Coalition Politics and Hindu Nationalism Katharine Adeney, Lawrence Saez, 2007-04-11 This new collection examines the emergence of the Bharatiya Janata Party (BJP) in India and the ways in which its Hindu nationalist agenda has been affected by the constraints of being a dominant member of a coalition government. Religious influence in contemporary politics offers a fertile ground for political-sociological analysis, especially in societies where religion is a very important source of collective identity. In South Asian societies religion can, and often has, provided legitimacy to both governments and those who oppose them. This book examines the emergence of the BJP and the ways in which its Hindu nationalist agenda has been affected by the constraints of being a dominant member of a coalition government. The collected authors take stock of the party's first full term in power, presiding over the diverse forces of the governing NDA coalition, and the 2004 elections. They assess the BJP's performance in relation to its stated goals, and more specifically how it has fared in a range of policy fields - centre-state relations, foreign policy, defence policies, the 'second generation' of economic reforms, initiatives to curb corruption and the fate of minorities. Explicitly linking the volume to literature on coalition politics, this book will be of great importance to students and researchers in the fields of South Asian studies and politics.

Small Arms Survey 2010 Small Arms Survey, Geneva, 2010-06-03 Reviews knowledge about gangs and non-state armed groups worldwide, and interventions designed to curb the risks associated with them.

The Jumbled Jigsaw Donna Williams, 2006 This book exposes autism spectrum disorders as a combination of a whole range of often underlying conditions. Exploring everything from mood, anxiety, obsessive-compulsive and tic disorders to information processing and sensory perceptual difficulties and more, Donna demonstrates how such conditions can combine to form a 'cluster condition'.

Towards Pan-Africanism Stephen M. Magu, 2023-03-11 This book traces the development and impact of regional economic communities (RECs) in Africa and addresses a timely question: do REC members, and the REC itself, positively influence member states' behaviors towards other members and more broadly, regionally and continentally due to REC membership? 'Changing member states' behaviors' is measured across three 'interconnected, fundamental dimensions of societal-systems' proposed by Marshall and Elzinga Marshall in CSP's Global Repot 2017. These are i) the persistence of conflict or its counterpoint, achieving peace, ii) fostering democratization and better governance, and iii) achieving socio-economic development and (as proposed by this research, a fourth dimension), iv) being active participants in multilateralism? Is membership in a REC ultimately beneficial to the member and other countries in the region? While there are no clear and obvious – at least, discernible traditional – benefits such as increase in trade (perhaps because Africa's overall trade relative to the world is about 3 percent), there are other non trade benefits (e.g., decrease in conflict, coercion to take certain actions towards peace and refrain from others, coups and wars) presenting in REC member states. These in/actions, abilities, coercions, exclusions and cooperation instances are outlined and discussed in the book.

Introduction to School Counseling Robert J. Wright, 2011-02-15 This comprehensive graduate-level text prepares readers to handle the problems and responsibilities they'll face as professional school counselors, preschool through high school. It covers a wide range of topics in-depth, including: effective interventions for racism and bullying, the continuing score gap between ethnic groups, a school counselor's leadership role in implementing school-based action research, a model for advocating on behalf of, and providing services to children with disabilities. The book is packed with real life examples and case descriptions: it provides strategies for preventing and responding to social and emotional problems, improving educational outcomes, and helping children score at optimum levels on high-stakes tests.

Understanding Your Refugee and Immigrant Students Jeffra Flaitz, 2006 Understanding Your Refugee and Immigrant Students is an excellent resource for educators who work with refugees and immigrants. This well-researched volume-including interviews with students from the profiled countries-provides a wealth of information about the specific schooling traditions, practices, circumstances, and expectations that follow these individuals to their new homes in North America and influence their learning experience. The author has focused her research on 18 countries that contribute a majority of refugees and immigrants to the United States: Afghanistan, Bosnia-Herzegovina, Croatia, the Dominican Republic, Ecuador, El Salvador, Ethiopia, Guatemala, Honduras, India, Iran, Laos, Liberia, Peru, Somalia, Sudan, and the Ukraine. Each country profile features: statistics about the country, a historical synopsis, an overview of the county's official education policy, cultural perspectives, and a problem-solution section containing classroom strategies. The linguistic systems of the languages featured are also included for teacher reference. Also included is information about teacher-student relationships, discipline and class management, and appropriate non-verbal communication. This volume provides invaluable insight into refugee and immigrant students' cultural and educational backgrounds and gives instructors the tools to translate this information into effective classroom strategies.

The Economics of Immigration Cynthia Bansak, Nicole Simpson, Madeline Zavodny, 2015-04-24 Economics of Immigration provides students with the tools needed to examine the economic impact of immigration and immigration policies over the past century. Students will develop an understanding of why and how people migrate across borders and will learn how to analyze the economic causes and effects of immigration. The main objectives of the book are for students to understand the decision to migrate; to understand the impact of immigration on markets and government budgets; and to understand the consequences of immigration policies in a global context. From the first chapter, students will develop an appreciation of the importance of immigration as a separate academic field within labor economics and international economics. Topics covered include the effect of immigration on labor markets, housing markets, international trade, tax revenues, human capital accumulation, and government fiscal balances. The book also considers the impact of immigration on what firms choose to produce, and even on the ethnic diversity of restaurants and on financial markets, as well as the theory and evidence on immigrants' economic assimilation. The textbook includes a comparative study of immigration policies in a number of immigrant-receiving and sending countries, beginning with the history of immigration policy in the United States. Finally, the book explores immigration topics that directly affect developing countries, such as remittances, brain drain, human trafficking, and rural-urban internal migration. Readers will also be fully equipped with the tools needed to understand and contribute to policy debates on this controversial topic. This is the first textbook to comprehensively cover the economics of immigration, and it is suitable both for economics students and for students studying migration in other disciplines, such as sociology and politics.

One Nation Under Blackmail – Vol. 2 Whitney Alyse Webb, 2022-10-20 Exposes vastly under-explored topics compared to other media reports and books on Jeffrey Epstein How did Jeffrey Epstein manage to evade justice for decades? Who enabled him and why? Why were legal officials told that Epstein “ belonged to intelligence” and to back off during his first arrest in the mid-2000s? Volume 2 of One Nation Under Blackmail examines the rise of Jeffrey Epstein and his closest associates, such as Leslie Wexner and Ghislaine Maxwell, and contextualizes them within the organized crime-intelligence networks detailed in-depth in Volume 1. It subsequently details their ties, with a focus on Epstein, to intelligence networks, espionage activity and the subversion of American institutions as well as the role of Epstein and the Maxwell family in the evolution of blackmail in the digital era.

The Complete Story of Sadako Sasaki Masahiro Sasaki,Sue DiCicco,2020-04-07 **Independent Publisher Book Award (IPPY) Winner** **Middle School Book of the Year-- Northern Lights Book Awards** **Skipping Stones Honor Award Winner** For the first time, middle readers can learn the complete story of the courageous girl whose life, which ended through the effects of war, inspired a worldwide call for peace. In this book, author Sue DiCicco and Sadako's older brother Masahiro tell her complete story in English for the first time--how Sadako's courage throughout her illness inspired family and friends, and how she became a symbol of all people, especially children, who suffer from the impact of war. Her life and her death carry a message: we must have a wholehearted desire for peace and be willing to work together to achieve it. Sadako Sasaki was two years old when the atomic bomb was dropped on her city of Hiroshima at the end of World War II. Ten years later, just as life was starting to feel almost normal again, this athletic and enthusiastic girl was fighting a war of a different kind. One of many children affected by the bomb, she had contracted leukemia. Patient and determined, Sadako set herself the task of folding 1000 paper cranes in the hope that her wish to be made well again would be granted. Illustrations and personal family photos give a glimpse into Sadako's life and the horrors of war. Proceeds from this book are shared equally between The Sadako Legacy NPO and The Peace Crane Project.

How to Make Successful Students in One Year - a Model for the World Nicholas Aggor,2014-06-23 I wrote the book, How To Make Successful Students In One Year - A Model For The World, as a true testament of real world academic success for parents, teachers, students, school districts and governments of the world. I used my skills as a very successful senior engineer (with critical engineering quality controls) and a very successful parent to design many practical innovations to help parents, teachers, students, school districts and governments to make successful students starting from today. The results from using this book are immediate, effective, significant and they work for all determined students of the world. I recommend this book for all parents, teachers, students, school districts and governments of the world.

Nation and National Identity Hanspeter Kriesi,2004 The nation-state is challenged all over the world today. Regional movements, the reunification of separate territorial parts, the differentiation of formerly homogenous ethnic identities, the sequels of war, and the country-specific historical legacies present many different challenges for national identities and nationhood. The contributions in this volume constitute an attempt to put the many facets of the contemporary European experience into perspective.--BOOK JACKET.

Health Assessment in Nursing Janet R. Weber,Jane H. Kelley,2013-11-14 Innovative, systematic, and user-friendly, Health Assessment in Nursing has been acclaimed through four previous editions for the way it successfully helps RN-level students develop the comprehensive knowledge base and expert nursing assessment skills necessary for accurate collection of client data. Maintaining the text's hallmarks—in-depth, accurate information, a compelling Continuing Case Study, and practical tools that help students develop the skills they need to collect both subjective and objective data—the Fifth Edition now features an exciting array of new chapters, a greater focus on diversity and health assessment through the lifespan, over 150 new illustrations, more than 300 new photos of actual registered nurses and nurse practitioners performing assessments, and an expanded array of teaching and learning tools.

Reforms at the United Nations Gambhir Bhatta,2000 This is an attempt at putting into context Kofi Annan's agenda for the United Nations. It assesses the possibilities of reforms at the UN, highlights key issues that will dictate the nature of future discussion on this topic, and updates the reader on what has happened thus far to the proposals.

Reading the Nation in English Literature Elizabeth Sauer,Julia M. Wright,2009-09-10 This volume contains primary materials and introductory essays on the historical, critical and theoretical study of national literature, focusing on the years 1550 – 1850 and the impact of ideas of nationhood from this period on contemporary literature and culture. The book is helpfully divided into three comprehensive parts. Part One contains a selection of primary materials from various English-speaking nations, written between the early modern and the early Victorian eras. These include political essays, poetry, religious writing, and literary theory by major authors and thinkers ranging from Edmund Spenser, Anne Bradstreet and David Hume to Adam Kidd and Peter Du Ponceau. Parts Two and Three contain critical essays by leading scholars in the field: Part Two introduces and contextualizes the primary material and Part Three brings the discussion up-to-date by discussing its impact on contemporary issues such as canon-formation and globalization. The volume is prefaced by an extensive introduction to and overview of recent studies in nationalism, the history and debates of nationalism through major literary periods and discussion of why the question of nationhood is important. Reading the Nation in English is a comprehensive resource, offering coherent, accessible readings on the ideologies, discourses and practices of nationhood. Contributors: Terence N. Bowers, Andrea Cabajsky, Sarah Corse, Andrew Escobedo, Andrew Hadfield, Deborah Madsen, Elizabeth Sauer, Imre Szeman, Julia M. Wright.

Sikh Nationalism and Identity in a Global Age Giorgio Shani,2007-12-06 Sikh Nationalism and Identity in a Global Age examines the construction of a Sikh national identity in post-colonial India and the diaspora and explores the reasons for the failure of the movement for an independent Sikh state: Khalistan. Based on a decade of research, it is argued that the failure of the movement to bring about a sovereign, Sikh state should not be interpreted as resulting from the weakness of the 'communal' ties which bind members of the Sikh 'nation' together, but points to the transformation of national identity under conditions of globalization. Globalization is perceived to have severed the link between nation and state and, through the proliferation and development of Information and Communications Technologies (ICTs), has facilitated the articulation of a transnational 'diasporic' Sikh identity. It is argued that this 'diasporic' identity potentially challenges the conventional narratives of international relations and makes the imagination of a post-Westphalian community possible. Theoretically innovative and interdisciplinary in approach, it will be primarily of interest to students of South Asian studies, political science and international relations, as well as to many others trying to come to terms with the continued importance of religious and cultural identities in times of rapid political, economic, social and cultural change.

Sacralizing the Nation through Remembrance of Medieval Religious Figures in Serbia, Bulgaria and Macedonia Stefan Rohdewald,2022-05-20 Religious figures of remembrance served to consolidate dynastic rule and later nation-state legitimacy and community. The study illuminates the interweaving of (Eastern) Roman, medieval Serbian and Bulgarian, as well as Ottoman and Western European national discourses culminating in the sacralization of the

nation.
