Creating Autoethnographies Tessa Muncey, 2010-03-25 Creating Autoethnographies is an introduction to autoethnography, a form of autobiographical personal narrative that explores the writer's experience of life. The first ever practical text on this increasingly popular research method, it provides a background and considers some of the criticisms of the approach. It is suitable for all social science students, both at postgraduate and also upper level undergraduate stage. The book is structured to mirror the process of writing about experience, from establishing an idea through to the process of writing and the development of creative writing skills, and provides detailed worked examples of the whole process. The final two chapters are devoted to exploring two cases in which readers can see the principles discussed in action. There are also a wide range of case studies drawn from a wide a range of social science disciplines and exercises throughout the text. In the book, Tessa Muncey identifies a number of trends in social science research, such as the increasing focus on the individual

and giving a voice to service users, that are resulting in an increase of interest in narrative research. Creating Autoethnographies is a timely contribution to the field. Tessa Muncey is one of the leading names in this field and is the annual organiser and chair of the Mixed Methods Conference.

The Summer Dragon Todd Lockwood, 2018-05 The debut novel from the acclaimed illustrator--a high fantasy adventure featuring dragons and deadly politics. Maia and her family raise dragons for the political war machine. As she comes of age, she hopes for a dragon of her own to add to the stable of breeding parents. But the war goes badly, and the needs of the Dragonry dash her hopes. Her peaceful life is shattered when the Summer Dragon—one of the rare and mythical High Dragons—makes an appearance in her quiet valley. The Summer Dragon is an omen of change, but no one knows for certain what kind of change he augurs. Political factions vie to control the implied message, each to further their own agendas. And so Maia is swept into an adventure that pits her against the deathless Horrors—thralls of the enemy—and a faceless creature drawn from her fears. In her fight to preserve everything she knows and loves, she uncovers secrets that challenge her understanding of her world and of herself.

Patrimony Alan Dean Foster, 2007-10-30 In this Pip & Flinx thriller, Alan Dean Foster displays the brilliance that has made him one of the brightest lights in science fiction. In Patrimony, fans will learn more about their favorite redhead—with emerald eyes, uncanny powers, and a poisonous

minidrag—than they ever dreamed possible. “I know who your father is . . . Gestalt.” A shocked Flinx hears these dying words from one of the renegade eugenicists whose experiments with humans twenty-odd years ago shocked the galaxy . . . and spawned Flinx. So Flinx and his minidrag, Pip, venture to Gestalt, an out-of-the-way planet perfect for someone who never wants to be found—disregarding the advice of those who think Flinx could make better use of his time locating the ancient, sentient weapons platform that could be the galaxy’s only chance of stopping the exterminating scourge that’s fast approaching. Flinx might agree with them—but the quest for patrimony wins out. (Sorry, galaxy!) Could Gestalt supply the key to Flinx’s shadowy past and strange powers? An eccentric loner in a remote area could be the father Flinx has never stopped searching for, perhaps the only person who can unravel the mystery of his birth and his amazing, agonizing powers. Unfortunately for Flinx, Gestalt also hosts a resident bounty hunter who’s just learned about the stupendous reward offered for a certain dead redhead. Flinx gets a chance to test his adversary’s skills when our hero’s skimmer is blasted out of the sky and into a raging river in the middle of nowhere—a nowhere of impassable terrain and ravenous, carnivorous beasts. But hey, what’s one more impossible challenge for someone who’s spent his life defying the odds and escaping the inescapable? Flinx has one thing going for him . . . plenty of experience.

Last Girl Before Freeway Leslie Bennetts, 2016-11-15 Named one of 40 Gifts for the Book Lover on Your List, by Good Housekeeping: The definitive book about Joan Rivers' tumultuous, victorious, tragic, hilarious, and fascinating life. Joan Rivers was more than a legendary comedian; she was an icon and a role model to millions, a fearless pioneer who left a legacy of expanded opportunity when she died in 2014. Her life was a dramatic roller coaster of triumphant highs and devastating lows: the suicide of her husband, her feud with Johnny Carson, her estrangement from her daughter, her many plastic surgeries, her ferocious ambition and her massive insecurities. But Rivers' career was also hugely significant in American cultural history, breaking down barriers for her gender and pushing the boundaries of truth-telling for women in public life. A juicy, intimate biography of one of the greatest comedians ever -- a performer whose sixty year career was borne, simply, out of a desire to make people laugh so she could feel loved -- Last Girl Before Freeway delves into the inner workings of a woman who both reflected and

redefined the world around her.

Spirituality and Ethics in Management Laszlo Zsolnai,2011-04-20 The book - which was originally published by Kluwer in 2004 - is a collection of scholarly papers focusing on the role of spirituality and ethics in renewing the contemporary management praxis. The basic argument is that a more inclusive, holistic and peaceful approach to management is needed if business and political leaders are to uplift the environmentally degrading and socially disintegrating world of our age. The book uses diverse value-perspectives (Hindu, Catholic, Buddhist, and Humanist) and a variety of disciplines (philosophy, ethics, management studies, psychology, and organizational sciences) to extend traditional reflections on corporate purpose and focuses on a self-referential organizational-existential search for meaning, identity and success.

Buddhism the Religion of No-Religion Alan Watts,1999-10-15 The widespread influence of Buddhism is due in part to the skill with which a way of liberation was refined by it's teachers and became accessible to people of diverse cultures. In this dynamic series of lectures, Alan Watts takes us on an exploration of Buddhism, from its roots in India to the explosion of interest in Zen and the Tibetan tradition in the West. Watts traces the Indian beginnings of Buddhism, delineates differences between Buddhism and other religions, looks at the radical methods of the Mahayan Buddhist, and

reviews the Four Noble Truths and The Eightfold Path

Practical Psychology in Medical Rehabilitation Maggi A. Budd, Sigmund Hough, Stephen T. Wegener, William Stiers, 2016-11-04 This easy-access guide summarizes the dynamic specialty of rehabilitation psychology, focusing on real-world practice in the medical setting. It begins by placing readers at the frontlines of practice with a solid foundation for gathering information and communicating effectively with patients, families, and staff. The book's topics run a wide gamut of patient conditions (neurological, musculoskeletal, cardiovascular), related problems (sleep and fatigue issues, depression) and practitioner responses (encouraging coping and compliance, pediatric and geriatric considerations). Models of disability and adaptation, review of competency concerns, and guidelines for group and individual therapy offer evidence-based insights for helping patients manage their health conditions, benefit from rehabilitation interventions, and prepare for their post-rehabilitation lives and activities. Coverage spotlights these core areas:

- Basics and biopsychosocial practicalities, from behavioral medicine and psychopharmacology to ethical and forensic issues.
- Populations, problems, and procedures, including stroke, TBI, substance abuse, transplants, and severe mental illness.
- Assessment and practical interventions such as pain, anxiety, cognitive functioning, and more.
- Consultation, advocacy, and interdisciplinary teams.
- Practice management, administration, and professional self-care.
- Research, technology, and program evaluation.

Practical Psychology in Medical Rehabilitation is an essential professional development tool for novice (and a refresher for veteran) psychologists and neuropsychologists, as well as rehabilitation physicians, nurses, therapists, psychiatrists, and social workers. It presents in depth both the hallmarks of the specialty and the nuts and bolts of being a valuable team player in a medical setting.

The Yellow World Albert Espinosa, 2014-09-16 A sensational memoir with all the emotional power of *The Fault in Our Stars*, *The Yellow World* is the story of cancer and survival that has moved and inspired readers around the world. My heroes don't wear red capes. They wear red bands. Albert Espinosa never wanted to write a book about cancer—so he didn't. Instead, he shares his most touching, funny, tragic, and happy memories in the hopes that others, healthy and sick alike, can draw the same strength and vitality from them. At thirteen, Espinosa was diagnosed with cancer, and he spent the next ten years in and out of hospitals, undergoing one daunting procedure after another, starting with the amputation of his left leg. After going on to lose a lung and half of his liver, he was finally declared cancer-free. Only then did he realize that the one thing sadder than dying is not knowing how to live. In this rich and rewarding book, Espinosa takes us into what he calls “the yellow world,” a place where fear loses its meaning; where strangers become, for a moment, your greatest allies; and where the lessons you learn will nourish you for the rest of your life. U.K. praise for *The Yellow World* “With

its uplifting message and simple philosophy, [The Yellow World] has the makings of a spiritual classic.”—The Sunday Times “[An] energetic rush of a book . . . that shines with comedy and grace.”—The Independent “Heartwarming . . . the book everyone’s talking about.”—Mail on Sunday

Stanford R. Ovshinsky Stanford R. Ovshinsky, 2008 This book highlights the achievements of the self-taught inventor, scientist, manufacturer and entrepreneur, Stanford R Ovshinsky. This remarkable individual could, without special training, compete with the well-funded establishments of learning and industry in the second half of the last century and leave us an incredible legacy of brilliant innovations with a lasting impact on our lives. His achievements extend over amazingly diverse fields and have or are prone to create new industries of great societal value. The phase change memories of commonly used rewritable CDs and DVDs as well as of new flash memories are his invention; so are the Ni Metal hydride batteries which are the enabling batteries for electric and hybrid/electric vehicles. The future hydrogen economy will utilize his efficient and safe hydrogen storage alloys. He has developed light and ultralight photovoltaic solar panels for converting

sunlight into electricity and built the largest manufacturing facility for thin film flexible solar roofing materials. A common theme of his inventions is the synthesis of new materials utilizing novel aspects of structural and compositional disorder. The book explains for each of Ovshinsky's innovations the essence of his pioneering ideas and inventions. These introductions are followed by a selection of Ovshinsky's seminal publications and, for each subject category, a list of his patents which reveal the inventive mind of this unusually creative person. Ovshinsky's example of gaining a deep understanding of the science underlying his inventions, his perseverance as well as his ability to attract and inspire talented collaborators will be a role model for entrepreneurs of this century.

Bartali's Bicycle Megan Hoyt, 2024-01-31 This 2021 National Jewish Book Award finalist by author Megan Hoyt and illustrator Iacopo Bruno brings to light the inspiring, true story of Gino Bartali, a beloved Italian cyclist and secret champion in the fight for Jewish lives during World War II. Gino Bartali pedaled across Italy for years, winning one cycling race after another, including the 1938 Tour de France. Gino became an international sports hero! But the next year, World War II began, and it changed everything. Soldiers marched into Italy. Tanks rolled down the cobbled streets of Florence. And powerful leaders declared that Jewish people should be arrested. To the entire world, Gino Bartali was merely a champion cyclist. But Gino's greatest achievement was something he never told a soul--that he

secretly worked with the Italian resistance to save hundreds of Jewish men, women, and children, and others, from certain death, using the one thing no authority would question: his bicycle. This compelling nonfiction picture book for elementary-age readers offers a unique perspective on World War II history. It's a strong choice for units on the war and for biographies of lesser-known heroes in history and in sports.
