The Sky Pilot: A Tale of the Foothills Ralph Connor,2019-12-10 'The Sky Pilot: A Tale of the Foothills' by Ralph Connor is a moving story of a man with a vision beyond the horizon who comes to the remote and lonely valleys of the Foothill Country to play the role of a brother to those who have been outcast by society. The novel is about the people of the Foothills who have left their comfortable and luxurious homes to do something worthy, and those who have sought solace in these valleys. The story follows the protagonist's efforts to win their trust, to help them realize the worth of their own lives, and to bring them together as a community.

Island in the Sky Ernest K. Gann,2020-02-25 Island in the Sky, first published in 1944, is aviator Ernest Gann's exciting, realistic novel of survival in the far north of Canada. The Corsair, a plane attached to the Army Air Transport Command during the Second World War, is forced to land after heavy icing of the wings makes the plane unflyable. The crew look to Dooley, the pilot for guidance in order to survive the frigid conditions, and from support bases and search aircraft, a rescue mission is mounted. Island in the Sky was the subject of a 1953 movie starring John Wayne. Publisher's Note, Nov. 26, 2015: Note that a recent reviewer's comment stating that the book 'lacks many parts...including the entire completion' is not accurate. Our editions of Island in the Sky contain the full and complete text of the book as written by author Ernest Gann.

Conquistadors of the Sky Dan Hagedorn,2008 Alberto Santos-Dumont was the first of many intrepid citizens of Latin America to make historic flights. Many other firsts were chalked up by Latin American aviators but were little noted by the international press at the time. In fact, aviation in Latin America progressed at a pace even more rapid than in other, more developed areas of the world. Since the 1960s, there have been many developments in commercial aviation, the manufacture of airplanes, and their use in Latin America. This history brings to light the many innovations and inventions in the region that have impacted global politics, commerce, and communication.--BOOK JACKET.

Sky High Eric Hodgins,2018-03-06 Excerpt from Sky High: The Story of Aviation Our indebtednesses are few but deep. To Mr. Edward Weeks of the Atlantic Monthly Press and Mr. Theodore Morrison of the Atlantic Monthly we owe the original idea from which this book stemmed. Professor William N. Seaver, Librarian, and Mrs. Katherine Maynard, Vail Librarian, of Massachusetts Institute of Technology, graciously threw open the Treasure Room of the Library, which yielded information on the obscure early days of aviation and aerostation. We cannot be sufficiently grateful to Mr. Edward P. Warner, the first holder of the portfolio of Assistant Secretary Of the Navy for Aeronautics, and now Editor of Aviation, who read the proofs with painstaking care. TO Mr. Carl H. Claudy of Washington, D. C., we owe a debt as great for

the thorough ness with which be examined the proof for every type of error which an author can make. And without the supersecretarial services of Mrs. Harriet Rodgers this book could not have been written at all. The Wrong Side of the Sky Gavin Lyall,1966 A chance encounter in an Athens bar with war-time flying buddy sets Jack Clay on the trail of the Nawab of Tungabhadra's missing fortune, hi-jacked out of India years before at the time of partition. Maybe there would be nothing much in it for him at the end of the day, but it sure beat the hell out of growing old and obsolete together with the dilapidated Dakota in which he flew everything anywhere on a wing and a prayer and a bottle of Scotch. Clay badly needed out. This might be his last chance. But there were others whose needs were as great as Clay's. Men and women who were prepared to lie and cheat, murder and maim, to get to the diamonds first.
