Perspectives on Object-Centered Learning in Museums Scott G. Paris, 2002-04 Originating in a recent NSF conference held at the University of Michigan, this book examines the latest ideas about how children interact with objects and through that interaction acquire new understandings, attitudes, and feelings. Although museum education provides the primary setting within which object-centered learning is explored, the analyses apply to a wide range of learning environments. Despite the demonstrated importance of object-centered learning for both academic and life-long learning, until now there has been little psychological research on the topic. Key features of this outstanding new book include: *Cross-disciplinary Focus--This is the first book to examine object-centered learning using the perspectives of such diverse fields as science, history, literacy, and art. *Museum Focus--The explosion of interest in museums of all kinds provides a natural launching pad for conceptual and practical discussions of object-based learning and informal learning environments. Vignettes--In order to ground the conceptual analyses, each chapter includes vignettes describing people actively engaged with objects in a specific setting. This volume is appropriate for advanced students and researchers in educational psychology, cognitive psychology, science education, and persons directly involved in museum education.

Lee and the contributing scholars and community members call for the rethinking of Navajo sovereignty in a way more rooted in Navajo beliefs, culture, and values.

Dark Secret Love Alison Tyler, 2013-10-11 Alison Tyler, mistress of literary erotica, has mined her memoirs, spinning a kinky fairy tale with a happily-ever-after ending. Dark Secret Love is a modern-day Story of O, a 9 1/2 Weeks-style journey fueled by lust, longing and the search for true love. Inspired by her BDSM lifestyle and based on her private diaries, Tyler draws on her twenty-five years' experience penning sultry stories to create a scorchingly hot work of autobiographical fiction, a meta-novel with reality at the core. Take a deep breath and get your safe word handy. Alison Tyler will push your boundaries to their limits—and have you

begging for more.

City of Evil Sean Fewster,2011 They call Adelaide the City of Churches. What they forget is that every church has a graveyard and every graveyard is full of skeletons. Welcome to Adelaide, a city where transvestite, pro-wrestling truck drivers are beheaded and dismembered by lesbian prostitutes; where husbands stab and mutilate their wives and are forgiven; where former psychiatrists transform into delusional assassins and murder their co-workers in cold blood. We trust you'll enjoy your stay. In this compelling collection of true-crime stories, award-winning journalist Sean Fewster guides the reader through the darkest excesses of the City of Churches. He goes beyond the high-profile cases you know already. These are the crimes that happen in Adelaide every week - the bizarre, the unbalanced, the warped.
