Sustainable Development in World Investment Law Marie-Claire Cordonier Segger, Markus W. Gehring, Andrew Paul Newcombe, 2011-01-01 Sustainable development, as defined by the World Commission on Environment and Development, is development that meets the needs of the present without compromising the ability of future generations to meet their own needs. More specifically, sustainable development is a process of change that seeks to improve the collective quality of life by focusing on economically, socially, and environmentally sound projects that are viable in the long-term. Sustainable development requires structural economic change and the foundation of that change is investment. In developing nations with low levels of domestic savings, investment predictably comes from abroad in the form of foreign direct investment. A large and ever expanding number of international investment agreements are in place to govern these transactions. While these accords seek to foster development while mitigating the risk involved in these types investments, many questions remain unresolved. This highly insightful book reflects the contributions of a variety of world renowned experts each of which is designed to provide the reader with valuable perspective on recent developments in investment law negotiations and jurisprudence from a sustainable development law perspective. It offers answers to pertinent questions concerning advancements in investment law, including the negotiation of numerous regional and bilateral agreements as well as the increasing number of disputes resolved in the World Bank's International Centre for the Settlement of Investment Disputes (ICSID), from different developed and developing country perspectives. It lays out future directions for new treaty negotiations and dispute settlement proceedings, as well as ongoing investment promotion efforts, against a background of rapidly evolving international relationships between economic, environment and development law. It focuses on key issues in investment laws which have emerged as priorities in the negotiation of bilateral and regional investment agreements, and have been clarified through recent decisions of the ICSID and other arbitral panel awards.

Comparing Asian Politics Sue Ellen M. Charlton, 2018-02-07 Comparing Asian Politics presents an invaluable comparative examination of politics and government in three Asian nations: India, China, and Japan. The author elucidates the links between politics and each nation's distinctive cultural and historical contexts and demonstrates the intermingling and grafting of Asian traditions with the influence of Western values and institutions. National identity, political cohesion, and socioeconomic change emerge as central to how politics has developed in each nation-state. Also included are focus boxes on political and social issues in other important countries in Asia. The book provides insight into topics such as the significance of constitutions in the political process; the parliamentary system in Asia; the regionalization of politics and the importance of levels of government; the decay of one-party rule; the links between development and democratization; and the impact of globalization. This essential text not only illuminates the politics of India, China, and Japan in relation to one another, it also suggests to readers how their own experience of politics can be informed by understanding the politics and government of these three Asian nations. In this new edition, the author includes a discussion on the recent political changes in China and the election of Xi

Jinping in early 2013, the devastating earthquake and tsunami that hit Japan in 2011, and the recent elections in India.

Constitutional Law of Bangladesh Mahmudul Islam,1995 CONTENTS.

MERCOSUR and the European Union Mikhail Mukhametdinov,2018-05-07 The book draws comparison between MERCOSUR and the European Union to explain variation of regionalism and to expose its limits. The project is based on the idea that contemporary examples of regionalism should be evaluated against several propositions of multiple integration theories rather than against a single theory. In order to systematically explain why and how integration outcomes in MERCOSUR differ from those in the EU, the author develops an analytical framework for the comparison of the two blocs. MERCOSUR is compared with the EU by the use of the various criteria of economic interdependence, economic convergence, intra-bloc size and interest asymmetries, cultural diversity and geostrategic motivations, which are identified as the salient parameters of integration theories.

Politics Latin America Gavin O'Toole,2014-05-12 This is a volume which will become invaluable to those attempting to guide the neophyte through the maze of politics in Latin America - Journal of Latin American Studies Politics Latin America examines the role of Latin America in the world and its importance to the study of politics with particular emphasis on the institutions and processes that exist to guarantee democracy and the forces that threaten to compromise it. Now in its second edition and fully revised to reflect recent developments in the region, Politics Latin America provides students and teachers with an accessible overview of the region's unique political and economic landscape, covering every aspect of governance in its 21 countries. The book examines the international relations of Latin American states as they seek to carve out a role in an increasingly globalised world and will be an ideal introduction for undergraduate courses in Latin American politics and comparative politics.

The Emergence of Bangladesh Badruddin Umar,2004 This volume examines the events which led to the political liquidation of the Muslim League in the 1954 provincial elections in East Pakistan and the subsequent undermining of the results of this victory through interventions from the Central Government. The work provides some insights into the struggle over the framing of the constitution of Pakistan. It traces the gradual subversion of the democratic process through conspiracy from above and compromises and collusion from within the political process culminating in the declaration of Martial Law in 1958. The book is likely to be instructive for students, scholars and general researchers and will provoke political debate in both Pakistan and Bangladesh.--BOOK JACKET.

Evaluation of UNDP Contribution to Strengthening Electoral Systems and Processes United Nations Development Programme. Evaluation Office,2012 This evaluation examines UNDP role and contribution to the attainment of electoral results. It seeks to determine the quality and added value of UNDP performance in strengthening electoral systems and processes. It also assesses how well UNDP positioned itself to address growing and changing demands for electoral support, and to address the challenges and opportunities to enhance the goals of democratic governance via strengthening electoral processes. The evaluation covers UNDP work on electoral assistance between 1990 and 2011 with a main focus on the past ten years when

UNDP provided electoral assistance in 83 countries with a budget of approximately USD 2.9 billion. It concludes with a set of policy-relevant and forward-looking recommendations. The evaluation will support UNDP's future work by contributing to an understanding of how UNDP can provide assistance in a more effective and sustainable manner.

Judicial Activism in Bangladesh Ridwanul Hoque, 2011-01-18 This book critically examines the evolving global trend of judicial activism with particular reference to Bangladesh. It constructs judicial activism as a golden-mean adjudicative technology, standing between excessive judicial assertion and unacceptable judicial passivity that may leave injustices un-redressed. It argues that judicial balancing between over-activism and meek administration of justice should essentially be predicated upon domestic conditions, and the needs and fundamental public values of the judges' respective society. Providing cross-jurisdictional empirical evidence, the study demonstrates that judicial activism, steered towards improving justice and grounded in one's societal specificities, can be exercised in a morally and legally legitimate form and without rupturing the balance of powers among the state organs. This study has sought to displace the myth of judicial activism as constitutional transgression by "unelected" judges, arguing that judicial activism is quite different from excessivism. It is argued and shown that a particular judge or judiciary turns out to be activist when other public functionaries avoid or breach their constitutional responsibilities and thus generate injustice and inequality. The study treats judicial activism as the conscientious exposition of constitutional norms and enforcement of public duties of those in positions of power. The study assesses whether Bangladeshi judges have been striking the correct balance between over-activism and injudicious passivity. Broadly, the present book reveals judicial under-activism in Bangladesh and offers insights into causes for this. It is argued that the existing milieu of socio-political injustices and over-balance of constitutional powers in Bangladesh calls for increased judicial intervention and guidance, of course in a balanced and pragmatic manner, which is critical for good governance and social justice. "Writing about judicial activism easily gets shackled by fussy and pedestrian debates about what judges may or may not do as unelected agents of governance. The book . . . goes much beyond such reductionist pedestrianisation of law, for it courageously lifts the debate into the skies of global legal realism. The analysis perceptively addresses bottlenecks of justice, identifying shackles and mental blocks in our own minds against activist concerns for justice for the common citizen." —Prof Werner Menski (Foreword)
