Law, Government and the Constitution in Malaysia Andrew Harding, 2024-01-22

This book aims to give a comprehensive picture of law, government and the constitution in Malaysia, and to set constitutional developments in their proper political and social context. It is written in such a way that lawyers may see how perspectives other than the purely legal can enrich the understanding of constitutional issues in Malaysia and that others may comprehend the lawyer's perspective on these issues. There has been an increasing interest in constitutional issues in Malaysia since the mid-1980s following a number of important events, including the advent of judicial activism and the curtailment of royal powers. There is now a pressing need for a reappraisal of the Malaysian constitution in terms of its political and social dimensions and dynamics, and the extent of its adherence to, or its interpretation of, those principles which are collectively known as 'constitutionalism', that is, democratic government, the rule of law, the separation of powers, and the observance of fundamental human rights and liberties. The book examines how the constitution has adjusted to its environment, how it actually operates and how its abstractions differ from reality. The author concludes that the principles of the constitution have been eroded to such a degree that a new constitutional settlement is needed - one which makes it clear what the basic tenets of the Malaysian polity are.

Language Choice in Postcolonial Law Richard Powell, 2020-02-24 This book discusses multilingual postcolonial common law, focusing on Malaysia's efforts to shift the language of law from English to Malay, and weighing the pros and cons of planned language shift as a solution to language-based disadvantage before the law in jurisdictions where the majority

of citizens lack proficiency in the traditional legal medium. Through analysis of legislation and policy documents, interviews with lawyers, law students and law lecturers, and observations of court proceedings and law lectures, the book reflects on what is entailed in changing the language of the law. It reviews the implications of societal bilingualism for postcolonial justice systems, and raises an important question for language planners to consider: if the language of the law is changed, what else about the law changes?

Media, Liberty and Politics in Malaysia: Comparative Studies on Local Dynamics and Regional Concerns (UUM Press) Mohd Azizuddin Mohd Sani, 2014-04-01 *Media, Liberty and Politics in Malaysia: Comparative Studies on Local Dynamics and Regional Concerns* is based on a collection of twelve academic papers. This book traces the development and progress of Malaysia as a nation that embraces issues of media, liberty and politics as essential parts of its culture, policy and well-being of the people. In between the 2008 and the 2013 General Elections, Malaysians have transformed themselves and demanded to form a more democratic society. Issues of political freedom, human rights, good governance and human dignity have become important and will determine the future of the Malaysian society. Besides, this book also tries to compare democratic practices in Malaysia with its neighbours such as Indonesia, Thailand and Australia, plus the Association of Southeast Asian Nations (ASEAN) as an organisation to promote democratisation and strong ties between its members. This book is suitable for all particularly the academics, students of politics and international relations, journalists, legal practitioners, and the general public who are interested in the issues of media, liberty and politics in Malaysia.

Nation-Building in Southeast Asia Heng Chee Chan, 1971-02-01 Relatively little is known about the processes of nation-building in Southeast Asia, especially in the case of Singapore. Having moved rapidly from colonial status to statehood in the federal system of Malaysia and finally independence, all in a matter of a very few years, Singapore has had to develop on several fronts in order to survive and find its place in the state system of this region. Nation-building is thus a subject of considerable interest, but few thus far have paid much attention to the situation in Singapore.

Saudi Arabia in Transition Bernard Haykel, Thomas Hegghammer, Stéphane Lacroix, 2015-01-19 Making sense of Saudi Arabia is crucially important today. The kingdom's western province contains the heart of Islam, and it is the United States' closest Arab ally and the largest producer of oil in the world. However, the country is undergoing rapid change: its aged leadership is ceding power to a new generation, and its society, dominated by young people, is restive. Saudi Arabia has long remained closed to foreign scholars, with a select few academics allowed into the kingdom over the past decade. This book presents the fruits of their research as well as those of the most prominent Saudi

academics in the field. This volume focuses on different sectors of Saudi society and examines how the changes of the past few decades have affected each. It reflects new insights and provides the most up-to-date research on the country's social, cultural, economic and political dynamics.

The Rights of Non-citizens United Nations. Office of the High Commissioner for Human Rights, 2006 International human rights law is founded on the premise that all persons, by virtue of their essential humanity, should enjoy all human rights. Exceptional distinctions, for example between citizens and non-citizens, can be made only if they serve a legitimate State objective and are proportional to the achievement of the objective. Non-citizens can include: migrants, refugees and asylum seekers, victims of trafficking, foreign students, temporary visitors and stateless people. This publication looks at the diverse sources of international law and emerging international standards protecting the rights of non-citizens, including international conventions and reports by UN and treaty bodies
