Religion and Magic in Socialist and Post-Socialist Contexts

Alexandra Cotofana, James M. Nyce, 2017-03-28 Religion and magic have played important roles within Eastern European societies where social reality and socio-political balance may differ greatly from those in the West. Although often thought of as being two distinct, even antagonistic forces, religion and magic find ways to work together. By taking on various examples in the multicultural settings of post-Soviet and post-socialist spaces, this collection brings together diverse historical and ethnographic analyses of orthodoxy and heterodoxy from the pre- and post-1989 periods, studies on the relationship of religious and state institutions to individuals practicing alternative forms of spirituality, and examples of borderlands as spaces of ambiguity. This volume is at the crossroads of anthropology, history, as well as cultural memory studies. Its archival and field research findings help understand how repurposing religious and magic practices worked into the transition that countries in Eastern Europe and beyond have experienced after the end of the Cold War.

Sustainability in Energy and Buildings Nacer M'Sirdi, Aziz Namaane, Robert J. Howlett, Lakhmi C Jain, 2012-01-15 Welcome to the proceedings of the Third International Conference on Sustainability in Energy and Buildings, SEB'11, held in Marseilles in France, organised by the Laboratoire des Sciences de l'Information et des Systèmes (LSIS) in Marseille, France in partnership with KES International. SEB'11 formed a welcome opportunity for researchers in subjects related to sustainability, renewable energy technology, and applications in the built environment to mix with other scientists, industrialists and stakeholders in the field. The conference featured presentations on a range of renewable energy and sustainability related topics. In addition the conference explored two innovative themes: the application of intelligent sensing, control, optimisation and modelling techniques to sustainability and the technology of sustainable buildings. These two themes combine synergetically to address issues relating to The Intelligent Building. SEB'11 attracted a significant number of submissions from around the world. These were subjected to a two-stage blind peer-review process. With the objective of producing a high-quality conference, only the best 50 or so of these were selected for presentation at the conference and publication in the proceedings. It is hoped that you will find this volume an interesting, informative and useful resource for your research.

Puitika Sastera Wanita Indonesia dan Malaysia: Satu Bacaan Ginokritik (Penerbit USM) Norhayati Ab. Rahman, 2014-11-25 Kajian feminisme di Malaysia sudah melalui tahap permulaannya. Buku ini, *Puitika Sastera Wanita Indonesia dan Malaysia: Satu Bacaan Ginokritik* membawa pembaca ke tahap seterusnya dengan perbincangan daripada sudut yang lebih mutakhir dan menggunakan teori ginokritik yang digagaskan oleh Showalter. Perbincangan yang tersusun rapi dan diperkuat dengan hujah-hujah serta contoh yang jelas ini memberikan gambaran dan amalan puitika wanita yang lebih menonjolkan biologi dan pengalaman wanita. Puitika wanita yang unik dan berlainan ini mendekonstruksikan puitika aliran perdana (lelaki), dan oleh yang demikian bersifat subversif kerana yang dijadikan medan perbincangan di sini ialah perasaan, suara, keinginan, perlambangan, imej, wacana dan gaya wanita, yang seterusnya dihubungkan dengan sifat biologi pengarang wanita. Pengarang menggalurkan unsur-unsur ini dalam karya-karya pengarang penting Indonesia dan Malaysia, termasuk Titis Basino, Oka Rusmini, Ayu Utami dan Toety Heraty dari Indonesia, dan Azmah Nordin, Rosmini Shaari, Fatimah Busu dan Zaharah Nawawi dari Malaysia. Aspek-aspek serta unsur-unsur yang secara langsung atau tidak langsung telah mempengaruhi proses pembentukan puitika ini di kedua-dua buah negara turut dibincangkan. Buku ini sememangnya adalah pemaparan usaha penting pengarang yang membuka lembar baru dalam penerokaan akal budi pengarang wanita Malaysia dan dengan itu berlaku adil kepada wacana dan sudut wujud mereka. Inilah bahan bacaan dan rujukan penting yang perlu dimiliki oleh para pengkaji dan pelajar kesusasteraan.

God is Love William Sutherland, 2013-10 *God Is Love* is written so

that fear may be dispelled and all may discover and know God's perfect love for each of us, a love that transcends all religions and ultimately leads to universal salvation. *God Is Love* is the most powerful book in years. It is a must-read for persons of every religion and even for the atheist. It is especially uplifting and inspirational for the marginalized and alienated and everyone who has been condemned at one time or another. *God Is Love* definitively answers the age-old questions pertaining to the culpability and eternal fate of those involved in the crucifixion and why the cross was God's chosen mechanism for His loving, salvific plan that includes each and every being of creation. Through a diversity of religious scripture and textual evidence, *God Is Love* portrays the true nature of God and establishes the fact that everyone has a place in His heart even when society and/or religious institutions attempt to limit God's love and the power of the crucifixion and resurrection. After reading *God Is Love*, your life will be changed forever and even those who have been alienated from God will return to seek refuge in His everlasting agape love. *God Is Love* provides much-needed love and hope in an era of hate and doubt!

introduce education and health systems.

Regional Cooperation in South Asia and Southeast Asia Kripa Sridharan, 2007 Provides a comparative sketch of regional cooperation in South and Southeast Asia in the light of various political, economic and social developments in the two regions.

Economic Integration in South Asia Muinul Islam, Nitai Chandra Nag, 2010 Economic Integration in South Asia: Issues and Pathways is one of the volumes of the series titled, *Imagine a New South Asia*, presented by ActionAid International Asia. This volume envisions a new South Asia, free from human deprivation and poverty, where countries will become successful, proud and inclusive societies. This book demonstrates how South Asian countries can learn from the best practices in the region as well as from their failures, and also by trying to emulate the successful strategies of introducing egalitarian education and health systems of East Asia, China and Southeast Asian countries. Rich in analysis and research, this volume seeks an alternative people-centred perspective, and takes into account all those voices that have so long been unheard in policy-making processes through reviews of case studies. West Asia After Washington Tim Anderson, 2023-09-01 At the turn of the century Washington launched a series of invasions and proxy wars against all the independent peoples and states of the region, in the name of creating a 'New Middle East'. That offensive involved mass propaganda and the use of large proxy-terrorist armies, especially sectarian Islamist groups armed and financed by Washington and its regional allies, especially Saudi Arabia, Qatar,

Turkey and Israel. Resistance to that regional war led to the formation of a loose regional bloc, led by Iran, which is now forming more substantial relations with the wider counter-hegemonic blocs led by China and Russia, in particular the BRICS and the Shanghai Cooperation Organization (SCO). West Asia After Washington addresses how, as Washington's multiple wars for a subjugated 'New Middle East' fail, the global order is shifting against the North American giant. China is displacing the USA as the productive and economic center of the world and new global organizations are competing with those created by the Anglo-Americans. It is in this global context we must understand the future of the Arabic and Islamic countries of the Middle East, now often called West Asia in reflection of that new orientation. Among other things, this alliance is making real what North American intelligence has long feared and termed an 'Iranian land-bridge', extending to the Mediterranean in the west and as far as China in the east. That 'land bridge' between East Asia and Europe centers on Iran, the largest independent state of the region and is, from a Zionist perspective, thought to represent "the most serious long term existential threat to Israel" because it forms a united resistance front in support of the colonized Palestinian people. This book discusses the wars of hegemonic decline, the roots of Western fascism, Zionist cancel culture, the Kurdish card in Syria, the purging of Christians from the 'New Middle East', the betrayal of Yemen, and takes us inside Syrian Idlib. Then it looks into the near future, considering Washington's strategic retreat, the legacy of murdered Iranian Commander Qassem Soleimani, and the possibilities of dismantling Apartheid Israel and the lifting of the siege on Syria and its recovery. The Iranian land bridge to China, Iran's Resistance Economy, regional integration, and the challenge of multipolarity

offer insight into the West Asian region after Washington.

Kőkorszaki rítusok Tóth Gyöngyi, 2019-11-19 Ideje van a gyásznak, ideje a táncnak. Ideje van a rítusoknak is. A kőkorszak rítusairól alig tudunk valamit, kutatásuk jobbára a régészet eszközeivel folyik. A tell dombok rendszeres időközönként leégetett és felhordott rétegei a kőkorszaki ember ciklikus időszemléletű elképzeléseire engednek következtetni. A ciklikus világszemlélet úgy tartja, hogy a világmindenség bizonyos időközönként elpusztul, bizonyos időközönként megteremtődik. Miből tudták eleink, hogy elérkezett a pusztulás és a teremtés szertartások ideje? Az írás ezekre a különleges rítusokra fókuszál. Ahogy a különböző kultúrtörténeti korszakokban az emberi gondolkodás különféle ábrázolási módjait lehet kiemelni, éppen úgy a szertartások is koronként máshová helyezik a hangsúlyt, nem utolsósorban ökológiai változások miatt. A szerző ezt a folyamatot igyekszik megragadni. Kutatásai nyomán láthatóvá válik egy olyan világkép, mely a középső kőkorszaktól az avarokig bezárólag jelen lehetett a Kárpát-medencében és a világ más részein. Az antropológus valláskutató jól ismert régészeti jelenségekből bont ki új ismereteket. Megtudhatjuk többek között, hogy - kik lehettek a faemberek, - milyen volt az őskori dárda párbaj, - voltak-e szentek az őskorban, - hogyan készült az Örök Élet itala, - mi volt Marduk isten szuperfegyvere, - merre található az Ígéret Földje, - mit cselekedett Jupiter és Vénusz hetvenkét évenként, - miért eltérő magasságúak a Stonehenge kapui, - miért nem aranytányérból evett Attila, - milyen szertartásokat végeztek az avarok a Kárpát-medencében és még sok érdekességet. A válaszokat azonban nem tálcán nyújtja át az olvasónak. Időkön és korokon át megtett, fáradságos úton vezet el hozzájuk. Végezetül a hosszú kultúrtörténeti időszak áttekintése alkalmat kínál számára az emberiség jövőjével kapcsolatos néhány megállapításra is.

Az írás csevegő stílusban megírt olvasmány, de az áldozatok leírásai miatt kizárólag felnőtt olvasóknak ajánlott! ENGLISH: It's time to mourn, it's time to dance. There is also time for rites. We know little about the rites of the Stone Age, their research is mostly done by means of archeology. The layers of a tell hills, burned and applied at regular intervals, suggest the cyclical ideas of Stone Age man. The cyclical worldview holds that the universe is destroyed and created at certain intervals. How did our ancestors know that the time for the rites of destruction and creation had come? The book focuses on these special events. Just as different representations of human thought can be highlighted in different cultural history eras - from the Stone Age to the present - so rituals are shifting emphasis from one age to another, not least because of ecological changes. The anthropologist religion researcher seeks to capture this process. This recognition brings to light a cyclical worldview that may have been present in the Carpathian Basin from the Middle Stone Age to the Avars. We can find out, among other things, that - who could be the woodmen, - what was the prehistoric spear duel, - were there saints in prehistoric times, - how the Eternal Life drink was made, - what was the super weapon of the god Marduk, - where the Promised Land was located, - what Jupiter and Venus did every seventy-two years, - why are the Thrilitons of Stonehenge different in height, - why didn't Attila, the Hun use for dinner a gold plate, - what type of rituals the Avars performed in the Carpathian Basin and more interesting facts. However, the answers are not presented to the reader in a tray. She guides them through a tireing journey over time and ages. Finally an overview of a long period of cultural history offers him some opportunity to make some observations about the future of humanity. Writing is a fun-to-read text but due to the descriptions of special

sacrifices it is recommended for adult readers!

Managing Globalization in the Asian Century Hal Hill, 2016-11-17

The global centre of gravity continues to shift to the Asia-Pacific, the most dynamic region in the world. These economies have generally grown faster for longer periods of time than any other major region in world history. Their embrace of globalization has been a central feature, and driver, of their dynamism. The management of Asia-Pacific economic integration and globalization is crucial not only for the countries themselves but also for the state of the global economy, including importantly latecomer developing economies who look to the region for analytical and development policy lessons. Twenty-eight leading international authorities in the field, drawn from nine countries, provide a comprehensive examination of the causes, consequences and challenges of globalization, in a volume that celebrates the distinguished career of Professor Prema-Chandra Athukorala. Among the major issues examined are the region's distinctive approach to trade liberalization, the effects of economic growth on poverty reduction and the labour market, the special challenges of by-passed regions, the role of ideas in influencing policy making, the modalities of connecting to global production networks, and the importance of remittances in economic development. Several country case studies provide in-depth analyses of development processes and outcomes. These include episodes in economic development, the challenges faced by transition economies, the macroeconomics of adjusting to slower growth and rising debt in advanced economies, and the so-called middle-income trap phenomenon.

Medical Law in Canada Trudo Lemmens,Jennifer

Bergman,Kanksha Mahadevia Ghimire,Maryam Shahid,2020-12-20

Derived from the renowned multi-volume International Encyclopaedia of Laws, this convenient volume provides comprehensive analysis of the law affecting the physician-patient relationship in Canada. Cutting across the traditional compartments with which lawyers are familiar, medical law is concerned with issues arising from this relationship, and not with the many wider juridical relations involved in the broader field of health care law. After a general introduction, the book systematically describes law related to the medical profession, proceeding from training, licensing, and other aspects of access to the profession, through disciplinary and

professional liability and medical ethics considerations and quality assurance, to such aspects of the physician-patient relationship as rights and duties of physicians and patients, consent, privacy, and access to medical records. Also covered are specific issues such as organ transplants, human medical research, abortion, and euthanasia, as well as matters dealing with the physician in relation to other health care providers, health care insurance, and the health care system. Succinct and practical, this book will prove to be of great value to professional organizations of physicians, nurses, hospitals, and relevant government agencies. Lawyers representing parties with interests in Canada will welcome this very useful guide, and academics and researchers will appreciate its comparative value as a contribution to the study of medical law in the international context.
