Militant Groups in South Asia Surinder Kumar Sharma,Anshuman Behera,2014 Profiles important militant groups presently active in South Asian countries. The information related to these militant groups has been culled from open sources and due care has been taken to check the facts for consistency and reliability. The threat perception from each group is covered in detail.

Transportation and Power Grid in Smart Cities Hussein T. Mouftah,Melike Erol-Kantarci,Mubashir Husain Rehmani,2018-11-28 With the increasing worldwide trend in population migration into urban centers, we are beginning to see the emergence of the kinds of mega-cities which were once the stuff of science fiction. It is clear to most urban planners and developers that accommodating the needs of the tens of millions of inhabitants of those megalopolises in an orderly and uninterrupted manner will require the seamless integration of and real-time monitoring and response services for public utilities and transportation systems. Part speculative look into the future of the world's urban centers, part technical blueprint, this visionary book helps lay the groundwork for the communication networks and services on which tomorrow's "smart cities" will run. Written by a uniquely well-qualified author team, this book provides detailed insights into the technical requirements for the wireless sensor and actuator networks required to make smart cities a reality.

Pakistan's Nuclear Future Worries Beyond War ,2021

Shooting for a Century Stephen P. Cohen,2013 The India-Pakistan rivalry is one of the five percent of international conflicts that has been labeled as intractable. Cohen draws on his varied experiences in South Asia as he develops a comprehensive theory of why the dispute is intractable and suggests ways in which it may be ameliorated.

The Army and Democracy Aqil Shah,2014-04-21 In sharp contrast to neighboring India, the Muslim nation of Pakistan has been ruled by its military for over three decades. The Army and Democracy identifies steps for reforming Pakistan's armed forces and reducing its interference in politics, and sees lessons for fragile democracies striving to bring the military under civilian control.

The Shias of Pakistan Andreas Rieck,2015 Historical background -- Shias and the Pakistan movement -- Shias in Pakistan until 1958 -- The Ayub Khan era, 1958-1968 -- The Yahya Khan and Bhutto era, 1969-1977 -- The Zia-ul-Haq era, 1977-1988 -- The interim democratic decade, 1988-1999 -- The Musharraf and Zardari eras, 2000-2013.

Pakistan at the Crossroads Christophe Jaffrelot,2016-04-12 In Pakistan at the Crossroads, top international scholars assess Pakistan's politics and economics and the challenges faced by its civil and military leaders domestically and diplomatically. Contributors examine the state's handling of internal threats, tensions between civilians and the military, strategies of political parties, police and law enforcement reform, trends in judicial activism, the rise of border conflicts, economic challenges, financial entanglements with foreign powers, and diplomatic relations with India, China, Iran, Saudi Arabia, Afghanistan, and the United States. In addition to ethnic strife in Baluchistan and Karachi, terrorist violence in Pakistan in response to the American-led military intervention in Afghanistan and in the Federally Administered Tribal Areas by means of drones, as well as to Pakistani army operations in the Pashtun area, has reached an unprecedented level. There is a growing consensus among state leaders that the nation's main security threats may come not from India but from its spiraling internal conflicts, though this realization may not sufficiently dissuade the Pakistani army from targeting the country's largest neighbor. This volume is therefore critical to grasping the sophisticated interplay of internal and external forces complicating the country's recent trajectory.

Pakistan Occupied Kashmir Surinder Kumar Sharma,Yaqboo ul Hassan,Ashok K. Behuria,2019 This book is a result of research undertaken on the subject by the scholars associated with the IDSA project on Pakistan Occupied Kashmir (PoK) - also known as Pakistan Occupied Jammu and Kashmir (PoJK) - which includes both the so-called Azad Jammu and Kashmir (AJK) and Gilgit-Baltistan (GB). This was legally a part of the erstwhile princely state of Jammu and Kashmir, which acceded to India in October 1947. The authors of this book seek to provide a critical analysis of the politics of the above mentioned two regions within PoK; throw light on the genesis and evolution of various political parties and interest groups, and acquaint the readers with different personalities playing important role in politics therein. The main aim of the publication is to help the scholars, analysts, and policy-makers to understand the dynamics of the political systems in PoK, the complex interaction of these systems with the government in Islamabad and the responses of the local leadership to Pakistan's strategy of keeping them under strict control in the name of representative governance over the last 70 years.

Therapeutic Applications of Honey and its Phytochemicals Muneeb U. Rehman,Sabhiya Majid,2020-12-21 Honey typically has a complex chemical and biochemical composition that invariably includes complex sugars, specific proteins, amino acids, phenols, vitamins, and rare minerals. It is reported to be beneficial in the treatment of various diseases, such as those affecting the respiratory, cardiovascular, gastrointestinal, and nervous systems, as well as diabetes mellitus and certain types of cancers; however, there is limited literature describing the use of honey in modern medicine. This book provides evidence-based information on the pharmaceutical potential of honey along with its therapeutic applications and precise mechanisms of action. It discusses in detail the phytochemistry and pharmacological properties of honey, highlighting the economic and culturally significant medicinal uses of honey and comprehensively reviewing the scientific research on the traditional uses, chemical composition, scientific validation, and general pharmacognostical characteristics. Given its scope, it is a valuable tool for researchers and scientists interested in drug discovery and the chemistry and pharmacology of honey.

Pakistan Tilak Devasher,2016-12-10 Recent writings on Pakistan have tended to focus on the role of the Pakistan Army, the nuclear programme, terrorism, Pak-Afghan and Pak-US relations and, of course, Indo-Pak relations. Pakistan: Courting the Abyss goes beyond sensationalist headlines and current crises like terrorism and tensions with India, to the deeper malaise that afflicts the nation. The book examines issues like identity, the looming water crisis, the perilous state of education, the economic meltdown and the danger of an unrealized 'demographic dividend' that have been eating the innards of Pakistan since its creation. It looks back at the Pakistan movement, where the seeds of many current problems were sown - the opportunistic use of religion being the most lethal of these. Pakistan: Courting the Abyss questions the flawed prescriptions and responses of successive governments, especially during military rule, to these critical challenges that have brought Pakistan to an abyss where it risks multi-organ failure, unless things change dramatically in the near future.

Power, Politics and Religion in Timurid Iran Beatrice Forbes Manz,2007-03-01 Beatrice Forbes Manz uses the history of Iran under the Timurid ruler Shahrukh (1409-1447) to analyse the relationship between government and society in the medieval Middle East. She provides a rich portrait of Iranian society over an exceptionally broad spectrum - the dynasty and its servitors, city elite and provincial rulers, and the religious classes, both ulama' and Sufi. The work addresses two issues central to pre-modern Middle Eastern history: how a government without the monopoly of force controlled a heterogeneous society, and how a society with diffuse power structures remained stable over long periods. Written for an audience of students as well as scholars, this book provides a broad analysis of political dynamics in late medieval Iran and challenges much received wisdom about civil and military power, the relationship of government to society, and the interaction of religious figures with the ruling class.

Sustainable Agricultural, Biological, and Environmental Engineering Applications Muhammad Sultan,Redmond R. Shamshiri,Yuguang Zhou,2022-01-31 Sustainable development in the agriculture sector is crucial to achieve the 2030 Sustainable Development Goals (SDGs) set by the United Nations (UN). There are lots of challenges to developing modern and intelligent agricultural techniques, tools, and systems, by which sustainable agriculture and food security can be satisfied. In addition, carbon-neutral development and clean energy utilization are also associated with the UN-SDGs. Such agricultural, biological, and environmental engineering studies are needed in the 21st century, particularly from the viewpoint of the agricultural water-energy-food security nexus. This book focuses on the recent proliferation and technological advancements in these engineering applications. This book aims to share recent updates on agricultural, biological, and environmental engineering, and the application of these engineering techniques in the agriculture sector. It presents such engineering technologies and applications in seven categories that include energy system applications in agriculture (three studies); irrigation and drainage (four studies); biomass, biogas, and biochar (three studies); farm mechanization and soil science (three studies); remote sensing and geographical studies (two studies); wastewater and biological studies (two studies); and case studies and societal aspects in agriculture (five studies). The editors believe that this book will be useful for agricultural scientists, researchers, and students.

The Internet of People for a Post-oil World Christian Nold,Rob van Kranenburg,2011 Christian Nold and Rob van Kranenburg articulate the foundations of a future manifesto for an Internet of Things in the public interest. Nold and Kranenburg propose tangible design interventions that challenge an internet dominated by commercial tools and systems, emphasizing that people from all walks of life have to be at the table when we talk about alternate possibilities for ubiquitous computing. Through horizontally scaling grass roots efforts along with establishing social standards for governments and companies to allow cooperation, Nold and Kranenberg argue for transforming the Internet of Things into an Internet of People--Publisher's Web site.

Pakistan and a World in Disorder Javid Husain,2016-05-20 This book delineates the role that Pakistan should play in the largely anarchic world of the twenty-first century in order to best serve the country's long-term national interests. Its main aim is to lay down the parameters within which Pakistan's grand strategy should be formulated, taking into account the evolving global and regional security environment and Pakistan's historical experience. Provided here is an in-depth analysis and critical evaluation of the past record of Pakistan's foreign policy within this context, bringing out its successes and failures, strengths and weaknesses. Based on these analyses, a comprehensive approach is recommended for safeguarding Pakistan's national security and promoting its prosperity utilizing a strategy that is a marked departure from the military-dominated, uni-dimensional policies the country has followed thus far. Besides providing guidelines to Pakistan's policy makers and intelligentsia, this book will be of interest to academics, foreign observers, and general readers in understanding the constraints and parameters within which Pakistan - a de facto nuclear-weapon state of 190 million people at the cross-roads of South Asia, Central Asia, and the Persian Gulf - must operate to safeguard its national interests in the turbulent times ahead.

Asian Strategic Review 2016 S. D. Muni,Vivek Chadha,2016 The emerging trends of terrorism in Asia have in the recent past challenged the conventional wisdom that dictated and defined violence by non-state actors. This, as the chapters in this volume suggest, is illustrated by its distinct characteristics, forcing the world at large to grapple with these threats, including volunteers from countries that had remained isolated from the contagion until now.

Financing the Development of Old Waqf Properties Magda Ismail Abdel Mohsin,Hisham Dafterdar,Murat Cizakca,Syed Othman Alhabshi,Shaikh Hamzah Abdul Razak,Seyed Kazem Sadr,Thamina Anwar,Mohammed Obaidullah,2016-10-21 This book presents successful case studies in Muslim and Muslim minority countries that have revolutionized the redevelopment of idle waqf properties into productive land trusts. The revival of this institution over the last two decades shows the growing optimism in galvanizing the socioeconomic role of waqf by adopting its flexible shariah measures. Innovative ways of financing redevelopment allow Muslims to extend these roles to include new beneficiaries. New uses for these properties include providing services to the community, opening jobs for the majority of people, funding small entrepreneurs, educating the masses, providing health care, and sheltering the poor and needy. Countries under study include Sudan, Turkey, Malaysia, Indonesia, Singapore, New Zealand, Kuwait, Oman, Qatar, and Iran. Additionally, the book examines the International Development Bank's role in financing the development old waqf properties in different countries.
