*Sonia Gandhi* Rani Singh,2011-09-13 Sonia Gandhi's story represents the greatest transformational journey made by any world leader in the last four decades. Circumstance and tragedy, rather than ambition, paved her path to power. Born into a traditional, middle-class Italian family, Sonia met and fell in love with Rajiv Gandhi, son of future Indian prime minister Indira Gandhi and grandson of Jawaharlal Nehru, while studying English in Cambridge. Cruelly tested by the assassinations of her mother-in-law and of her husband, Sonia grew into a strong, authoritative but always private figure, now president of a coalition ruling over a billion people in the world's largest democracy. Through exclusive interviews with members of Sonia's party, political opponents and family friends, Rani Singh casts new light on Sonia. In the first mainstream biography of this inspirational figure, the author's compelling narrative retraces the path of the brave and beautiful Sonia Gandhi, examining what her life and legacy mean for India.

**Minimum Deterrence and India's Nuclear Security** Rajesh M. Basrur,2006 In this book, a leading authority on India's nuclear program offers an informed and thoughtful assessment of India's nuclear strategy. He shows that the country's nuclear-strategic culture is generally in accord with the principle of minimum deterrence, but is sometimes inconsistent and has a tendency to drift into a more open-ended process. He addresses areas of concern, notably the relationship between minimum deterrence and subnuclear conflict, the threat from nuclear terrorism, and the special challenges nuclear weapons pose for a democratic society.

**Worldviews of Aspiring Powers** Henry R. Nau,Deepa Ollapally,2012-10-18 Worldviews of Aspiring Powers provides a serious study of the domestic foreign policy debates in five world powers who have gained more influence as the US's has waned: China, Japan, India, Russia and Iran. Featuring a leading regional scholar for each essay, each essay identifies the most important domestic schools of thought—nationalists, realists, globalists, idealists/exceptionalists—and connects them to the historical and institutional sources that fuel each nation's foreign policy experience. While scholars have applied this approach to US foreign policy, this book is the first to track the competing schools of foreign policy thought within five of the world's most important rising powers. Concise and systematic, Worldviews of Aspiring Powers will serve as both an essential resource for foreign policy scholars trying to understand international power transitions and as a text for courses that focus on the same.

Ethics and Electronic Information Barbara Rockenbach,Tom Mendina,2002-11-11 Stephen Almagno's career as a professor of library science began at the University of Pittsburgh in 1971. In 1990, he became the first professor in the United States to teach an information ethics course in a library and information science program. Almagno's work in the area of information ethics was recognized at the 2001 "Ethics of Electronic Information in the 21st Century" symposium held at the University of Memphis on October 18-21, 2001, upon the occasion of his retirement from the University of Pittsburgh. The essays in this book were presented at the symposium honoring Almagno. The first section of the book features papers that pay special tribute to Almagno. The second contains papers on library issues and ethics, such as the ethics of electronic information in China and eastern Europe, the organizations that represent information professionals, the ethics of user privacy in the digital library, and ethical implications of e-commerce, to name just a few. The third section covers topical issues, such as Internet plagiarism, ethical hacking and the security justification, social democracy and information media policy, and the ethics of dialogue, among others.

**China's Global Rebalancing and the New Silk Road** B. R. Deepak,2018-01-10 This collaborative volume discusses the One Belt One Road, or the New Silk Road, initiative of Chinese President Xi Jinping from the perspectives of the Belt and Road countries. This initiative has been viewed as a re-globalization drive by China in the backdrop of financial crisis of the West and the latter's increasingly protectionist tendencies of late. Rather than 'rebalancing' towards a certain region, this is supposed to be China's 'global rebalancing' aimed at inclusiveness and a win-win partnership. The initiative has raised hopes as well as suspicions about China's goals and intentions; that is, whether this is in sync with China's foreign policy goals, such as multipolarity, no hegemonic aspirations, and common security, or if this is an antidote to the U.S. foreign policy goals in the region, and China's ambition to realizing its long-term vision for Asian regional and global order. In this volume, a galaxy of eminent academics from India, China, Pakistan, Uzbekistan, Germany and Southeast Asia have critically analysed every aspect of this mammoth project, including the six major economic corridors identified by China for policy coordination, infrastructure connectivity, unimpeded trade, monetary circulation, and people to people exchanges. The authors have interpreted China's peripheral, regional as well as global diplomacy both over land and sea. This topical volume is of interest to scholars and students of Asian studies, China studies, Asian history, development studies, international relations and international trade.

**The Art of Video Production** Leonard Shyles,2007-02-09 The Art of Video Production emphasizes the enduring principles and essential skills of the communication process and the new digital technologies that are necessary to create effective video content. Author Leonard C. Shyles uses a unique approach by explaining how things are done and why things are done rather than just that they are done—it is not about concepts versus skills, but about concepts and skills.

**Scramble for the Skies** Namrata Goswami,Peter A. Garretson,2020-10-06 With a focus on China, the United States, and India, this book examines the economic ambitions of the second space race. The authors argue that space ambitions are informed by a combination of factors, including available resources, capability, elite preferences, and talent pool. The authors demonstrate how these influences affect the development of national space programs as well as policy and law.

*Database Nation* Simson Garfinkel,2000-12-04 Fifty years ago, in 1984, George Orwell imagined a future in which privacy was demolished by a totalitarian state that used spies, video surveillance, historical revisionism, and control over the media to maintain its power. Those who worry about personal privacy and identity--especially in this day of technologies that encroach upon these rights--still use Orwell's Big Brother language to discuss privacy issues. But the reality is that the age of a monolithic Big Brother is over. And yet the threats are perhaps even more likely to destroy the rights we've assumed were ours.Database Nation: The Death of Privacy in the 21st Century shows how, in these early years of the 21st century, advances in technology endanger our privacy in ways never before imagined. Direct marketers and retailers track our every purchase; surveillance cameras observe our movements; mobile phones will soon report our location to those who want to track us; government eavesdroppers listen in on private communications; misused medical records turn our bodies and our histories against us; and linked databases assemble detailed consumer profiles used to predict and influence our behavior. Privacy--the most basic of our civil rights--is in grave peril.Simson Garfinkel--journalist, entrepreneur, and international authority on computer security--has devoted his career to testing new technologies and warning about their implications. This newly revised update of the popular hardcover edition of Database Nation is his compelling account of how invasive technologies will affect our lives in the coming years. It's a timely, far-reaching, entertaining, and thought-provoking look at the serious threats to privacy facing us today. The book poses a disturbing question: how can we protect our basic rights to privacy, identity, and autonomy when technology is making invasion and control easier than ever before?Garfinkel's captivating blend of journalism, storytelling, and futurism is a call to arms. It will frighten, entertain, and ultimately convince us that we must take action now to protect our privacy and identity before it's too late.

**CBMs In India-Pakistan Relations** Surender Singh, 2021-08-09 About the Book India and Pakistan, the two important countries of the South Asian Sub-continent, have had a far from cordial relationship. It was in sum a love-hate relationship in which one is compelled to unwillingly coexist with the other and retain a constant but correct relationship on account of geography and historical circumstances. This state of affairs between the two countries could be traced to the very beginning of the birth of the two nations in 1947. The problems that existed in the initial years of their independence have survived in the seventh decade with no signs yet of any enduring solution. This study deals with India-Pakistan relations from 2003 to the present time. This period has been chosen because it signifies the culmination of certain trends in the relationship between the two nations after the start of the process of Confidence Building Measures (CBMs). This book provides a theoretical understanding of the South Asian region in general and India-Pakistan relations in particular. It analyses not only India's interests and policy options towards Pakistan but also evaluates the real nature of their bilateral relations. It has discussed not only the key issues between them, such as Kashmir, Terrorism, Siachen, Sir Creek, Drug Trafficking but also provides their likely solutions to these problems. Besides this, the process of CBMs and the steps taken by both nations are also discussed in it. Hence this book presents an overview of the contemporary nature of India-Pakistan relations after the start of the process of CBMs. The book may be beneficial for students, teachers, policymakers, diplomats, as well as, common readers engaged in understandings the current discourses on India-Pakistan relations in this changed international milieu.

*Gin Soaked Boy* Sandeep Mathew, Raj was a prodigy. He was witty, sharp-tongued and charming; the nonpareil from his school expected to do something fabulous with his life. At the very least, turn out to be a rocket scientist like his father. But as he grew older, a demon awoke within him, which slowly made his reflection in the mirror fade away. Fueled by anxiety and depression, he began to disappear under the dark shadow of alcoholism. And worse, no one close to him was able to discern that his issues ran deeper and darker than the bottle he held. As Raj's depressive behavior draws a sharp polarity to the events of his past, his friends make desperate attempts to reclaim him from his dark state of steady deterioration. Will that critical help he needs arrive on time? Based on a true story, *Gin Soaked Boy* is a must read for anyone interested in understanding the elusive world of depression and its manifestations in the cultural context of a country like India. Written as 12 acts, each delves into one hidden symptom that could eventually lead to depression. This poignant book will resonate with anyone who may have come across someone like Raj in their lives – a soul who may be displaying one of these symptoms but none are able to lay their finger on the source of the problem. However, deep down, there is the unsettling feeling of witnessing a disappearing reflection.

*America in Retreat* Bret Stephens, 2014-11-18 “Wise counsel for a constructive, tough-minded, and sensible foreign policy. Read and learn.” —GEORGE SHULTZ, U.S. Secretary of State, 1982–1989 The world is tipping into chaos. Why? In this acclaimed and influential book, Pulitzer Prize-winning columnist Bret Stephens shows how the retreat of American power, orchestrated by Barack Obama, has created the power vacuums now being filled by our enemies. From Vladimir Putin's quest to restore the old czarist empire, to China's efforts to dominate the South China Sea, to Iran's nuclear ambitions, to ISIS's dreams of an Islamic caliphate, we have entered an era in which our foes no longer fear us and our friends no longer trust us. With his stylistic flair and analytical brilliance, Stephens explains the ideological roots of Obama's suspicions of American power. He demonstrates how a false belief in American decline has led to a disastrous prescription of retreat, as if the cure for domestic weakness is international weakness. In a prophetic chapter, he warns of what the world could look like in 2019 if we do not change course. And he lays out the right formula for U.S. foreign policy—the same formula that brought order to our once crime-ridden streets. *America in Retreat* is shaping the greatest foreign policy debate of our decade.

**I Wasn't Born For This** Sandeep Sinha , 2021-07-06 Lieutenant's disposition was not to spare anyone this time. With electrifying rapidity, she gripped his hand and pulled him all over her shoulder; which neared him towards her lifted knees, gave him the hardest blow on his groins. The man was taken aback. Not expecting this to come to him, fell on the floor holding his groins with both his hands and yelling in pain. Before anyone could know what happened; she flew in air with her right leg stretched at front and the left bent slightly, landed with a flying kick on the face of one of the ladies. The lady fell on the ground. The other lady wanted to take a hold of her but Lieutenant proved too fast for her. She had snatched the flashlight from the black man and switched on the high intensified beam which fell straight into the lady's eyes literally blinding her. A right-hand blow in her stomach while she covered her eyes from the flashlight was more than enough for her to handle. She too fell on the ground. Lt. Shivani was in her best offensive moves now. She held a posture of a tigress with all her fingers opened wide like any tiger's paw, both legs slightly bent to repeat the attack. The bald man struggled to get up. But, before he could, another left leg kick on his chin finished the game for him. He just lay on the floor covering his face with his hands almost never to get up.

Her sudden and painful death made him realize that we cannot take life for granted, which can change in a millisecond, and there is a very thin line between life and death. It has also led him to become an author. This memoir dedicated to Naina is told with the absolute truth of their lives together and Sandeep's struggle with life post-Naina's death, who left this world mid-way through their journey together. **Countering Transnational Terrorism** Brig (Retd) Rahul K Bhonsle, 2011-08-10 Transnational terrorism is the central security challenge of the Post Cold War World, the defining moments of which were 9/11 in New York and 26/11 in Mumbai. Just as the United States carried out a comprehensive review of counter terrorism threats and capabilities immediately after the deadly multiple strikes in September 2001, India has undertaken

This book is a result of the study carried out by USI and has covered the entire range of the phenomenon examining geo political, regional and internal security facets to suggest strategies for security cooperation, capacity building and societal responses.
