❏ **INFORMATION SECURITY AND PRIVACY** Ed Dawson, Andrew Clark, Colin Boyd, 2006-12-30 This book constitutes the refereed proceedings of the 5th Australasian Conference on Information Security and Privacy, ACISP 2000, held in Brisbane, QLD, Australia, in July 2000. The 37 revised full papers presented together with two invited contributions were carefully reviewed and selected from a total of 81 submissions. The book offers topical sections on network security, public key cryptography, cryptographic implementation issues, electronic commerce, key recovery, public key infrastructure, Boolean functions, intrusion detection, codes, digital signatures, secret sharing, and protocols.

❏ **COMPUTERS HELPING PEOPLE WITH SPECIAL NEEDS** Klaus Miesenberger, Joachim Klaus, Wolfgang Zagler, 2003-08-02 Success and efficiency are the latest standards and scales of our society. Virtual surroundings and communication rooms, electronic portals and platforms are pushing us into a new world of personal and professional interaction and cooperation. The network to subdue violence is fragile and crumbly, tradition is no longer a power of our community. What of leisure time, dreams, and fantasy? What of education in the family, at school and at university? Travelling round the world to develop yourself – how man becomes man: pleading for a new determination of the idea of education – a mission of past centuries inadequate nowadays? Regarding September 11th last year, the conflicts and confrontations round the globe, and events in our direct surroundings these questions seem to be a cry at least to reflect upon what is happening around us and where we – all of us – still play an active role. An international conference on computers helping people with special needs is like an island – is this a topic at all these days, is it worth discussing the area of ICT and the situation of people with disabilities, persons who are segregated from developing their personal and professional careers? Indeed the biennial meeting has never included these actualities, but the basic idea behind ICCHP, starting in 1989, was to focus on these fringe groups and to offer a platform of exchange on all aspects of human computer interaction and the usage of ICT for people with special needs.
