Financing Healthcare in China Sabrina Ching Yuen Luk, 2016-07-22 China's current social medical insurance system has nominally covered more than 95 per cent of 1.4 billion population in China and is moving towards the ambitious goal of universal health insurance coverage. Challenges posed by a rapidly ageing population, an inherently discriminatory design of the health insurance system, the disorder of drug distribution system and an immature legal system constrain the Chinese government from realizing its goal of universal health insurance coverage in the long run. This book uses a refined version of historical institutionalism to critically examine China's pathway to universal health insurance coverage since the mid-1980s. It pays crucial attention to the processes of transforming China's healthcare financing system into the basic social medical insurance system alongside rapid socio-economic changes. Financing Healthcare in China will interest researchers and government and think-tank officials interested in the state of healthcare reforms in China. Healthcare specialists outside of East Asia may also be interested in its general study of healthcare in developing countries. Scholars and students interested in the healthcare field will also find this useful.

The Boron Letters Gary Halbert, Bond Halbert, 2013-06-11 A series of letters by history's greatest copywriter Gary C. Halbert, explaining insider tactics and sage wisdom to his youngest son Bond. Once only available as part of a paid monthly premium, The Boron Letters are unique in the marketing universe and now they are a bona fide cult classic among direct response marketers and copywriters around the world. The letters inside are written from a father to a son, in a loving way that goes far beyond a mere sales book or fancy boardroom advertising advice...It's more than a Master's Degree in selling & persuasion...it's hands-down the best SPECIFIC and ACTIONABLE training on how to convince people to buy your products or services than I have ever read. The Boron Letters contain knowledge well beyond selling. The letters also explain how to navigate life's hurdles. This marketing classic is personal and easily digestible. Plus... immediately after reading the first chapters, you can go out and make money and a real, noticeable difference in your marketplace. There are very few successful direct response marketers (online or off) who don't owe something to Gary Halbert...and for many of them, The Boron Letters is the crown jewel in their collection. Copywriters and marketers read and re-read The Boron Letters over and over again for a reason. These strategies, secrets and tips are going to be relevant 5, 10, even 100 years from now because they deal honestly with the part of human psychology which never changes, how to convince and convert folks into buyers. Bottom line? Read the first chapter. Get into the flow of Gary's mind. Then read the second. I dare you to NOT finish the entire darn thing. After you put a few of the lessons into practice, you too will find yourself reading The Boron Letters again and again like so many of today's top marketers. If you don't already have your copy get it now. I promise you won't regret it. My best, Lawton Chiles

Culture @ the Cutting Edge Curwen Best, 2004 The anglophone Caribbean has long been celebrated and known for its vibrant and innovative music. Reggae, dancehall, calypso, soca, gospel and ringbang have flourished within the Caribbean and have exploded on the worldwide stage. Somewhat surprisingly, many facets of this contribution have not been analysed or discussed by academic writing. This work deliberately moves away from the customary exclusive focus on Trinidad and Jamaica and broadens the discourse to represent the wider region. It addresses such topics as the status of Caribbean gospel; the birth of new musical styles in the Eastern Caribbean; cultural misrepresentation in Caribbean music videos; the representation of Aids in Caribbean music; and the impact of the actual music technology utilized by Caribbean musicians since the 1980s.

The Fall of the Southern Shaolin Temple and Rise of the Ten Tigers of Canton Paul Burkinshaw, 2019-03-15 The Fall of the Southern Shaolin Temple and the Rise of the Ten Tigers of Canton tells the legendary story of the Southern Shaolin Temples in Fukien Province, China, and of the renowned Shaolin Kung Fu masters who trained there. Events and betrayals led to the destruction of these Southern Shaolin Temples. The survivors fled from the Ch'ing/Qing army and dispersed around Kwangtung/Guangdong Province. Many of these eventually settled in or around the provincial

capital city of Canton. They, in turn, taught their kung fu among the general population, which led to the rise of several eminent kung fu masters. The ten best were chosen and from then on would be known as the Ten Tigers of Canton.

China's Elite Politics Zhiyue Bo, 2007 'China's Elite Politics' provides a theoretical perspective on elite politics in China to explain power transfer from Jiang Zemin to Hu Jintao, and political dynamics between different factional groups since the Sixteenth Party Congress of November 2002.

Globalization and the Margins R. Grant, J. Short, 2002-09-06 Globalization has become one of the dominant ideas of recent times. However, is the debate on globalization as global as it ought to be? In this book Grant and Rennie Short have brought together prominent experts in the field to consider how globalization affects marginalized countries and groups. A variety of case studies provide a unique assessment of the issue of globalization and offer a new look at the relationship between the global and the local.

Cold Mountain Poems Han Shan, 2019-05-07 The incomparable poetry of Han Shan (Cold Mountain) and his sidekick Shih Te, the rebel poets who became icons of Chinese poetry and Zen, has long captured the imagination of poetry lovers and Zen aficionados. Popularized in the West by Beat Generation writers Gary Snyder and Jack Kerouac, these legendary T'ang era (618-907) figures are portrayed as the laughing, ragged pair who left their poetry on stones, trees, farmhouses, and the walls of the monasteries they visited. Their poetry expressed in the simplest verse but in a completely new tone, the voice of ordinary people. Here premier translator J. P. Seaton takes a fresh look at these captivating poets, along with Wang Fan-chih, another "outsider" poet who lived a couple centuries later and who captured the poverty and gritty day-to-day reality of the common people of his time. Seaton's comprehensive introduction and notes throughout give a fascinating context to this vibrant collection.

Marriage, Law and Gender in Revolutionary China Xiaoping Cong, 2016-08-22 Explores the social and cultural significance of Chinese communist legal practice in constructing marriage and gender relations in the turbulent period from 1940 to 1960.

India in Africa, Africa in India John C. Hawley, 2008-06-25 India in Africa, Africa in India traces the longstanding interaction between these two regions, showing that the Indian Ocean world provides many examples of cultural flows that belie our understanding of globalization as a recent phenomenon. This region has had, and continues to have, an internal integrity that touches the lives of its citizens in their commerce, their cultural exchanges, and their concepts of each other and of themselves in the world. These connections have deep historical roots, and their dynamics are not attributable solely to the effects of European colonialism, modernity, or contemporary globalization -- although these forces have left their mark. The contributors to this interdisciplinary volume come from the fields of history, literature, dance, sociology, gender studies, and religion, making this collection unique in its recreation of an entire world too seldom considered as such.

Jihad and Dawah Samina Yasmeen, 2017-10-01 This book provides a detailed account of the emergence and metamorphoses of Lashkar-e-Taiba (LeT) and its political arm, Jamat ud Dawah, since the early 1990s. Linking the group's narratives to the process of Islamization in Pakistan and divergent views on the country's Islamic identity, it is the first systematic analysis of how the organization, globally reviled as the perpetrator of the 2008 Mumbai Bombings, has developed its conception of da'wah (proselytizing) and jihad in response to regional and global developments. Samina Yasmeen makes extensive use of Urdu materials (pamphlets, books, ephemera) by Markaz Da'wah wal Irshad, the parent organization of LeT, to examine the 'insider's vision' of the dominant

threats to Pakistan and the Muslim ummah, as well as strategies for countering these threats. She argues that while adopting an oppositional narrative vis-à-vis India and the West, LeT has increasingly turned its attention to da'wah narratives within Pakistan engaging with broader spectrums of society. Women have increasingly been assigned significant agency in this narrative, and JuD's activism in education and social welfare has helped it acquire social capital. This, in turn, prompts a re-imagining of the movement's relationship with the Pakistani military.

Google It Newton Lee, 2016-10-23 From Google search to self-driving cars to human longevity, is Alphabet creating a neoteric Garden of Eden or Bentham's Panopticon? Will King Solomon's challenge supersede the Turing test for artificial intelligence? Can transhumanism mitigate existential threats to humankind? These are some of the overarching questions in this book, which explores the impact of information awareness on humanity starting from the Book of Genesis to the Royal Library of Alexandria in the 3rd century BC to the modern day of Google Search, IBM Watson, and Wolfram|Alpha. The book also covers Search Engine Optimization, Google AdWords, Google Maps, Google Local Search, and what every business leader must know about digital transformation. "Search is curiosity, and that will never be done," said Google's first female engineer and Yahoo's sixth CEO Marissa Mayer. The truth is out there; we just need to know how to Google it!

The History and Theory of Legal Practice in China Philip C.C. Huang, Kathryn Bernhardt, 2014-09-03 The assembled articles in *The History and Theory of Legal Practice in China* illustrate a new "historical-social jurisprudence," and explore the possible conceptual underpinnings of a modern Chinese legal system that would both accommodate and integrate the unavoidable paradoxes of contemporary China.

Keep Your Sexy Sacred Sabrina Universal Lawton, 2019-11-05 *Keep Your Sexy Sacred* bridges the perceived gap between the secular and sacred by providing an entirely new, completely compelling way of understanding God. God is both feminine and masculine. The root cause for the spiritual deficit experienced in the world is a lack of understanding of the feminine nature of God. Sabrina Universal Lawton exposes her own darkness to the light as she draws readers into the gripping vortex of her own evolution from lust to love. By raising readers' Spiritual IQ, *Keep Your Sexy Sacred* serves as the springboard for healing the strained relationships between men and women, blacks and whites, pharmaceuticals and plant medicines—and it brings a necessary end to religious strife. When introduced to the feminine qualities of God, women evolve from being collectively viewed as mere objects of visual pleasure and physical stimuli and men evolve to understand that the necessary path to embodying their own God-power is to embrace the wisdom of the feminine energy—not only within women, but also within themselves. Jesus' direct messages of love and non-judgement are the very foundations on which this anointed body of work stands, and men and women alike are certain to see the Bible like never before! With renewed 20/20 vision, Sabrina guides readers towards healed relationships, dismantling religious dogma, and demystifying the original sin through keeping their sexy sacred and evolving to a place of love.

China's Approach to Energy Security Shaofeng Chen, 2023-07-15 This book aims to analyze how and why China takes a state-managed marketization approach (SMMA) to energy security against the backdrop of global efforts of decarbonization and intensified strategic competition between China and the United States. How, and why, does China's SMMA work? Taking an evolving, historical perspective, this book explores China's perception of energy security, the policy process, institutional restructuring in China's petroleum industry, China's foreign energy quest, and the ramifications of the Chinese approach on the international energy market and on world decarbonization. To demonstrate to what extent China's SMMA differs from other countries, it also makes a comparative analyses of the approaches by China, the US and India. Livelihoods, Natural Resources, and Post-Conflict Peacebuilding Helen Young, Lisa Goldman, 2015-04-10 Sustaining and strengthening local livelihoods is one of the most fundamental challenges faced by post-conflict countries. By degrading the natural resources that are essential to

livelihoods and by significantly hindering access to those resources, conflict can wreak havoc on the ability of war-torn populations to survive and recover. This book explores how natural resource management initiatives in more than twenty countries and territories have supported livelihoods and facilitated post-conflict peacebuilding. Case studies and analyses identify lessons and opportunities for the more effective design of interventions to support the livelihoods that depend on natural resources – from land to agriculture, forestry, fisheries, and protected areas. The book also explores larger questions about how to structure livelihoods assistance as part of a coherent, integrated approach to post-conflict redevelopment. Livelihoods and Natural Resources in Post-Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post-conflict peacebuilding and natural resource management. The project has generated six books of case studies and analyses, with contributions from practitioners, policy makers, and researchers. Other books in this series address high value resources, land, water, assessing and restoring natural resources, and governance.
