*How the Bible Begins* John R. Heapes, 2021-05-24 How the Bible Begins: A Sociological Study uses a Dramaturgical Approach, borrowed from Erving Goffman. This theatrical metaphor has readers imagining society like a play in five acts: Genesis, Exodus, Leviticus, Numbers, and Deuteronomy. The curtain goes up in Genesis to an empty, dark stage that, shortly afterwards, has its first performers appear—Adam, and then Eve. The foundation of this book rests on six fundamental questions which are answered within its pages: who, what, when, where, why, and how. Readers learn how many people populate each biblical book, each book's theme, when events took place, where action happened, what each book's purpose was, and how each book was composed. These books chronicled the passage of travelers who first departed Mesopotamia in search of the promised land, and later they left Egypt after four hundred years of slavery. Guided by God, these people formed a nation out of these epic journeys.

**Literature Suppressed on Social Grounds** Dawn B. Sovia, 2014-05-14 Literature Suppressed on Social Grounds, Revised Edition discusses writings that have been banned over the centuries because they offended or merely ignored official truths; challenged widely held assumptions; or contained ideas or language unacceptable to a state, religious institution, or private moral watchdog. **The Beast and Babylon** J.B. Whitelaw-Stevens, 2017-07-06 The Beast and Babylon answers some age-old questions about the two symbolic entities featured in the book of Revelation. These symbols have historically been typified as a revived Roman Empire, and its God-opposing religious counterparts that rise up (in Europe), prior to the Second Coming of Jesus Christ. In contrast, this informative and timely study reveals that the latter-day beast power rises out of not one, but out of three defunct previous empires in the Middle East; known via Daniel's metaphors as the lion, bear, and leopard kingdoms. It appears from Daniel 7:11-12, that long after the last manifestation of the Roman Empire is destroyed, these three dormant empires are revived for a season and a time. During their rejuvenation, they reappear in Revelation 13 and 17 in the form of a tripartite, seven-headed, political/religious beast power that emerges from the topographies of the ancient Grecian (leopard), Persian (bear), and Babylonian (lion) kingdoms. Furthermore, these combined territories encompass ten sovereign Islamic horn nations that were revealed after the Ottoman Empire was abolished ninety-five years ago. Today, many of these Islamic nations contain embedded terrorist groups whose fanatical Jihadist leaders are determined to resurrect a radical pan-Islamic Caliphate, by which to establish Sharia law throughout the World. To achieve these objectives, the latter-day nascent imperial beast power in conjunction with ten like-minded insurgent leaders must initiate a global Jihad to incite war on the people of God, and conspire to destroy a religious city called Mystery, Babylon the Great.
