Principles and Values in Criminal Law and Criminal Justice: Essays in Honour of Andrew Ashworth Lucia Zedner, Julian V. Roberts, 2012-08-16 Celebrating the scholarship of Andrew Ashworth, Vinerian Professor of English Law at the University of Oxford, this collection brings together leading international scholars to explore questions of principle and value in criminal law and criminal justice. Internationally renowned for elaborating a body of principles and values that should underpin criminalization, the criminal process, and sentencing, Ashworth's contribution to the field over forty years of scholarship has been immense. Advancing his project of exploring normative issues at the heart of criminal law and criminal justice, the contributors examine the important and fascinating debates in which Ashworth's influence has been greatest. The essays fall into three distinct but related areas, reflecting Ashworth's primary spheres of influence. Those in Part 1 address the import and role of principles in the development of a just criminal law, with contributions focusing upon core tenets such as the presumption of innocence, fairness, accountability, the principles of criminal liability, and the grounds for defences. Part 2 addresses questions of human rights and due process protections in both domestic and international law. In Part 3 the essays are addressed to core issues in sentencing and punishment: they explore questions of equality, proportionality, adherence to the rule of law, the totality principle (in respect of multiple offences), wrongful acquittals, and unduly lenient sentences. Together they demonstrate how important Ashworth's work has been in shaping how we think about criminal law and criminal justice, and make their own invaluable contribution to contemporary discussions of criminalization and punishment.

Task Force Report: Crime and Its Impact--an Assessment United States. Task Force on Assessment of Crime, United States. Task Force on Assessment, 1967 An overview of the urban crime problem containing the results of a number of research studies and consultant papers. This volume makes use of the results of three major public surveys to examine the problem of unreported crime, public attitudes toward crime and law enforcement, the characteristics of victims and victim-offender relationships, and a variety of other crime problems. Chapters are devoted to the special problems of the economic burden of crime, white collar crime, and an appraisal of the current national system of statistical accounting on crime and criminal justice matters. There are three appendices prepared by consultants, two methodological notes and a series of tables of crime rates for index offenses by city rank.

Between Prison and Probation Norval Morris, Michael Tonry, 1991-09-12 Across the country prisons are jammed to capacity and, in extreme cases, barges and mobile homes are used to stem the overflow. Probation officers in some cities have caseloads of 200 and more--hardly a manageable number of offenders to track and supervise. And with about one million people in prison and jail, and two and a half million on probation, it is clear we are experiencing a crisis in our penal system. In *Between Prison and Probation*, Norval Morris and Michael Tonry, two of the nation's leading criminologists, offer an important and timely strategy for alleviating these problems. They argue that our overwhelmed corrections system cannot cope with the flow of convicted offenders because the two extremes of punishment--imprisonment and probation--are both used excessively, with a near-vacuum of useful punishments in between. Morris and Tonry propose instead a comprehensive program that relies on a range of punishment including fines and other financial sanctions, community service, house arrest, intensive probation, closely supervised treatment programs for drugs, alcohol and mental illness, and electronic monitoring of movement. Used in rational combinations, these intermediate punishments would better serve the community than our present polarized choice. Serious consideration of these punishments has been hindered by the widespread perception that they are therapeutic rather than punitive. The reality, however, Morris and Tonry argue, is that the American criminal justice system is both too severe and too lenient--almost randomly. Systematically implemented and rigorously enforced, intermediate punishments can better and more economically serve the community, the victim, and the criminal than the prison terms and probation orders they supplant. *Between Prison and Probation* goes beyond mere advocacy of an increasing use of intermediate punishments; the book also addresses the difficult task of fitting these punishments into a comprehensive, fair and community-protective sentencing system.

Punishment, Communication, and Community R. A. Duff, 2003-05-15 The question What can justify criminal punishment? becomes especially insistent at times, like our own, of penal crisis, when serious doubts are raised not only about the justice or efficacy of particular modes of punishment, but about the very legitimacy of the whole penal system. Recent theorizing about punishment offers a variety of answers to that question--answers that try to make plausible sense of the idea that punishment is justified as being deserved for past crimes; answers that try to identify some beneficial consequences in terms of which punishment might be justified; as well as abolitionist answers telling us that we should seek to abolish, rather than to justify, criminal punishment. This book begins with a critical survey of recent trends in penal theory, but goes on to develop an original account (based on Duff's earlier *Trials and Punishments*) of criminal punishment as a mode of moral communication, aimed at inducing repentance, reform, and reconciliation through reparation--an account that undercuts the traditional controversies between consequentialist and retributivist penal theories, and that shows how abolitionist concerns can properly be met by a system of communicative punishments. In developing this account, Duff articulates the liberal communitarian conception of political society (and of the role of the criminal law) on which it depends; he discusses the meaning and role of different modes of punishment, showing how they can constitute appropriate modes of moral communication between political community and its citizens; and he identifies the essential preconditions for the justice of punishment as thus conceived--preconditions whose non-satisfaction makes our own system of criminal punishment morally problematic. *Punishment, Communication, and Community* offers no easy answers, but provides a rich and ambitious ideal of what criminal punishment could be--an ideal of what criminal punishment could be--and ideal that challenges existing penal theories as well as our existing penal theories as well as our existing penal practices.

The Passions of Law Susan Bandes, 2001-05 This anthology treats the role that emotions play, don't play, and ought to play in the practice and conception of law and justice. The work consists largely of original essays, by scholars of law, theology, political science and philosophy.

Crime and Punishment in American History Lawrence Friedman, 2010-11-05 In a panoramic history of our criminal justice system from Colonial times to today, one of our foremost legal thinkers shows how America fashioned a system of crime and punishment in its own image.

Crime Victim Rights and Remedies Peggy M. Tobolowsky, 2016 Prior to the emergence of a victims' movement in this country in the 1970s, crime victims had only limited

formal rights and remedies in the modern American criminal justice system. With the active encouragement of those involved in the victims' movement and guidance supplied by a national Task Force on Victims of Crime, convened by President Reagan in 1982, federal and state authorization of crime victim rights and remedies has increased exponentially in the subsequent years. In fact, it has been estimated that there are currently tens of thousands of statutes that directly or indirectly affect crime victim rights and interests, as well as crime victim-related constitutional provisions in a majority of states. The authors describe the constitutional and legislative provisions addressing the principal crime victim rights and remedies and leading judicial opinions that have interpreted them. In addition to presenting the current state of the law in this area, the text describes the status of implementation of these rights and remedies, relevant empirical research, and a sampling of pertinent policy analysis. This comprehensive portrait of the past and current status of crime victim rights and remedies in this country will inform the continued evolution of law and practice in this area. The third edition of Crime Victim Rights and Remedies continues to address the evolution of key crime victim rights (e.g., the rights to notice of and to be present and heard at criminal justice proceedings) and includes the state constitutional amendments, legislation, court decisions, and empirical studies completed since the second edition in 2010. Of particular note is an expanded federal section regarding each right and remedy in the federal Crime Victims' Rights Act, enacted in 2004, and court decisions that have interpreted the Act in its initial decade of implementation. The third edition also adds a new chapter concerning crime victim rights and remedies in the United States armed services and internationally.

With Justice For Some George P. Fletcher, 1995-01-20 A powerful examination of what's wrong with our criminal justice system and what needs to be done to fix it.

Trials and Punishments R. A. Duff, 1986 This book discusses whether a system of criminal punishment can be justified within our legal system.

This volume addresses the ethics of situational crime prevention and also examines the place of situational crime prevention within criminology. Contributors: Ron Clarke, Adam Crawford, Antony Duff, David Garland, Tim Hope, Richard Jones, John Kleinig, Clifford Shearing, David J. Dead Man Walking Helen Prejean, 2011-02-02 #1 NATIONAL BESTSELLER • A profoundly moving spiritual journey through our system of capital punishment and an unprecedented look at the human consequences of the death penalty • Stunning moral clarity." –The Washington Post Book World • Basis for the award-winning major motion picture starring Susan Sarandon and Sean Penn Sister Prejean is an excellent writer, direct and honest and unsentimental. . . . She almost palpably extends a hand to her readers." –The New York Times Book Review In 1982, Sister Helen Prejean became the spiritual advisor to Patrick Sonnier, the convicted killer of two teenagers who was sentenced to die in the electric chair of Louisiana's Angola State Prison. In the months before Sonnier's death, the Roman Catholic nun came to know a man who was as terrified as he had once been terrifying. She also came to know the families of the victims and the men whose job it was to execute—men who often harbored doubts about the rightness of what they were doing. Out of that dreadful intimacy comes a profoundly moving spiritual journey through our system of capital punishment. Here Sister Helen confronts both the plight of the condemned and the rage of the bereaved, the fears of a society shattered by violence and the Christian imperative of love. On its original publication in 1993, Dead Man Walking emerged as an unprecedented look at the human consequences of the death penalty. Now, some two decades later, this story—which has inspired a film, a stage play, an opera and a musical album—is more gut-wrenching than ever, stirring deep and life-changing reflection in all who encounter it.

Consensual Processes Enrique Herrera-Viedma, José Luis García-Lapresta, Janusz Kacprzyk, Mario Fedrizzi, Hannu Nurmi, Sławomir Zadrozny, 2011-06-29 The word consensus has been frequently used for centuries, perhaps millennia. People have always deemed it important that decisions having a long lasting impact on groups, countries or even civilizations be arrived at in a consensual manner. Undoubtedly the complexity of modern world in all its social, technological, economic and cultural dimensions has created new environments where consensus is regarded desirable. Consensus typically denotes a state of agreement prevailing in a group of agents, human or software.

In the strict sense of the term, consensus means that the agreement be unanimous. Since such a state is often unreachable or even unnecessary, other less demanding consensus-related notions have been introduced. These typically involve some graded, partial or imprecise concepts. The contributions to this volume define and utilize such less demanding - and thus at the same time more general - notions of consensus. However, consensus can also refer to a process whereby the state of agreement is reached. Again this state can be something less stringent than a complete unanimity of all agents regarding all options. The process may involve modifications, resolutions and /or mitigations of the views or inputs of individuals or software agents in order to achieve the state of consensus understood in the more general sense. The consensus reaching processes call for some soft computational approaches, methods and techniques, notably fuzzy and possibilistic ones. These are needed to accommodate the imprecision in the very meaning of some basic concepts utilized in the definition of consensus as a state of agreement and as a process whereby this state is to be reached. The overall aim of this volume is to provide a comprehensive overview and analysis of the issues related to consensus states and consensual processes.
