Endonezya Mütalâaları V Ali Osman Muş,2021-06-06 ÖNSÖZ Endonezya Okyanusu'nda yüzüyoruz. Endonezya üzerinde çalışmak ve araştırma yapmak “zor” diyen Japonlara hak verdik. Gerçekten çok zor ve mantaliteleri son derece farklı bir kavimler topluluğu olan Endonezya halkı aşırı yumuşak ve medeni ama “yumuşak atın çiftesi pek olur” atasözünde geçtiği gibi Stefan Zweig'in de “Amok Koşucusu” kısa romanında açıkladığı haleti ruhiyeyi irdelemek bizi din algısı ve olgusu ile ilgili sorulara yöneltti. Din merkezli yaşayıp her şeylerini ona göre tasarlayan cemiyetler zannediyorlar ki “inandıkları din” onların her şeylerini adeta yeniden var ediyor. Kişiliklerini, kimliklerini, geleneklerini, örf ve âdetlerini akla gelen her türlü “hars” karakterli niteliklerini inandıkları din dizginleyip istikametini çiziyor. Dinden aldıkları ve ona kattıklarını bir araya getirip alt alta basitçe iki sütunda sıraladığımızda ise durum çok farklı tecelli ediyor. Dini yeniden işleyip, adeta din içinden din çıkaracak derecede değişime uğratan, bağdaştırmacı din zihniyeti bizleri böyle düşünmeye sevk etti. Hazreti Muhammed'in vaz ettiği İslâm; sekiz bin kilometre doğuda Sumatra Adası'na ulaştığında güzergâh üzerinde uğradığı Gujarat sahillerinde kazandığı “şii” karakteri hemen hemen terkedip Sumatra Açe'den başlayıp Irian Jaya Adası'na doğru beşbin kilometre ilerlediğinde sünnî ağırlıklı bir mozayik müzesine dönüşüyor. “İslâmın tonları” çok farklılaşıyor. Değişen nedir? İklim. Yerçizimi. Topoğrafya. Hepsi değişiyor. Zihinler ise ataerkil cemiyetten anaerkil cemiyete dönüşüyor. Ama din aynı adı taşıyor:İslâm. İşte bu değişiklikler bize bambaşka bir İslâm armağan ediyor. Hepsi sömürge ülkeleri. Hepsi “bağımsızlık” nefesini solumamış ülkeler. Tarihleri 1935 lerde başlıyor diyebileceğimiz ülkeler bunlar, Clifford Geertz'in deyiimiyle. Ülke mi? Millet mi? Ülke olacaklar. Millet olacaklar. Eğer “kendilerine dayatılan din öldü” derlerse. Yoksa avaz avaz bağırان ulama elinde kölelik ve yoksulluk üretmeye devam edecekler. İslâm bize bir vatan armağan ediyor mu? İslâm bize bir bayrak armağan ediyor mu? İslâm bize bir millet şuuru armağan ediyor mu? Bu soruların cevaplarını yararlandığımız bu kitabın satırları arasında bulacağınızı umuyoruz. İngilizce tercümelerde bana çok yardımcı olan bilgisayar mühendisi Bilgehan Baki Bilen'e ve Türkçe dilbilgisi düzeltmeleri yapan Mahmut Yıldırım'a teşekkür ederim. Transforming America [3 volumes] Michael C. LeMay,2012-12-10 Utilizing multiple perspectives of related academic disciplines, this three-volume set of contributed essays enables readers to understand the complexity of immigration to the United States and grasp how our history of immigration has made this nation what it is today. Transforming America: Perspectives on U.S. Immigration covers immigration to the United States from the founding of America to the present. Comprising 3 volumes of 31 original scholarly essays, the work is the first of its kind to explore immigration and immigration policy in the United

States throughout its history. These essays provide a variety of interdisciplinary perspectives from experts in cultural anthropology, history, political science, economics, and education. The book will provide readers with a critical understanding of the historical precedents to today's mass migration. Viewing the immigration issue from the perspectives of the contributors' various relevant disciplines enables a better grasp of the complex conundrum presented by legal and illegal immigration policy.

Orwellian Ireland Brian Nugent, 2007-10-29 Inspired by the book Stasiland, this work is an attempt to see if some of the state practices that flourished in Communist Eastern Europe might be replicated in modern Ireland. It goes into the question of intelligence agencies, what agencies are active in Ireland, how they harass dissidents, their use of modern technology and their role in secretly supporting paramilitary groups in Ireland and around the world. It includes a lot of first hand testimony of state harassment, and even torture, which is on a par with what happened in countries like East Germany. Finally it concludes with some searching questions about the real government policies being pursued in Ireland.

Local Music Scenes and Globalization Thomas Burkhalter, 2014-04-16 This book offers the first in-depth study of experimental and popular music scenes in Beirut, looking at musicians working towards a new understanding of musical creativity and music culture in a country that is dominated by mass-mediated pop music, and propaganda. Burkhalter studies the generation of musicians born at the beginning of the Civil War in the Lebanese capital, an urban and cosmopolitan center with a long tradition of cultural activities and exchanges with the Arab world, Europe, the US, and the former Soviet Union. These Lebanese rappers, rockers, death-metal, jazz, and electro-acoustic musicians and free improvisers choose local and transnational forms to express their connection to the broader musical, cultural, social, and political environment. Burkhalter explores how these musicians organize their own small concerts for 'insider' audiences, set up music labels, and network with like-minded musicians in Europe, the US, and the Arab world. Several key tracks are analyzed with methods from ethnomusicology, and popular music studies, and contextualized through interviews with the musicians. Discussing key references from belly dance culture (1960s), psychedelic rock in Beirut (1970s), the noises of the Lebanese Civil war (1975-1990), and transnational Pop-Avant-Gardes and World Music 2.0 networks, this book contributes to the study of localization and globalization processes in music in an increasingly digitalized and transnational world. At the core, this music from Beirut challenges ethnocentric perceptions of locality in music. It attacks both Orientalist readings of the Arab world, the Middle East, and Lebanon, and the focus on musical difference in Euro-American music and culture markets. On theoretical grounds, this music is a small, but passionate attempt to re-shape the world into a place where modernity is not euro-modernity or euro-american modernity, but where possible new configurations of modernity exist next to each other.

Beyond Borders: Communication Modernity & History ,

Material Culture and Asian Religions Benjamin Fleming, Richard Mann, 2014-03-26 Traditionally, research on the history of Asian religions has been marked by a bias for literary evidence, privileging canonical texts penned in 'classical' languages. Not only has a focus on literary evidence shaped the dominant narratives about the religious histories of Asia, in both scholarship and popular culture, but it has contributed to the tendency to study different religious traditions in relative isolation from one another. Today, moreover, historical work is often based on modern textual editions and, increasingly, on electronic databases. What may be lost, in the process, is the visceral sense of the text as artifact – as a material object that formed part of a broader material

culture, in which the boundaries between religious traditions were sometimes more fluid than canonical literature might suggest. This volume brings together specialists in a variety of Asian cultures to discuss the methodological challenges involved in integrating material evidence for the reconstruction of the religious histories of South, Southeast, Central, and East Asia. By means of specific ‘test cases,’ the volume explores the importance of considering material and literary evidence in concert. What untold stories do these sources help us to recover? How might they push us to reevaluate historical narratives traditionally told from literary sources? By addressing these questions from the perspectives of different subfields and religious traditions, contributors map out the challenges involved in interpreting different types of data, assessing the problems of interpretation distinct to specific types of material evidence (e.g., coins, temple art, manuscripts, donative inscriptions) and considering the issues raised by the different patterns in the preservation of such evidence in different locales. Special attention is paid to newly-discovered and neglected sources; to our evidence for trade, migration, and inter-regional cultural exchange; and to geographical locales that served as contact zones connecting cultures. In addition, the chapters in this volume represent the rich range of religious traditions across Asia – including Hinduism, Buddhism, Taoism, Shinto, and Chinese religions, as well as Islam and eastern Christianities.

Consuming Choices David T. Schwartz, 2017-03-21 Being a consumer is now integral to the human experience, something none of us can avoid. At the same time, many of the products that we buy come to us with histories steeped in highly unethical practices, such as worker exploitation, animal suffering, and environmental damage. Consuming Choices considers the ethical dimensions of consumer life by exploring several basic questions: Exactly what sorts of unethical practices are implicated in today's consumer products? Does moral culpability for these practices fall solely on the companies that perform them, or does it also fall upon consumers who purchase the products made with such practices? And most importantly, do consumers ever have moral obligations to avoid particular products? To answer, David T. Schwartz provides the most detailed philosophical exploration to date on consumer ethics. He utilizes historical

and fictional examples to illustrate the types of wrongdoing currently implicated by consumer products in this age of globalization, offers a clear description of the relevant moral theories and important ethical concepts, and provides concrete suggestions on how to be a more ethical consumer.

Improving the Characterization Program for Contact-Handled Transuranic Waste Bound for the Waste Isolation Pilot Plant National Research Council, Division on Earth and Life Studies, Board on Radioactive Waste Management, Committee on Optimizing the Characterization and Transportation of Transuranic Waste Destined for the Waste Isolation Pilot Plant, 2004-02-15 As operational experience is gained in the disposal of transuranic waste from nuclear weapons facilities at the Waste Isolation Pilot Plant in New Mexico, the Department of Energy (DOE) has opportunities to change how it characterizes waste to confirm that it is appropriate for shipment to and disposal at the underground repository. The waste shipped to the facility includes gloves, rags, tools, and other debris or dried sludge that has been contaminated by radioactive elements, including plutonium, during production or cleanup activities in the DOE weapons complex. However, before the DOE seeks regulatory approval for changes to its characterization program, the agency should conduct and publish a systematic and quantitative assessment to show that the proposed changes would not affect the protection of workers, the public, or the environment, according to the committee. The assessment should take into account technical factors, societal and regulatory impacts, and the time and effort required to make the changes.

1000 и одна микроконтроллерная схема. Выпуск 3 Сергей Рюмик, 2022-01-29 Книга является третьей частью авторского издания под общим титульным названием «1000 и одна микроконтроллерная схема». Ранее в издательстве «Додэка-XXI» вышли в свет две книги из данной серии: «Выпуск 1» (2010 г.) и «Выпуск 2» (2011 г.). Новая книга «Выпуск 3» служит их логическим продолжением и дополнением. В ней содержатся электрические схемы сопряжения микроконтроллеров с внешними устройствами. Основной упор, в отличие от аналогичных по тематике изданий, делается на рассмотрение небольших, конструктивно завершённых, схемных узлов. В книге освещается работа базовых микроконтроллерных подсистем, в частности ввода и вывода сигналов, питания, тактирования, сброса, программирования. Уделяется должное внимание популярным интерфейсам: USB, SPI, RS-485, I2C, 1-Wire. Приводятся схемы электрической «обвязки» для популярных плат Arduino, которые тоже содержат микроконтроллеры. Книгу можно считать справочником типовых решений, поскольку все электрические схемы систематизированы по разделам и снабжены краткими пояснениями о назначении элементов. Ссылки на дополнительные материалы и литературу даны в конце каждого из разделов. В общей сумме в трёх книгах «Выпуск 1...3» насчитывается около 3000 схем. В книге содержится мини-курс, посвящённый компьютерному моделированию. Приводится методика анализа небольших узлов, подключаемых к выводам микроконтроллеров. С помощью моделирования можно заранее спрогнозировать результат работы устройства без паяльника и без макетирования «в железе». Книга будет полезна разработчикам электронной аппаратуры, радиолюбителям (в том числе начинающим), студентам, а также всем неспециалистам в области электроники, самостоятельно осваивающим микроконтроллеры.

A Possible Peace Between Israel and Palestine Menachem Klein, 2007 In 2003, after two years of negotiations, a group of prominent Israelis and Palestinians signed a model peace treaty. The document, popularly called the Geneva Initiative, contained detailed provisions resolving all outstanding issues between Israel and the Palestinian people, including drawing a border between Israel and Palestine, dividing Jerusalem, and determining the status of the Palestinian refugees. The negotiators presented this citizens' initiative to the Israeli and Palestinian peoples and urged them to accept it. One of the Israeli negotiators was

Menachem Klein, a political scientist who has written extensively about the Jerusalem issue in the context of peace negotiations. Although the Geneva Initiative was not endorsed by the governments of either side, it became a fundamental term of reference for solving the Middle East conflict. In this firsthand account, Klein explains how and why these groups were able to achieve agreement. He directly addresses the formation of the Israeli and Palestinian teams, how they managed their negotiations, and their communications with both governments. He also discusses the role of third-party facilitators and the strategy behind marketing the Geneva Initiative to the public. A scholar and participant in the Geneva negotiations, Klein is able to provide both an inside perspective and an impartial analysis of the diplomatic efforts behind this historic compromise. He compares the negotiations to previous Israeli-Palestinian talks both formal and informal and the resolution of conflicts in South Africa and Algeria. Klein hopes that by treating the event as a case study we can learn a tremendous amount about the needs and approaches of both parties and the necessary shape peace must take between them.

Fostering Resilience through Micro, Small and Medium Enterprises Tulus T.H. Tambunan, 2022-03-30 This book focuses on the development of Micro, Small and Medium Enterprises (MSMEs) in Indonesia based on various primary and secondary field surveys. In doing so, the book provides a regional comparison of countries in Asia-Pacific, covering issues such as employment generation, formation of gross domestic product (GDP), export development, development constraints, productivity, and investment. To achieve this, the book analyzes the role of partnerships between MSMEs such as large companies, banks and government institutions, and the role of cooperatives. It also includes studies on women's entrepreneurship in Indonesia, and also explores the crisis mitigating measures (CMMs) widely adopted by MSMEs affected by financial crises in the past. Finally, the book also examines the development of financial technology (FinTech), and in particular peer-to-peer (P2P) lending and how this can serve as an alternative source of funding for MSMEs in Indonesia. Aspects of this book would be useful to students, researchers, practitioners, and also those interested in economic-related sustainable development goals (SDGs), given the importance the United Nations (UN) has assigned to MSMEs for taking a lead in employment creation, and poverty eradication.

Communicating for Social Change Mohan Jyoti Dutta, Dazzelyn Baltazar Zapata, 2018-12-05 The book covers the trajectories and trends in social change communication, engaging the key theoretical debates on communication and social change. Attending to the concepts of communication and social change that emerge from and across the global margins, the book works toward offering theoretical and methodological lessons that de-center the dominant constructions of communication and social change. The chapters in the book delve into the interplays of academic-activist-community negotiations in communication for social change, and the ways in which these negotiations offer entry points into transformative communication processes of social change. Moreover, a number of chapters in the book attend to the ways in which Asian articulations of social change are situated at the intersections of culture, structure, and agency. Chapters in the book are extended versions of research presented at the conference on Communicating Social Change: Intersections of Theory and Praxis held at the National University of Singapore in 2016, organized under the umbrella of the Center for Culture-Centered Approach to Research and Evaluation (CARE).
