Directory of Web Sites Graham Bennett,1999 Overloaded with the mass of information on the Internet? Frustrated by how difficult it is to find what you really want? Now you don't need to spend hours browsing around the Internet or grappling with the huge number of hits from an Internet search engine: the Directory of Web Sites will take you straight to the best educational sites on the Internet. From archaeology to zoology, from dance to technology, the Directory provides information more than 5,500 carefully selected Web sites that represent the best of what the Internet has to offer. The sites are grouped by subject; each one features a full description; and the text is complemented throughout by screenshots and fact boxes. As well, sites have been selected purely on educational merit: all sites with overtly commercial content and influence from Internet providers have been excluded.

The Quest for Plausible Christian Discourse in a World of Pluralities Younhee Kim,2008 This book critically examines David Tracy's well-known methodology of fundamental theology, namely his revisionist model as developed in his *Blessed Rage for Order* (1975), together with his methodological shifts through the 1980s, 1990s and early 2000s. It explores how successful he has been in constructing a methodology for the public theological discourse that he deems so necessary. More particularly, this book asks how serviceable this methodology is for articulating Christian discourse in an intelligible and public way in the contemporary context of religious plurality.

The Last Word on Power Tracy Goss,2010-07-01 How leaders can achieve something meaningful—transform a brand, a workplace, a technology, themselves—beyond holding an influential position. Do you want to do work that is worthy of your time and talent? Do you want to make your mark on your industry, company, or within your community? Are you satisfied with the fact that reengineering, quality improvements, and other changes never really make a lasting impact? Then you need to go beyond the techniques of improvement and learn the skills that it takes to be extraordinary. The power to be extraordinary is not one we are born with. Rather, it is a power that one can learn, and Tracy Goss helps executives realize this power. Here in this book for the first time, Goss makes her coursework available to the general reader. Goss's unique methodology shows how you how you can "put at risk the success you've become for the power of making the impossible happen." She positions executives to take on the future that they dream about. She teaches how to behave differently so that you are free of past constraints. She shows how you can be at home in the environment in which you are constantly surrounded by threats, and how to transcend the ordinary to make the impossible happen. Her work has resulted in many important life changes and organizational reinventions worldwide. "Goss offers powerful information, far above the glib self-help mush that already lines the shelves. She answers the fundamental question of why management fads do not work: the personal work has not yet been done." —Library Journal

The Continuing Relevance of Wesleyan Theology Nathan Crawford, 2011-06-01 What does the Wesleyan message have to say to the greater theological world? This is a question that Laurence Wood has taken up as his concern throughout his career. In order to honor his work, this collection takes up this question through a series of essays designed to show how Wesleyan Theology, while distinctive, has a continued relevance to the wider world of theological scholarship. This collection does this in two ways. First, by showing how the Wesleyan distinctives have been present throughout the history of theology. And secondly, the collection brings the Wesleyan distinctives into conversation with various contemporary theological conversations, ranging from theological hermeneutics and the science-religion dialogue to the practice of preaching and spirituality. The result is a volume that puts Wesleyan theology into continued dialogue with the broader theological world, showing its vitality and importance for the contemporary situation.

Contested Spaces, Common Ground, 2016-10-11 Space is contested in contemporary multireligious societies. This volume looks at space as a critical theory and epistemological tool within cultural studies that fosters the analysis of power structures and the deconstruction of representations of identities within our societies that are shaped by power.

The Making of American Liberal Theology Gary J. Dorrien, 2006-01-01 In this first of three volumes, Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider, longer-running tradition than has been thought. The tradition took shape in the nineteenth century, motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism/atheism. It is defined by its openness to modern intellectual inquiry; its commitment to the authority of individual reason and experience; its conception of Christianity as an ethical way of life; and its commitment to make Christianity credible and socially relevant to modern people. Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time, including William E. Channing, Ralph Waldo Emerson, Horace Bushnell, Henry Ward Beecher, Elizabeth Cady Stanton, and Charles Briggs. Dorrien notes that, although liberal theology moved into elite academic institutions, its conceptual foundations were laid in the pulpit rather than the classroom.

Theology as Improvisation Nathan Crawford, 2013-02-15 In *Theology as Improvisation*, Nathan Crawford reimagines the possibilities for how theology thinks God within a postmodern world. By engaging a number of thinkers in conversation, he navigates the nature of thinking God in a postmodern world.

Cross Narratives Neal J. Anthony, 2010-06-01 Luther's radical interpretation of the two natures of Christ, and specifically its expression through the ubiquitous presence of the humanity of Christ, is a fundamental, integral expression of that same theology. This expression of Luther's theology of the cross, Anthony asserts, provides both a fuller elaboration and an important and creative corrective with reference to recent signal expressions of the theology of the cross. As contemporary theologians of the cross have articulated (most notably Douglas John Hall and the late Alan E. Lewis), the theology of the cross, through a transformation of the divine attributes that honors the integrity of created beings, is preeminently a theology of

redemption from within (within-redemption). In the process of outlining and analyzing these theologies of within-redemption, Anthony exposes an impasse created by these theologies regarding the relationship of within-redemption to individual human narratives. It is through Luther's radical interpretation of the two natures of Christ, Anthony contends, that complete within-redemption can be expressed. Anthony also evaluates the Christology of Karl Barth from the perspective of his findings. Not only is Anthony's work an innovative and fresh application of Luther's Christology for contemporary discussions of the theology of the cross, but it places Luther's Christology at the cutting edge of contemporary discussions regarding the theology of the cross and its within-redemption.

Prayer as Memory David L. Reinhart, 2012-10-23 What would a comparative study of prayer look like? If the human impulse is to survive by thinking and acting religiously, Reinhart says religion is born on the day prayer first finds breath. He discusses prayer as a discourse since that first day that is speech out of brokenness or suffering is expressed in the hope of something more. Through his engagement with theorists of language and memory (Habermas, Derrida, Metz, Ricoeur, and others), Reinhart develops a framework that sustains an innovative approach to apocalyptic thought that also lays the foundation for a new field: the comparative study of prayer.

Longing in a Culture of Cynicism Stephan van Erp, Lea Verstricht, 2008 Through current expressions of religion, people are confronted with all kinds of longings and desires which have no place in a rationalised and alienated culture. At the same time, these longings are seeking and finding opportunities for expression. How to understand this cultural ambiguity? The authors in this volume explore the possibilities of a rationality beyond rationalism, reflecting beyond the borders of human imagination on the hidden God.

Anna of Byzantium Tracy Barrett, 2011-04-13 For fans of Joan of Arc and Alexander the Great, comes a gripping saga of alliances, intrigues, deceits, and treacheries about Anna Comnena of the Byzantine Empire. Anna Comnena has every reason to feel entitled. She's a princess, her father's firstborn and his chosen successor. Someday she expects to sit on the throne and rule the vast Byzantine Empire. So the birth of a baby brother doesn't perturb her. Nor do the barbarians from foreign lands, who think only a son should ascend to power. Anna is as dismissive of them as are her father and his most trusted adviser--his mother, a manipulative woman with whom Anna studies the art of diplomacy. Anna relishes her lessons, proving adept at checkmating opponents in swift moves of mental chess. But as she matures into a young woman, her arrogance and intelligence threaten her grandmother. Anna will be no one's puppet. Almost overnight, Anna sees her dreams of power wrenched from her and bestowed on her little brother. Bitter at the betrayal, Anna waits to avenge herself, and to seize what is rightfully hers. Praise for Anna of Byzantium: A Bulletin Blue

A Government of Wolves John W. Whitehead,2013-06 “A NATION OF SHEEP WILL BEGET A GOVERNMENT OF WOLVES”—EDWARD R. MURROW America is fast moving into a state of lockdown. Surveillance cameras, drug-sniffing dogs, SWAT team raids, roadside strip searches, blood draws at DUI checkpoints, mosquito drones, tasers, privatized prisons, GPS tracking devices, zero tolerance policies, overcriminalization, free speech zones—these are all symptoms of the emerging police state in America. A GOVERNMENT OF WOLVES paints a chilling portrait of a nation in the final stages of transformation into outright authoritarianism, whose citizens have become little more than a nation of suspects to be cowed, corralled, and controlled. Pulling from his extensive knowledge of constitutional law, history, and futuristic films, John W. Whitehead helps readers navigate this treacherous terrain and provides them with a blueprint for hopefully finding their way back to freedom.
