Eckes, Jr, Patrick Manning, Kenneth Pomeranz, Steven Topik, 2015-04-10 Written for high school or beginning undergraduate students, this four-volume reference valiantly attempts to provide a historical framework for the perhaps overly broad concept of world trade. Getting Started with HTML Denis Titchenell, 1999 The world is experiencing a growing obsession with the World Wide Web. Never before has there existed a medium through which anyone almost anywhere (given certain economic requirements) can share information of virtually any sort with practically everyone else. Millions are publishing pages on the World Wide Web and many millions are eagerly devouring them without editor, distributor or market forces intervening. Designed to provide a practical guide to those interested in the production of Web pages, Getting Started with HTML emphasizes available devices and features of Web pages with simple but thorough discussion of how and where to use them with practical examples. Concise and readable, Denis Titchenell provides real-world scenarios and case studies with today's students (or webmasters) in mind. Getting started has never been easier.

Goliath Max Blumenthal, 2013-10-01 2014 Lannan Foundation Cultural Freedom Notable Book Award In Goliath, New York Times bestselling author Max Blumenthal takes us on a journey through the badlands and high roads of Israel-Palestine, painting a startling portrait of Israeli society under the siege of increasingly authoritarian politics as the occupation of the Palestinians deepens. Beginning with the national elections carried out during Israel's war on Gaza in 2008-09, which brought into power the country's most right-wing government to date, Blumenthal tells the story of Israel in the wake of the collapse of the Oslo peace process. As Blumenthal reveals, Israel has become a country where right-wing leaders like Avigdor Lieberman and Bibi Netanyahu are sacrificing democracy on the altar of their power politics; where the loyal opposition largely and passively stands aside and watches the organized assault on civil liberties; where state-funded Orthodox rabbis publish books that provide instructions on how and when to kill Gentiles; where half of Jewish youth declare their refusal to sit in a classroom with an Arab; and where mob violence targets Palestinians and African asylum seekers scapegoated by leading government officials as demographic threats. Immersing himself like few other journalists inside the world of hardline political leaders and movements, Blumenthal interviews the demagogues and divas in their homes, in the Knesset, and in the watering holes where their young acolytes hang out, and speaks with those political leaders behind the organized assault on civil liberties. As his journey deepens, he painstakingly reports on the occupied Palestinians challenging schemes of demographic separation through unarmed protest. He talks at length to the leaders and youth of Palestinian society inside Israel now targeted by security service dragnets and legislation suppressing their speech, and provides in-depth reporting on the small band of Jewish Israeli dissidents who have shaken off a conformist mindset that permeates the media, schools, and the military. Through his far-ranging travels, Blumenthal illuminates the present by uncovering the ghosts of the past -- the histories of Palestinian neighborhoods and villages now gone and forgotten; how that history has set the stage for the current crisis of Israeli society; and how the Holocaust has been turned into justification for occupation. A brave and unflinching account of the real facts on the ground, Goliath is an unprecedented and compelling work of journalism.

Islam and Democracy after the Arab Spring John L. Esposito, Tamara Sonn, John O. Voll, 2015-10-01 The landscape of the Middle East has changed dramatically since 2011, as have the political arena and the discourse around democracy. In *Islam and Democracy after the Arab Spring*, John L. Esposito, John Voll, and Tamara Sonn examine the state of democracy in Muslim-majority societies today. Applying a twenty-first century perspective to the question of whether Islam is compatible with democracy, they redirect the conversation toward a new politics of democracy that transcends both secular authoritarianism and Political Islam. While the opposition movements of the Arab Spring vary from country to country, each has raised questions regarding equality, economic justice, democratic participation, and the relationship between Islam and democracy in their respective countries. Does democracy require a secular political regime? Are religious movements the most effective opponents of authoritarian secularist regimes? Esposito, Voll, and Sonn examine these questions and shed light on how these opposition movements reflect the new global realities of media communication and sources of influence and power. Positioned for a broad readership of scholars and students, policy-makers, and media experts, *Islam and Democracy after the Arab Spring* will quickly become a go-to for all who watch the Middle East, inside and outside of academia.

Insight Turkey 2020/04 - The Future of The Libyan Crisis, 2020-12-01 Libya is one of the most important regional actors in the Middle East and North Africa region in terms of its geographical location and geostrategic importance. In 2011, Qaddafi was ousted from power raising the hopes of the Libyan people for a democratic regime. Unfortunately, Libya, one of the most interesting fronts of the Arab insurgencies and revolutions, has disintegrated into a severe civil war and a regional crisis. The reasons behind this are both internal and external. While the clash between the state, non-state, and armed actors within Libya have threatened the internal stability, the intervention of some regional and global actors has incited the conflict further. Authoritarian regimes and pro status-quo states such as the United Arab Emirates (UAE), Saudi Arabia, and Egypt have been against the Arab uprisings as they did not want the will of the people to be reflected in the Middle East and Arab countries' administrations. Within this context, these states did not allow the emergence of an encompassing and pluralist political structure in Libya. Furthermore, most international and regional powers such as France, Russia, and the United States have also been supporting this authoritarian coalition. Haftar, who had little influence during the revolution and lived outside of Libya for a long time, attempted a military coup in 2014 by rejecting the authorities of legitimate political actors in the country, with the support of these states. The Government of National Accord (GNA), which is recognized as the only legitimate representative of the Libyan state and people by many international institutions, most notably the United Nations, suppressed Haftar's coup attempt. However, the abovementioned states continue to invest in Haftar's forces. After having amassed enough armed forces with the support of a large coalition of states, Haftar launched a comprehensive military attack to take over the capital city of Tripoli in April 2019, to offset-up another autocratic regime in Libya. While everyone saw the capital Tripoli passing into the hands of Haftar as inevitable and only a matter of time, turning a blind eye to the situation, Turkey stepped in and upset all the calculations. As a result, Turkey increased its presence in Libya after two memorandums of understanding (MoUs)

were signed with the GNA in November 2019. With these two memorandums, Turkey has determined and declared its sea border in the Eastern Mediterranean and made a commitment to the GNA. Accordingly, when needed and requested by GNA, Turkey is ready to provide all kinds of military support. Especially since January 2020, Turkey has supported the GNA militarily and financially in its struggle against Haftar. The GNA forces supported by Turkey defeated the Haftar troops and forced them to withdraw from a large area in the Western part of the country. Turkey, which has altered the whole balance of power in Libya within a short time with the new dynamics, has changed the course of the crisis and the civil war in the country. Haftar and his supporters, who preferred only military methods, had to declare a unilateral ceasefire and to sit down at the diplomatic negotiation table. At the same time, Turkey persuaded some countries that are flirting with both sides to strengthen their relationship with the GNA. Developments in Libya directly influence Turkey, since Libya is a very important country for Turkey in the context of both the history of bilateral relations as well as the regional balance of power. Therefore, since the first days of the revolution, Turkey has been in close relations with the legitimate actors in order to protect the territorial integrity and political independence of the Libyan state. With its support both in the conflict area and at the negotiating table, Turkey ensured that the GNA remains an effective actor. Thus, Turkey has prevented the persons and groups which are under the control of the anti-Turkish coalition during the post-Arab spring period. On the other hand, Turkey has negated all anti-Turkey moves, formations, and processes within the newly emerged strategic regional equation. In this sense, the legitimate Libyan government came to the fore as a regional actor that it can work with. After signing a ceasefire agreement in October 2020, in Geneva, the political peace talks started under the auspices of the United Nations acting envoy to Libya, Stephanie Williams, and the warring sides have reached a preliminary agreement to a roadmap for elections. The two rival sides have agreed to hold both parliamentary and presidential elections in December 2021. If the process is completed successfully, the future of the country will be determined after these elections hopefully with an end to the discord in the country. The Libyan issue is a complex crisis with which many local, regional, and global actors have become involved. Therefore, the resolution of the crisis will only be possible with international consensus. In order to solve the crisis, a negotiation process must begin after securing a sustainable ceasefire agreement, all segments of the Libyan society must be included, and the two sides must reconcile on civil and democratic principles. Only then can a reconstruction of the state and a reform process in political, economic and security spheres be initiated. This issue of Insight Turkey focuses on underscoring both promises of internal reconstruction and challenges fueled by different external actors intervening in the Libyan crisis. This latest issue includes five commentaries and three insightful research articles that explore the Libyan conflict from different perspectives. While some pieces focus on the role of different actors in the crisis, others analyze the reconstruction efforts. While the civil war has pitted Libyans against each other, foreign interventions have hindered the resolution of the civil war. In this regard, Yahia H. Zoubir's commentary presents a coherent framework of the foreign powers involved in the Libyan conflict and their interests. Zoubir argues that unless those foreign powers have achieved their goals in Libya, an end to the civil war anytime soon remains unlikely. Talha Köse and Bilgehan Öztürk provide a rigorous analysis of the external interventions in Libya and the logic behind each intervention, between offensive, defensive, opportunistic, or ideological. Understanding the full picture in Libya requires us to fully grasp the Turkish role and motivation for the Libyan conflict. To do so, İsmail Numan Telci underlines the factors and challenges that made it difficult for Turkey to implement its peaceful plans in Libya and argues that Turkey will continue to be an active supporter of peace and stability in the country. Tarek Megerisi briefly analyzes Europe's relations with post-revolutionary Libya and European policies on Libya to conclude by stating that a continuing struggle between the EU member states over how to handle the new world, that is emerging in the wake of the pax-Americana, is also exposed in European policy on Libya. Ali Bakir's article aims to discuss the United Arab Emirates' interventions in Libya in terms of their nature, extent, motives, goals, and repercussions. Bakir tries to answer the questions of why Abu Dhabi has been able to act with impunity in Libya despite being the top foreign player fueling the war there for many years, and whether it will be able to achieve its goals and continue its interventions in Libya or not. France, while actively allying with the UAE, Egypt, and Saudi Arabia, has aggressively confronted Turkey and undermined the internationally recognized Libyan Government of National Accord. On this basis, Timothy Reid seeks to examine the premises of the French policy toward Libya and its real intentions behind these actions. Guma el-Gamaty highlights the strong foundations and drivers for the Turkish-Libyan strategic alliance which allowed Turkey eventually to provide timely and decisive support for the legitimate Government of National Accord. He argues that the Turkish strategic relationship and cooperation with Libya over the coming decades will contribute to lasting peace as well as institution and state-building. Based on empirical evidence, Shatha Sbeta and Mohamed Abufalgha advocate for a comprehensive framework to address the political, economic, and social challenges facing Libya. Their proposal draws a clear roadmap that begins with establishing trust and extending the authority of the government across the Libyan territory. Murat Aslan, focusing on state, non-state, and armed actors, analyses Libya's post-Qaddafi fragile state structure and struggles to build the internal order. He argues that these actors pose a repeating and paradoxical dilemma in which the root causes can be scrutinized by investigating the security culture inherited from Qaddafi's regime. Four off-topic manuscripts conclude this issue of Insight Turkey. This issue places a special emphasis on the insurmountable deadlock that tackled the Armenia-Azerbaijan conflict resolution process. Farid Shafiyev and Vasif Huseynov in their off-topic commentary assert that this deadlock is due to the failure of the peace negotiations brokered by different actors to deliver any progress as well as the constant provocations of Armenian military and political leaders, which eventually led to the outbreak of an almost full-scale war on September 27, 2020. As the COVID-19 pandemic continues, refugees are in constant danger because they live in highly congested environments. Within this context, Mahmood Monshipouri, Burcu Akan Ellis, and Cassidy Renee Yip call for a new approach to cope with the pandemic while arguing that helping refugees to curb the spread of the current coronavirus cannot be divorced from social contexts. Lukáš Tichý, Jan Mazač, and Zbyněk Dubský present a modified concept of the EU actorness in energy relations and deals with the identification of its criteria. Based on a predefined methodology, the article also analyses dimensions of actorness in the external energy relations with Algeria. Written by Shamkhal Abilov, Ceyhun Mahmudlu, and Natig Abdullayev, the last research article focuses on the dispute between Turkmenistan and Azerbaijan over the delimitation of the Caspian Sea. This article aims to find out whether the new Convention of 2018 on the status of the Caspian Sea resolved the long-standing dispute and to assess the potential of implementing the Trans Caspian Pipeline under the new conditions. With one more year coming to an end, we are pleased to present to our readers yet another insightful issue of Insight Turkey that aims to bring the Libyan crisis to the attention of the politicians, intellectuals, and academicians. With the hope that you will find this issue informative and interesting, we are looking forward to providing you with more next year.

Australia and Latin America Barry Carr, John Minns, 2014-08-01 This is a good time to reflect on opportunities and challenges for Australia in Latin America. Impressive economic growth and opportunities for trade and investment have made Latin America a dynamic area for Australia and the Asia Pacific region. A growing Latin American population, Australia's attractiveness to Latin American students, a fascination with the cultural vibrancy of the Americas and an awareness of Latin America's increasingly independent stance in politics and economic diplomacy, have all contributed to raising the region's profile. This collection of essays provides the first substantial introduction to Australia's evolving engagement with Latin America, identifying current trends and opportunities, and making suggestions about how relationships in trade, investment, foreign aid, education, culture and the media could be strengthened.

The US War Against ISIS Aaron Stein, 2021-12-16 The war against ISIS is often explained through the group's own rise to power. The American side of the story has not yet been told. This book records how the United States and its allies chose to fight the group, what the consequences have been for transatlantic relations, and how these factors may shape future wars the West decides to pursue. The book is based on first-person interviews with U.S. and European policymakers, and members of the military in direct combat against ISIS - from U.S. and allied forces on the ground to the Kurdish fighters who fought beside them. These interviews show precisely how the West fights wars through the eyes of the people most involved in them and includes key insights about civilian decision-making as it happened. In tracing the war as it developed, the book examines the West's approach to conflict and reveals new insights such as why both the U.S. military and the civilian bureaucracy underestimated Russian military capabilities. The war was always meant to be small and focused, but its repercussions have been considerable and far-reaching, including a serious rupture in Turkish-Western relations and Russia's return to the Middle East. Aaron Stein shows why mistakes were made in the war against ISIS and what happens when a narrow policy focus on counter terrorism is pursued at the expense of almost all wider regional security and political concerns. At a time when the U.S.

might be called again to stem the rise of a terror group or to fight against a collective threat, the lessons in this book are essential.

The Struggle for Egypt Steven A. Cook,2013-03-21 A half century ago, Egypt under nasser became the putative leader of the Arab world and a beacon for developing nations. Yet in the decades prior to the 2011 revolution, it was ruled over by a sclerotic regime plagued by nepotism and corruption. During that time, its economy declined into near shambles, a severely overpopulated Cairo fell into disrepair, and it produced scores of violent Islamic extremists ... In The struggle for Egypt, now with a new epilogue on the post-Mubarak era, noted regional specialist Steven A. Cook provides a sweeping and incisive account of how this parlous state of affairs came to be, why the revolution occurred, and where Egypt might be headed next. -- From p. 4 of cover.

Of Empires and Citizens Amaney A. Jamal,2012-09-09 In the post-Cold War era, why has democratization been slow to arrive in the Arab world? This book argues that to understand support for the authoritarian status quo in parts of this region--and the willingness of its citizens to compromise on core democratic principles--one must factor in how a strong U.S. presence and popular anti-Americanism weakens democratic voices. Examining such countries as Jordan, Kuwait, Morocco, Palestine, and Saudi Arabia, Amaney Jamal explores how Arab citizens decide whether to back existing regimes, regime transitions, and democratization projects, and how the global position of Arab states shapes people's attitudes toward their governments. While the Cold War's end reduced superpower hegemony in much of the developing world, the Arab region witnessed an increased security and economic dependence on the United States. As a result, the preferences of the United States matter greatly to middle-class Arab citizens, not just the elite, and citizens will restrain their pursuit of democratization, rationalizing their backing for the status quo because of U.S. geostrategic priorities. Demonstrating how the preferences of an international patron serve as a constraint or an opportunity to push for democracy, Jamal questions bottom-up approaches to democratization, which assume that states are autonomous units in the world order. Jamal contends that even now, with the overthrow of some autocratic Arab regimes, the future course of Arab democratization will be influenced by the perception of American reactions. Concurrently, the United States must address the troubling sources of the region's rising anti-Americanism.

Understanding the Volatile and Dangerous Middle East Steven Carol,2019-09-26 The Middle East can be bewildering, which is why we need to connect the dots that pull together the political, economic, diplomatic, military, cultural, and religious pieces of the puzzle. Professor Steven Carol slashes through the confusion with a topical approach, focusing on key issues such as the geographic features of the Middle East, demographics of the region, the influence of Islam, political processes, shifting alliances, war in the region, and the need for security. He also takes a careful look at perpetual negotiations, attempts to secure peace, and the role that the media play in how we view the region. His goal: to clarify the confusing nature of Middle East affairs and to combat the mistaken beliefs, misrepresentations, and outright fabrications about the region. In a bid to reclaim the truth, he shares basic principles, relying on factual supporting evidence to prove their validity. Seventy-eight maps and numerous tables make understanding complex topics easier. Whether you're a student, educator, bureaucrat or politician, you'll find insights based on facts in Understanding the Volatile and Dangerous Middle East.

Food Security in the High North Kamrul Hossain,Lena Maria Nilsson,Thora Martina Herrmann,2020-09-09 This book explores the challenges facing food security, sustainability, sovereignty, and supply chains in the Arctic, with a specific focus on Indigenous Peoples. Offering multidisciplinary insights and with a particular focus on populations in the European High North region, the book highlights the importance of accessible and sustainable traditional foods for the dietary needs of local and Indigenous Peoples. It focuses on foods and natural products that are unique to this region and considers how they play a significant role towards food security and sovereignty. The book captures the tremendous complexity facing populations here as they strive to maintain sustainable food systems – both subsistent and commercial – and regain sovereignty over traditional food production policies. A range of issues are explored including food contamination risks, due to increasing human activities in the region, such as mining, to changing livelihoods and gender roles in the maintenance of traditional food security and sovereignty. The book also considers processing methods that combine indigenous and traditional knowledge to convert the traditional foods, that are harvested and hunted, into local foods. This book offers a broader understanding of food security and sovereignty and will be of interest to academics, scholars and policy makers working in food studies; geography and environmental studies; agricultural studies; sociology; anthropology; political science; health studies and biology.

Protection of Minorities in South Eastern Europe. Roma in Croatia Caroline Wähner,2020-07-08 Scientific Essay from the year 2013 in the subject Law - European and International Law, Intellectual Properties, grade: 2,0, Saarland University (Europainstitut), course: SEE-LAW NET: Networking of Lawyers in Advanced Teaching and Research of EU Law post-Lisbon, language: English, abstract: A „typical image“ of Southeast Europe or “the Western Balkans” and its population and problems in literary terms was pictured by the author Karl May. Even today, the word „Balkan“ as a collective term for Albania and the successor states to Yugoslavia (with the exception of Slovenia) holds the potential for conflict. Only by showing the linguistic problem, we see, there is a high potential of geographical, juridical, political, social and communication problems in the context of this region. On approaching the multiethnic structure of Southeast Europe and its willingness for accession – including integration measures – to the EU and considering the potential for conflict regarding the political and geographical classification, it becomes more than obvious that the current state of affairs is multi-layered and difficult.
