Feminist Media Elke Zobl,Ricarda Drüeke,2014-04-30 While feminists have long recognised the importance of self-managed, alternative media to transport their messages, to challenge the status quo, and to spin novel social processes, this topic has been an under-researched area. Hence, this book explores the processes of women's and feminist media production in the context of participatory spaces, technology, and cultural citizenship. The collection is composed of theoretical analyses and critical case studies. It highlights contemporary alternative feminist media in general as well as blogs, zines, culture jamming, and street art.

Chromic Phenomena 3rd Edition Peter Bamfield,Michael Hutchings,2018-08-24 Chromic or colour related phenomena are produced in response to a chemical or physical stimulus. This new edition will update the information on all those areas where chemicals or materials interact with light to produce colour, a colour change, or luminescence especially in the imaging, analysis, lighting and display areas. The book has been restructured to show greater emphasis on applications where 'coloured' compounds are used to transfer energy or manipulate light in some way therefore reducing the details on classical dyes and pigments. In the past eight years, since the previous edition, there has been a remarkable increase in the number of papers and reviews being produced reflecting the growth of interest in this area. This ongoing research interest is matched by a large number of new technological applications gaining commercial value covering e.g. biomedical areas, energy, data storage, physical colour, bio-inspired materials and photonics. This book appeals to industrial chemists, professionals, postgraduates and as high level recommended reading for colour technology courses.

Cave,Ben Kiernan,Doris Bergen,David Moshman,Victoria Sanford,John Docker,Robert Hitchcock,2008-02-13 The Historiography of Genocide is an indispensable guide to the development of the emerging discipline of genocide studies and the only available assessment of the historical literature pertaining to genocides.

Pakistan Rohan Gunaratna,Khuram Iqbal,2012-01-01 As made abundantly clear in the classified documents recently made public by WikiLeaks, Pakistan is the keystone in the international fight against terrorism today. After the US-led coalition targeted terrorist groups operating in Afghanistan, these groups, including al Qaeda and the Taliban, relocated to the Federally Administered Tribal Area of Pakistan. From its base in this remote, inhospitable region of Pakistan, al Qaeda and its associated cells have planned, prepared, and executed numerous terrorist attacks around the world, in addition to supporting and waging insurgencies in Iraq, Afghanistan, Yemen, Somalia, and elsewhere. This book is the first detailed analysis of the myriad insurgent groups working in Pakistan. Written by well-known expert on global terrorism Rohan Gunaratna and Khuram Iqbal, a leading scholar in Pakistan, the book examines and reviews the nature, structure, and agendas of the groups, their links to activists in other countries, such as India and Iran, and the difficulties of defeating terrorism in this part of the world. Drawing on extensive field research and interviews with government officials and former terrorists, the authors argue that Pakistan faces grave and continuing pressures from within, and that without steadfast international goodwill and support, the threats of extremism, terrorism, and insurgency will continue to grow. This timely and necessary book argues that if the international community is to win the battle against ideological extremism and operational terrorism around the world, then Pakistan should be in the vanguard of the fight.

The Practice of War Aparna Rao,Michael Bollig,Monika Böck,2008-03-01 The fact is that war comes in many guises and its effects

continue to be felt long after peace is proclaimed. This challenges the anthropologists who write of war as participant observers. Participant observation inevitably deals with the here and now, with the highly specific. It is only over the long view that one can begin to see the commonalities that emerge from the different forms of conflict and can begin to generalize. [From the Introduction] More needs to be understood about the ways of war and its effects. What implications does war have for people, their lived-in communities and larger political systems; how do they cope and adjust in war situations and how do they deal with the changed world that they inhabit once peace is declared? Through a series of essays that move from looking at the nature of violence to the peace processes that follow it, this important book provides some answers to these questions. It also analyzes those new dimensions of social interaction, such as the internet, which now provide a bridge between local concerns and global networks and are fundamentally altering the practices of war.

Jihad and Dawah Samina Yasmeen, 2017-10-01 This book provides a detailed account of the emergence and metamorphoses of Lashkar-e-Taiba (LeT) and its political arm, Jamat ud Dawah, since the early 1990s. Linking the group's narratives to the process of Islamization in Pakistan and divergent views on the country's Islamic identity, it is the first systematic analysis of how the organization, globally reviled as the perpetrator of the 2008 Mumbai Bombings, has developed its conception of da'wah (proselytizing) and jihad in response to regional and global developments. Samina Yasmeen makes extensive use of Urdu materials (pamphlets, books, ephemera) by Markaz Da'wah wal Irshad, the parent organization of LeT, to examine the 'insider's vision' of the dominant threats to Pakistan and the Muslim ummah, as well as strategies for countering these threats. She argues that while adopting an oppositional narrative vis-à-vis India and the West, LeT has increasingly turned its attention to da'wah narratives within Pakistan engaging with broader spectrums of society. Women have increasingly been assigned significant agency in this narrative, and JuD's activism in education and social welfare has helped it acquire social capital. This, in turn, prompts a re-imagining of the movement's relationship with the Pakistani military.

Legal Knowledge Representation: Automatic Text Analysis in Public International and European Law Erich Schweighofer, 1999-10-19 This volume is a presentation of all methods of legal knowledge representation from the point of view of jurisprudence as well as computer science. A new method of automatic analysis of legal texts is presented in four case studies. Law is seen as an information system with legally formalised information processes. The achieved coverage of legal knowledge in information retrieval systems has to be followed by the next step: conceptual indexing and automatic analysis of texts. Existing approaches of automatic knowledge representations do not have a proper link to the legal language in information systems. The concept-based model for semi-automatic analysis of legal texts provides this necessary connection. The knowledge base of descriptors, context-sensitive rules and meta-rules formalises properly all important passages in the text corpora for automatic analysis. Statistics and self-organising maps give assistance in knowledge acquisition. The result of the analysis is organised with automatically generated hypertext links. Four case studies show the huge potential but also some drawbacks of this approach.

Islam: Religion of Peace? Mario Alexis Portella, 2018-09-25 Eight hundred years ago, St. Francis of Assisi embarked on a mission to the port city of Damietta, Egypt, to try and convert Sultan al-Kamil to Christianity. While this did not come to fruition, both the sultan and the saint were able to have a peaceful dialogue and establish a mutual respect that is absent from the present-day polemics of Islam. While many today hold that those who seek to create a universal caliphate through acts of terror in the name of Islam falsely represent their religion, they ignore the original Islamic texts that inspire these perpetrators. The Islamization of our society, however, does not just come from avowed terrorists but from various Islamic scholars and activists seeking to impose sharia law. As a result of the West disavowing its Greco-Roman and Judeo-Christian roots, government officials have catered to such injustices since they consider the petrodollar more valuable than the victims of violence. Consequently, they have capitulated our rights of free speech and religion to the point of classifying anyone who questions Islamists' intentions as an Islamophobe. *Islam: Religion of Peace?* places Islam in its historical and sociopolitical contexts in order to better understand what has bred the Islamic threat facing today's society, as well as how many of our political and church leaders have failed to address the problem, thereby creating more instability between both Muslims and non-Muslims. Author Mario Alexis Portella also proposes solutions whereby both peoples may enter into a meaningful discourse and establish harmony.

Muhammad Ali Barbara L. Tischler, 2015-10-30 Muhammad Ali was not only a champion athlete, but a cultural icon. While his skill as a boxer made him famous, his strong personality and his identity as a black man in a country in the midst of the struggle for civil rights made him an enduring symbol. From his youth in segregated Louisville, Kentucky, to his victory in the 1960 Olympics, to the controversy that surrounded his conversion to Islam and refusal of the draft during the Vietnam War, Ali's life was closely linked to the major social and political struggles of the 1960s and 70s. The story of his struggles, failures, and triumphs sheds light on issues of race, class, religion, dissent, and the role of sports in American society that affected all Americans. In this lively, concise biography, Barbara L. Tischler introduces students to Ali's life in social and political context, and explores his enduring significance as a symbol of resistance. *Muhammad Ali: A Many of Many Voices* offers the perfect introduction to this extraordinary American and his times.

The New Book of Christian Martyrs Johnnie Moore, Jerry Pattengale, 2023-03-07 An inspiring keepsake that honors the heroic sacrifice of today's martyrs for the Christian faith—and shows how their actions mirror the courage of a long line of brave Christians. In the twenty-first century, we are witnessing an escalation in Christian persecution like we have rarely seen since the first century. Many people don't realize that today thousands of Christians are dying cruel deaths throughout much of the world. There were, in fact, more martyrs in the last century than in all the previous Christian centuries combined. Millions have given their lives since the fall of Rome, and today tens of thousands die annually for their faith in Jesus. Most of these modern stories are not legendary; in fact, many are unknown. *The New Book of Christian Martyrs* commemorates those modern-day heroes. In this update to Foxe's *Book of Martyrs*, Johnnie Moore and Jerry Pattengale highlight key martyrs of past centuries and feature stories of contemporary martyrs around the world. Through tears, Johnnie and Jerry offer this compendium of heroes from the first century to the twenty-first century, from Europe to Africa and from Asia to the Americas, to inspire Christians around the globe. Today, we live in solidarity with them and in the next life, we will rejoice by their side. We will never forget their sacrifice for the truth.

The Criminal Law of Genocide Paul Behrens,2016-03-16 This collection of essays presents a contextual view of genocide. The authors, who are academic authorities and practitioners in the field, explore the legal treatment, but also the social and political concepts and historical dimensions of the crime. They also suggest alternative justice solutions to the phenomenon of genocide. Divided into five parts, the first section offers an historical perspective of genocide. The second consists of case studies examining recent atrocities. The third section examines differences between legal and social concepts of genocide. Part four discusses the treatment of genocide in courts and tribunals throughout the world. The final section covers alternatives to trial justice and questions of prevention and sentencing.

The Huthi Movement in Yemen Abdullah Hamidaddin,2022-06-30 The Huthi rebels in Yemen are a resistance movement going back decades. Their coup against Yemeni President Abdrabbuh Mansur Hadi in 2015 - and the subsequent Yemeni civil war and the intervention of the Arab coalition in support of Hadi - has brought absolute devastation to the country. But who are the Huthis and how can we understand the group away from armed conflict and war? What has motivated their social movement to fundamentally re-shape Yemen, and what are the group's local and regional ambitions? This book provides the first comprehensive critical analysis dedicated to the Huthis. Across four parts and 17 chapters, the book examines how the movement is challenging traditional religious authority, re-shaping tribal values and roles in Yemen, constructing new collective memories and identities, and infusing Yemen's mediascape with their ideological creed. In examining the movement's specific ways of thinking and beliefs, the book also highlights its foreign policy within a regional policy of resistance to the United States, and it points towards what its impact on both Yemen and the security of the Arab Gulf region will be. The book brings together the leading experts on Yemen from diverse disciplines to provide readers with a nuanced and multi-layered approach to understanding the Huthi movement.

Pakistan Under Siege Madiha Afzal,2018-01-02 Over the last fifteen years, Pakistan has come to be defined exclusively in terms of its struggle with terror. But are ordinary Pakistanis extremists? And what explains how Pakistanis think? Much of the current work on extremism in Pakistan tends to study extremist trends in the country from a detached position—a top-down security perspective, that renders a one-dimensional picture of what is at its heart a complex, richly textured country of 200 million people. In this book, using rigorous analysis of survey data, in-depth interviews in schools and universities in Pakistan, historical narrative reporting, and her own intuitive understanding of the country, Madiha Afzal gives the full picture of Pakistan's relationship with extremism. The author lays out Pakistanis' own views on terrorist groups, on jihad, on religious minorities and non-Muslims, on America, and on their place in the world. The views are not radical at first glance, but are riddled with conspiracy theories. Afzal explains how the two pillars that define the Pakistani state—Islam and a paranoia about India—have led to a regressive form of Islamization in Pakistan's narratives, laws, and curricula. These, in turn, have shaped its citizens' attitudes. Afzal traces this outlook to Pakistan's unique and tortured birth. She examines the rhetoric and the strategic actions of three actors in Pakistani politics—the military, the civilian governments, and the Islamist parties—and their relationships with militant groups. She shows how regressive Pakistani laws instituted in the 1980s worsened citizen attitudes and led to vigilante and mob violence. The author also explains that the educational regime has become a vital element in shaping citizens' thinking. How many years one attends school, whether the school is public, private, or a madrassa,

and what curricula is followed all affect Pakistanis' attitudes about terrorism and the rest of the world. In the end, Afzal suggests how this beleaguered nation—one with seemingly insurmountable problems in governance and education—can change course.

Genocide by Attrition Samuel Totten, 2015-06-30 This volume documents the Sudanese government's campaign of genocidal attacks and forced starvation against the people of the Nuba Mountains in the late 1980s and early 1990s. *Genocide by Attrition* provides powerful insights and analysis of the phenomenon and bears witness to ongoing atrocities. This second edition features more interviews, a new introduction, and a revised and more detailed historical overview. Among the themes that link most of the interviews are: the political and economic disenfranchisement of the Nuba people by the government of Sudan; the destruction of villages and farms and the murder and deaths of the Nuba people; the forced relocation into so-called "peace camps"; and the impact of forced starvation. The book also documents the frustration of the Nuba people at being left out of the Comprehensive Peace Agreement signed between the South and the North in 2005, President Omar al Bashir's threats against the Nuba people, and the crisis in the Nuba Mountains since June 2011. *Genocide by Attrition* provides a solid sense of the antecedents to the genocidal actions in the Nuba Mountains. It introduces the main actors, describes how the Nuba were forced into starvation by their government, and tells how those who managed to survive did so. Samuel Totten provides a valuable resource to study the imposition of starvation as a tool of genocide.

Iran and Saudi Arabia Fraihat Ibrahim Fraihat, 2020-02-03 Hostile relations between Iran and Saudi Arabia are a major contributing factor to political instability in the Middle East. This book argues that rapprochement between Tehran and Riyadh is possible and delves into the complexities of managing their long-standing conflict. By interviewing scholars and former policy makers from the Gulf region and abroad, the author draws out the core themes, strategies, and dynamics of the conflict since the American invasion of Iraq in 2003 to form a basis of an agenda for achieving peace. The result is a fresh perspective on a dangerous and unpredictable rift that affects not only its primary parties - Iran and Saudi Arabia - but also the geopolitics, economic stability and civil wars of the wider Middle Eastern region.
