The Sense of an Ending Julian Barnes, 2011-10-05 BOOKER PRIZE WINNER • NATIONAL BESTSELLER • A novel that follows a middle-aged man as he contends with a past he never much thought about—until his closest childhood friends return with a vengeance: one of them from the grave, another maddeningly present. A novel so compelling that it begs to be read in a single sitting, *The Sense of an Ending* has the psychological and emotional depth and sophistication of Henry James at his best, and is a stunning achievement in Julian Barnes's oeuvre. Tony Webster thought he left his past behind as he built a life for himself, and his career has provided him with a secure retirement and an amicable relationship with his ex-wife and daughter, who now has a family of her own. But when he is presented with a mysterious legacy, he is forced to revise his estimation of his own nature and place in the world.

When Technocultures Collide Gary Genosko, 2013-10-25 *When Technocultures Collide* provides rich and diverse studies of collision courses between technologically inspired subcultures and the corporate and governmental entities they seek to undermine. The adventures and exploits of computer hackers, phone phreaks, urban explorers, calculator and computer collectors, “CrackBerry” users, whistle-blowers, Yuppies, zesters, roulette cheats, chess geeks, and a range of losers and tinkerers feature prominently in this volume. Gary Genosko analyzes these practices for their remarkable diversity and their innovation and leaps of imagination. He assesses the results of a number of operations, including the Canadian stories of Mafiaboy, Jeff Chapman of Infiltration, and BlackBerry users. The author provides critical accounts of highly specialized attributes, such as the prospects of deterritorialized computer mice and big toe computing, the role of electrical grid hacks in urban technopolitics, and whether info-addiction and depression contribute to tactical resistance. Beyond resistance, however, the goal of this work is to find examples of technocultural autonomy in the minor and marginal cultural productions of small cultures, ethico-poetic diversions, and sustainable withdrawals with genuine therapeutic potential to surpass accumulation, debt, and competition. The dangers and joys of these struggles for autonomy are underlined in studies of RIM’s BlackBerry and Julian Assange’s WikiLeaks website.

American-Australian Cinema Adrian Danks, Stephen Gaunson, Peter C. Kunze, 2018-01-29 This edited collection assesses the complex historical and contemporary relationships between US and Australian cinema by tapping directly into discussions of national cinema, transnationalism and global Hollywood. While most equivalent studies aim to define national cinema as independent from or in competition with Hollywood, this collection explores a more porous set of relationships through the varied production, distribution and exhibition associations between Australia and the US. To explore this idea, the book investigates the influence that Australia has had on US cinema through the exportation of its stars, directors and other production personnel to Hollywood, while also charting the sustained influence of US cinema on Australia over the last hundred years. It takes two key points in time—the 1920s and 1930s and the last twenty years—to explore how particular patterns of localism, nationalism, colonialism, transnationalism and globalisation have shaped its course over the last century. The contributors re-examine the concept and definition of Australian cinema in regard to a range of local, international and global practices and trends that blur neat categorisations of national cinema. Although this concentration on US production, or influence, is particularly acute in relation to developments such as the opening of international film studios in Melbourne, Sydney, Adelaide and the Gold Coast over the last thirty years, the book also examines a range of Hollywood financed and/or conceived films shot in Australia since the 1920s.

Invisible City Julia Dahl, 2014-05-06 A finalist for the Edgar and Mary Higgins Clark Awards, in her riveting debut *Invisible City*, journalist Julia Dahl introduces a compelling new character in search of the truth about a murder and an understanding of her own heritage. Just months after Rebekah Roberts was born, her mother, an Hasidic Jew from Brooklyn, abandoned her Christian boyfriend and newborn baby to return to her religion. Neither Rebekah nor her father have heard from her since. Now a recent college graduate, Rebekah has moved to New York City to follow her dream of becoming a big-city reporter. But she's also drawn to the idea of being closer to her mother, who might still be living in the Hasidic community in Brooklyn. Then Rebekah is called to cover the story of a murdered Hasidic woman. Rebekah's shocked to learn that, because of the NYPD's habit of kowtowing to the powerful ultra-Orthodox community, not only will the woman be buried without an autopsy, her killer may get away with murder. Rebekah can't let the story end there. But getting to the truth won't be easy—even as she immerses herself in the cloistered world where her mother grew up, it's clear that she's not welcome, and everyone she meets has a secret to keep from an outsider.

[The Willpower Instinct](#) Kelly McGonigal, 2013-12-31 Based on Stanford University psychologist Kelly McGonigal's wildly popular course *The*

Science of Willpower, The Willpower Instinct is the first book to explain the science of self-control and how it can be harnessed to improve our health, happiness, and productivity. Informed by the latest research and combining cutting-edge insights from psychology, economics, neuroscience, and medicine, The Willpower Instinct explains exactly what willpower is, how it works, and why it matters. For example, readers will learn: • Willpower is a mind-body response, not a virtue. It is a biological function that can be improved through mindfulness, exercise, nutrition, and sleep. • Willpower is not an unlimited resource. Too much self-control can actually be bad for your health. • Temptation and stress hijack the brain's systems of self-control, but the brain can be trained for greater willpower • Guilt and shame over your setbacks lead to giving in again, but self-forgiveness and self-compassion boost self-control. • Giving up control is sometimes the only way to gain self-control. • Willpower failures are contagious—you can catch the desire to overspend or overeat from your friends—but you can also catch self-control from the right role models. In the groundbreaking tradition of Getting Things Done, The Willpower Instinct combines life-changing prescriptive advice and complementary exercises to help readers with goals ranging from losing weight to more patient parenting, less procrastination, better health, and greater productivity at work.

Live at The Cellar Marian Jago, 2018-10-15 In the 1950s and '60s, co-operative jazz clubs opened their doors in Canada in response to new forms of jazz expression emerging after the war and the lack of performance spaces outside major urban centres. Operated by the musicians themselves, these hip new clubs created spaces where jazz musicians practised their art. Live at the Cellar looks at this unique period in the development of jazz in Canada. Centered on Vancouver's legendary Cellar club, it explores the ways in which these clubs functioned as sites for the performance and exploration of jazz as well as for countercultural expression. Jago combines original research with archival evidence, interviews, and photographs to shine a light on a period of astonishing musical activity that paved the way for Canada's vibrant jazz scene today.

Pre-Incident Indicators of Terrorist Incidents Brent L. Smith, 2011 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Climate-smart Agriculture Sourcebook Food and Agriculture Organization (FAO), 2014 Climate-smart agriculture, forestry and fisheries (CSA), contributes to the achievement of sustainable development goals. It integrates the three dimensions of sustainable development (economic, social and environmental) by jointly addressing food security and climate challenges. It is composed of three main pillars: sustainably increasing

agricultural productivity and incomes; adapting and building resilience to climate change; reducing and/or removing greenhouse gases emissions, where possible. The purpose of the sourcebook is to further elaborate the concept of CSA and demonstrate its potential, as well as limitations. It aims to help decision makers at a number of levels (including political administrators and natural resource managers) to understand the different options that are available for planning, policies and investments and the practices that are suitable for making different agricultural sectors, landscapes and food systems more climate-smart. This sourcebook is a reference tool for planners, practitioners and policy makers working in agriculture, forestry and fisheries at national and subnational levels. -- Back cover.

Government, International Trade, and Laissez-Faire Capitalism Carin L. Holroyd,2002-07-30 Two of the biggest issues facing nation states in the twenty-first century are the role of government in the management of national economies, and the cultivation of international trade and investment in an age of globalization. In *Government, International Trade, and Laissez-Faire Capitalism* Carin Holroyd offers a comprehensive comparison of Australian, Canadian, and New Zealand policies and strategies aimed at improving economic relations with Japan, the world's second largest economy. She illustrates negative consequences that result when governments withdraw from trade promotion and leave the development of commercial opportunities to the private sector. Holroyd focuses on how Australia, Canada, and New Zealand responded to the dramatic changes in the Japanese economy that followed the 1985 Plaza Accord and currency reforms. She examines trade promotional activities, efforts to coordinate business responses to the Japanese market, and the cultivation of Japanese investment, indicating how new paradigms of state involvement in the economy influenced international trading activity. Holroyd demonstrates that rather than responding proactively to changing conditions and new opportunities, the national business sectors stayed with traditional patterns of trade and investment, losing significantly in market share and export opportunities as a consequence.
