Heart of a Champion Kim Washburn, 2012-05-22 Story of Olympic gymnast and motivational speaker Dominique Dawes. She knew what she wanted—a gold medal in the Olympics—and she worked to make it happen, winning her first at age 19. With her personal motto, “Determination, dedication, and desire,” Dominique went on to win two more Olympic gold medals in gymnastics. And today she carries her message to kids and adults as a motivational speaker with a passionate message—Never give up on your dreams!

The Undergraduate's Companion to Women Poets of the World and Their Web Sites Katharine A. Dean, 2004-03-30 Devoted exclusively to women poets, this volume in the Undergraduate Companion Series presents students with an abundance of important resources necessary for 21st-century literary research. The most authoritative, informative, and useful Web sites and print resources have carefully been selected and compiled in a bibliographic guide to the introductory works of 221 women poets who write in English or have works available in English translation. Representing more than 25 nationalities worldwide, the women included in this volume have each contributed significantly to the genre of poetry. For each author you will find concise lists of the best Web sites and printed sources, including biographies, criticisms, dictionaries, handbooks, indexes, concordances, journals, and bibliographies.

Crime H. Thomas Milhorn, 2004-12 This book is an overview of the United States legal system, with a brief introduction to Islamic and International law. The book is divided into six parts. Part I (The Legal System and Crime) introduces the U.S. legal system and the classification of crime. Part II (White Collar Crime) covers cybercrime, crime the old fashioned way, and healthcare fraud. Part III (Homicide) deals with simple murder, serial murder, mass and spree murder; and assassination. Part IV (Special Groups) covers the mafia; the family; the medical, legal, and teaching professions; the religion profession; celebrities; and stupid criminals. Part V (On the Edge) deals with topics I consider to be a bit strange; that is, quackery, innovative defenses, and dangerous cults. And finally, Part VI (Residue) discusses what is left ... capital punishment and crimes against humanity, including terrorism. Throughout the book, to illustrate points, I have used over 300 cases of actual crimes. The names of the people and the facts of the cases used in the discussions of these crimes are taken directly from referenced news reports. The subtitle, Computer Viruses to Twin Towers, reflects the scope of the book; that is, from computer viruses, which cause only aggravation or loss of money, to the deadly terrorist attacks on the Twin Towers of the World Trade Center and the Pentagon on September 11, 2001 that snuffed out almost 3000 lives.

Thinking Critically About Child Development Jean Mercer, Stephen D. A. Hupp, Jeremy Jewell, 2019-02-12 With a unique focus on inquiry, Thinking Critically About Child Development presents 74 claims related to child development for readers to examine and think through critically. Author Jean Mercer and new co-authors Stephen Hupp and Jeremy Jewell use anecdotes to illustrate common errors of critical thinking and encourage students to consider evidence and logic relevant to everyday beliefs. New material in the Fourth Edition covers adolescence, adverse childhood experiences, genetics, LGBT issues for both parents and children, and other issues about sexuality, keeping readers up to date on the latest scholarship in the field.

A Locker Room of Her Own David C. Ogden, Joel Nathan Rosen, 2013-05-14 Female athletes are too often perceived as interlopers in the historically male-dominated world of sports. Obstacles specific to women are of particular focus in A Locker Room of Her Own. Race, sexual orientation, and the similar qualities ancillary to gender bear special exploration in how they impact an athlete's story. Central to this volume is the contention that women in their role as inherent outsiders are

placed in a unique position even more complicated than the usual experiences of inequality and discord associated with race and sports. The contributors explore and critique the notion that in order to be considered among the pantheon of athletic heroes one cannot deviate from the traditional demographic profile, that of the white male. These essays look specifically and critically at the nature of gender and sexuality within the contested nexus of race, reputation, and sport. The collection explores the reputations of iconic and pioneering sports figures and the cultural and social forces that helped to forge their unique and often problematic legacies. Women athletes discussed in this volume include Babe Didrikson Zaharias, the women of the AAGPBL, Billie Jean King, Venus and Serena Williams, Marion Jones, Chris Evert and Martina Navratilova, Sheryl Swoopes, Florence Griffith Joyner, Roberta Gibb and Kathrine Switzer, and Danica Patrick.

Seductive Delusions Jill Grimes, 2016-03-15 Sexually active young people urgently need this book. A 2009 Book of the Year, USA Book News "It can't happen to me." Many high school students and young adults, seduced by their sense of invincibility, are stunned when they are diagnosed with a sexually transmitted infection (STI). But the fact is that anyone can catch an STI: no age group, social class, economic class, culture, religion, gender, or ethnic group is immune. To drive home the risks and realities of unprotected sex, Dr. Jill Grimes shares real-life stories of young people—medical students, college freshmen, teenagers, young parents, talented entrepreneurs—who have gotten an STI. Dr. Grimes narrates the story of Liz, who got syphilis; Sofia, diagnosed with gonorrhea and chlamydia; and Zoe, with pubic lice. She describes how Justin got herpes, Sean got trichomoniasis, and Luke contracted hepatitis C. The accounts of these young men and women and their exam-room conversations with their doctors evoke both the physical symptoms and complicated emotional reactions that often go together with infection. Fact sheets throughout the book explain each sexually transmitted infection and answer frequently asked questions about symptoms, treatment, and prevention. Used in high schools for the past five years, this new edition of *Seductive Delusions* shows how technological advances have speeded doctor-patient communication, including test results and treatment recommendations. It explains simplified STI testing, explores the frighteningly high incidence of date sexual assault, examines dramatic changes in cervical cancer prevention and Pap tests, and clarifies why HPV vaccines are now routinely recommended for all children—boys and girls. Whether reading the book from cover to cover or jumping directly to a specific disease, readers will relate to the dramatic stories while learning medically reliable information. Making emotionally and physically safe decisions about sex is easier when you know how STIs are spread, how to avoid getting one, what their symptoms are, and how they are diagnosed and treated.

Vaccines & Your Child Paul A. Offit, Charlotte A. Moser, 2011 Two leading advocates for modern vaccines answer parents' numerous questions about the underlying science of modern vaccines and the value of childhood immunization, while addressing parents' concerns about vaccine safety.

Sexually Transmitted Disease [2 volumes] Jill Ann Grimes MD, Lori Apffel Smith MD, Kristyn Fagerberg MD, 2013-11-12 This up-to-date, two-volume work provides A-Z coverage of all topics related to sexually transmitted disease, ranging from anatomy to modern legal and social implications to past and present methods of prevention, diagnosis, and treatment. Sexually transmittable diseases are a sensitive and embarrassing subject. Many sexually transmitted diseases are silent, providing no symptoms until they cause serious medical problems. But with one in four Americans over the age of fourteen being infected with a sexually transmitted infection, the topic of sexually transmitted diseases (STDs) is a highly relevant health issue. This work contains over 230 entries that span the history and wide range of topics regarding STDs, from the birth of condoms over 3,000 years ago through discovery of the infectious agents and the invention of effective vaccines to the legal and societal implications of STDs. This two-volume encyclopedia investigates the spectrum of sexually transmitted diseases and related topics and issues, describing their microscopic origins, the chronology of research and medical treatment, the body parts affected, and

the modern-day methods of diagnosis, treatment, and prevention of spread. Additionally, this work addresses legal implications of disease transmission, psychosocial impacts, as well as long-term medical consequences such as potential infertility, pelvic inflammatory disease, and chronic pelvic pain.

Courageous World Changers Shirley Raye Redmond, 2020-01-07 WINNER OF CHRISTIANITY TODAY'S 2021 BOOK AWARD FOR CHILDREN & YOUTH Women of Fearless Faith Meet women who have used their God-given talents to live out their faith to the fullest. They come from a variety of backgrounds, eras, and ethnicities, but each one has answered the Lord's call on their life in bold and innovative ways. Children of all ages will be inspired by the stories of Corrie ten Boom—activist, author, and Holocaust survivor Laurie Hernandez—gymnast who won both gold and silver medals in her sport Florence Nightingale—health care reformer Madeline L'Engle—author of children's literature Katherine Johnson—trailblazing NASA mathematician These and the 45 other female spiritual role models featured in this book have made a profound impact on the world around them, and in many cases changed the course of history. Strong, smart, and sometimes outspoken, these women are tremendous examples of God's love in action. These inspiring profiles will captivate kids' imaginations and encourage them to discover their own gifts and how they can use them to glorify God.

Both Hands Tied Jane L. Collins, Victoria Mayer, 2010-05-15 Both Hands Tied studies the working poor in the United States, focusing in particular on the relation between welfare and low-wage earnings among working mothers. Grounded in the experience of thirty-three women living in Milwaukee and Racine, Wisconsin, it tells the story of their struggle to balance child care and wage-earning in poorly paying and often state-funded jobs with inflexible schedules—and the moments when these jobs failed them and they turned to the state for additional aid. Jane L. Collins and Victoria Mayer here examine the situations of these women in light of the 1996 national Personal Responsibility and Work Opportunity Reconciliation Act and other like-minded reforms—laws that ended the entitlement to welfare for those in need and provided an incentive for them to return to work. Arguing that this reform came at a time of gendered change in the labor force and profound shifts in the responsibilities of family, firms, and the state, Both Hands Tied provides a stark but poignant portrait of how welfare reform afflicted poor, single-parent families, ultimately eroding the participants' economic rights and affecting their ability to care for themselves and their children.

Stormy Weather Henry A. Giroux, 2015-12-03 By far the single most important account and analysis of the Katrina catastrophe. David L. Clark, McMaster University In his newest provocative book, prominent social critic Henry A. Giroux shows how the tragedy and suffering in the aftermath of Hurricane Katrina signals a much larger crisis in the United States—one that threatens the very nature of individual freedom and inclusive democracy. This crisis extends far beyond matters of leadership, governance, or the Bush administration. It is a crisis that strikes at the very heart of democracy and must be understood within a broader set of antidemocratic forces that not only made the social disaster underlying Katrina possible, but also contribute to an emerging authoritarianism in the United States. Questions regarding who is going to die and who is going to live are driving a new form of authoritarianism in the United States. Within this form of dirty democracy a new and more insidious set of forces—embedded in our global economy—have largely given up on the sanctity of human life, rendering some groups as disposable and privileging others. Giroux offers up a vision of hope that creates the conditions for multiple collective and global struggles that refuse to use politics as an act of war and markets as the measure of democracy. Making human beings superfluous is the essence of totalitarianism, and democracy is the antidote in urgent need of being reclaimed. Katrina will keep the hope of such a struggle alive because for many of us the images of those floating bodies serve as a desperate reminder of what it means when justice, as the lifeblood of democracy, becomes cold and indifferent.

from the role of registered nurse to nurse practitioner.

Culturally Alert Counseling Garrett McAuliffe, 2008 A comprehensive, readable introduction to the cultural dimensions of counseling and psychotherapy is now available. National leaders in each topic have been selected to provide an accessible, yet thorough, presentation of culturally alert counseling. An introduction to the nature of counseling and culture begins the book, followed by chapters on Social Inequality, Race, and Ethnicity. The succeeding chapters reveal the characteristics, histories, mental health issues, and appropriate counseling strategies for each of eleven cultural groupings. The book ends with a thorough presentation of actual culturally alert counseling practice. Seven dimensions combine to make the book unique, namely thoroughness, inclusiveness, theoretical foundations, practicality, readability, activity, and modeling. In the first case, this book broadens the discussion of culture from ethnicity and race to include social class, religion, gender, and sexual orientation. Of particular note, in the area of ethnicity, all five of the major U.S. pan-ethnic groupings are presented, as well as Middle Eastern and South Asian people. The book is also inclusive of all people, including both those in dominant and non-dominant cultural groups. The assumption is that everyone has culture. Culturally alert counseling is also theoretically grounded in the first few chapters of the book, which lay out a guiding developmental vision of culturally alert counseling. Further conceptual foundations are laid in discussions of social inequality, social justice, social diversity, and critical consciousness. The practical dimension of the book is underscored by the inclusion of a chapter devoted to actual culturally alert counseling skills, an area that is needed by practitioners in this important work. Readability and interest are enhanced by the interweaving of case vignettes and experiential activities throughout the book. Finally, culturally alert counseling skills are modeled in an accessible, vital demonstration video that accompanies the book. Ultimately, readers will leave informed, moved, and changed by the encounters with culture that lie in these pages. They will also be ready to begin practice equipped with both a vision of the work and practical skills in implementing it.

Childfree and Happy Courtney Adams Wooten, 2023-06-15 Childfree and Happy examines how millennia of reproductive beliefs (or doxa) have positioned women who choose not to have children as deviant or outside the norm. Considering affect and emotion alongside the lived experiences of women who have chosen not to have children, Courtney Adams Wooten offers a new theoretical lens to feminist rhetorical scholars' examinations of reproductive rhetorics and how they circulate through women's lives by paying attention not just to spoken or written beliefs but also to affectual circulations of reproductive doxa. Through interviews with thirty-four childfree women and analysis of childfree rhetorics circulating in historical and contemporary texts and events, this book demonstrates how childfree women individually and collectively try to speak back to common beliefs about their reproductive experiences, even as they struggle to make their identities legible in a sociocultural context that centers motherhood. Childfree and Happy theorizes how affect and rhetoric work together to circulate reproductive doxa by using Sara Ahmed's theories of gendered happiness scripts to analyze what reproductive doxa is embedded in those scripts and how they influence rhetoric by, about, and around childfree women. Delving into how childfree women position their decision not to have children and the different types of interactions they have with others about this choice, including family members, friends, colleagues, and medical professionals, Childfree and Happy also explores how communities that make space for alternative happiness scripts form between childfree women and those who support them. It will be of interest to scholars in the fields of the rhetoric of motherhood/mothering, as well as feminist rhetorical studies.

The Psychology of School Climate Garry Wade McGiboney, 2016-06-22 Many people have become impatient with school reform and school improvement efforts that fail to include school climate. The importance of a positive school climate is emerging in current research, not only as an essential component of school reform and school improvement, but also as a necessary framework for maintaining excellent schools and providing healthy and safe schools for all students. Research strongly suggests that educators and policy makers have a lot to learn about the importance of school climate for school safety and academic success. With the growing body of research regarding

school climate, it is important to study the research and understand how the psychology of school climate and how the elements of school climate can be viewed from a population-based perspective, as well as understanding the impact of school climate on individual students. This review of school climate research includes hundreds of articles and research papers of different perspectives from around the world in numerous cultures. School climate is becoming a science of education and psychology that must be studied further in order to understand the dynamic nature of learning environments, to identify elements that support or threaten the learning environment, and to learn how to improve the conditions for learning in all schools.

Cultivating Achievement, Respect, and Empowerment (CARE) for African American Girls in PreK-12 Settings Dr. Patricia J. Larke, Dr. Gwendolyn Webb-Hasan, Dr. Jemimah L. Young, 2016-12-01 chapters discuss issues impacting the education of African American girls and many of challenges that they encounter during their schooling experiences. The chapters were written by 24 authors including a school superintendent, university administrator and professors, classroom teacher, mother and a 10th grade African American student. The 20 chapters of the book are organized into four sections. Section one introduces the book and provides critical perspectives. Section Two focuses on Curriculum and instruction. Section Three shares information from significant stakeholders while the last section includes other schooling experiences and ends with a powerful poem by a tenth grade African American girl, entitled "Proud." The forward of the book, written by a Japanese American scholar, Valerie Pang, denotes the urgency of the book noting that the book "warms the heart." The book ends with an epilogue, written by an African American scholar, Tyrone Howard, who has a vested interest in African American males. He shares commanding interest in this scholarship, because what happens to African American females, impacts African American males and the entire African American community.
