linking the local and the global in new ways and to flourish internationally in ways that were not possible without them. Reformatting Politics consists of four sections containing essays by some of the top scholars and activists working at the intersections of networked societies, civil society organizations, and information technology. The book also includes a section that takes a critical look at the UN World Summit of Information Society and the role that global governance has played and will play in the use and dissemination of these new technologies. Finally, the contributors aim to influence this important and emerging field of inquiry by posing a set of questions and directions for future research. In sum, Reformatting Politics is a fresh look at the way critical network practice through the use of information technology is reformatting the terms and terrains of global politics.

Annals of Cases on Information Technology Mehdi Khosrowpour, 2004-01-01 Annals of Cases on Information Technology provides a collection of case studies focusing on IT implementation in organizations. The cases included in Volume VI describe successful projects and offer advice on how to achieve these best practices. They also look at IT project failures and describe steps to avoid pitfalls in the path to successful IT utilization. The organizations described in this book represent small businesses, educational institutions, public and private corporations and describe many aspects of IT

implementation including, e-commerce endeavors, intelligent technologies, enterprise resource planning and many other facets of emerging IT utilization.

Warriors and Wilderness in Medieval Britain Robin Melrose, 2017-02-08 Tracing the development of the King Arthur story in the late Middle Ages, this book explores Arthur's depiction as a wilderness figure, the descendant of the northern Romano-British hunter/warrior god. The earliest Arthur was a warrior but in the 11th century Welsh tale Culhwch and Olwen, he is less a warrior and more a leader of a band of rogue heroes. The story of Arthur was popularized by Geoffrey of Monmouth, in his Latin History of the Kings of Britain, and was translated into Middle English in Layamon's Brut and the later alliterative Alliterative Morte Arthure. Both owed much to the epic poem Beowulf, which draws on the Anglo-Saxon fascination with the wilderness. The most famous Arthurian tale is Sir Gawain and the Green Knight, in which the wilderness and themes from Beowulf play a leading role. Three Arthurian tales set in Inglewood Forest place Arthur and Gawain in a wilderness setting, and link Arthur to medieval Robin Hood tales.

**Handbook on Developing Curriculum Materials for Teachers** Gerald Bailey, Tara Baillargeon, Cara D. Barragree, Ann Elliott, Raymond Doswell, 2010-02-01 This book provides an essential resource for educators and museum professionals who wish to develop education focused eMuseums that feature motivational standards-based curriculum for diverse learners. The book is divided into three sections: Section 1. Planning, Developing, and Evaluating eMuseums guides the reader through the stages of planning, creating, and evaluating a user-centered eMuseum. This section provides an overview of the process of planning, creating, and evaluating an eMuseum, giving small and medium sized museums the framework and guidance needed to create an eMuseum. Section 2. Museum and Public School Partnerships: A Step-by-Step Guide for Creating Standards-Based Curriculum Materials in High School Social Studies is the second section. This section includes how to: a) form a partnership, b) create standards-based curriculum materials, and c) provides curriculum material evaluation strategies. Section 3. Developing Accessible Museum Curriculum: A Handbook for Museum Professionals and Educators. Educators in both museums and schools are faced with the task of delivering content to patrons with increasingly diverse interests, skills, and learning needs. This section outlines specific strategies that can be applied to curriculum to expand its application to broader audiences. This section includes: (a) content presentation, (b) content process, and (c) content product. Throughout the book, materials created from the Negro Leagues Baseball Museum (NLBM) and Kansas State University (KSU) partnership are included as product examples.

*The Life-Course of Serious and Violent Youth Grown Up* Evan C. McCuish, Patrick Lussier, Raymond Corrado, 2021-06-30 The Life-Course of Serious

and Violent Youth Grown Up addresses significant gaps in the literature on youth involved in chronic, serious, and violent offending. Through longitudinal research and a long follow-up into adulthood, it challenges common perceptions about offending outcomes. Using theoretically grounded, methodologically sophisticated and empirically driven research, this book culminates 20 years of data emerging from the Incarcerated Serious and Violent Young Offender Study (ISVYOS). Initiated in 1998 to understand the origins of serious and violent youth offending, it follows 1,719 formerly incarcerated youth through adulthood and offers a contemporary perspective to questions about chronic offending in adolescence and social and offending outcomes in adulthood. The authors provide a theoretically framed examination of new findings from the ISVYOS regarding participants' justice system involvement, from onset to persistence to desistance. Most participants experienced continued involvement in the justice system in adulthood. However, contrary to past literature, ISVYOS findings challenge static descriptions of chronic offending and notions of the youth super predator. ISVYOS findings also challenge assertions that experiences and risk factors in childhood and adolescence are not informative of adult justice system involvement. Together, the findings call for a more humanistic approach that recognizes that the complex lives of individuals formerly incarcerated in adolescence implies that desistance does not happen by default. This book will be of great interest to scholars, researchers, and students of forensic psychology, developmental and life course criminology, youth justice, and violent crime.

Preparing for Disunion Allen H. Mesch, 2018-11-30 Between 1817 and 1864, sixteen officers were assigned as Commandants of Cadets at the U.S. Military Academy. They played an important role in training the officers who would serve on both sides of the Civil War. Historians criticize the program as antiquated for its time: A course in Napoleonic strategy and tactics that did not account for rifled weapons or the particularities of terrain. Yet these commandants made changes to the program, developed new textbooks and instructed cadets who became field generals. The biographies of the commandants are presented along with their contributions to the Academy, notable graduates and other military service.

*Software Applications: Concepts, Methodologies, Tools, and Applications* Tiako, Pierre F., 2009-03-31 Includes articles in topic areas such as autonomic computing, operating system architectures, and open source software technologies and applications.

**Exploring Intelligence Archives** R. Gerald Hughes, Peter Jackson, Len Scott, 2008-03-11 This edited volume brings together many of the world's leading scholars of intelligence with a number of former senior practitioners to facilitate a wide-ranging dialogue on the central challenges confronting

students of intelligence. The book presents a series of documents, nearly all of which are published here for the first time, accompanied by both overview and commentary sections. The central objectives of this collection are twofold. First, it seeks to build on existing scholarship on intelligence in deepening our understanding of its impact on a series of key events in the international history of the past century. Further, it aims to explore the different ways in which intelligence can be studied by bringing together both scholarly and practical expertise to examine a range of primary material relevant to the history of intelligence since the early twentieth century. This book will be of great interest to students of intelligence, strategic and security studies, foreign policy and international history.

The Banham Lectures Jeremy Aynsley, Harriet Atkinson, 2009-11 A collection of essays by leading critics who are inspired by Reyner Banham's revolutionary work. Each critic presents their own analysis of a key issue in design, architecture or art. The essays explore topics such as: clothes and carpets, photography, the history of bedrooms, how cities grow, the architecture of museums, dematerialisation and the future of design.

**The Handbook of Dialectology** Charles Boberg, John Nerbonne, Dominic Watt, 2018-01-30 The Handbook of Dialectology provides an authoritative, up-to-date and unusually broad account of the study of dialect, in one volume. Each chapter reviews essential research, and offers a critical discussion of the past, present and future development of the area. The volume is based on state-of-the-art research in dialectology around the world, providing the most current work available with an unusually broad scope of topics Provides a practical guide to the many methodological and statistical issues surrounding the collection and analysis of dialect data Offers summaries of dialect variation in the world's most widely spoken and commonly studied languages, including several non-European languages that have traditionally received less attention in general discussions of dialectology Reviews the intellectual development of the field, including its main theoretical schools of thought and research traditions, both academic and applied The editors are well known and highly respected, with a deep knowledge of this vast field of inquiry

**A Collection of Fiero Family Histories and Genealogies, with Allied Families, 1620-1982** Catherine F. Gair, 1983

**Evaluation of the New York City Police Department Firearm Training and Firearm-Discharge Review Process** Bernard D. Rostker, Lawrence M. Hanser, William M. Hix, Carl Jensen, Andrew R. Morral, 2008-06-09 In January 2007, New York City Police Commissioner Raymond W. Kelly asked the RAND Corporation to examine the quality and completeness of the New York City Police Department's firearm-training program and identify potential

improvements in it and in the police department's firearm-discharge review process. This monograph reports the observations, findings, and recommendations of that study.

**Handbook of Test Development** Suzanne Lane, Mark R. Raymond, Thomas M. Haladyna, 2015-10-08 The second edition of the Handbook of Test Development provides graduate students and professionals with an up-to-date, research-oriented guide to the latest developments in the field. Including thirty-two chapters by well-known scholars and practitioners, it is divided into five sections, covering the foundations of test development, content definition, item development, test design and form assembly, and the processes of test administration, documentation, and evaluation. Keenly aware of developments in the field since the publication of the first edition, including changes in technology, the evolution of psychometric theory, and the increased demands for effective tests via educational policy, the editors of this edition include new chapters on assessing noncognitive skills, measuring growth and learning progressions, automated item generation and test assembly, and computerized scoring of constructed responses. The volume also includes expanded coverage of performance testing, validity, fairness, and numerous other topics. Edited by Suzanne Lane, Mark R. Raymond, and Thomas M. Haladyna, The Handbook of Test Development, 2nd edition, is based on the revised Standards for Educational and Psychological Testing, and is appropriate for graduate courses and seminars that deal with test development and usage, professional testing services and credentialing agencies, state and local boards of education, and academic libraries serving these groups.

**State Information Directory, 2000–2001**, 2000 This guide provides information about the 50 states and the District of Columbia. Each state profile offers key contacts in the executive branch, legislature, and state courts, with more general information resources on issues such as taxes, marriage, schools, gun control, gambling, and more.

The Ribbon of Green Robert H. Webb, S. A. Leake, Raymond M. Turner, 2007 Woody wetlands constitute a relatively small but extremely important part of the landscape in the southwestern United States. These riparian habitats support more than one-third of the region's vascular plant species, are home to a variety of wildlife, and provide essential havens for dozens of migratory animals. Because of their limited size and disproportionately high biological value, the goal of protecting wetland environments frequently takes priority over nearly all other habitat types. In The Ribbon of Green, hydrologists Robert H. Webb, and Stanley A. Leake and botanist Raymond M. Turner examine the factors that affect the stability of woody riparian

vegetation, one of the largest components of riparian areas. Such factors include the diversion of surface water, flood control, and the excessive use of groundwater. Combining repeat photography with historical context and information on species composition, they document more than 140 years of change. Contrary to the common assumption of widespread losses of this type of ecosystem, the authors show that vegetation has increased on many river reaches as a result of flood control, favorable climatic conditions, and large winter floods that encourage ecosystem disturbance, germination, and the establishment of species in newly generated openings. Bringing well-documented and accessible insights to the ecological study of wetlands, this book will influence our perception of change in riparian ecosystems and how riparian restoration is practiced in the Southwest, and it will serve as an important reference in courses on plant ecology, riparian ecology, and ecosystem management.
