The Gift of Rest Joseph I. Lieberman, David Klinghoffer, 2012-08-07 Discusses the importance of observing the Jewish Sabbath as both a practical and spiritual exercise, and provides guidelines for properly incorporating the Sabbath into everyday life.

Legacy Harry Ostrer MD, 2012-08-10 Who are the Jews--a race, a people, a religious group? For over a century, non-Jews and Jews alike have tried to identify who they were--first applying the methods of physical anthropology and more recently of population genetics. In *Legacy*, Harry Ostrer, a medical geneticist and authority on the genetics of the Jewish people, explores not only the history of these efforts, but also the insights that genetics has provided about the histories of contemporary Jewish people. Much of the book is told through the lives of scientific pioneers. We meet Russian immigrant Maurice Fishberg; Australian Joseph Jacobs, the leading Jewish anthropologist in fin-de-siècle Europe; Chaim Sheba, a colorful Israeli geneticist and surgeon general of the Israeli Army; and Arthur Mourant, one of the foremost cataloguers of blood groups in the 20th century. As Ostrer describes their work and the work of others, he shows that to look over the genetics of Jewish groups, and to see the history of the Diaspora woven there, is truly a marvel. Here is what happened as the Jews migrated to new places and saw their numbers wax and wane, as they gained and lost adherents and thrived or were buffeted by famine, disease, wars, and persecution. Many of these groups--from North Africa, the Middle East, India--are little-known, and by telling their stories, Ostrer brings them

to the forefront at a time when assimilation is literally changing the face of world Jewry. A fascinating blend of history, science, and biography, *Legacy* offers readers an entirely fresh perspective on the Jewish people and their history. It is as well a cutting-edge portrait of population genetics, a field which may soon take its place as a pillar of group identity alongside shared spirituality, shared social values, and a shared cultural legacy.

Spice and Spirit, 1990 Keeping Kosher and celebrating the Jewish holidays are given an added, joyful dimension, with practical guidelines interwoven with spiritual insights into many aspects of Jewish life and observance. Recipes range from traditional favourites such as blintzes and chicken soup to Szechuan chicken, aduki-squash soup and many other international, gourmet and natural specialties. All in a clear, easy-to-use format with helpful symbols and numerous charts and illustrations.

Living with Vincent van Gogh Martin Bailey, 2020-04-28 "Bailey goes through the most emblematic places that the artist went through in life. Which, served as inspiration to translate into his paintings." —Fahrenheit Magazine Vincent van Gogh was a restless soul. He spent his twenties searching for a vocation and once he had determined to become an artist, he remained a traveler, always seeking fresh places for the inspiration and opportunities he needed to create his work. *Living with Vincent van Gogh* tells the story of the great artist's life through the lens of the places where he lived and worked, including Amsterdam, London, Paris and Provence, and examines the impact of these cityscapes and

landscapes on his creative output. Featuring artworks, unpublished archival documents and contemporary landscape photography, this book provides unique insight into one of the most important artists in history.

Opera 101 Fred Plotkin, 1994-12 Written by an opera insider and featuring an introduction by Placido Domingo, here is a thorough, friendly, and truly complete guide to learning how to love and appreciate the opera. After a brief history of opera, the book includes a guide to operatic terms, a minute-by-minute listener's guide to 11 central works, a list of recommended books and recordings and much more.

Cultures of the Internet Professor Robert M Shields, Rob Shields, 1996-02-22 The Internet is here but have we caught up with all the implications for culture and everyday life? This collection of original articles on the development of computer-mediated communications brings together many of the most accomplished writers on the Net and cyberspace. Cultures of Internet examines the arrival of e-mail and online discussion groups, and considers the prospect of an online world' - a playground for virtual bodies in which identities are flexible, swappable and disconnected from real-world bodies. The book traces the rise of virtual conviviality and how it supplements the physical encounters between actors in public spaces that are abandoned to the homeless. The book is distinguished by a critical and social tone. It presents systematic descriptions of the development of the Internet, its history in the military-industrial complex, the role of state policies leading, for example, to the creation of Minitel, and the building of information superhighways'. It also explores the development of this technology as a commercialized leisure form and a forum for underground political

organization and critique.

Jews and Power Ruth R. Wisse, 2008-12-24 Part of the Jewish Encounter series Taking in everything from the Kingdom of David to the Oslo Accords, Ruth Wisse offers a radical new way to think about the Jewish relationship to power. Traditional Jews believed that upholding the covenant with God constituted a treaty with the most powerful force in the universe; this later transformed itself into a belief that, unburdened by a military, Jews could pursue their religious mission on a purely moral plain. Wisse, an eminent professor of comparative literature at Harvard, demonstrates how Jewish political weakness both increased Jewish vulnerability to scapegoating and violence, and unwittingly goaded power-seeking nations to cast Jews as perpetual targets. Although she sees hope in the State of Israel, Wisse questions the way the strategies of the Diaspora continue to drive the Jewish state, echoing Abba Eban's observation that Israel was the only nation to win a war and then sue for peace. And then she draws a persuasive parallel to the United States today, as it struggles to figure out how a liberal democracy can face off against enemies who view Western morality as weakness. This deeply provocative book is sure to stir debate both inside and outside the Jewish world. Wisse's narrative offers a compelling argument that is rich with history and bristling with contemporary urgency.

Two Nations in Your Womb Israel Jacob Yuval, 2008-08-19 Since it was first published in Hebrew in 2000, this provocative book has been garnering acclaim and stirring controversy for its bold reinterpretation of the relationship between Judaism and Christianity in the Middle Ages, especially in medieval Europe. Looking at a remarkably wide array of source material, Israel

Jacob Yuval argues that the inter-religious polemic between Judaism and Christianity served as a substantial component in the mutual formation of each of the two religions. He investigates ancient Jewish Passover rituals; Jewish martyrs in the Rhineland who in 1096 killed their own children; Christian perceptions of those ritual killings; and events of the year 1240, when Jews in northern France and Germany expected the Messiah to arrive. Looking below the surface of these key moments, Yuval finds that, among other things, the impact of Christianity on Talmudic and medieval Judaism was much stronger than previously assumed and that a rejection of Christianity became a focal point of early Jewish identity. *Two Nations in Your Womb* will reshape our understanding of Jewish and Christian life in late antiquity and over the centuries.

Islamic Art and Architecture 650-1250 Richard Ettinghausen, Oleg Grabar, Professor Emeritus of Islamic Art and Architecture Oleg Grabar, Marilyn Jenkins, 2003-07-11 This richly illustrated book provides an unsurpassed overview of Islamic art and architecture from the seventh to the thirteenth centuries, a time of the formation of a new artistic culture and its first, medieval, flowering in the vast area from the Atlantic to India. Inspired by Ettinghausen and Grabar's original text, this book has been completely rewritten and updated to take into account recent information and methodological advances. The volume focuses special attention on the development of numerous regional centers of art in Spain, North Africa, Egypt, Syria, Anatolia, Iraq, and Yemen, as well as the western and northeastern provinces of Iran. It traces the cultural and artistic evolution of such centers in the seminal early Islamic period and examines the wealth of

different ways of creating a beautiful environment. The book approaches the arts with new classifications of architecture and architectural decoration, the art of the object, and the art of the book. With many new illustrations, often in color, this volume broadens the picture of Islamic artistic production and discusses objects in a wide range of media, including textiles, ceramics, metal, and wood. The book incorporates extensive accounts of the cultural contexts of the arts and defines the originality of each period. A final chapter explores the impact of Islamic art on the creativity of non-Muslims within the Islamic realm and in areas surrounding the Muslim world.
