

Shenan.htm

D. Scott Hartwig

Shenandoah Sue Eisenfeld,2015-02 For fifteen years Sue Eisenfeld hiked in Shenandoah National Park in the Virginia Blue Ridge Mountains, unaware of the tragic history behind the creation of the park. In this travel narrative, she tells the story of her on-the-ground discovery of the relics and memories a few thousand mountain residents left behind when the government used eminent domain to kick the people off their land to create the park. With historic maps and notes from hikers who explored before her, Eisenfeld and her husband hike, backpack, and bushwhack the hills and the hollows of this beloved but misbegotten place, searching for stories. Descendants recount memories of their ancestors grieving themselves to death, and they continue to speak of their people's displacement from the land as an untold national tragedy. *Shenandoah: A Story of Conservation and Betrayal* is Eisenfeld's personal journey into the park's hidden past based on her off-trail explorations. She describes the turmoil of residents' removal as well as the human face of the government officials behind the formation of the park. In this conflict between conservation for the benefit of a nation and private land ownership, she explores her own complicated personal relationship with the park--a relationship she would not have without the heartbreak of the thousands of people removed from their homes.

Contested Commemoration in U.S. History Klara Stephanie Szlezák,Melissa M. Bender,2019-09-25 Against the backdrop of two recent socio-political developments—the shift from the Obama to the Trump administration and the surge in nationalist and populist sentiment that ushered in the current administration—Contested Commemoration in U.S. History presents eleven essays focused on practices of remembering contested events in America's national history. This edited volume contains fresh interpretations of public history and collective memory that explore the evolving relationship between the U.S. and its past. The individual chapters investigate efforts to memorialize events or interrogate instances of historical sanitization at the expense of less partial representations that would include other perspectives. The primary source material and geography covered is extensive; contributors use historic sites and monuments, photographs, memoirs, textbooks, periodicals, music, and film to discuss the periods from colonial America, through the Revolutionary and Civil Wars up until the Vietnam War, Civil Rights movement, and Cold War, to explore how the commemoration of those eras resonates in the twenty-first century. Through a range of commemoration media and primary sources, the authors illuminate themes and arguments that are indispensable to students, scholars, and practitioners interested in Public History and American Studies more broadly.

Explorer's Guide The Shenandoah Valley and Mountains of the Virginias Jim Hargan,2005-04-19 A lively, comprehensive guide to the southern Appalachians, from Virginia's Blue Ridge Mountains to the Monongahela National Forest of West Virginia. With visitation levels that rival Orlando and New York City, the southern Appalachians draw a huge array of weekenders, adventurers, and long-term visitors. This book offers historical insight, outdoor adventure, and all the information most travelers need to plan and enjoy their journey. This guide also serves as an insider's handbook to the nine national parks, offering active travelers the best access points and trailheads for kayaking, biking, and hiking excursions. In addition, this comprehensive guide to the region includes opinionated listings of inns, B&Bs, hotels, and vacation cabins; hundreds of dining reviews, from barbecue to four-star cuisine; up-to-date maps; an alphabetical What's Where subject guide to aid in trip planning; and handy icons that point out family-friendly establishments, wheelchair access, places of special value, and lodgings that accept pets.

A Writer's Resource with Student Access to Catalyst 2.0 Elaine P. Maimon,Janice Peritz,Kathleen Yancey,2005-12 Comb- or spiral-bound and clearly tabbed, *A Writer's Resource* combines 20 years of research into writing in college with the most extensive technological support available to form an indispensable resource for learning, writing, researching, and editing.

Indian Country Address Book Martha Crow,2000

Su Legado James Dobson,2014-09-09 Vivimos en una cultura que trata de destruir la fe embrionaria de nuestros hijos y guiarlos a una ideología políticamente correcta, a sistemas de creencias ateas, y a tanta inmoralidad que habría conmovido a las generaciones anteriores. A esto es que se enfrentan los padres cristianos de hoy en día, y muchos de ellos están aterrorizados de ello. Vivimos en tiempos realmente peligrosos. Pero la buena noticia es que hay una manera en la cual usted puede salir victorioso de esta batalla por los corazones, mentes y almas de nuestros preciosos hijos. Sea cual sea la etapa en la que se encuentre como padre o abuelo, usted puede dejar un legado espiritual que equipará a sus hijos y nietos con un patrimonio de fe inquebrantable. SU LEGADO le ofrece las respuestas presentándole: La historia personal del Dr. Dobson de su propio legado espiritual; Las estrategias para la formación espiritual de los niños; La ayuda para padres de hijos pródigos; La esperanza de alcanzar a los padres que no han sido salvos; Los principios para desarrollar una relación de amor con sus hijos; Los testimonios de padres que lo han hecho bien; Las historias que puede contarles a sus hijos y dejarles su legado; Los pasos que puede tomar para llevar a su hijo a Cristo ¿Cómo le puede enseñar a sus hijos lo que más importa? Es siendo intencional sobre su formación espiritual. SU LEGADO le ayudará a hacer que esa sea la prioridad central de su familia.

American Military History Volume 1 Army Center of Military History,2016-06-05 American Military History provides the United States Army-in particular, its young officers, NCOs, and cadets-with a comprehensive but brief account of its past. The Center of Military History first published this work in 1956 as a textbook for senior ROTC courses. Since then it has gone through a number of updates and revisions, but the primary intent has remained the same. Support for military history education has always been a principal mission of the Center, and this new edition of an invaluable history furthers that purpose. The history of an active organization tends to expand rapidly as the organization grows larger and more complex. The period since the Vietnam War, at which point the most recent edition ended, has been a significant one for the Army, a busy period of expanding roles and missions and of fundamental organizational changes. In particular, the explosion of missions and deployments since 11 September 2001 has necessitated the creation of additional, open-ended chapters in the story of the U.S. Army in action. This first volume covers the Army's history from its birth in 1775 to the eve of World War I. By 1917, the United States was already a world power. The Army had sent large expeditionary forces beyond the American hemisphere, and at the beginning of the new century Secretary of War Elihu Root had proposed changes and reforms that within a generation would shape the Army of the future. But world war-global war-was still to come. The second volume of this new edition will take up that story and extend it into the twenty-first century and the early years of the war on terrorism and includes an analysis of the wars in Afghanistan and Iraq up to January 2009.

Starting from Scratch Sarah Ludwig,2011-06-16 Create a successful, vibrant, and youth-centered teen services program with this practical, comprehensive guide—even when resources are limited. In order to develop a young adult department from the ground up, librarians need to be informed about a myriad of interrelated tasks and responsibilities: creating policies, purchasing materials, program scheduling, outreach, and budgeting. Even for libraries that already have teen-oriented materials within their facilities, keeping them current and fresh is a challenge, especially when budget or physical space is an issue. *Starting from Scratch: Building a Teen Library Program* is an instrumental resource for librarians who are either entering an established teen program with no previous experience, or establishing a new teen program in a library. It covers all steps in the process of becoming a successful teen librarian, from getting the job and advocating for a teen department to adding qualified staff and ongoing professional development.

The First Farmers of Europe Stephen Shennan,2018-05-03 Knowledge of the origin and spread of farming has been revolutionised in recent years by the application of new scientific techniques, especially the analysis of ancient DNA from human genomes. In this book, Stephen Shennan presents the latest research on the spread of farming by archaeologists, geneticists and other archaeological scientists. He shows that it resulted from a population expansion from present-day Turkey. Using ideas from the disciplines of human behavioural ecology and cultural evolution, he explains how this process took place. The expansion was not the result of 'population pressure' but of the opportunities for increased fertility by colonising new regions that farming offered. The knowledge and resources for the farming 'niche' were passed on from parents to their children. However, Shennan demonstrates that the demographic patterns associated with the spread of farming resulted in population booms and busts, not continuous expansion.

The Confederacy's Last Northern Offensive Steven Bernstein,2010-12-22 By spring 1864, the administration of Abraham Lincoln was in serious trouble, with mounting debt, low morale and eroding political support. As

spring became summer, a force of Confederate troops led by Lieutenant General Jubal Anderson Early marched north through the Shenandoah Valley and crossed the Potomac as Washington, D.C., and Maryland lay nearly undefended. This Civil War history explores what could have been a decisive Confederate victory and the reasons Early's invasion of Maryland stalled.

Durable Trades Rory Groves,2020-11-12 With over thirty thousand occupations currently in existence, workers today face a bewildering array of careers from which to choose, and upon which to center their lives. But there is more at stake than just a paycheck. For too long, work has driven a wedge between families, dividing husband from wife, father from son, mother from daughter, and family from home. Building something that will last requires a radically different approach than is common or encouraged today. In *Durable Trades*, Groves uncovers family-centered professions that have endured the worst upheavals in history--including the Industrial Revolution--and continue to thrive today. Through careful research and thoughtful commentary, Groves offers another way forward to those looking for a more durable future.

To Antietam Creek D. Scott Hartwig,2012-10-15 A richly detailed account of the hard-fought campaign that led to Antietam Creek and changed the course of the Civil War. In early September 1862 thousands of Union soldiers huddled within the defenses of Washington, disorganized and discouraged from their recent defeat at Second Manassas. Confederate General Robert E. Lee then led his tough and confident Army of Northern Virginia into Maryland in a bold gamble to force a showdown that could win Southern independence. The future of the Union hung in the balance. The campaign that followed lasted only two weeks, but it changed the course of the Civil War. D. Scott Hartwig delivers a riveting first installment of a two-volume study of the campaign and climactic battle. It takes the reader from the controversial return of George B. McClellan as commander of the Army of the Potomac through the Confederate invasion, the siege and capture of Harpers Ferry, the daylong Battle of South Mountain, and, ultimately, to the eve of the great and terrible Battle of Antietam.

Directory of Special Libraries and Information Centers ,2008

National Geographic Guide to Scenic Highways and Byways National Geographic,2007 Expanded to include all U.S. designated America's Byways as well as other selected drives in all 50 states, this stunning new edition features unique driving tours through virtually every kind of landscape--spectacular coastlines, mountains, lakes, small towns, ranches and farmlands, islands, bays, and river valleys.

In Unfamiliar England Thomas Dowler Murphy,1910

Free Land, Free Country John Hrastar,2022-11-15 From the earliest days of the British colonies in America, land was freely given to those willing to come and settle. Oftentimes, it was the only inducement that brought colonists to the New World. At first, colonists considered free land a privilege, but it soon came to be seen as a right. When that right was later withheld by Great Britain, the colonists rebelled. Exploring how economic hierarchies led to vast inequality in England, this book details the realization that America would provide opportunities for economic mobility. As colonists learned how to manage the land in the New World, they also learned how to govern themselves. This book emphasizes how the control of free land in America laid the groundwork for revolution. Although covered broadly in other histories, this is the first work dedicated to exploring land ownership as a unique and direct cause of the American Revolution.

Explorer's Guide Iowa Lauren R. Rice,2009-07-06 This book will guide you through the backcountry and cities of the state Iowa.

Air Pollution Modeling and its Application XX Douw G. Steyn,S. T. Rao,2010-03-15 Recent developments in air pollution modelling are explored as a series of contributions from researchers at the forefront of their field. This book on air pollution modelling and its application is focused on local, urban, regional and intercontinental modelling; data assimilation and air quality forecasting; model assessment and evaluation; aerosol transformation; the relationship between air quality and human health and the effects of climate change on air quality. It consists of a series of papers that were presented at the 30th NATO/SPS International Technical Meeting on Air Pollution Modelling and its Application held in San Francisco, U.S.A., May 18-22, 2009. It is intended as reference material for students and professors interested in air pollution modelling at the graduate level as well as researchers and professionals involved in developing and utilizing air pollution models.

Hiking Through Paul V. Stutzman,2010-04-06 The author discusses his decision to quit his job following the death of his wife and embark on thru-hike of the Appalachian Trail, and describes his experiences and the revelations that came to him while on the nearly five-month-long trek.

Side by Side in Eternity James Robert McNeal,J. Eric Smith,2023-02-27 Every gravestone in every graveyard can frame a story far more complex than the dates engraved upon it. It's common for spouses to be memorialized together as a final affirmation of the commitments made in life, or for bereaved parents to be buried with children who tragically preceded them in death. Close proximity burials of seemingly unrelated figures can similarly reveal the tales of people who otherwise walked together in life, by choice or by chance. For example, the Confederate burial of Union Col. Robert Gould Shaw was certainly meant as a dishonor as Shaw was buried in an unmarked, low-lying coastal trench alongside the fallen African American members of the 54th Massachusetts Regiment he had commanded at Fort Wagner. After the war, however, the men's remains were recovered and reinterred--meaningfully, still together--at the newly commissioned Beaufort National Cemetery. This book explores a dozen unique examples of such side-by-side burials over the course of U.S. history. It begins by describing each of the protagonists' final chapters, before spooling out the tales and significance of their actual journeys to such interwoven endpoints. The evolution of funerary practices and observances in the United States is interspersed throughout, with a special focus on military honors and burials.

Adopting the Track of Phrase: An Mental Symphony within **Shenan.htm**

In a global eaten by monitors and the ceaseless chatter of instant conversation, the melodic elegance and psychological symphony created by the written word often disappear into the background, eclipsed by the relentless noise and disturbances that permeate our lives. Nevertheless, situated within the pages of **Shenan.htm** an enchanting fictional treasure filled with fresh feelings, lies an immersive symphony waiting to be embraced. Crafted by an outstanding musician of language, this fascinating masterpiece conducts readers on a psychological trip, well unraveling the concealed melodies and profound affect resonating within each carefully constructed phrase. Within the depths of this emotional assessment, we will explore the book is central harmonies, analyze their enthralling publishing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
